Terminology - Actions/Plays

Back Cut

Frame 1
Terminology

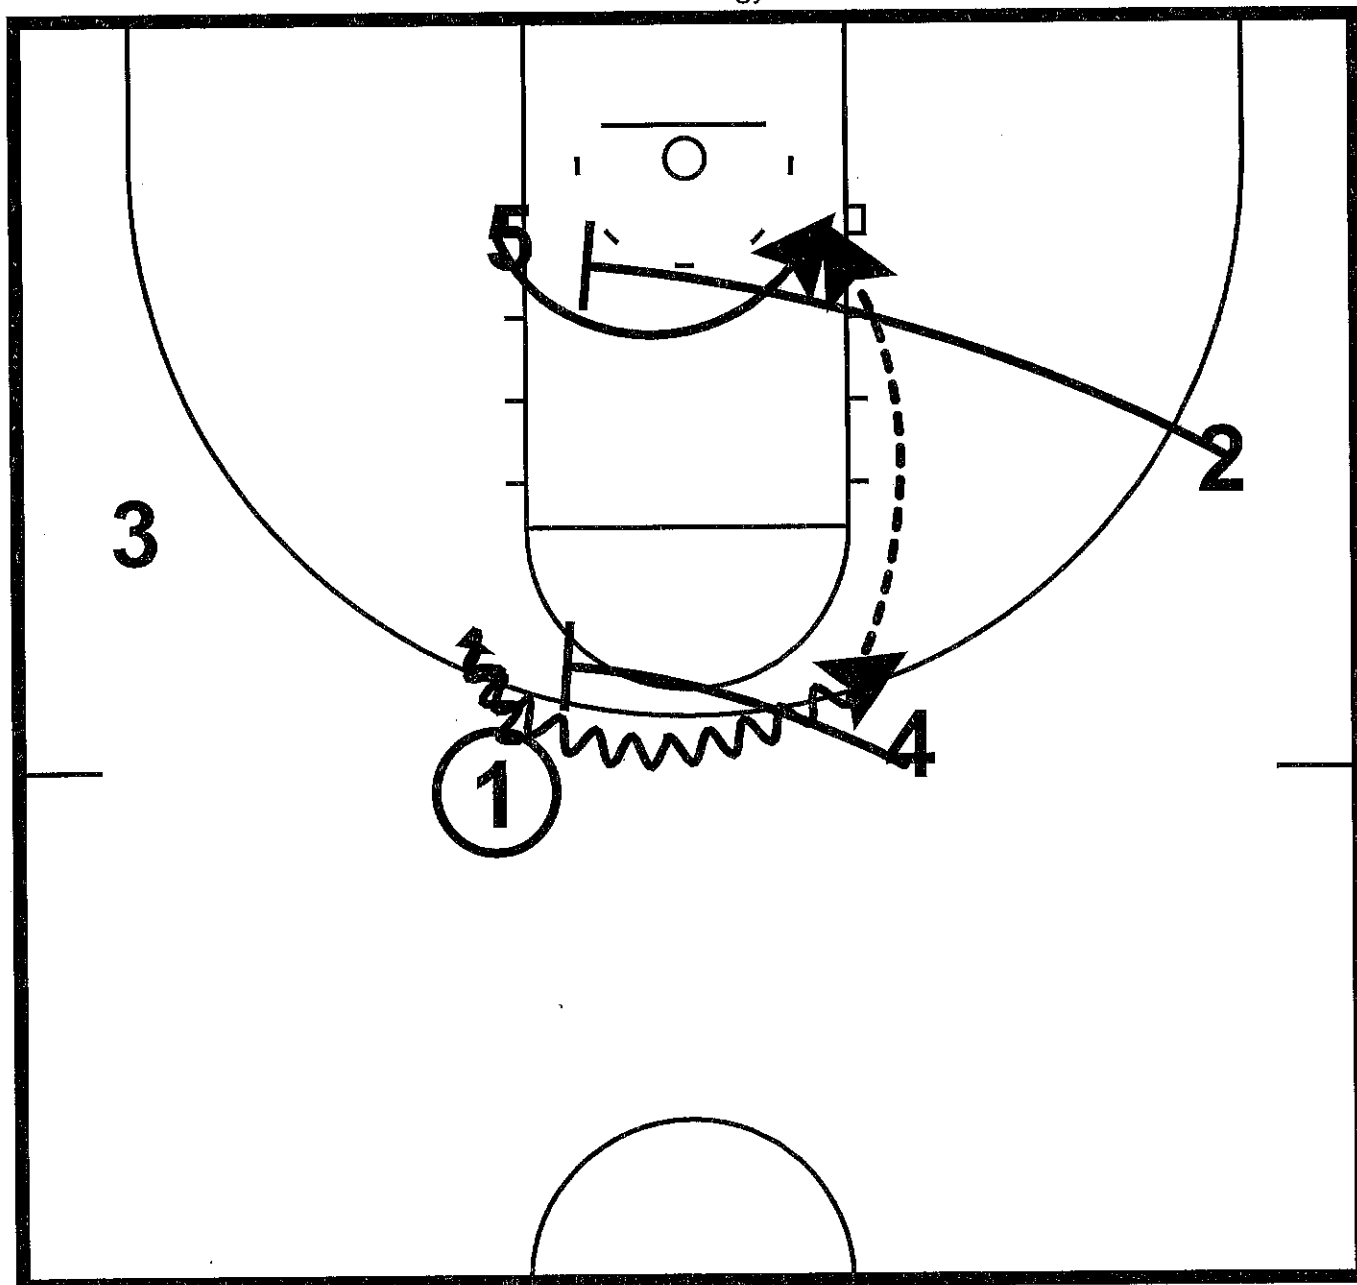

A back cut is any cut behind the defense towards the rim.

Terminology - Actions/Plays

Bulldog

Frame 1

Terminology

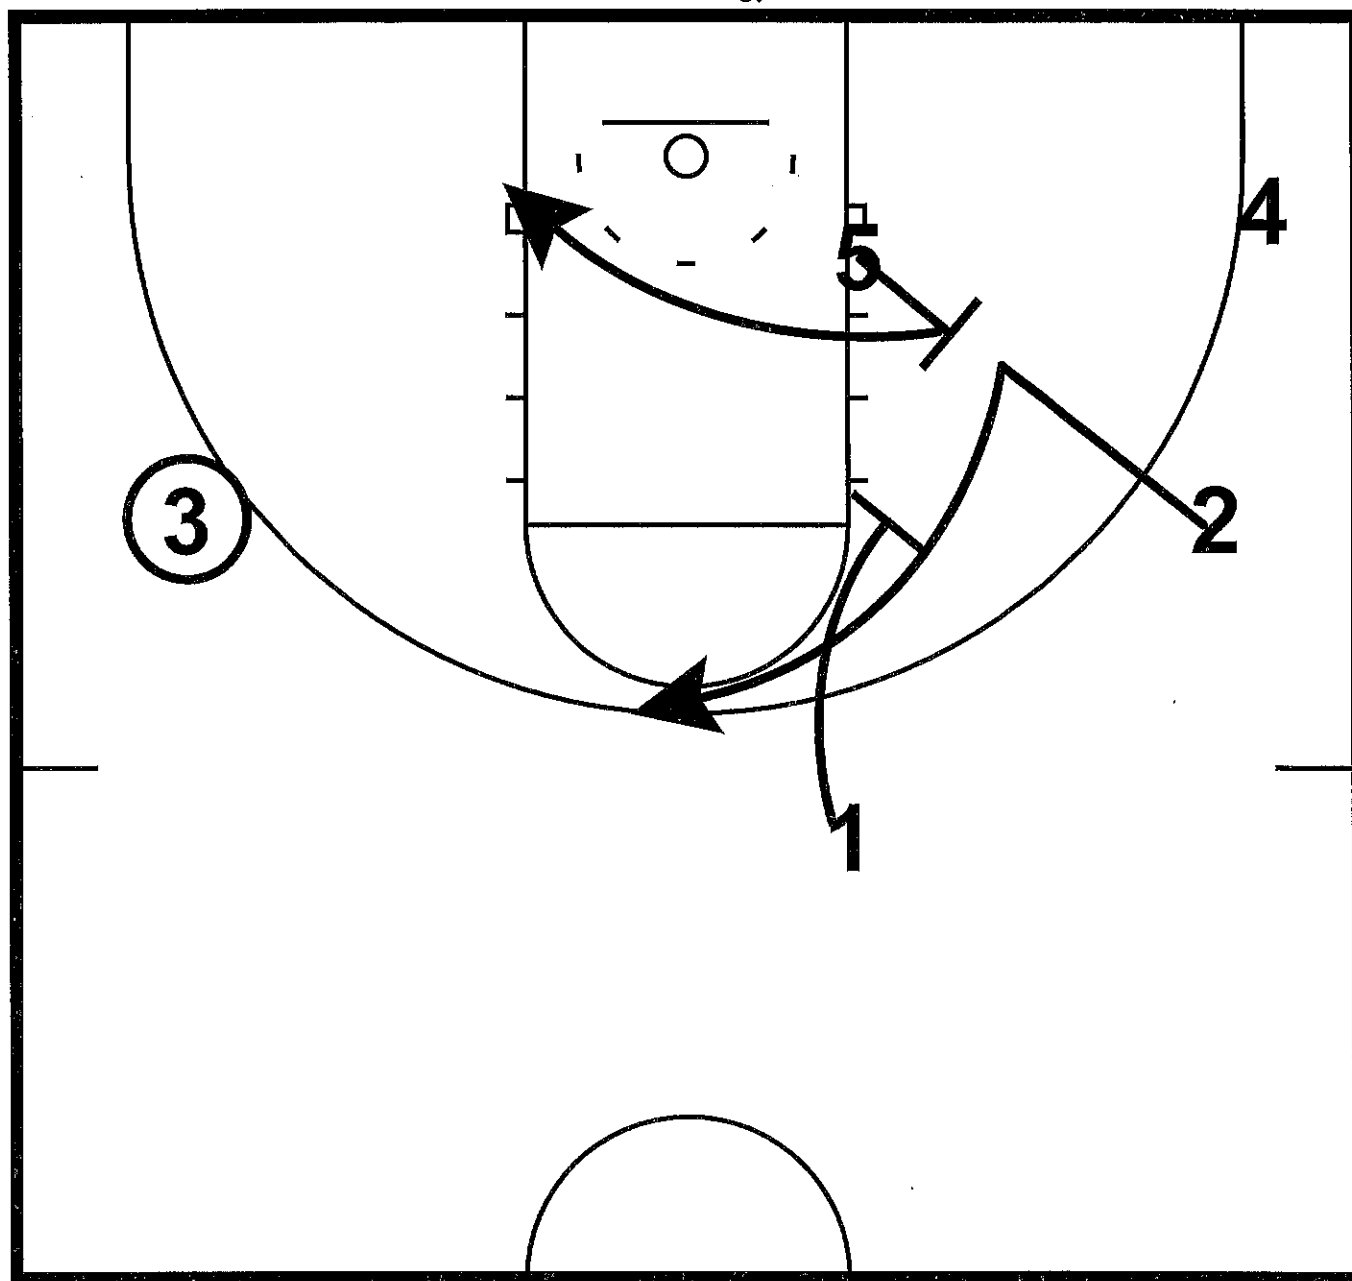

Bulldog is when a ball screen and cross screen are being set simultaneously.

Terminology - Actions/Plays

Bump

Frame 1
Terminology

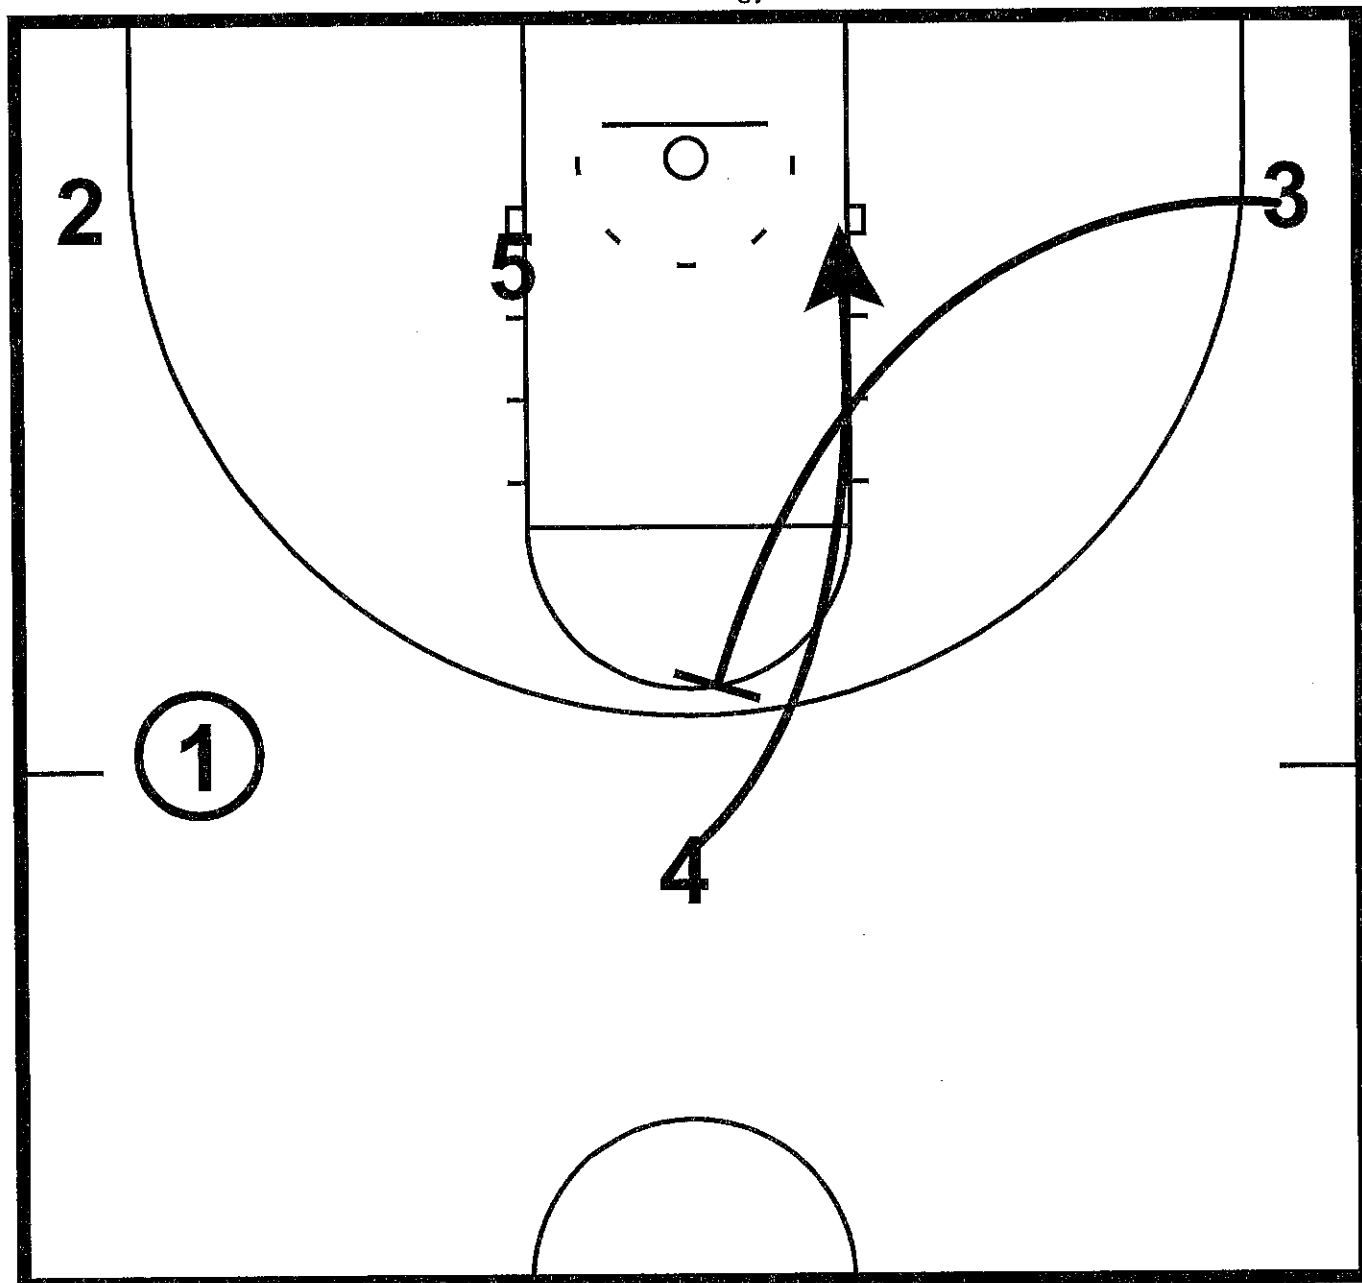

Bump is when a cutter rejects a screen sending the screener on the cut instead (5 is bumped to the post by 2).

Terminology - Actions/Plays

Carolina

Frame 1
Terminology

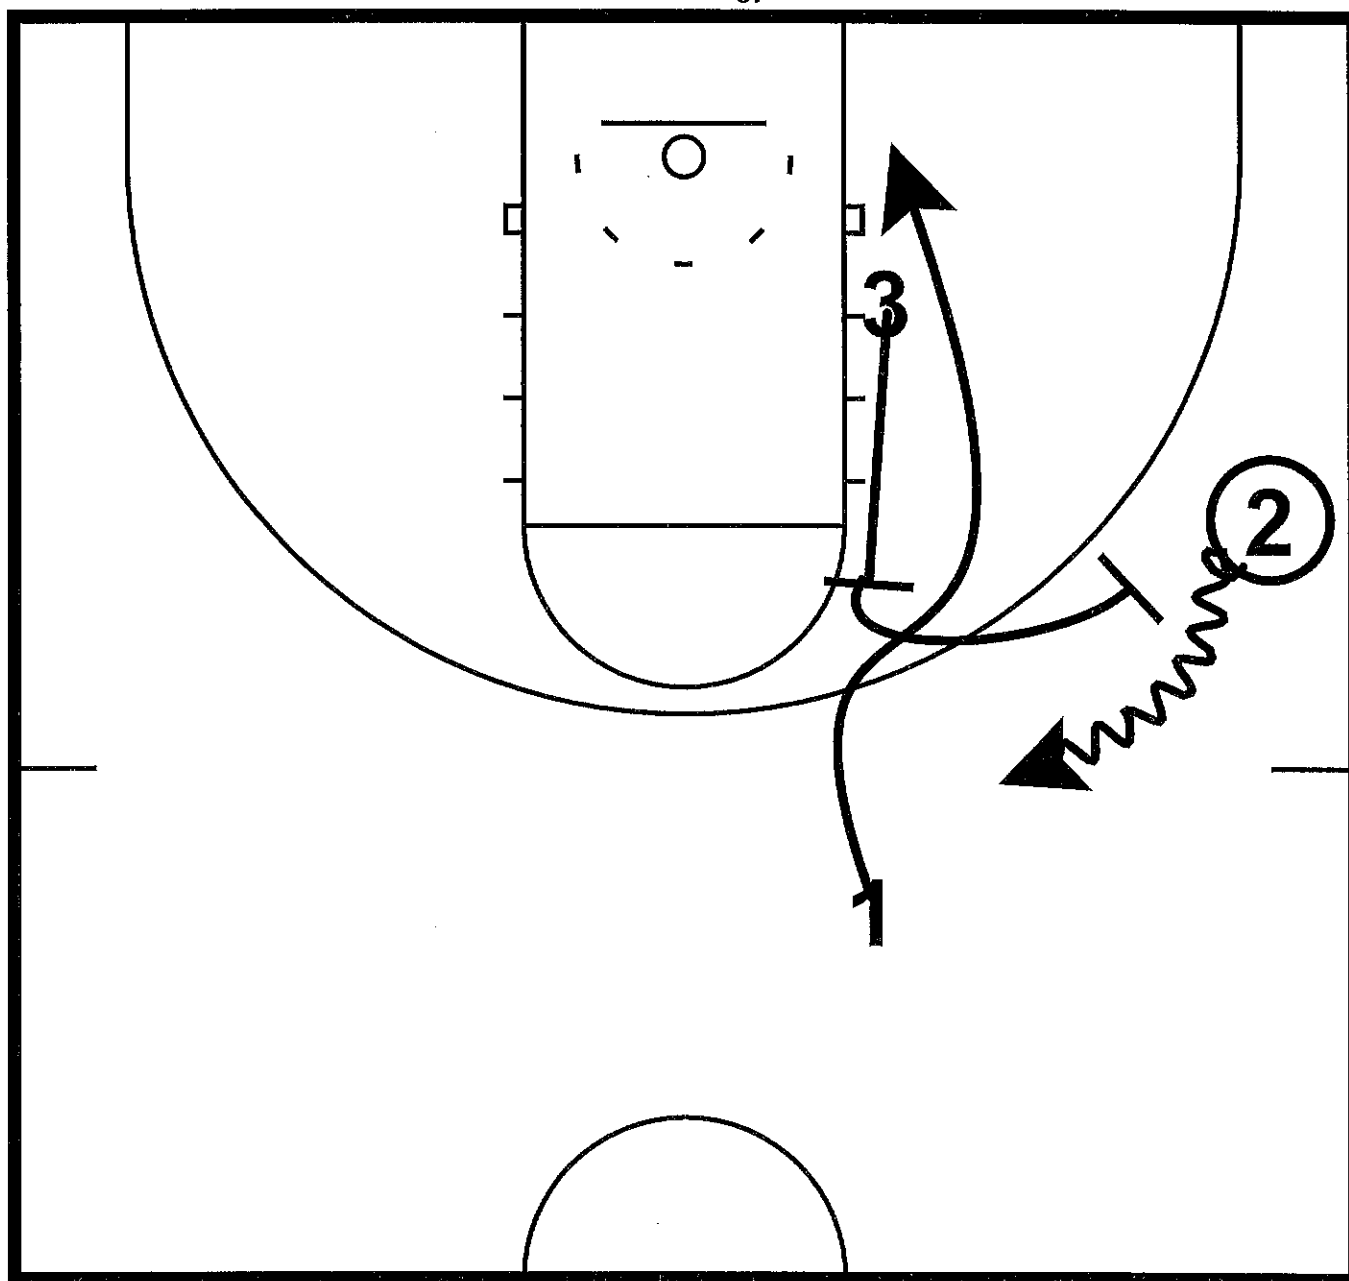

Carolina, from the Roy Williams secondary, is a back screen set from a guard on the trailing post player.

Terminology - Actions/Plays

Celtic

Frame 1
Terminology

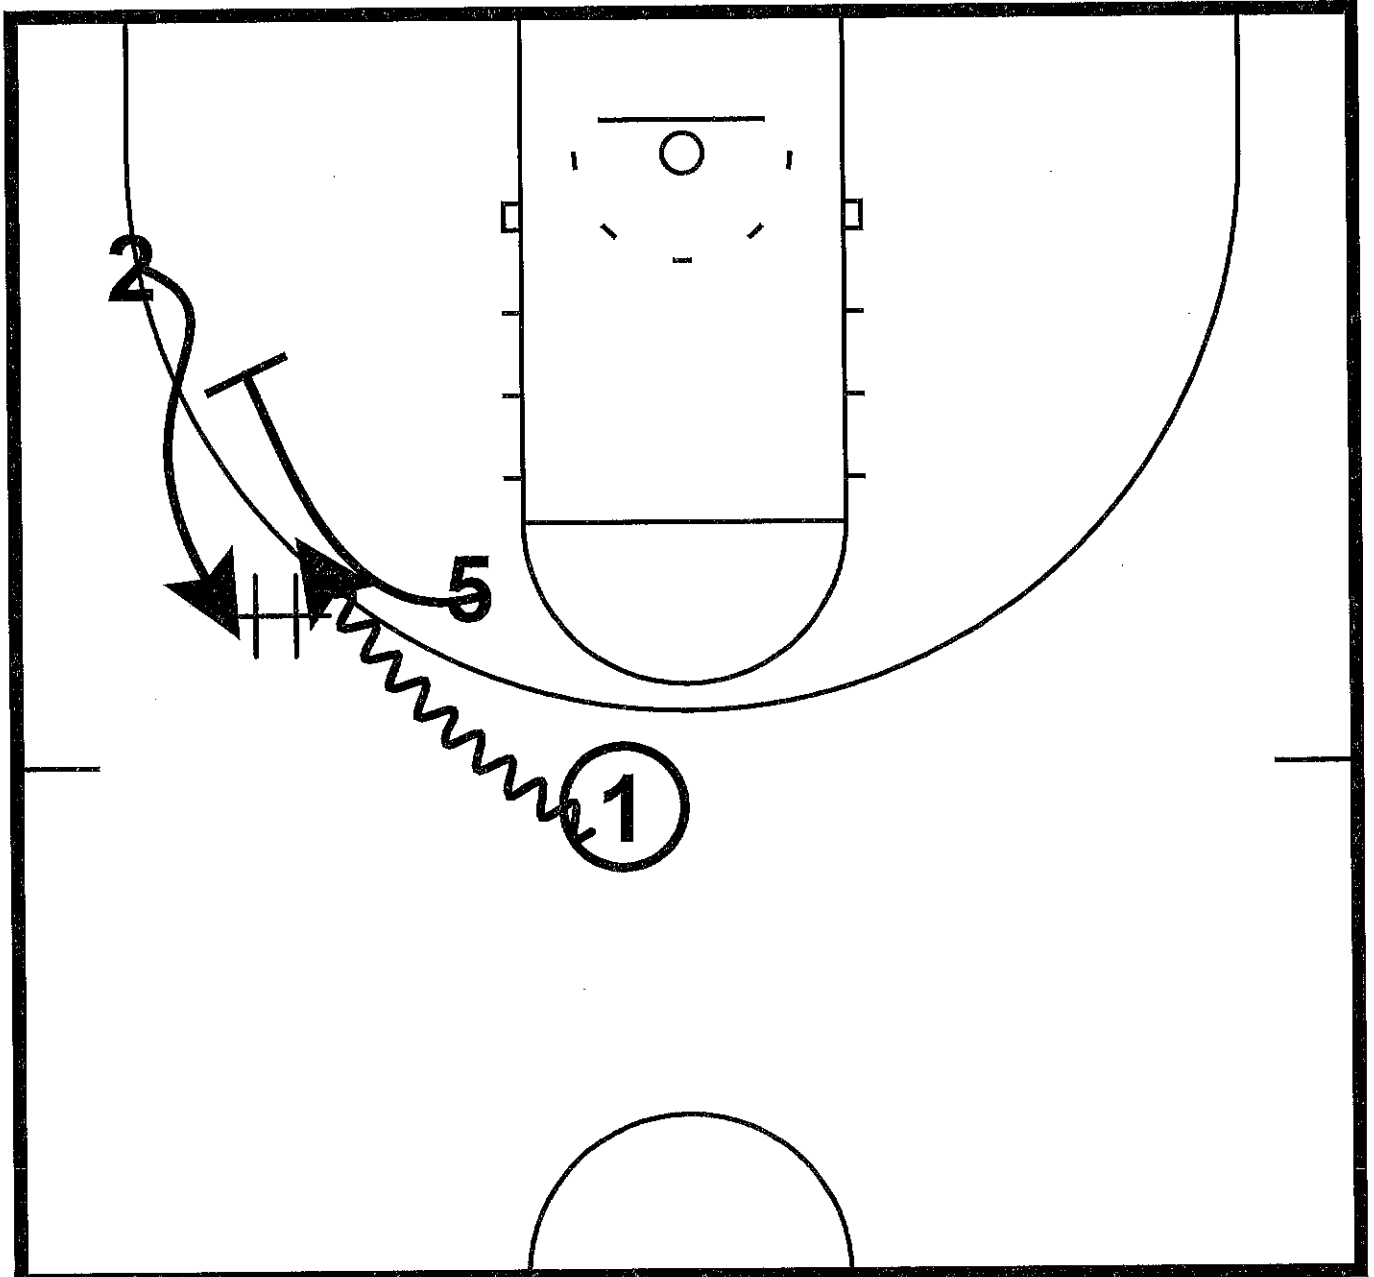

Celtic is a UCLA screen directly into a side ball screen.

Terminology - Actions/Plays

Chicago (Pin Down DHO)

Frame 1
Terminology

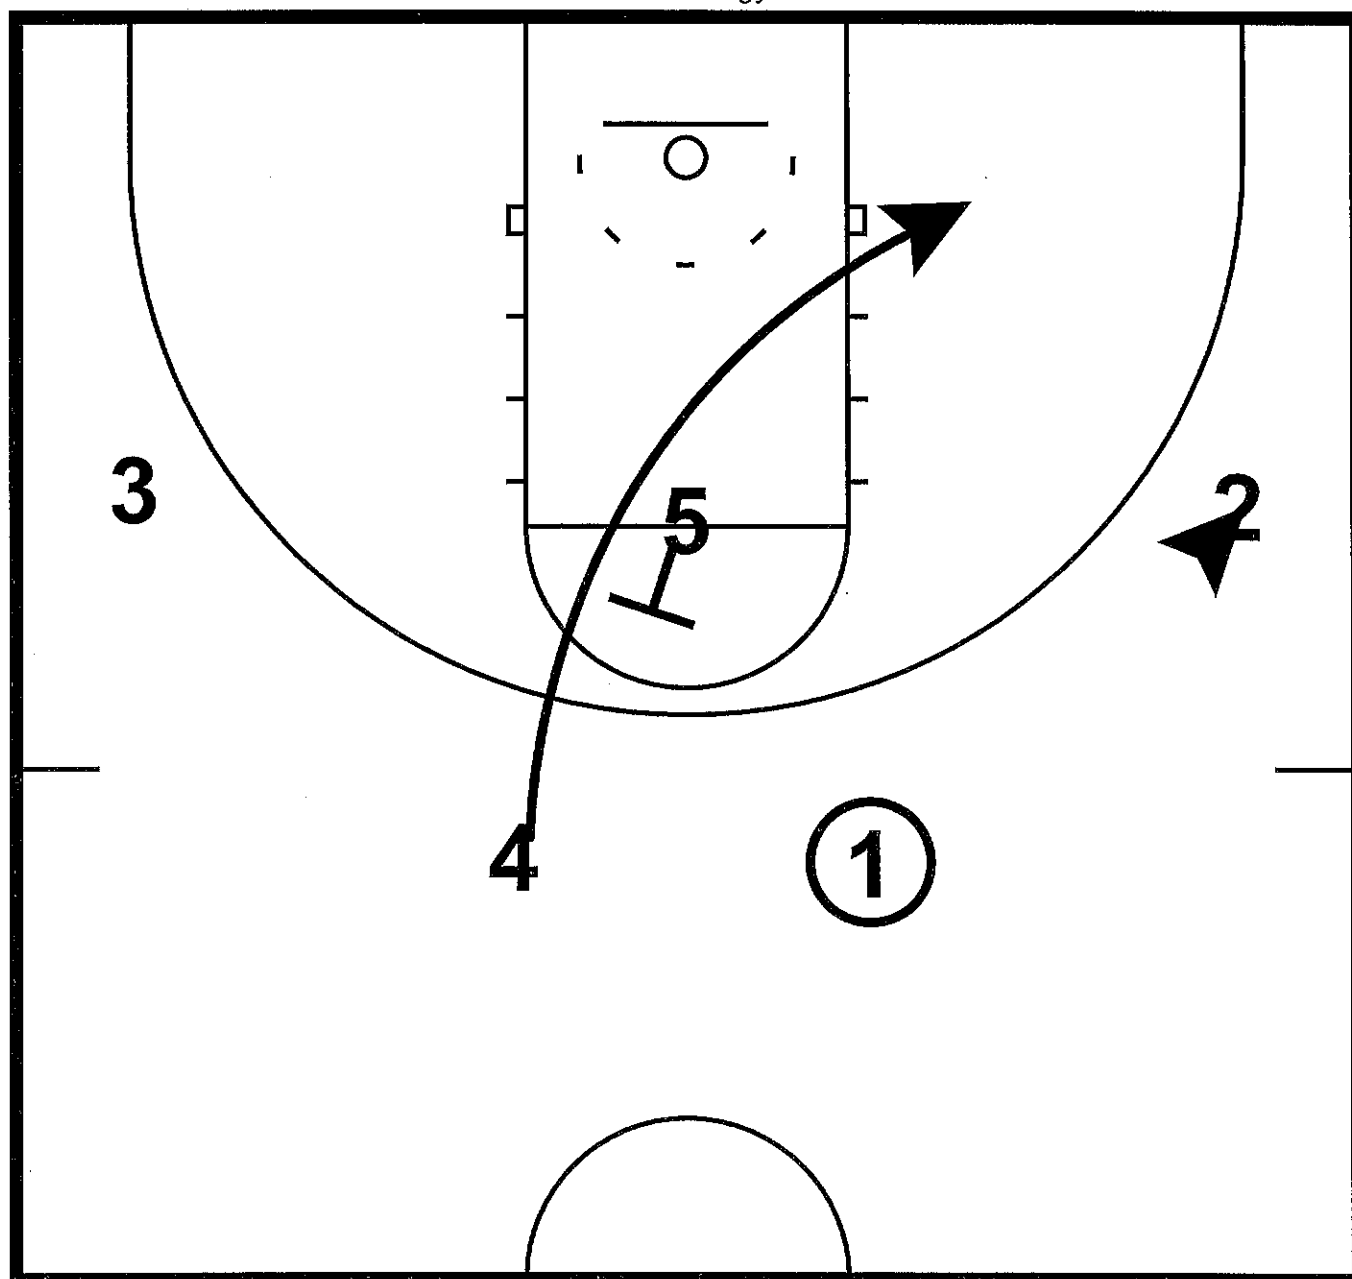

Chicago, for the Chicago Bulls, is a down screen followed by a dribble handoff.

Terminology - Actions/Plays

Chin

Frame 1

Terminology

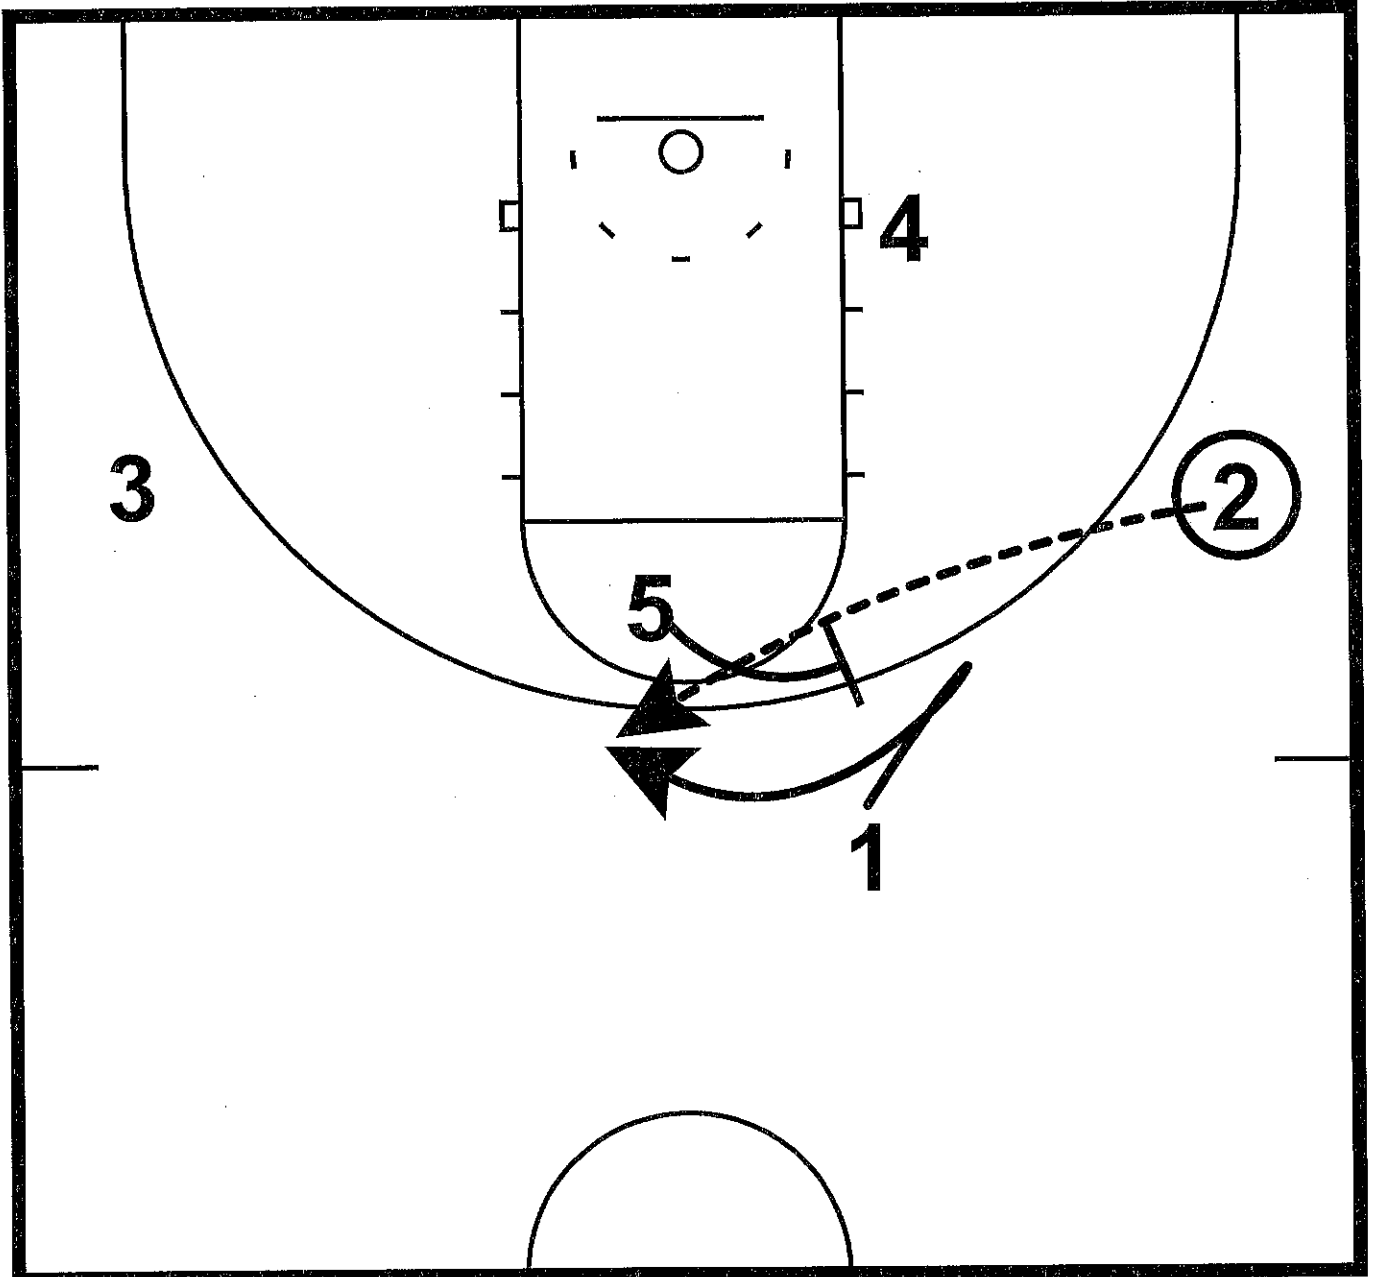

Chin is a back screen in the slot directly into a flare screen for the other slot player.

Terminology - Actions/Plays

Chin

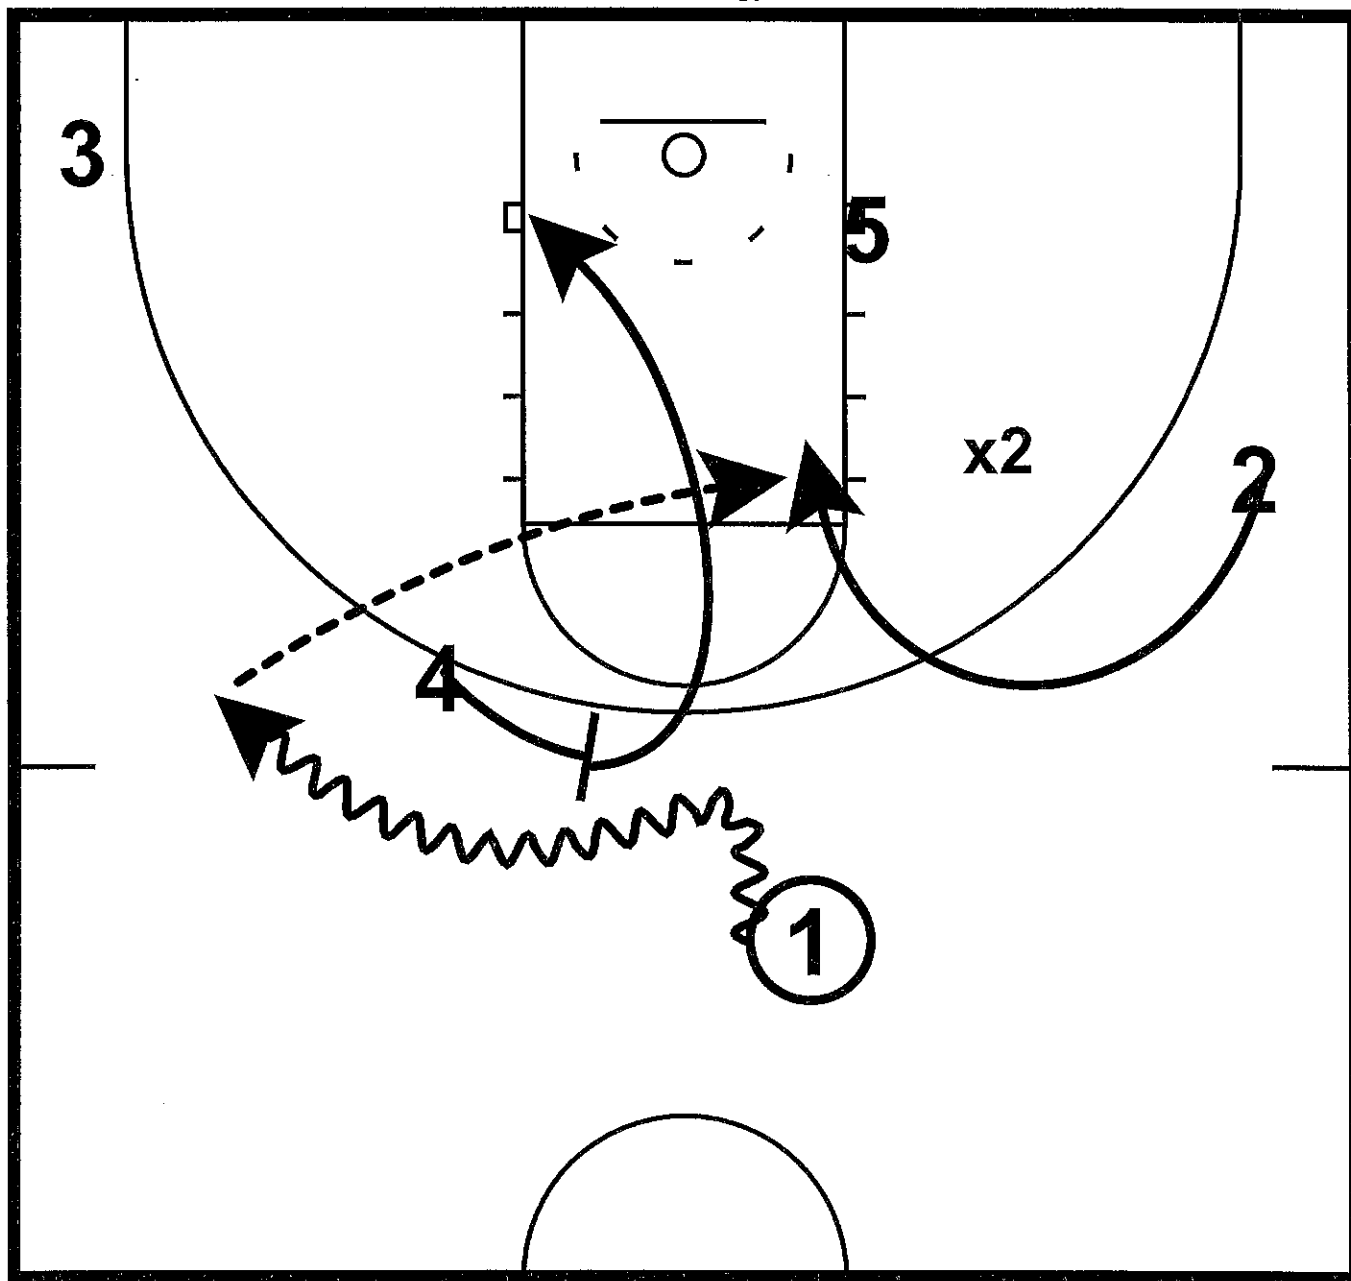

Frame 2
 Terminology

Terminology - Actions/Plays

Chop

Frame 1
Terminology

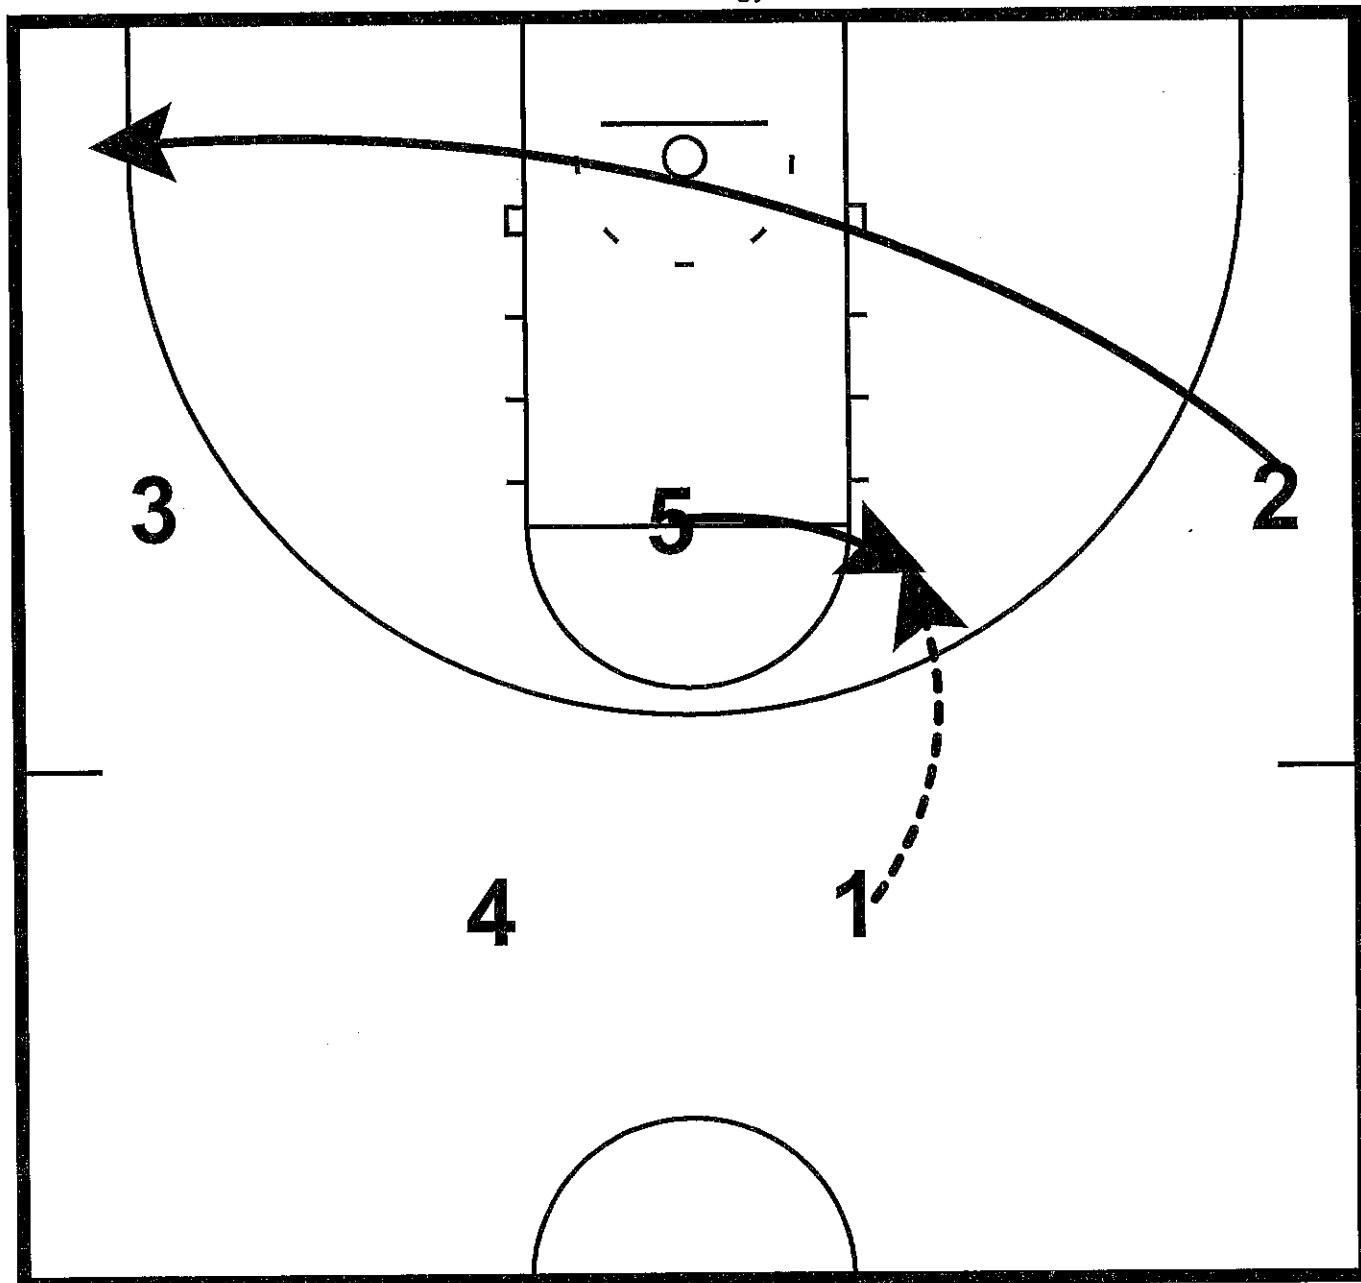

Chop is a slash or open cut into the lane directly behind a pick and roll action.

Terminology - Actions/Plays

Clear

Frame 1
Terminology

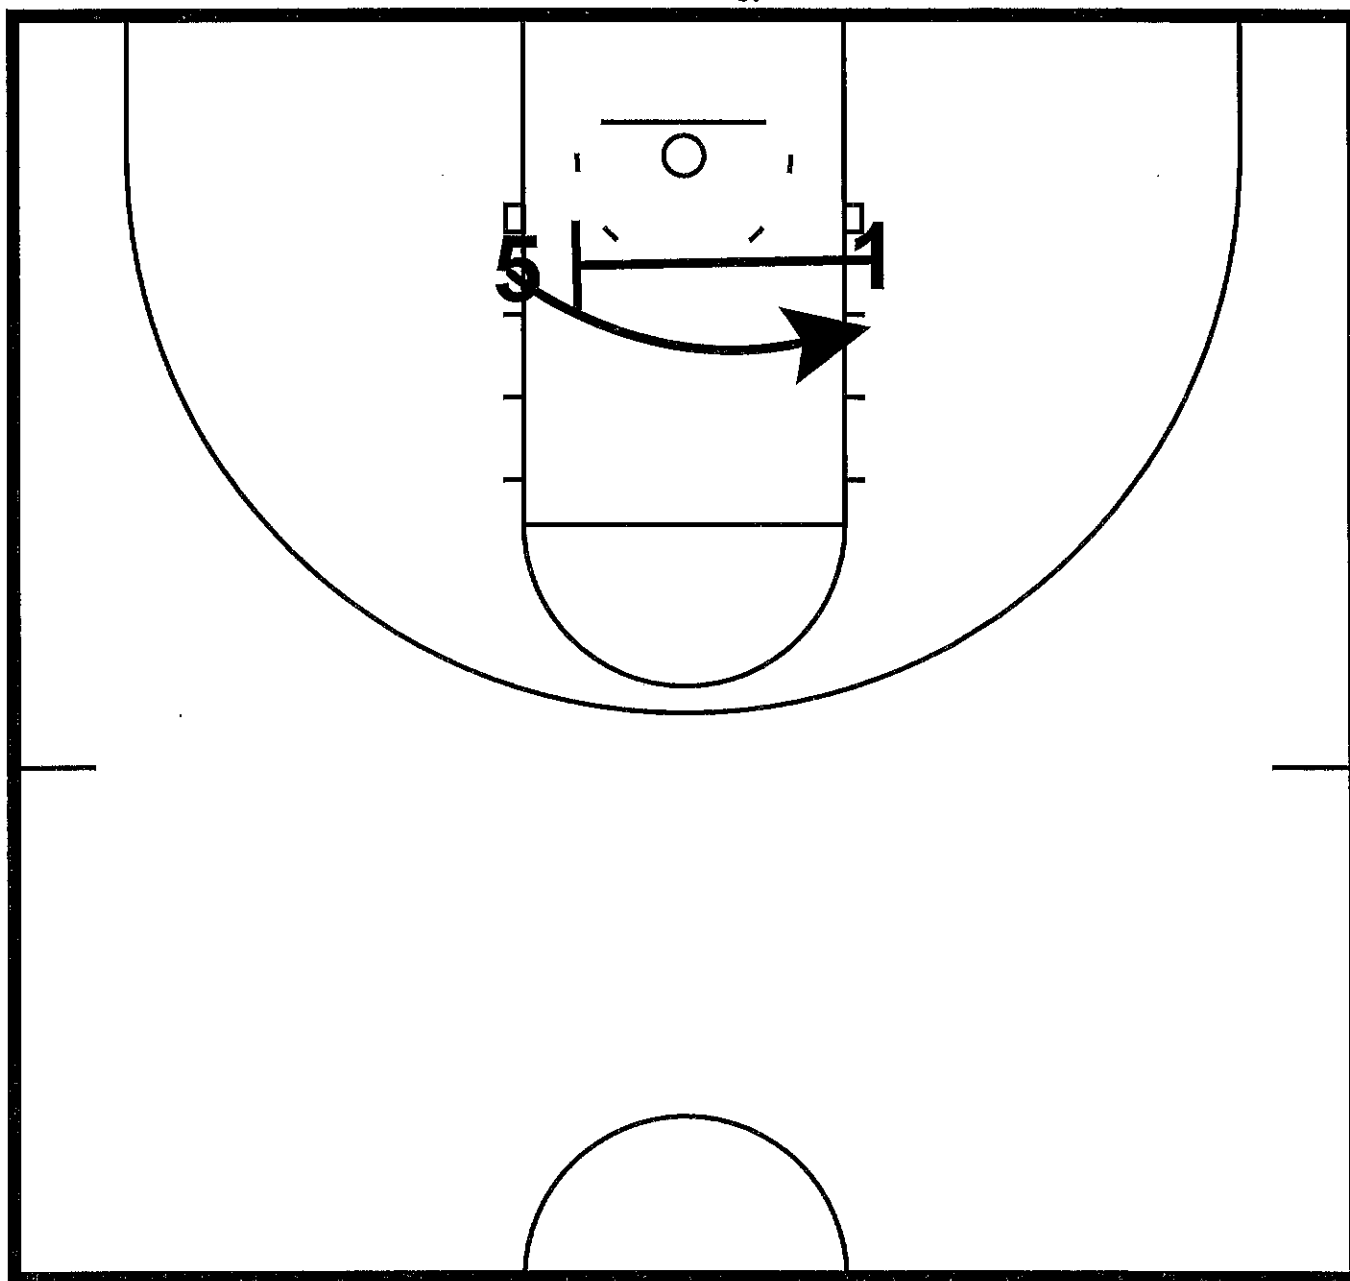

Clear is when a player moves out of any area to create space for the ballhandler.

Terminology - Actions/Plays

Cross Screen

Frame 1
 Terminology

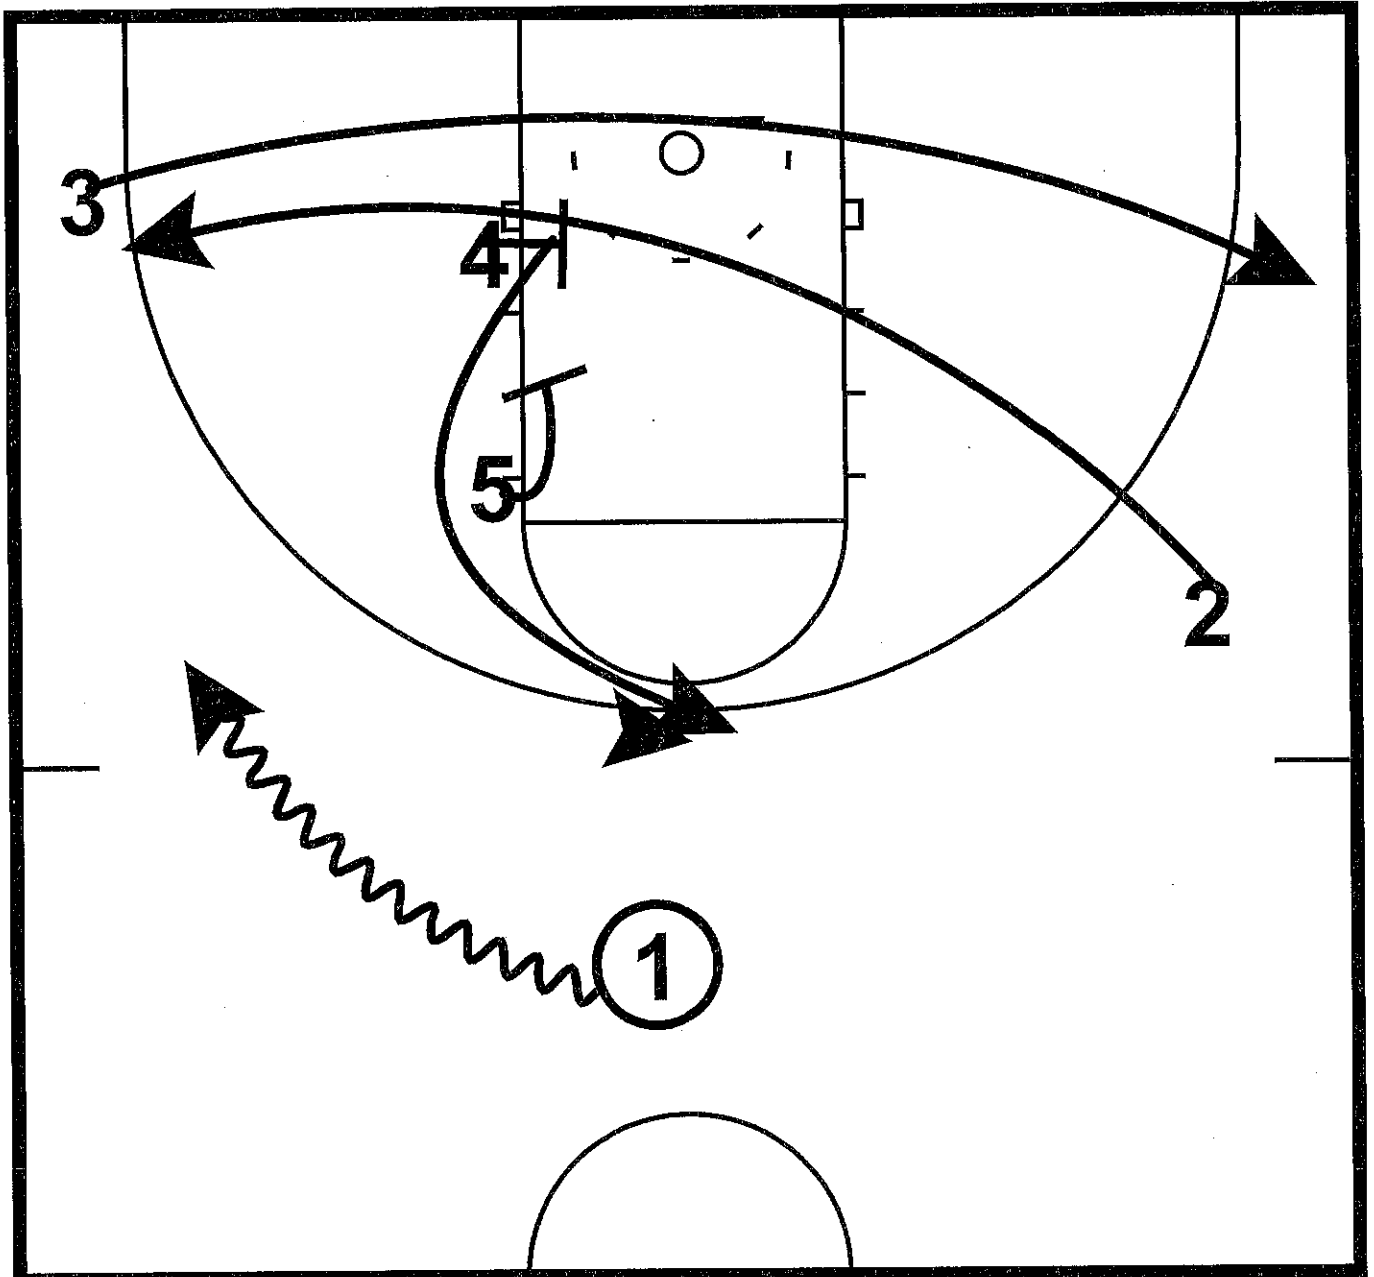

A cross screen is any screen set across the floor or lane.

Terminology - Actions/Plays

Cyclone

Frame 1
 Terminology

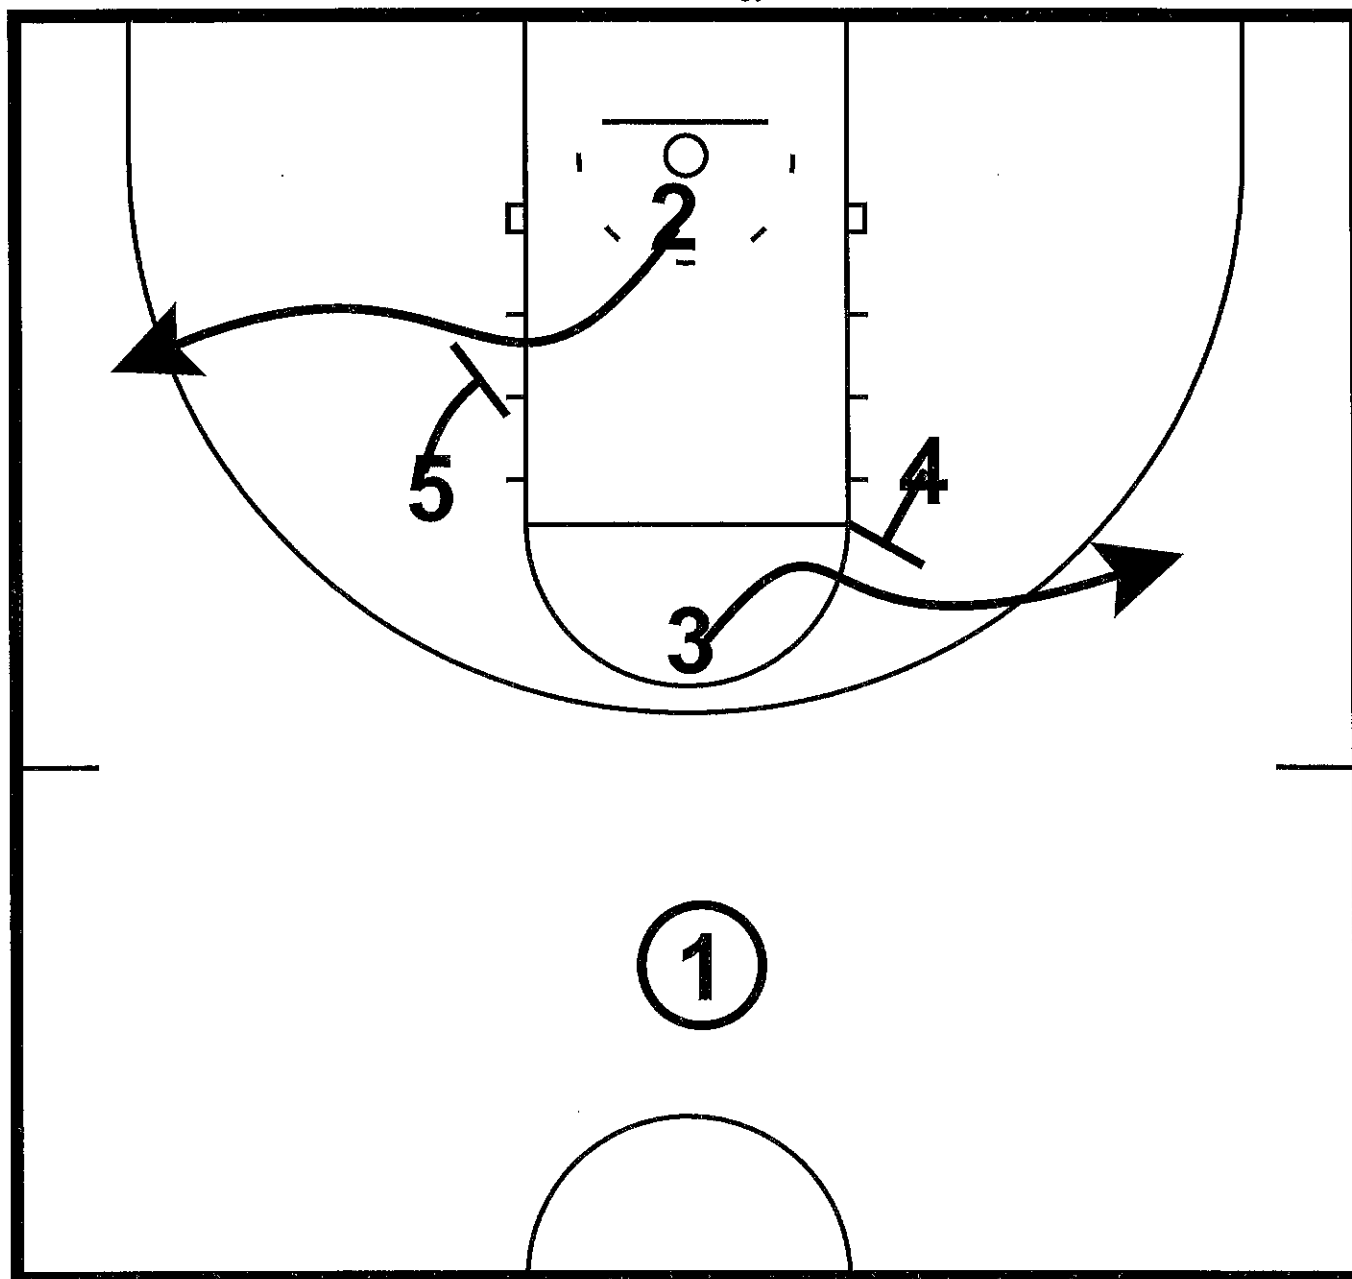

Cyclone, used by Steve Prohm at Iowa State, is a cross screen directly into a zipper screen. Prohm liked to use this action with Georges Niang.

Terminology - Actions/Plays

Diamond

Frame 1
Terminology

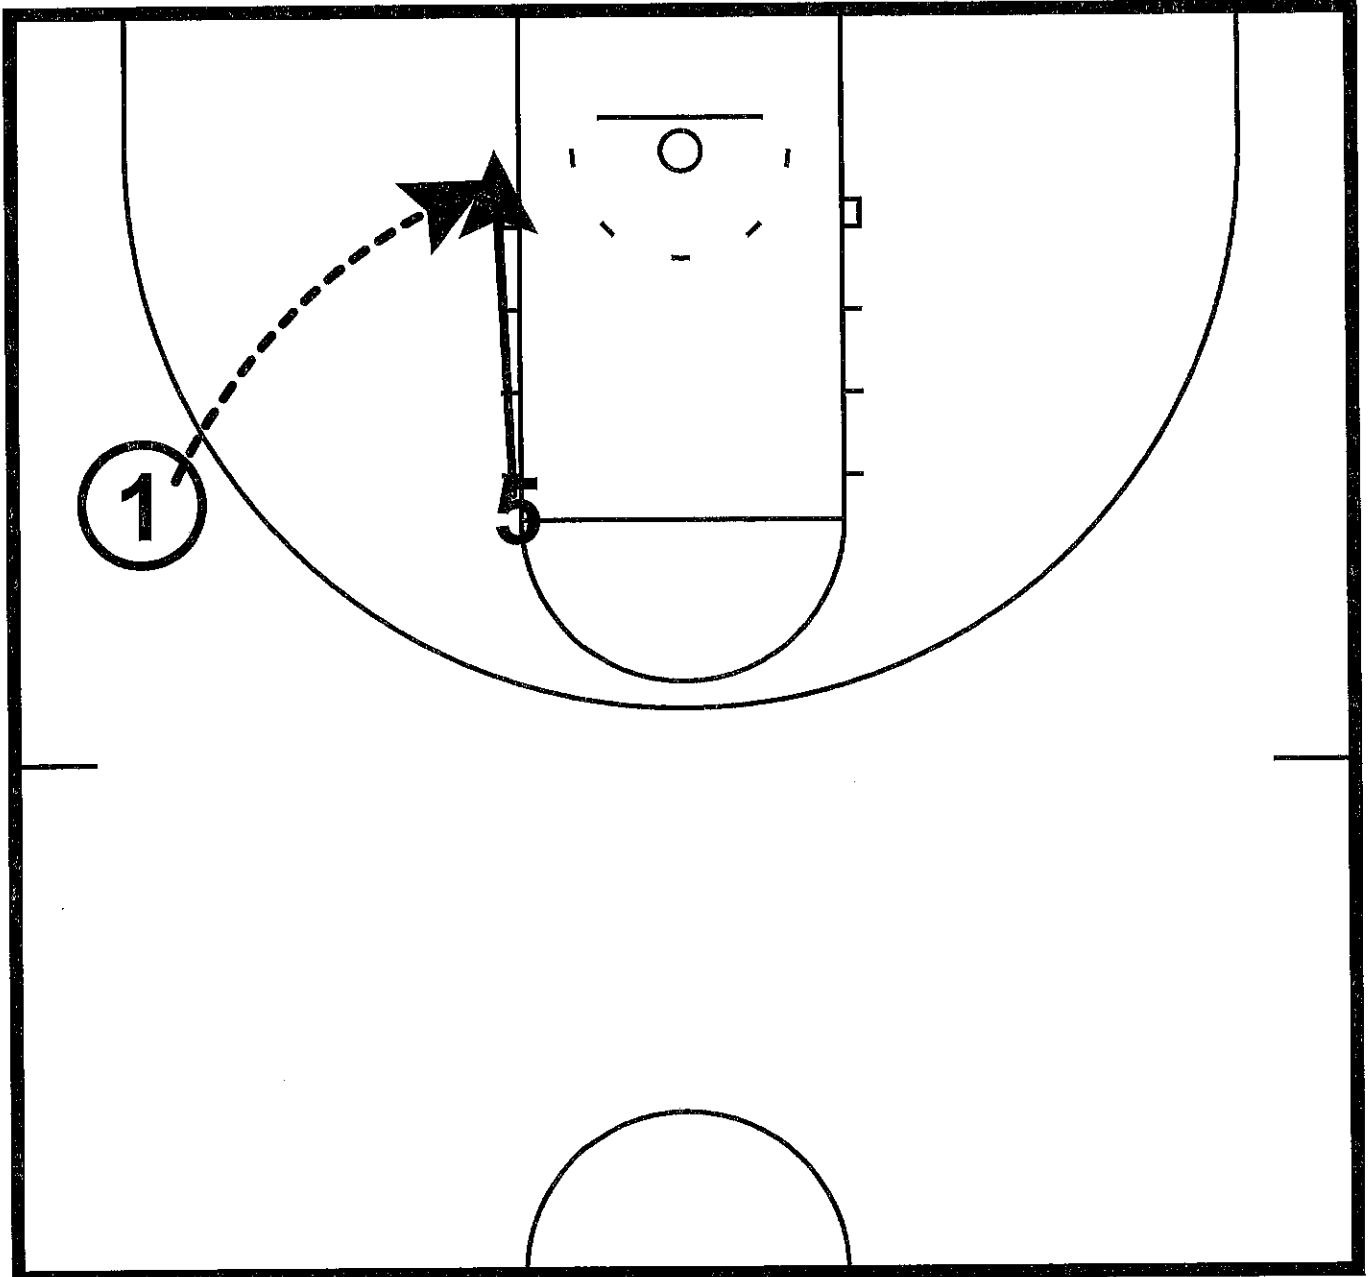

Diamond is a formation with two players at the elbow, one at the top of the key, and one under the rim.

Terminology - Actions/Plays

Dive

Frame 1
Terminology

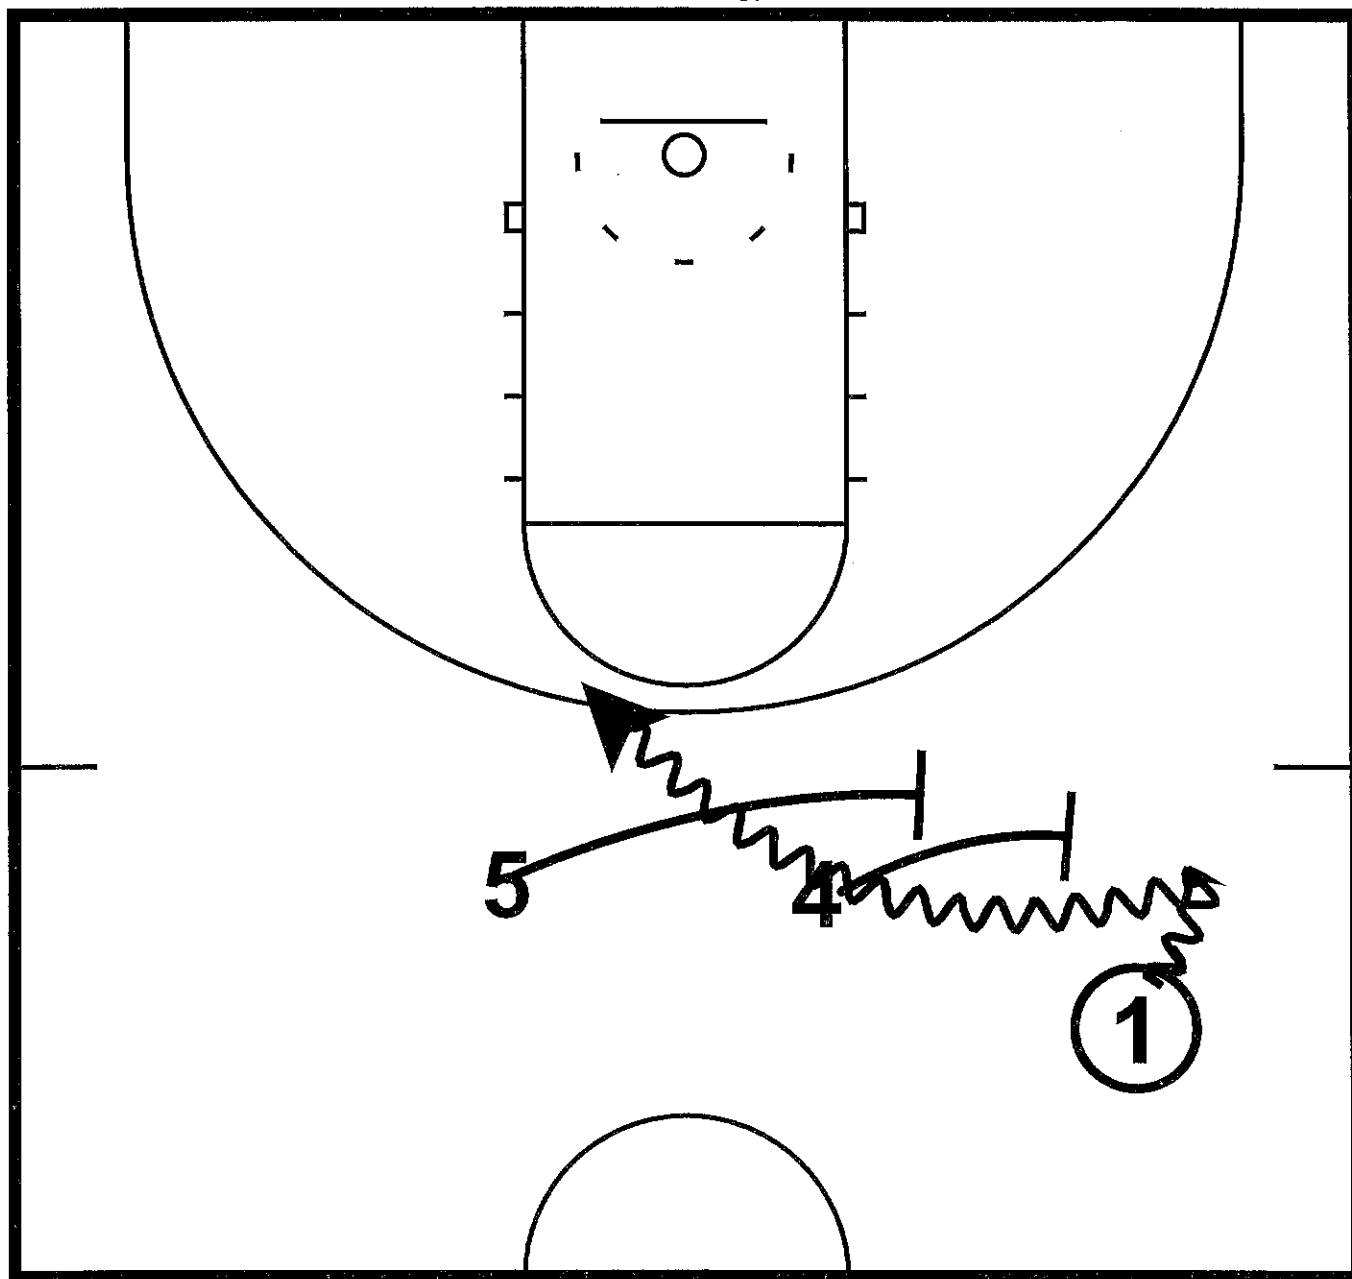

A dive is a cut from the high post to the low post.

Terminology - Actions/Plays

Double Drag

Frame 1
 Terminology

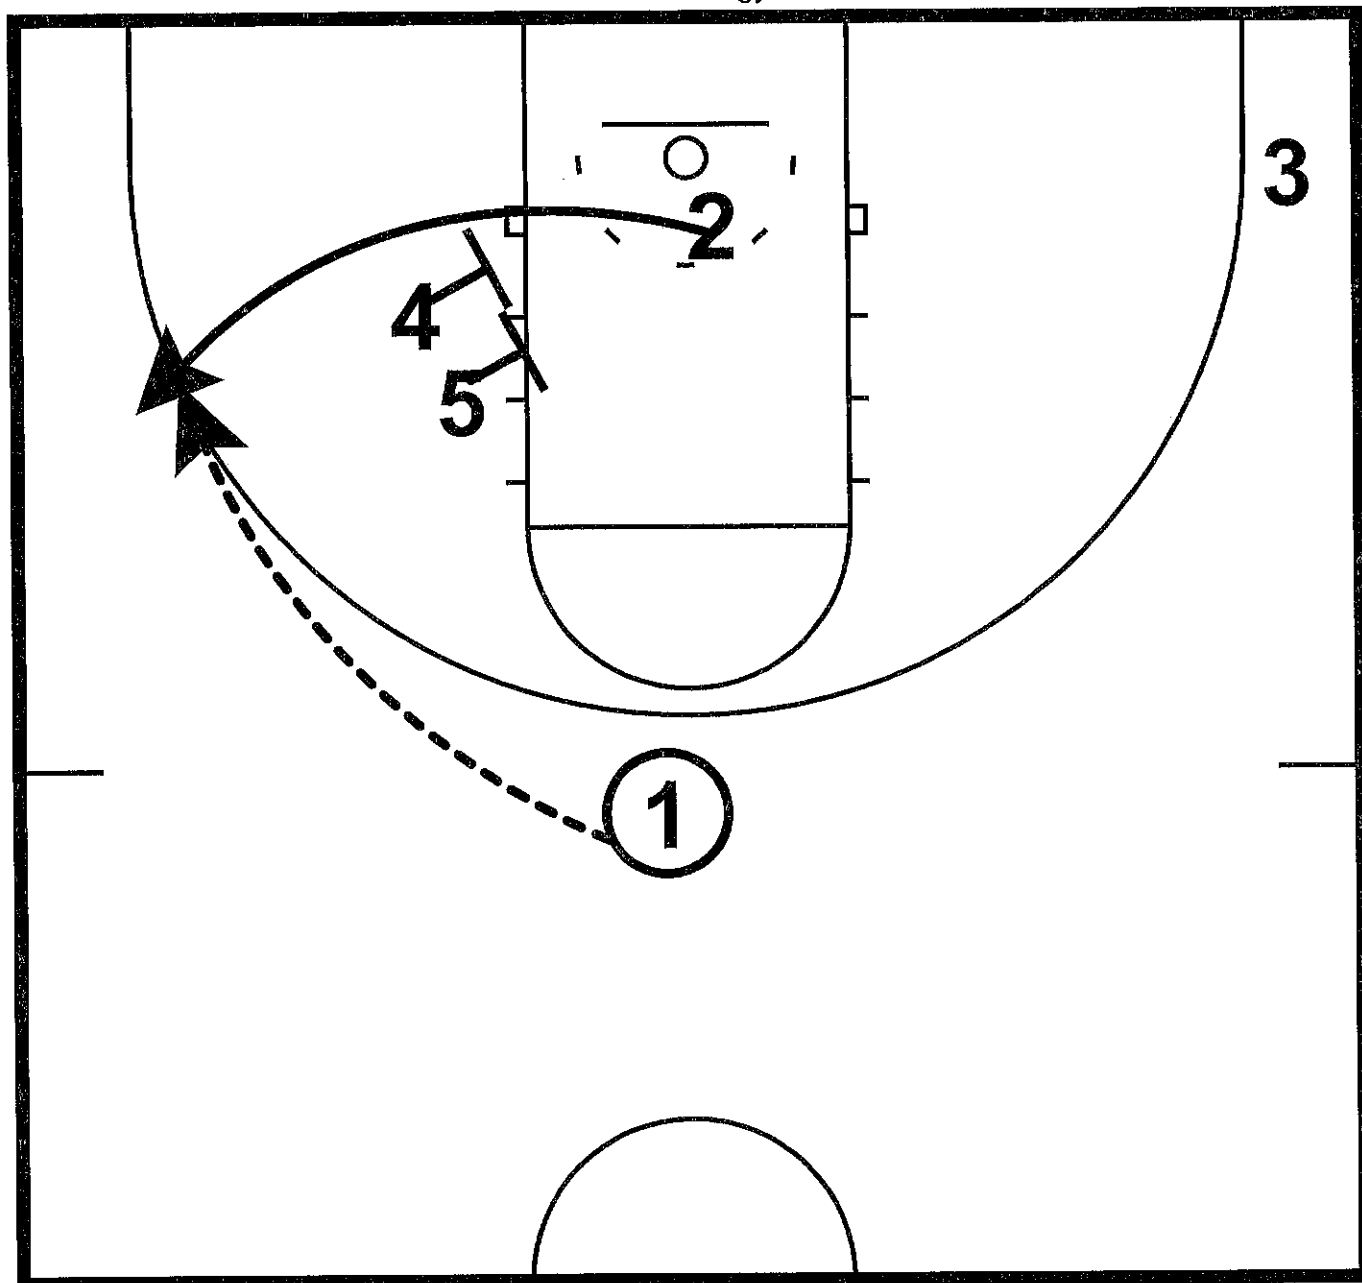

A double drag is when two trailing players set a ball screen.

Terminology - Actions/Plays

Double Screen

Frame 1
Terminology

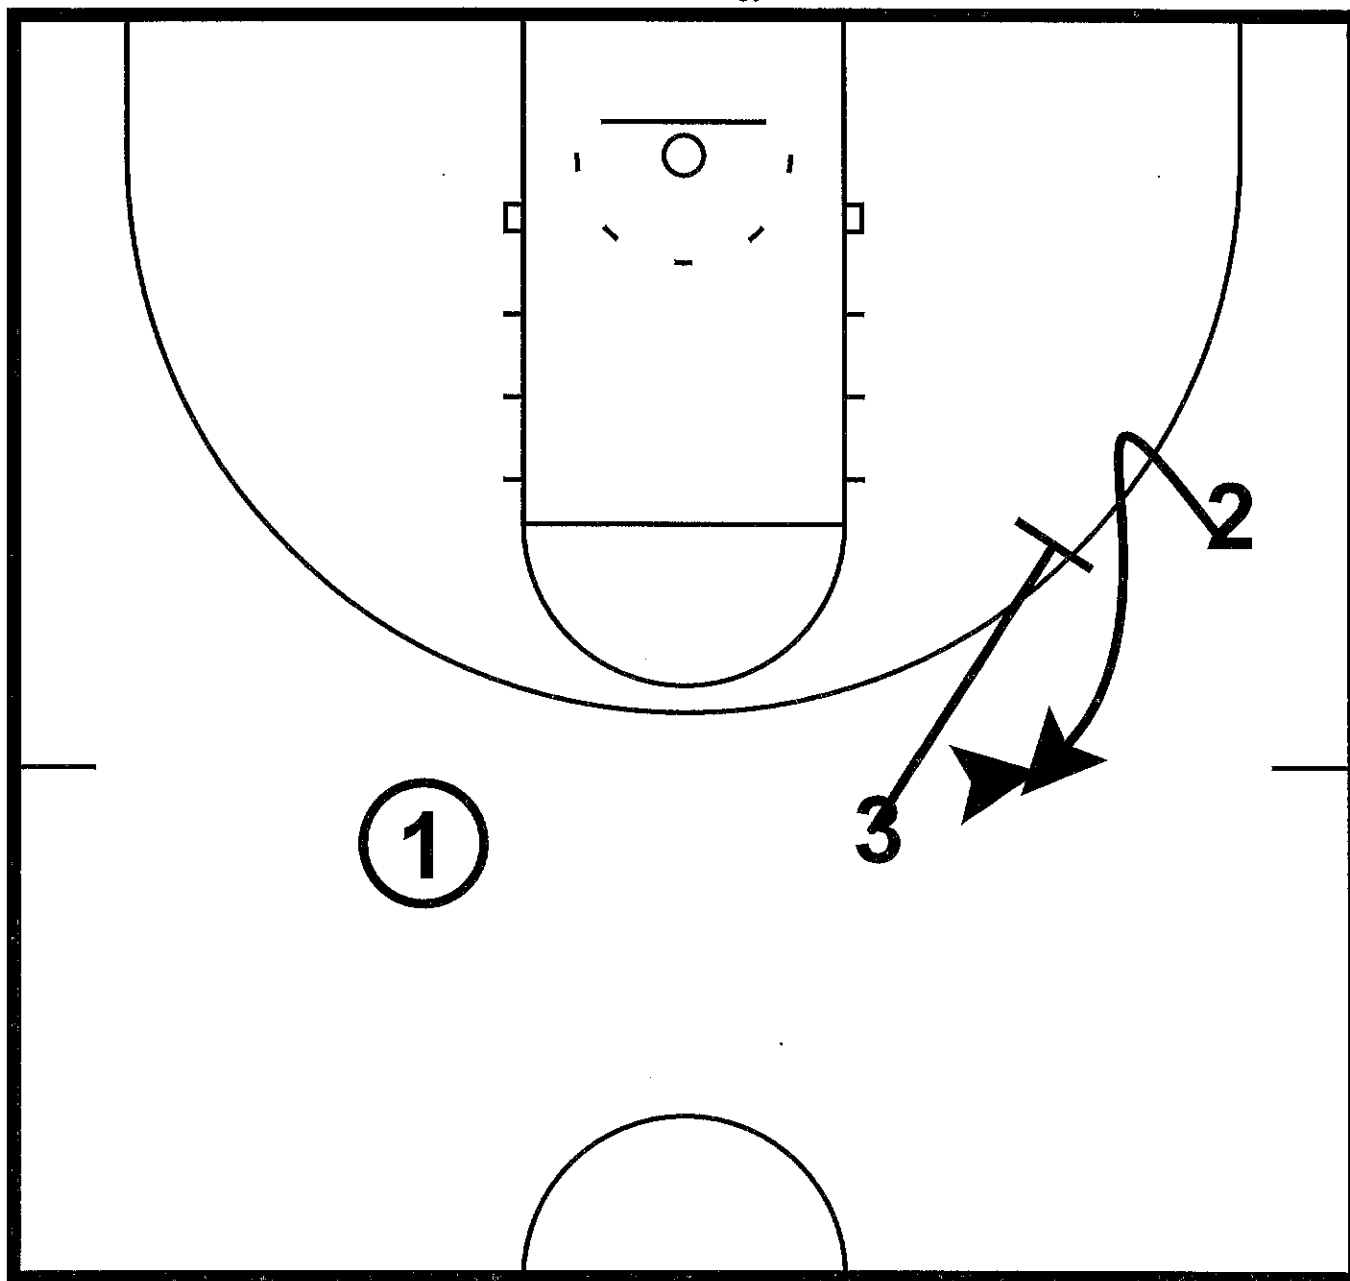

A double screen is when two players are shoulder to shoulder and setting a screen.

Terminology - Actions/Plays

Down Screen (Pin Down)

Frame 1
Terminology

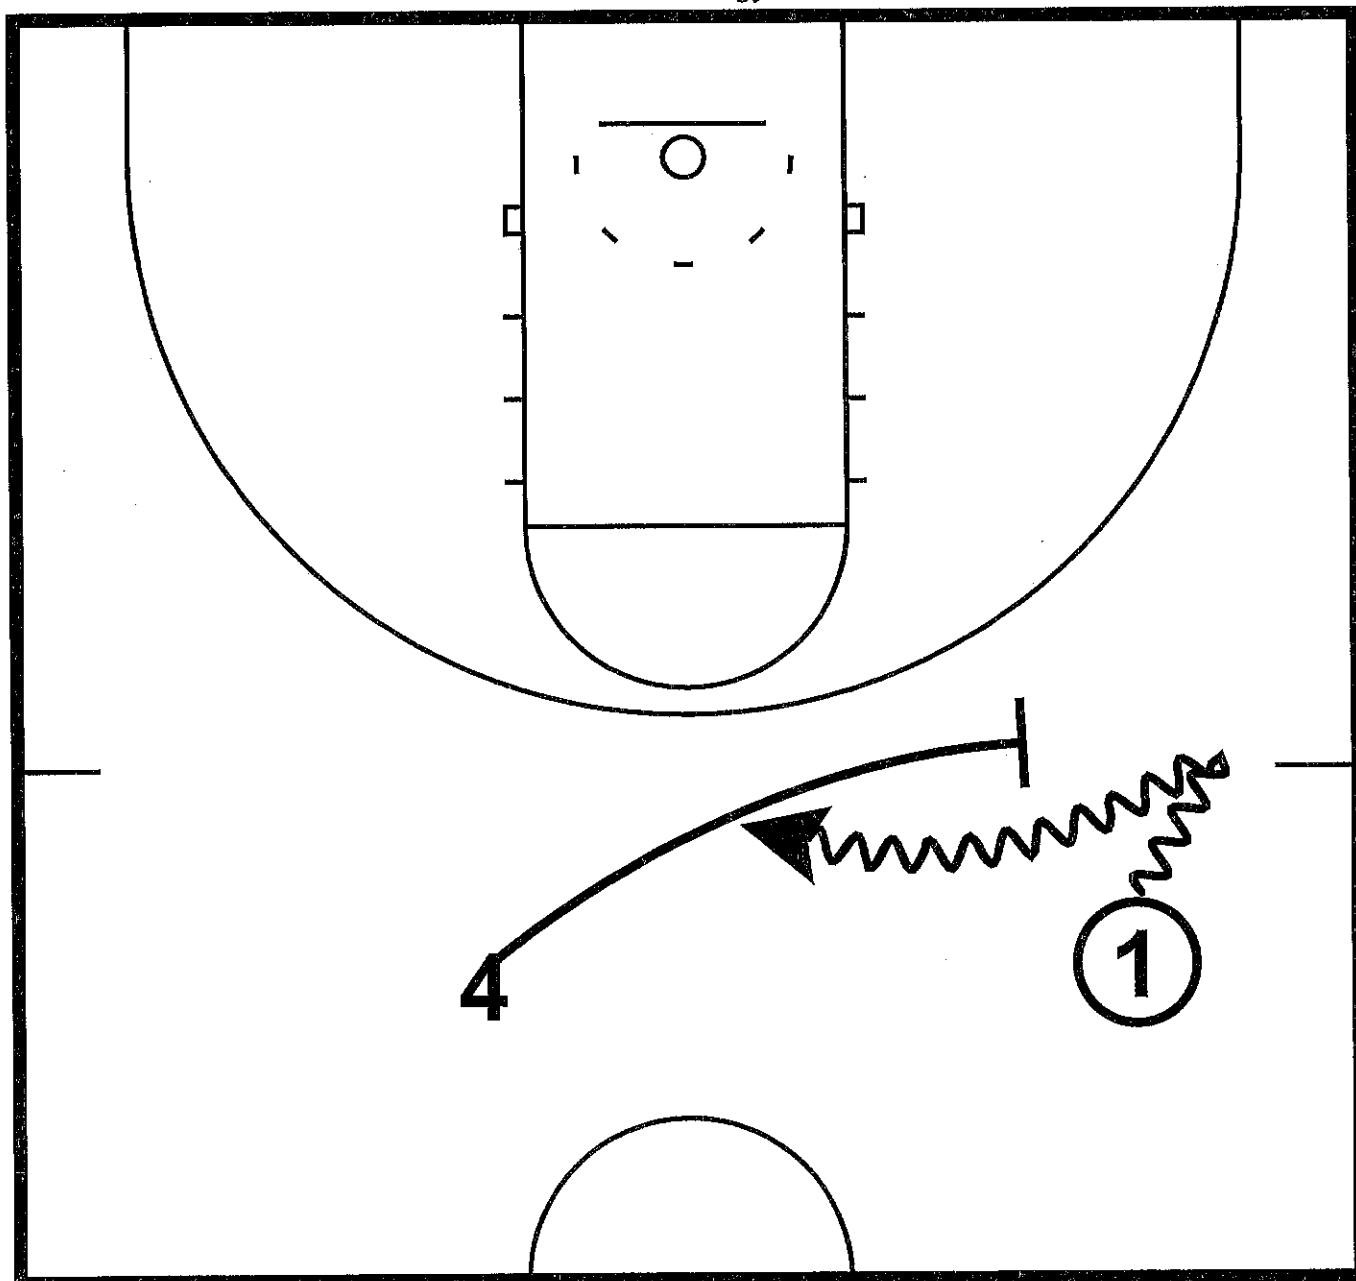

A down screen is any screen set towards the baseline. This can be from the slot to the wing or from the wing to the block.

Terminology - Actions/Plays

Drag

Frame 1
Terminology

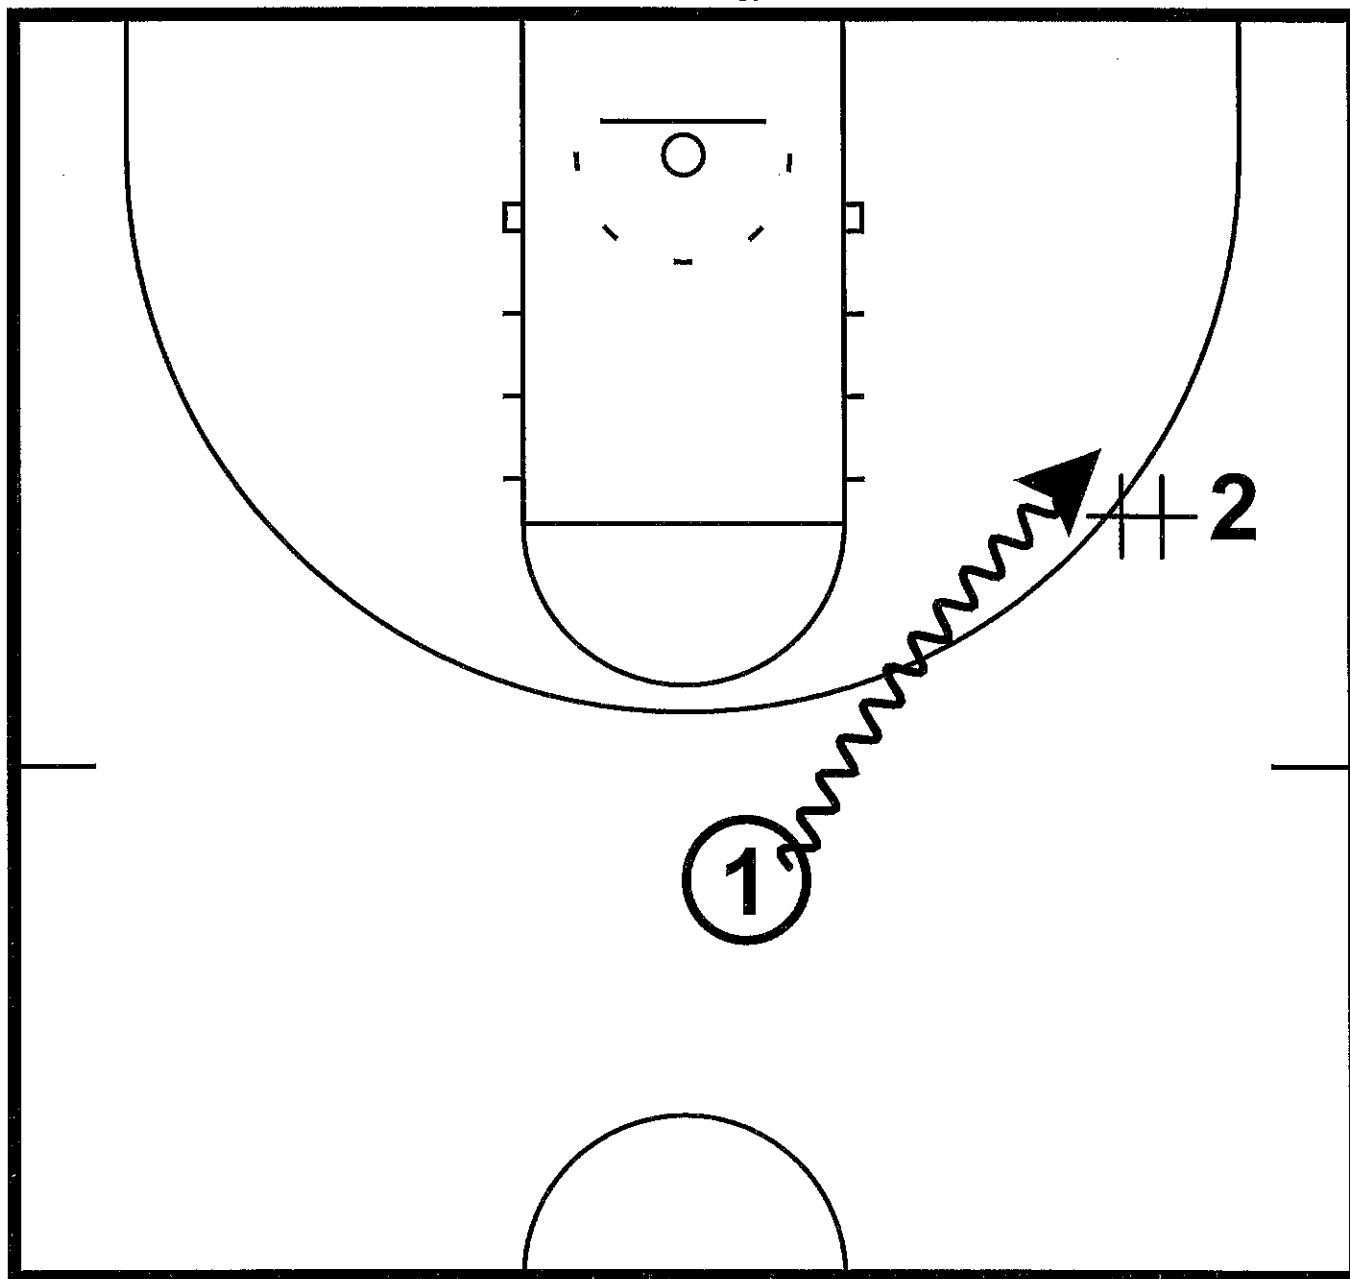

A drag screen is set with a trailing player moving right into a ball screen.

Terminology - Actions/Plays

Dribble Handoff

Frame 1
Terminology

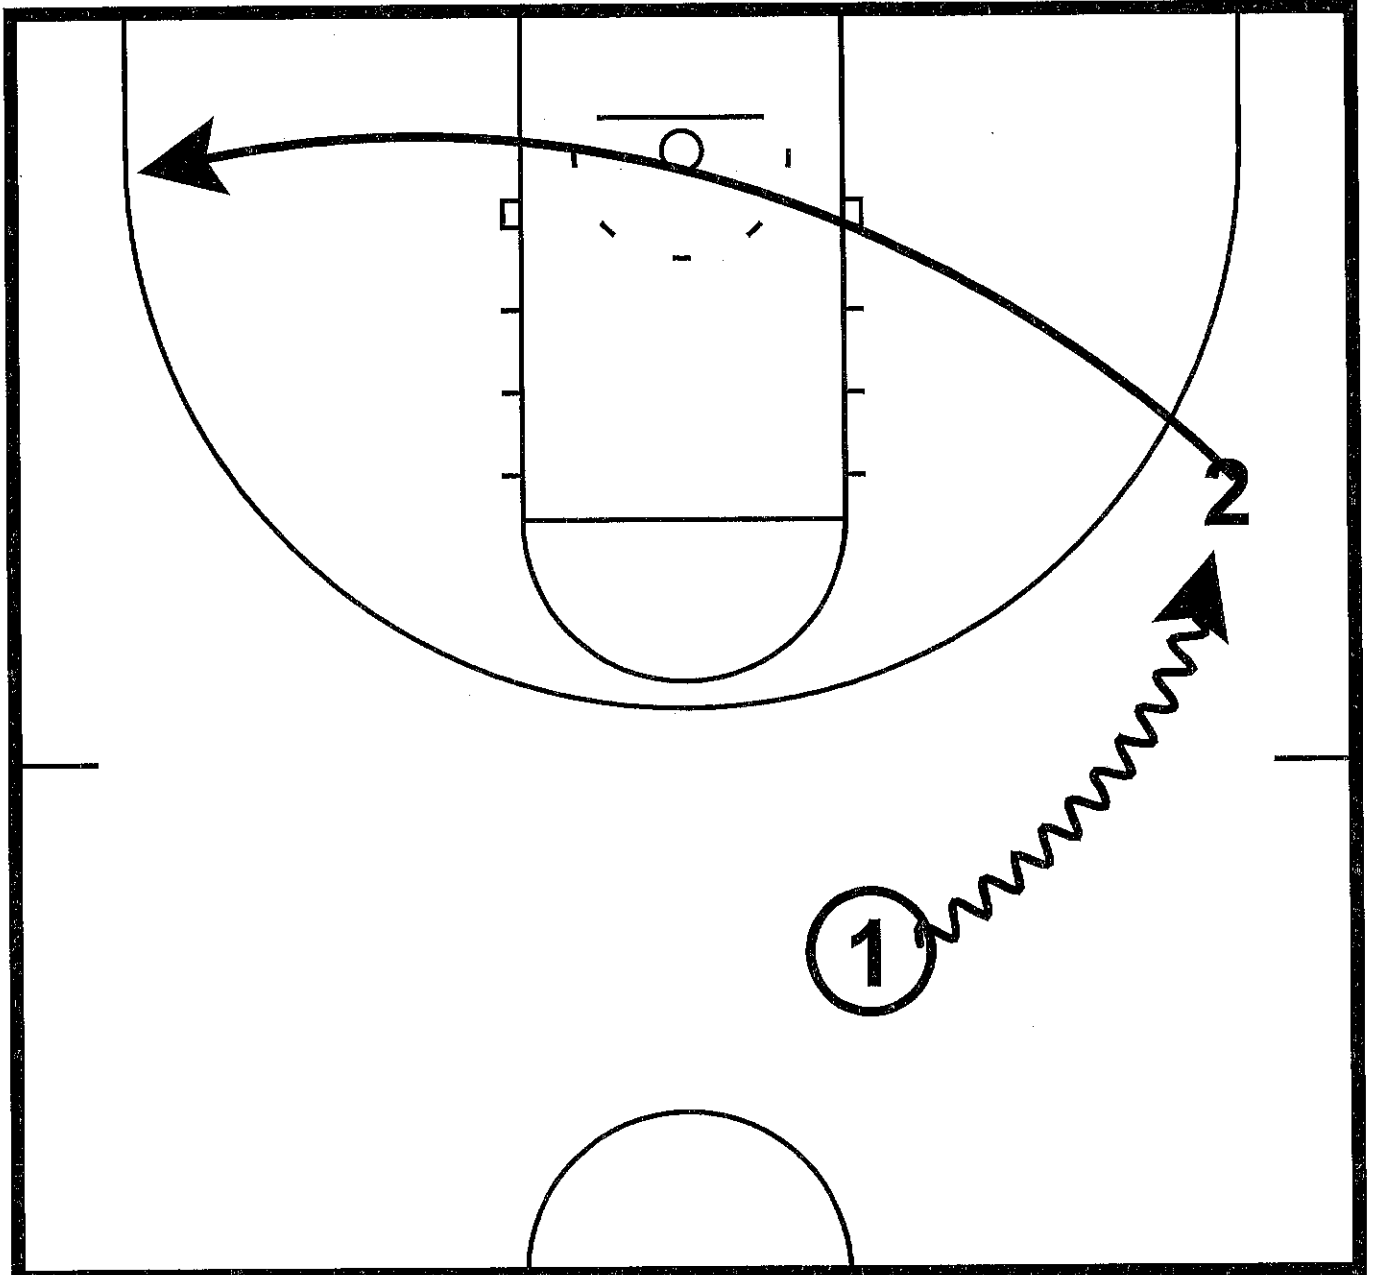

A dribble handoff is when a player dribbles towards a teammate and gives him the ball with a handoff.

Terminology - Actions/Plays

Dribble Push

Frame 1
Terminology

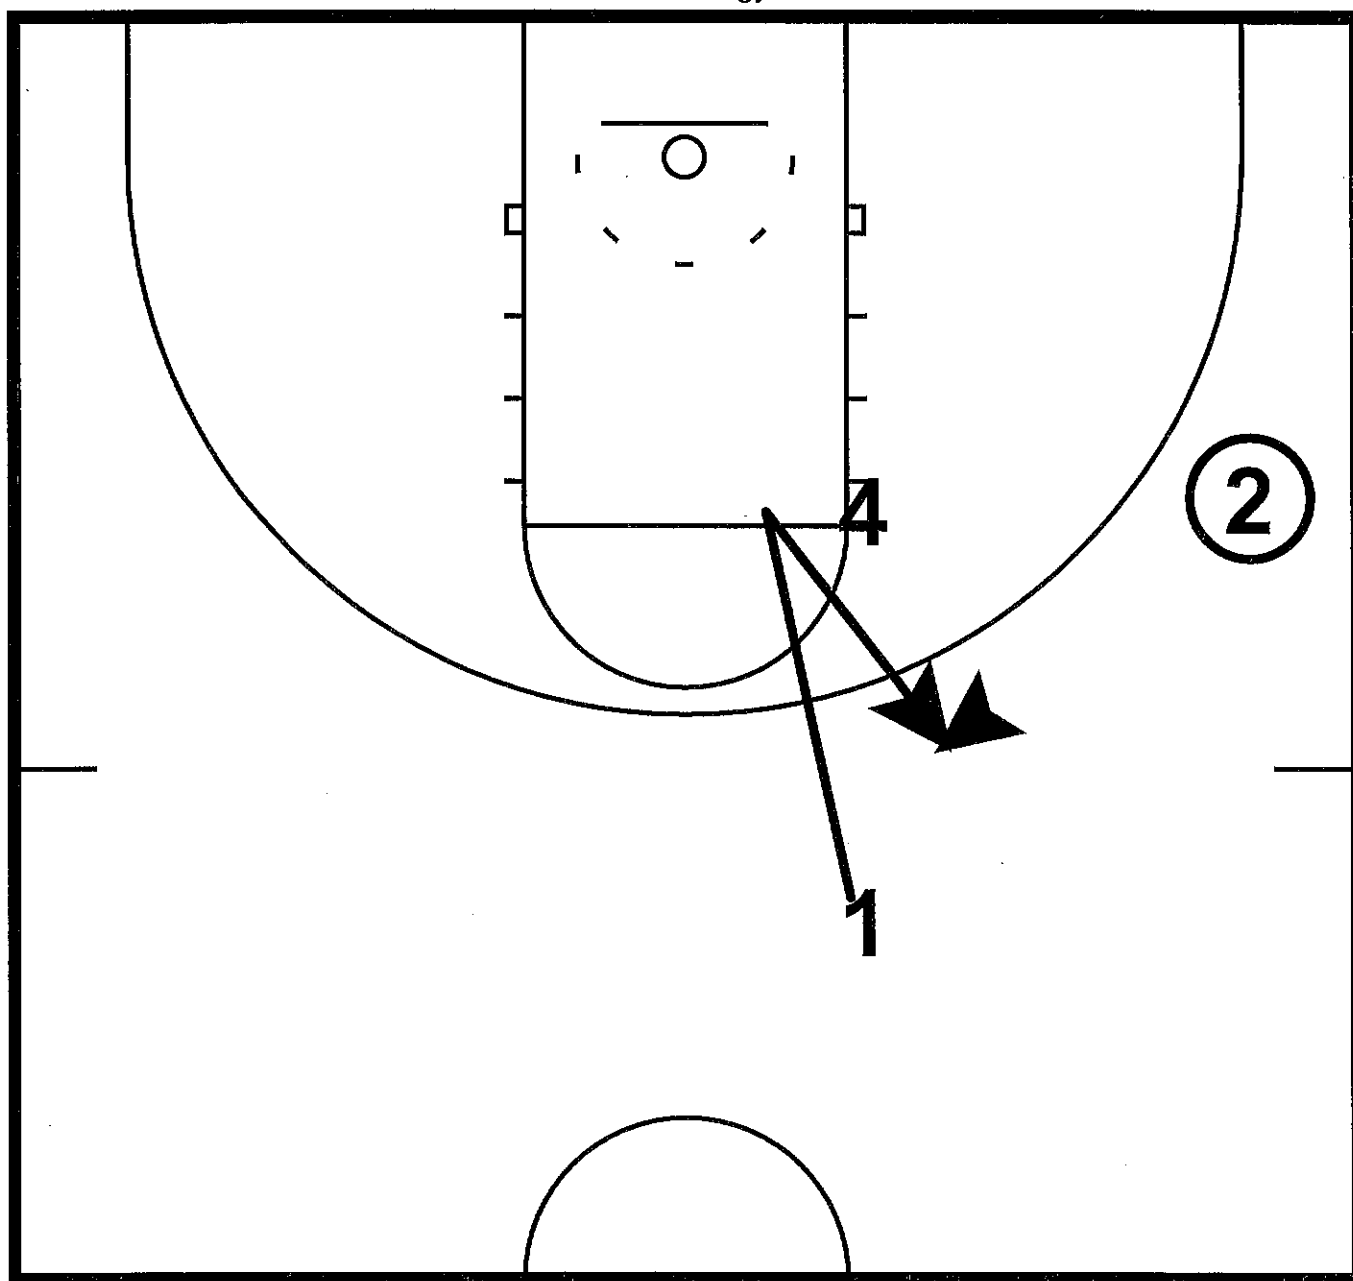

1 dribbles towards the right wing pushing 2 away from the ball.

Terminology - Actions/Plays

Drift (Stunt)

Frame 1
Terminology

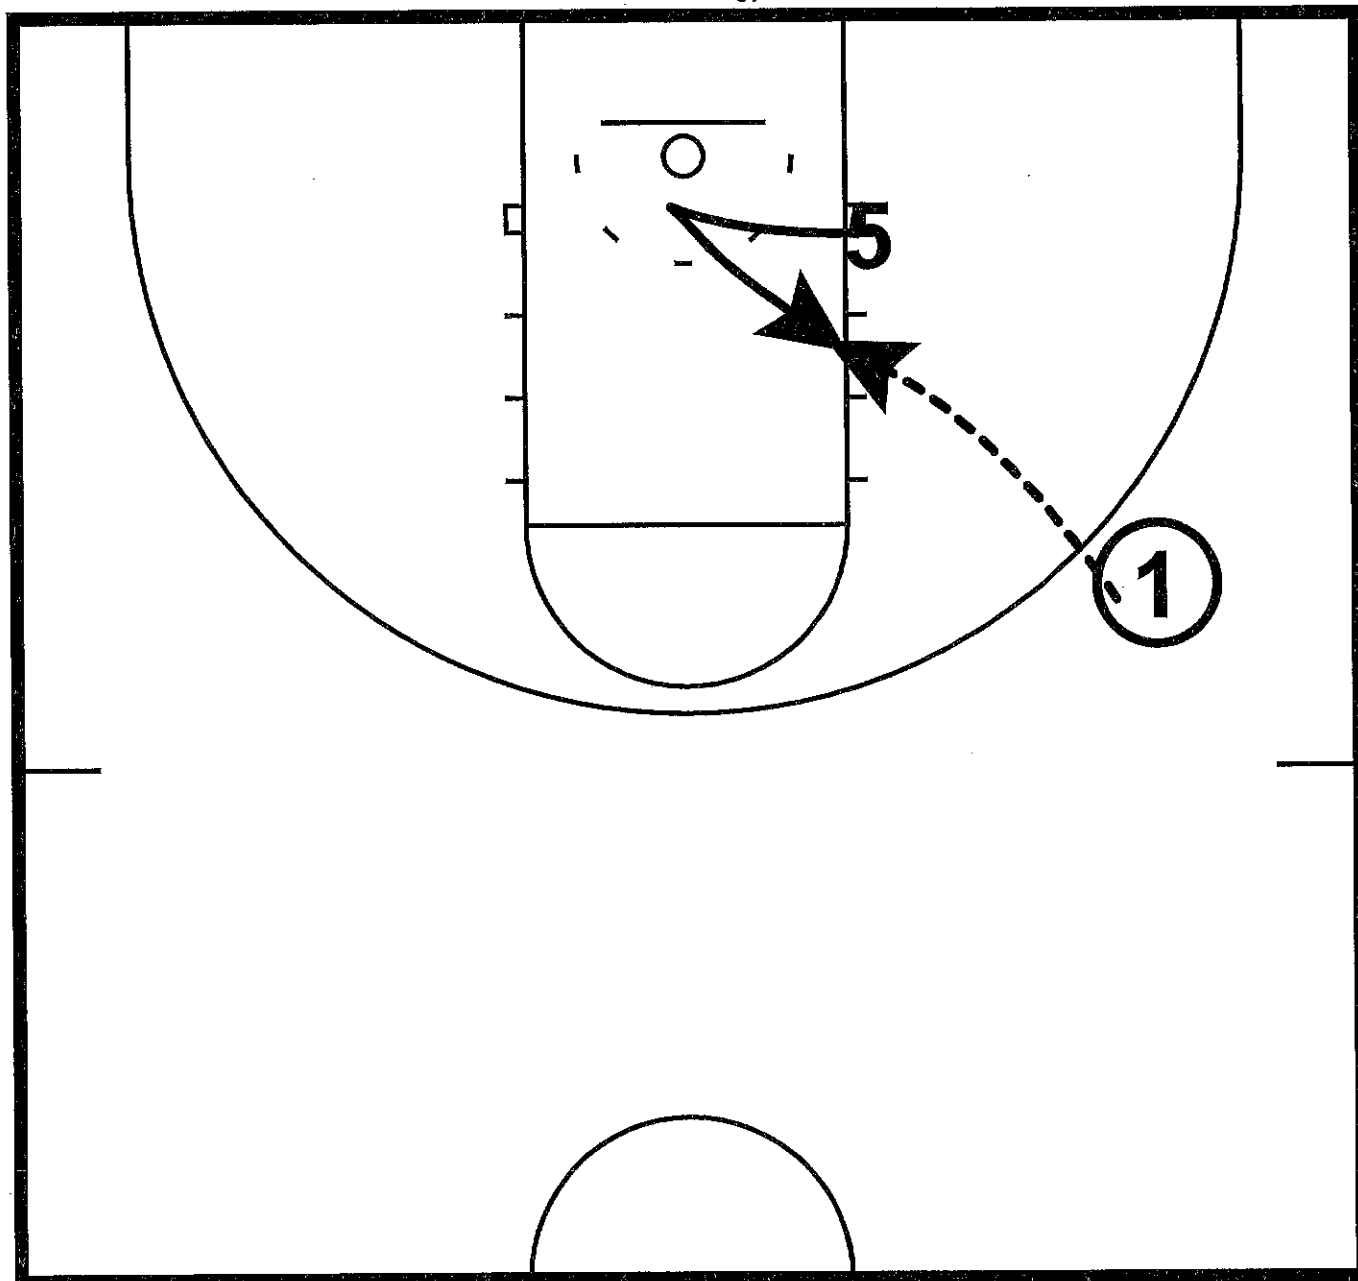

The guard moves in towards the high post then drifts back out to the perimeter to get the ball.

Terminology - Actions/Plays

Duck-In

Frame 1
Terminology

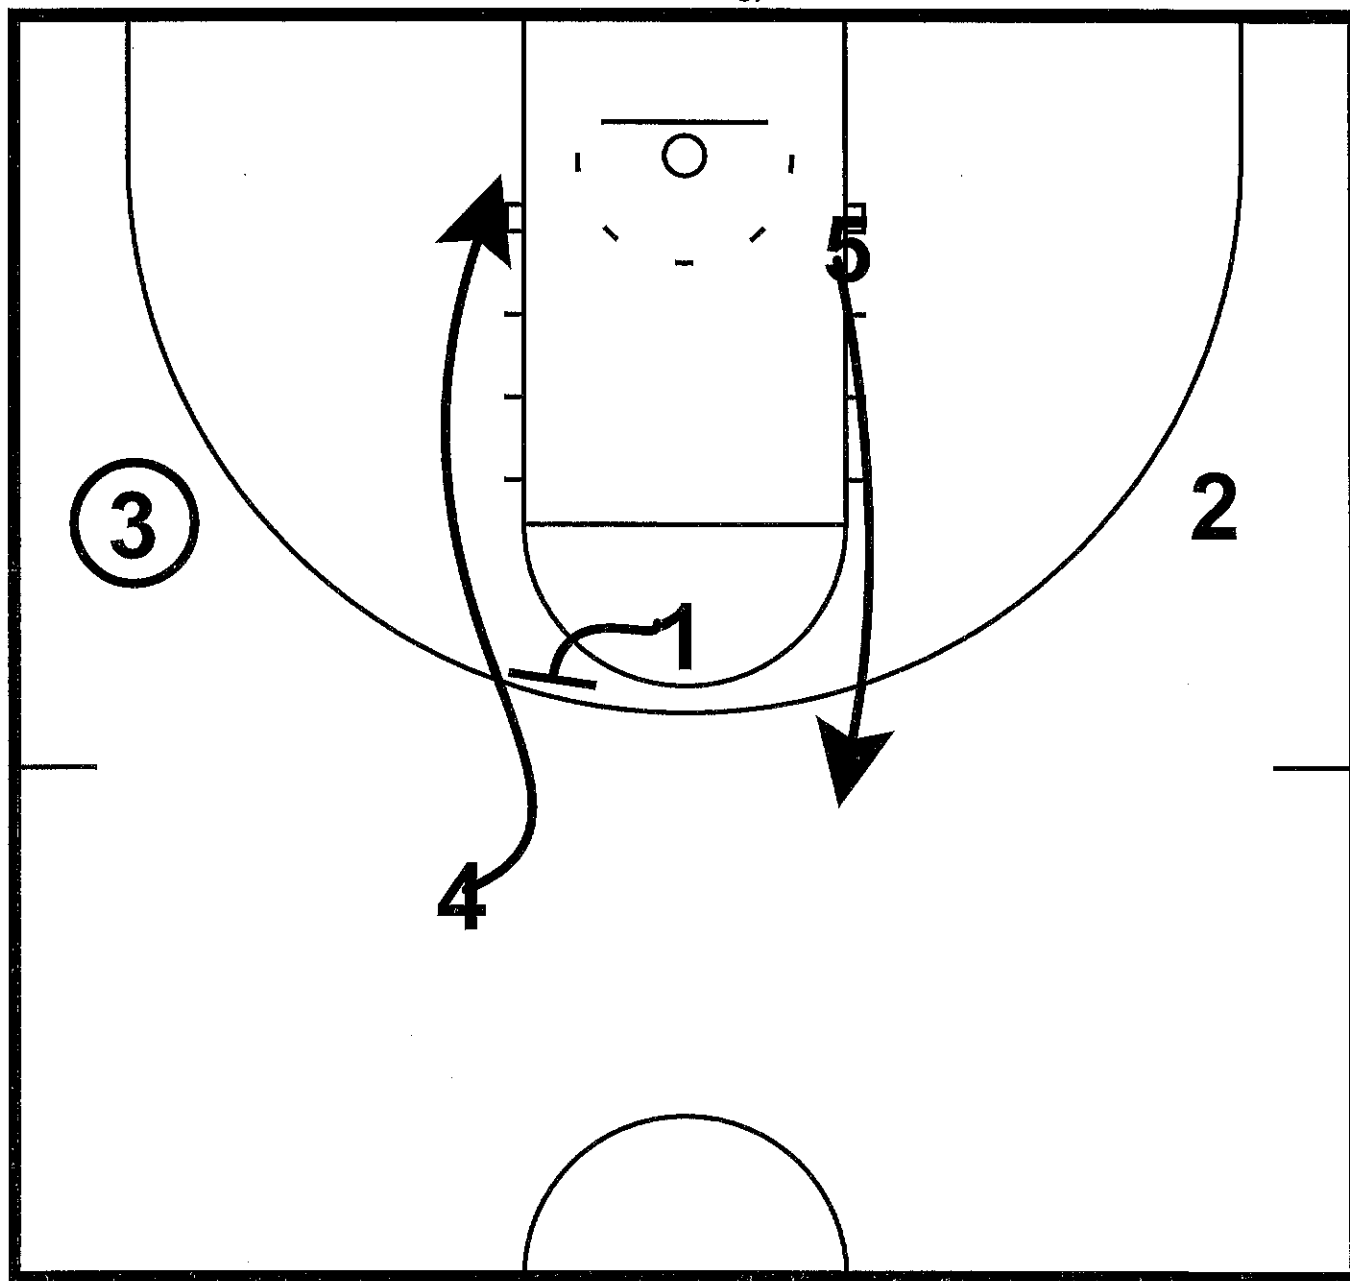

A duck-in is when a post player looks to gain position in the low post by taking the defenders legs out with a low post up. This often works best when the post defender is in a help position and not ready for contact.

Terminology - Actions/Plays

Elevate (Lift)

Frame 1
 Terminology

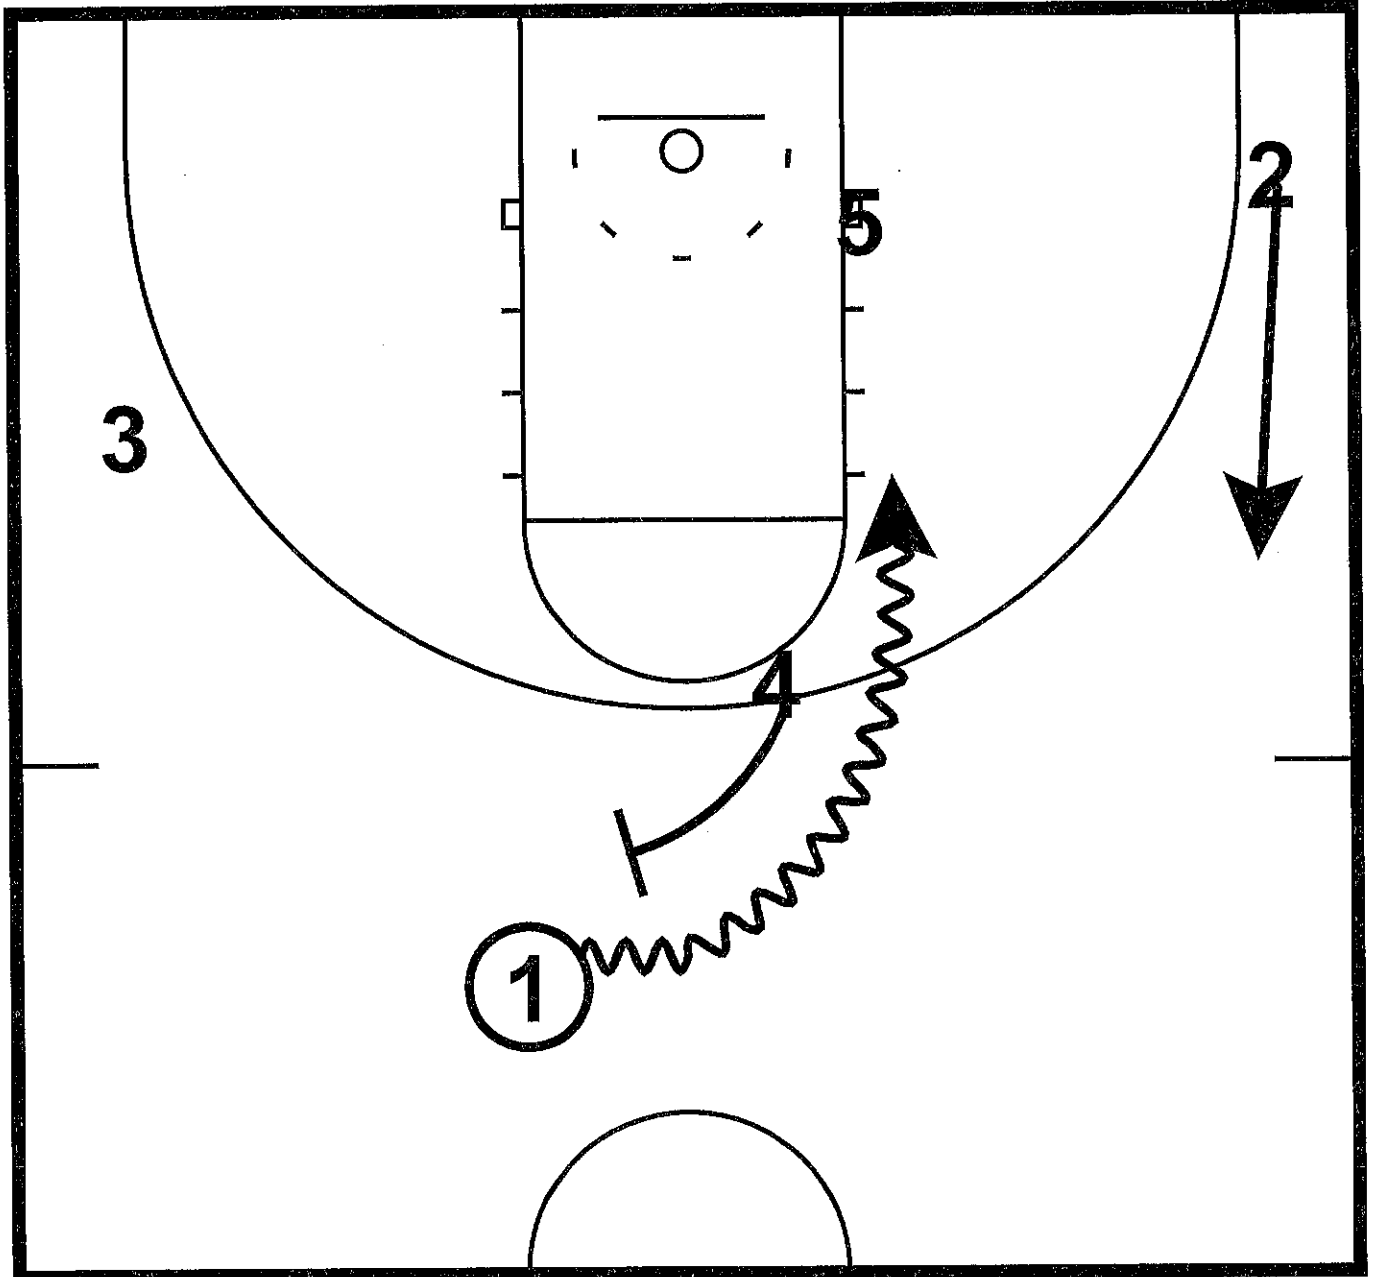

To lift, or elevate, is to move up from a position on the floor to maintain spacing. 5 lifts up from the block to the slot. 2 lifts up from the corner.

Terminology - Actions/Plays

Elevate (Lift)

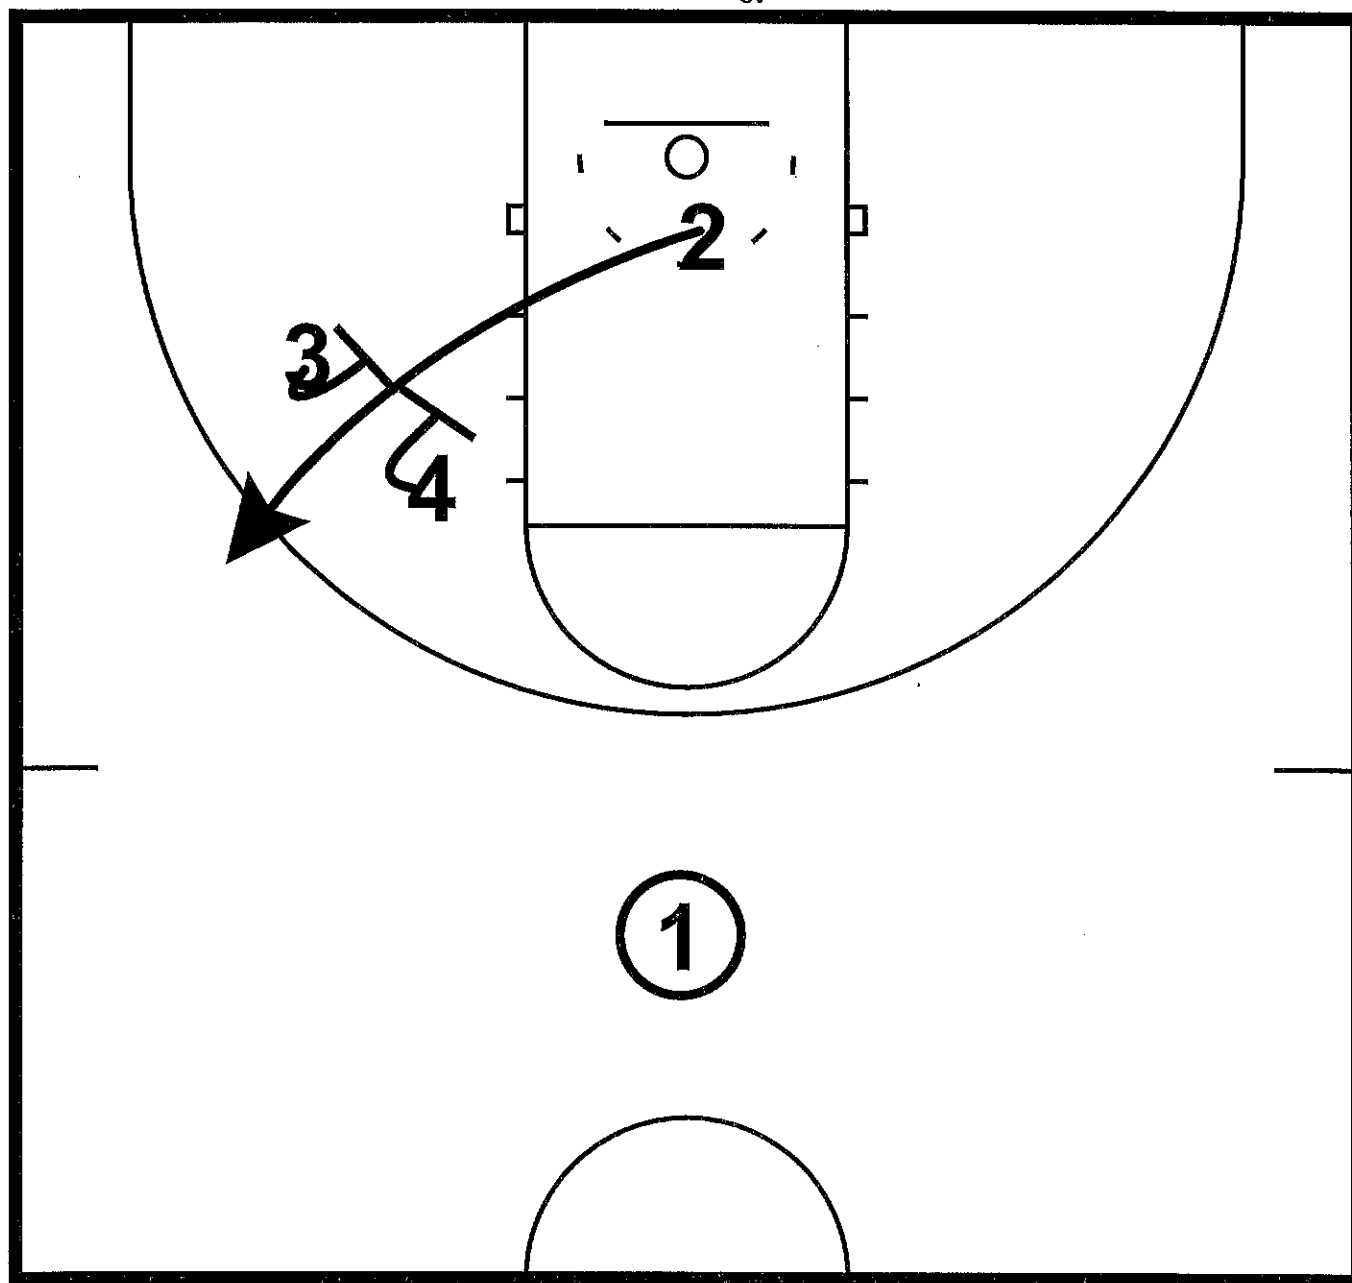

Frame 2
Terminology

Terminology - Actions/Plays

Elevator (Gate/Fence/Gator)

Frame 1
Terminology

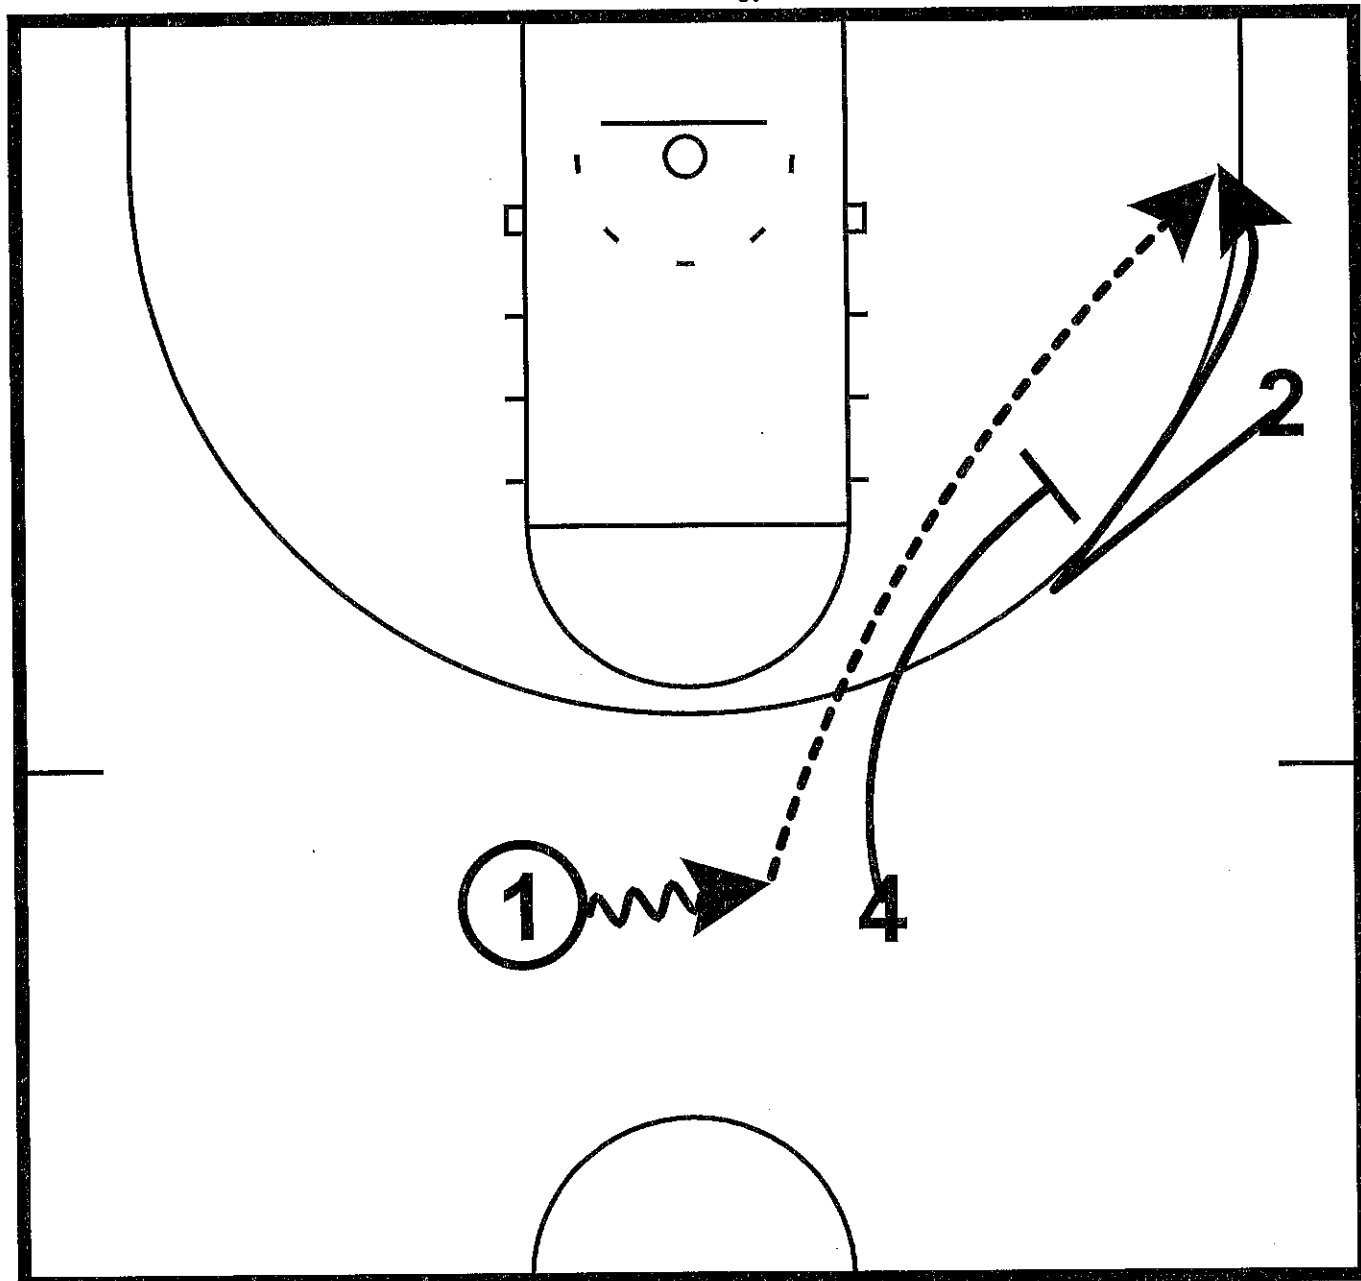

In an elevator screen, the cutter moves through the screeners who close the screen once he has run through.

Terminology - Actions/Plays

Fade

Frame 1
Terminology

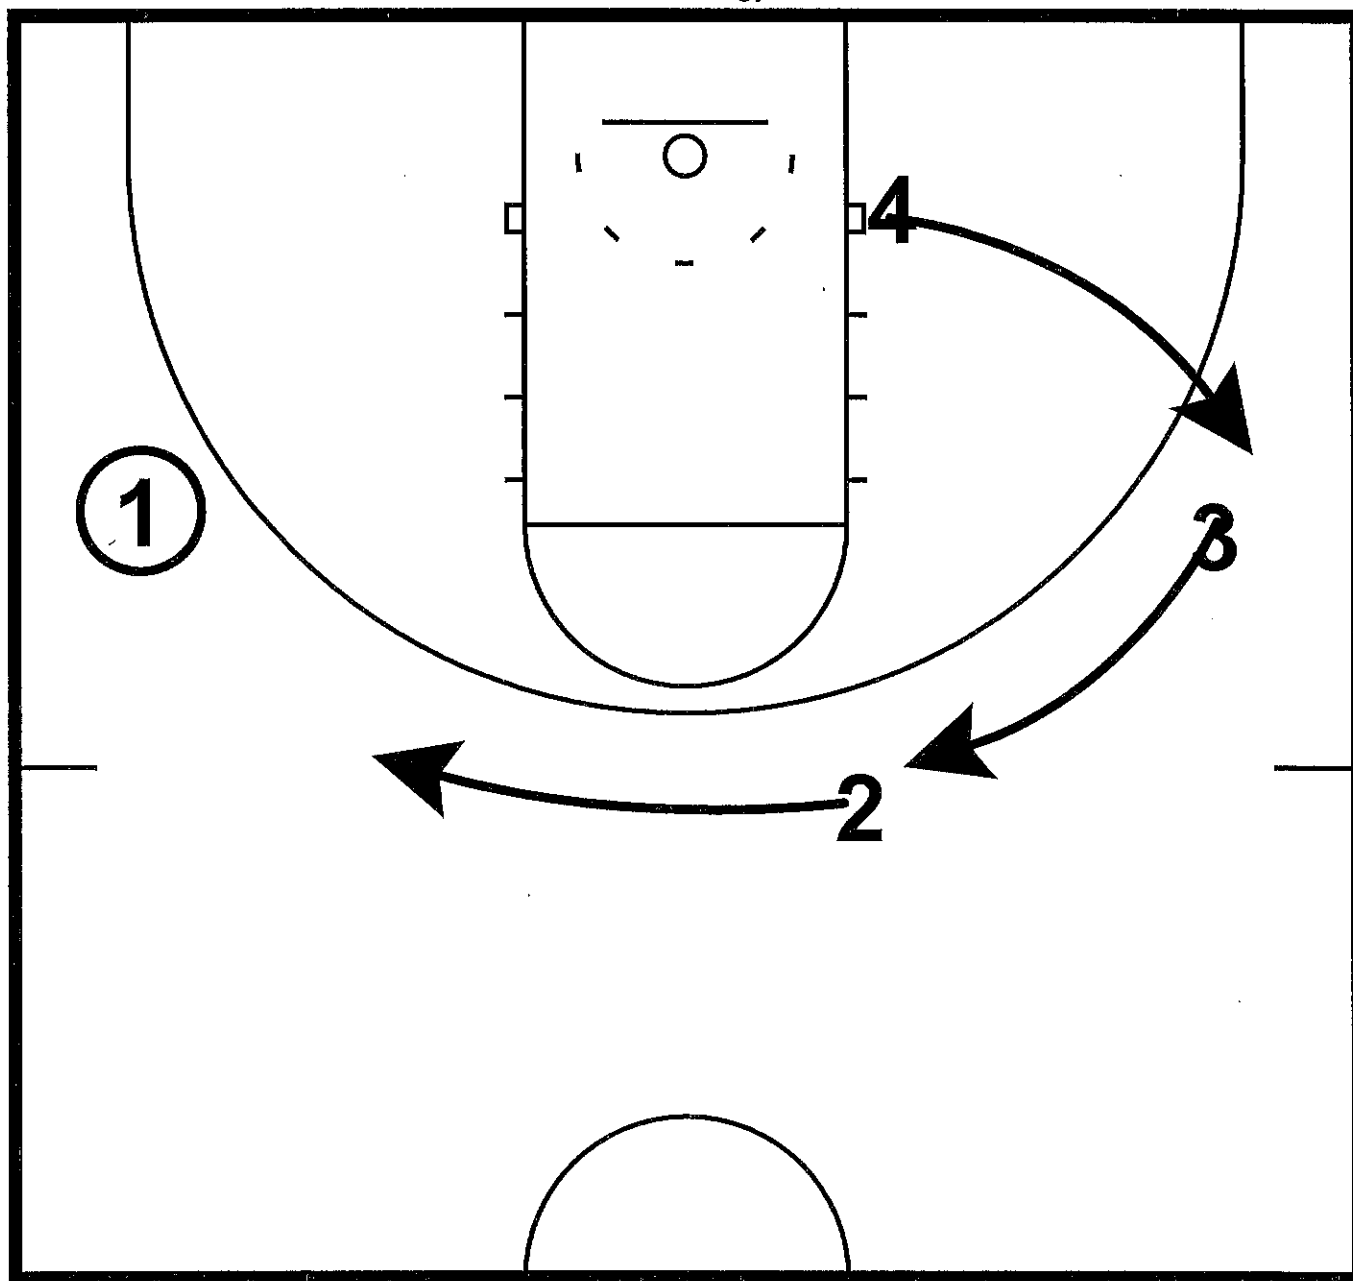

A fade is when a player turns down a screen and instead fades away from the action.

Terminology - Actions/Plays

Fill Cut

Frame 1
Terminology

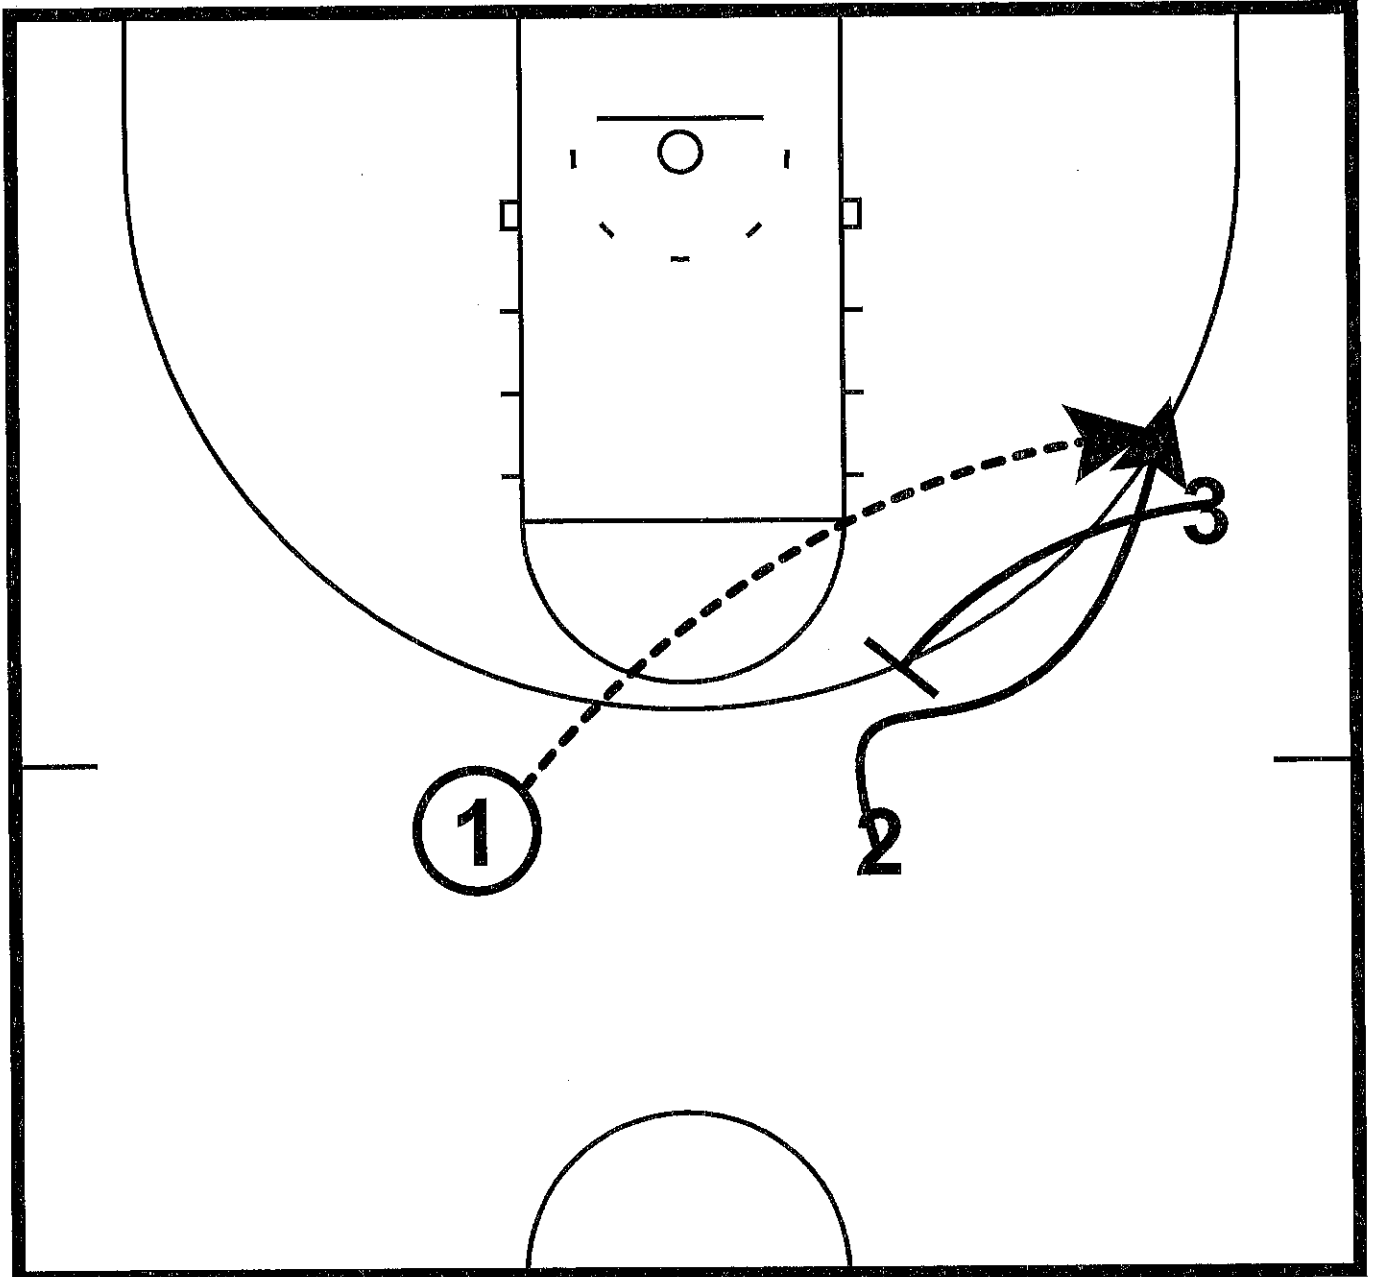

A fill cut is when players move into a vacant spot in the offense to maintain movement and spacing.

Terminology - Actions/Plays

Flare (Fan) Screen

Frame 1
Terminology

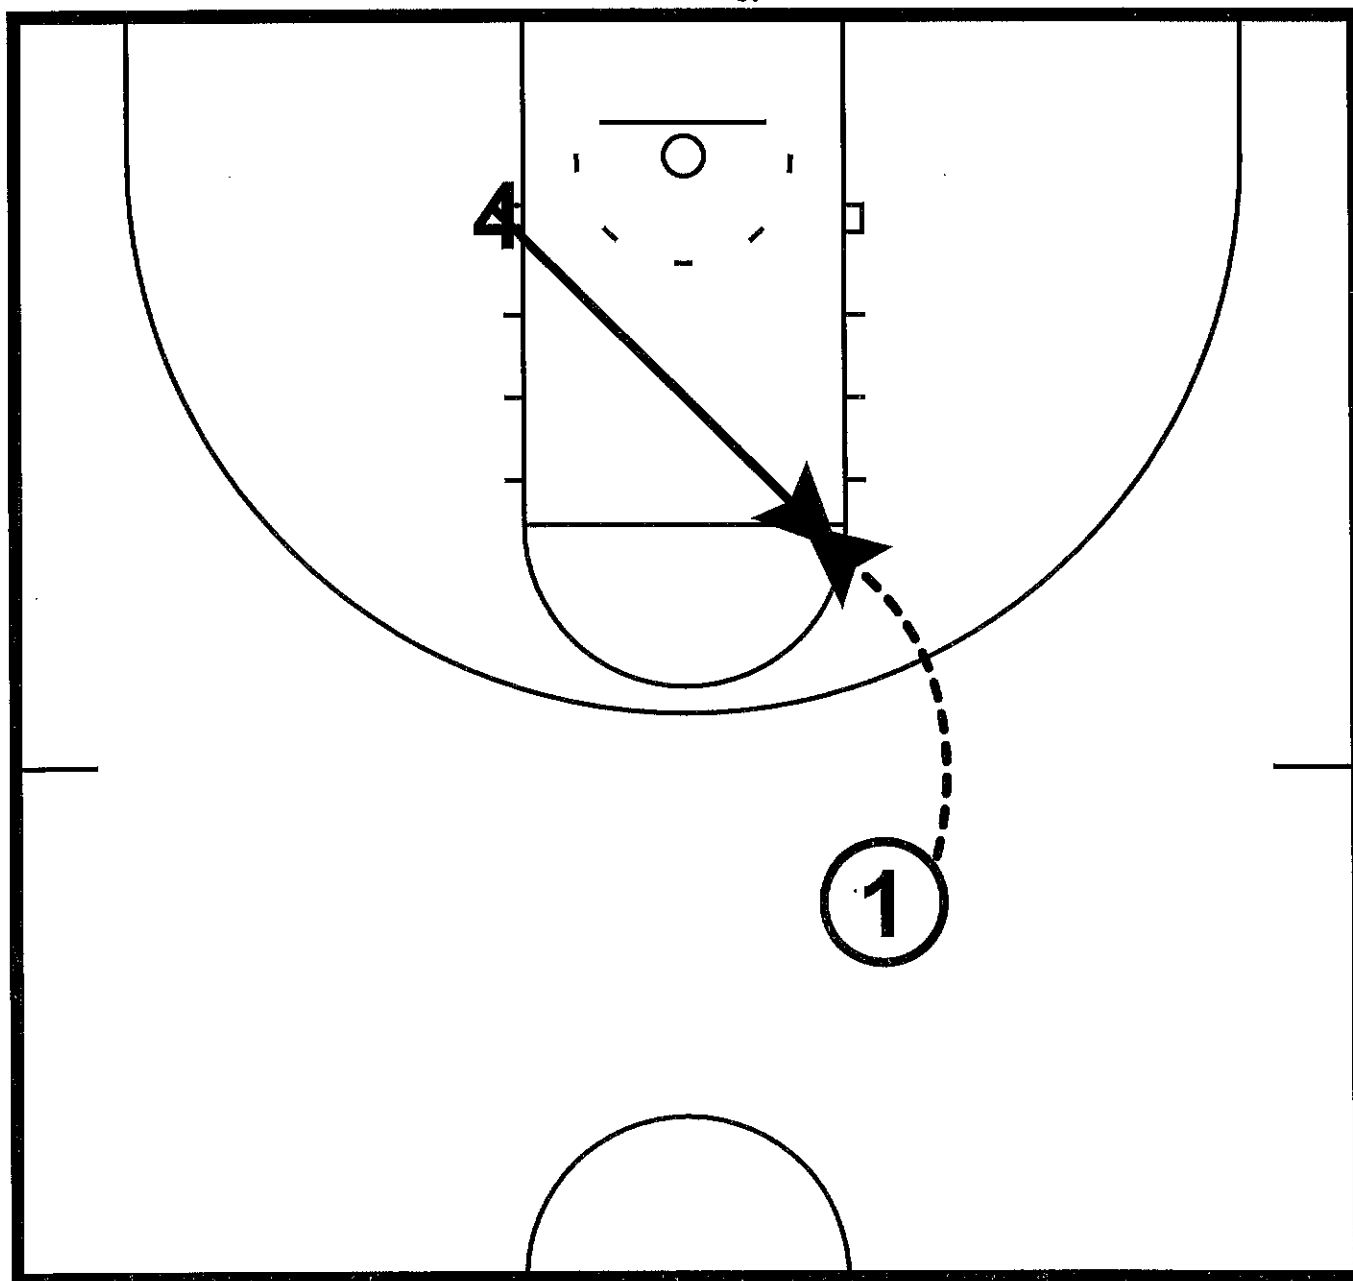

2 flares to the wing off of the flare screen from 3.

Terminology - Actions/Plays

Flash

Frame 1
Terminology

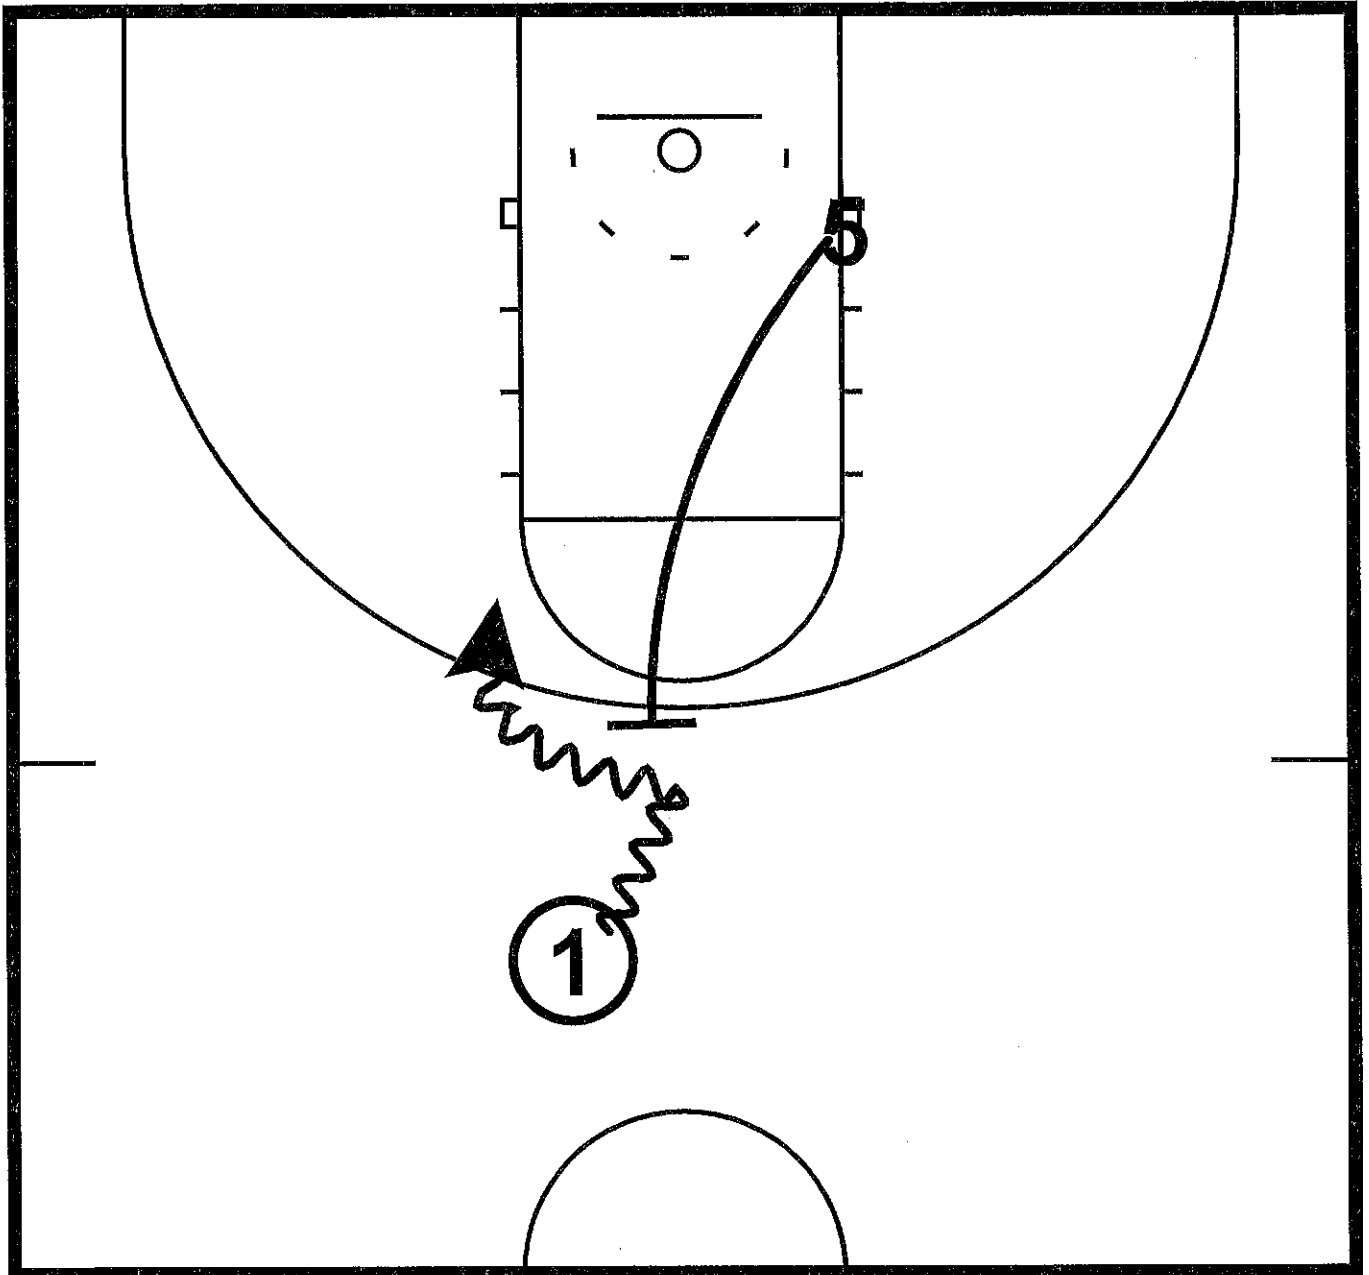

Flash is when a player moves to an open spot in the defense, often against zone defenses.

Terminology - Actions/Plays

Flat

Frame 1
Terminology

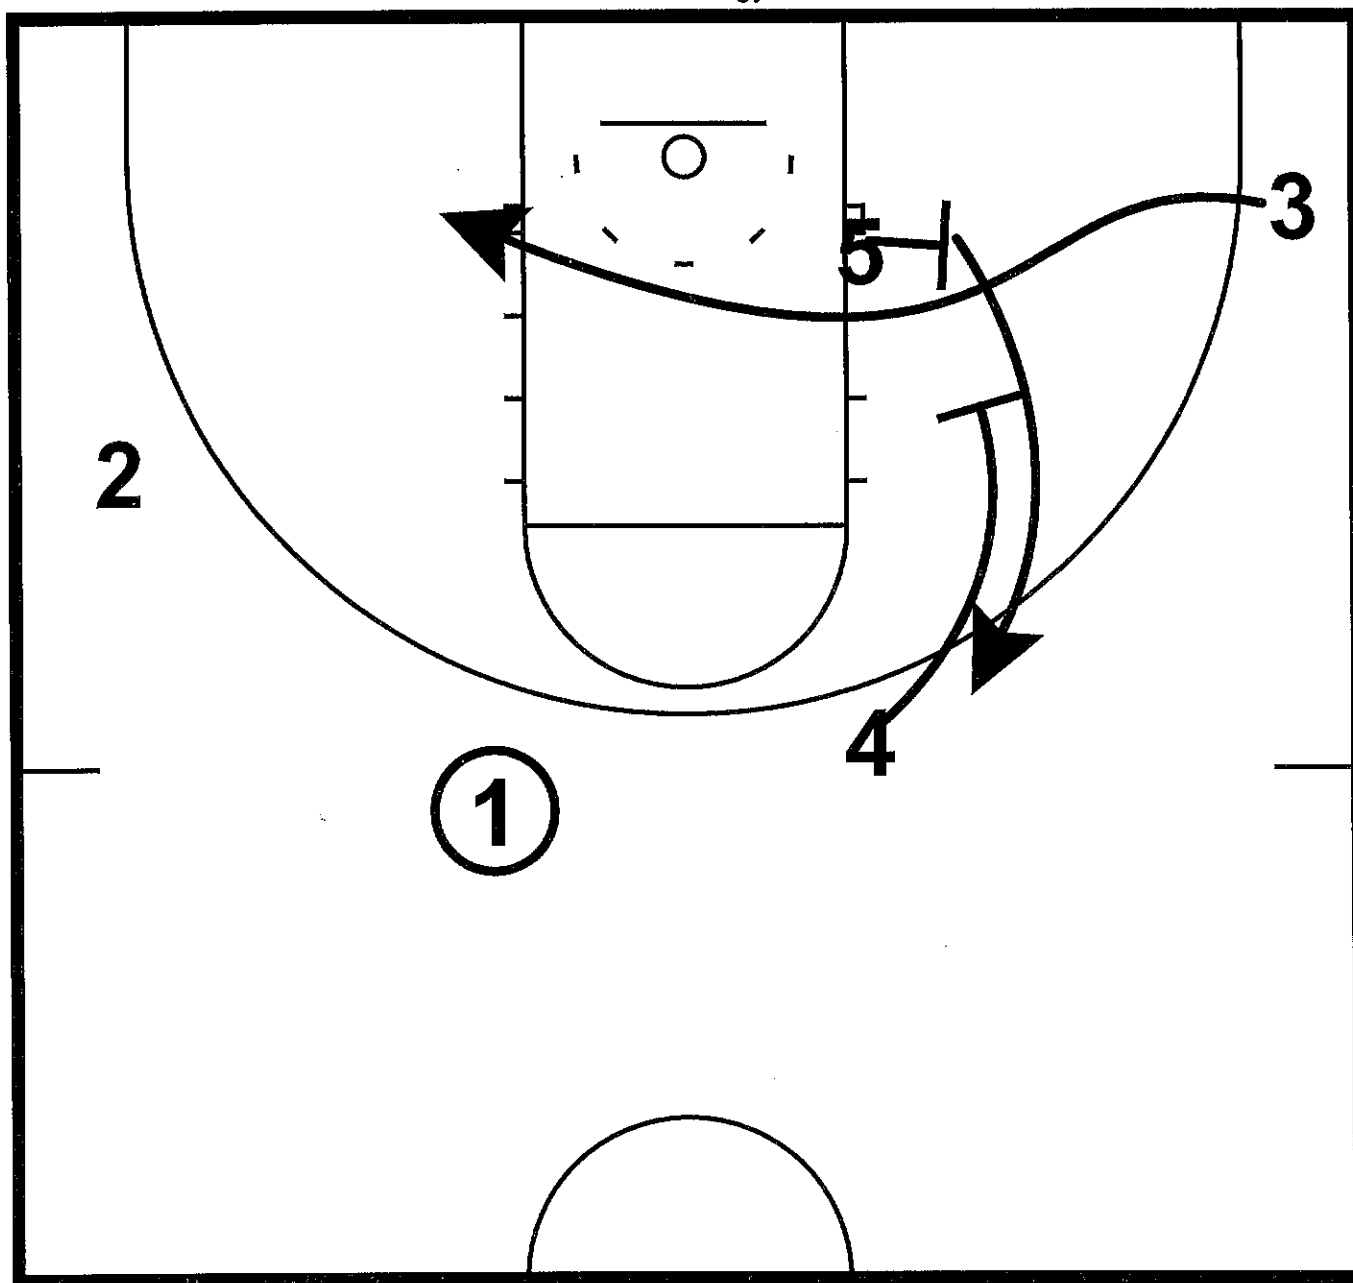

A flat ball screen is set on the perimeter with the screener's back to the baseline.

Terminology - Actions/Plays

Flex

Frame 1
Terminology

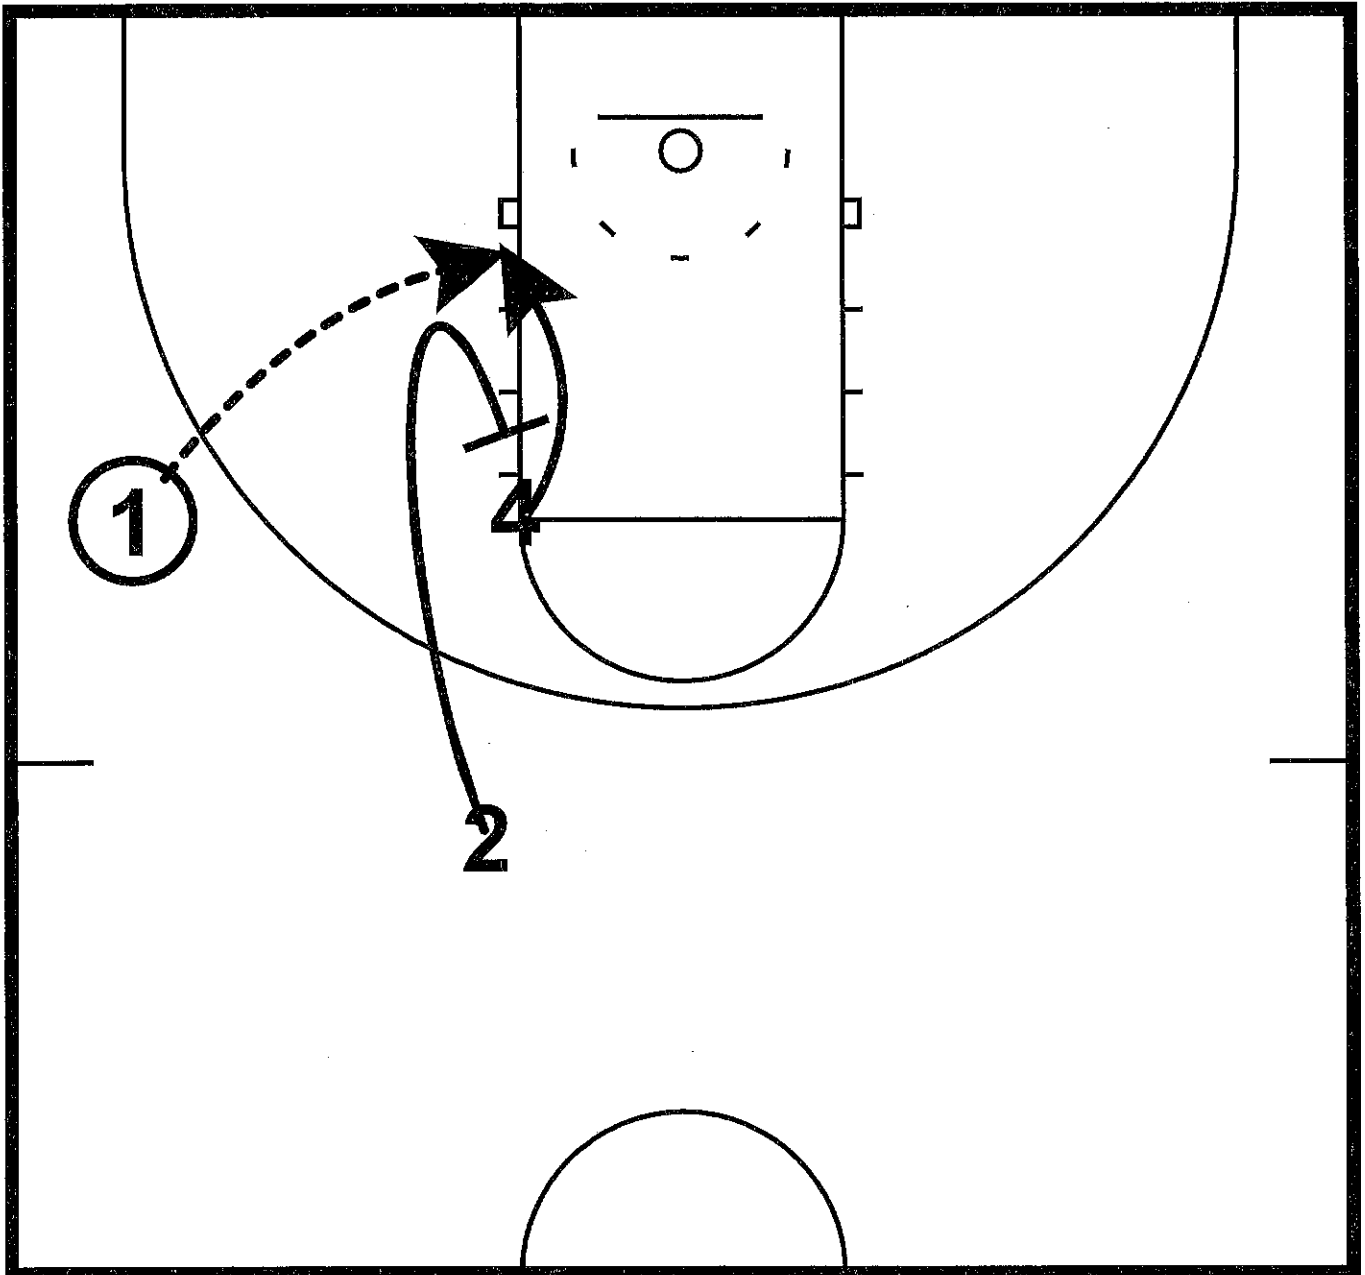

Flex is a combination cross screen/down screen. The cross screen is typically set at the block for a player to cut from the corner to the ball side low post.

Terminology - Actions/Plays

Flip

Frame 1
Terminology

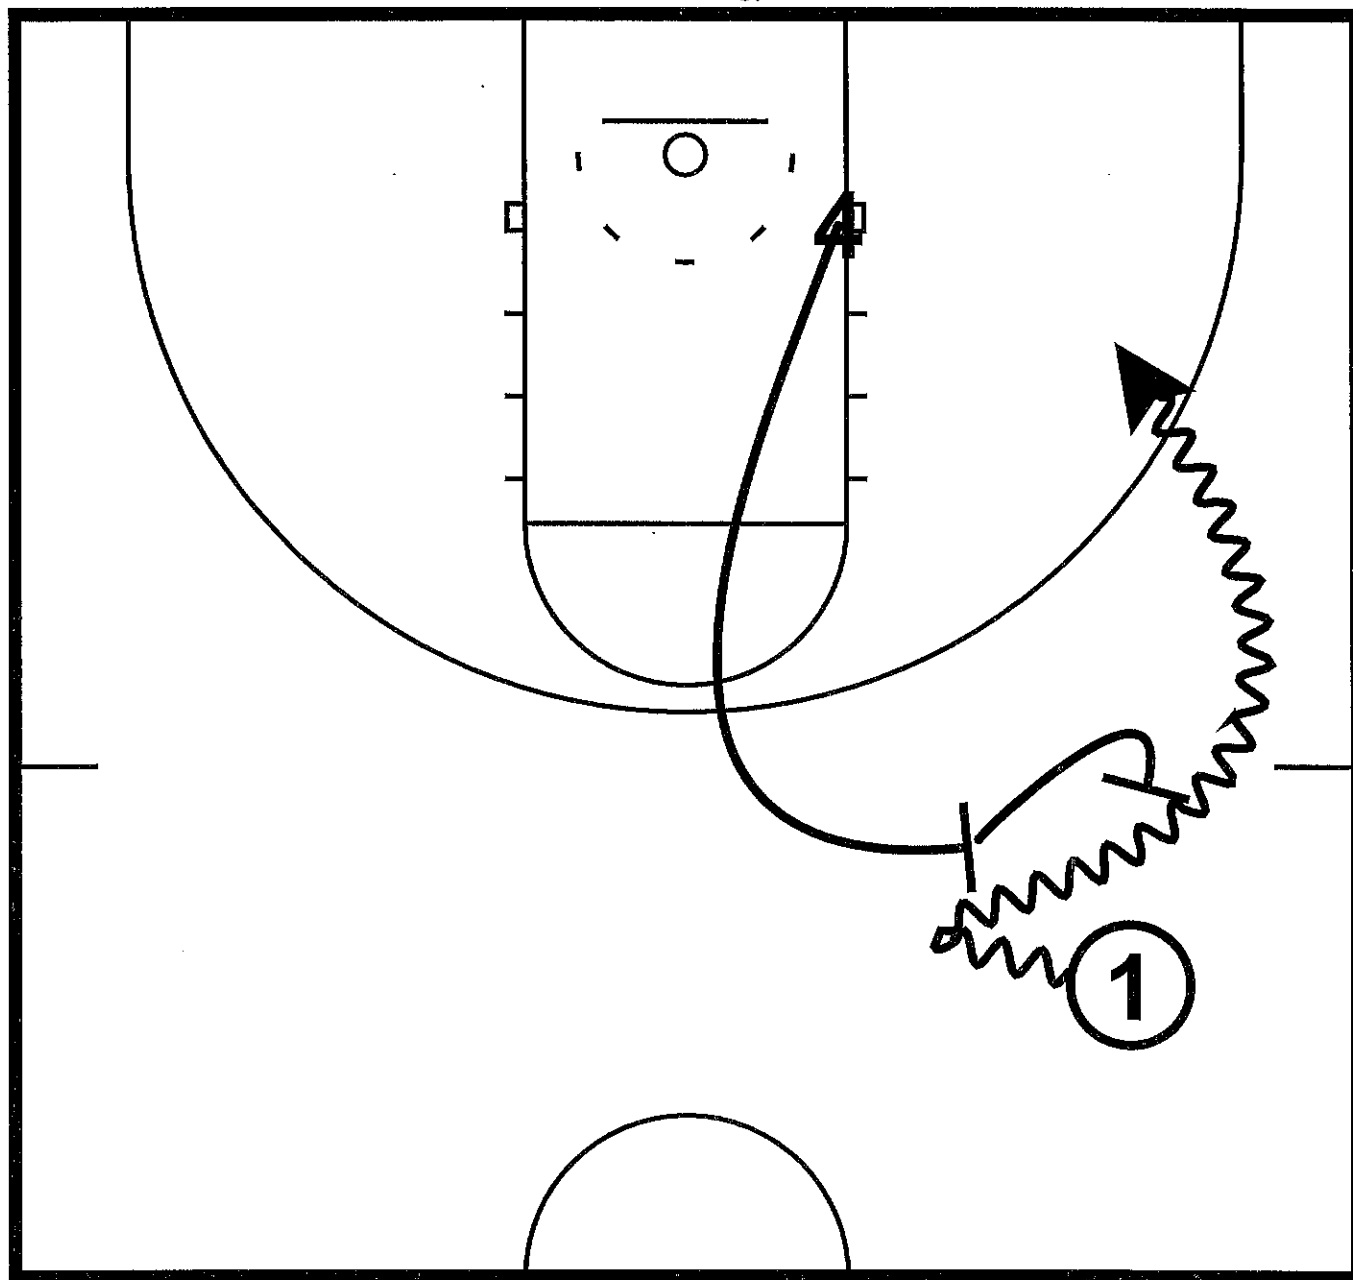

Flip is when a cutter flips around to become the screener.

Terminology - Actions/Plays

Flip Ball Screen

Frame 1
Terminology

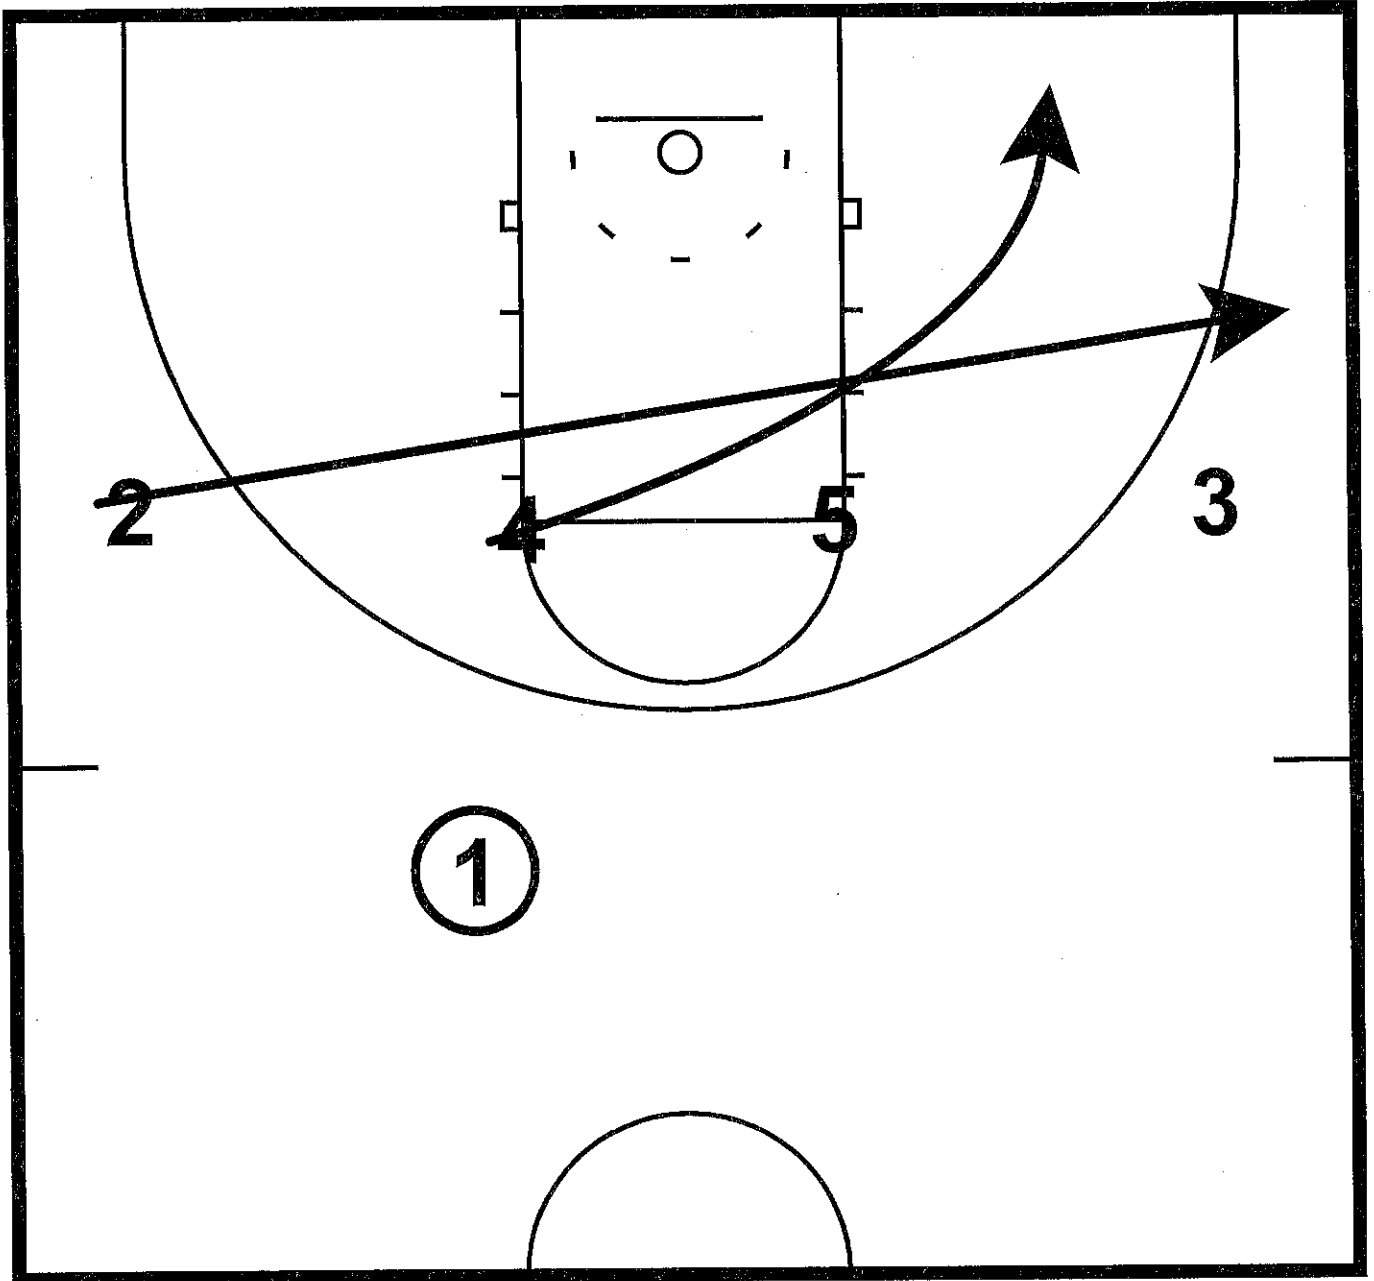

A flip ball screen is when the screener switches the direction of his ball screen.

Terminology - Actions/Plays

Flood

Frame 1

Terminology

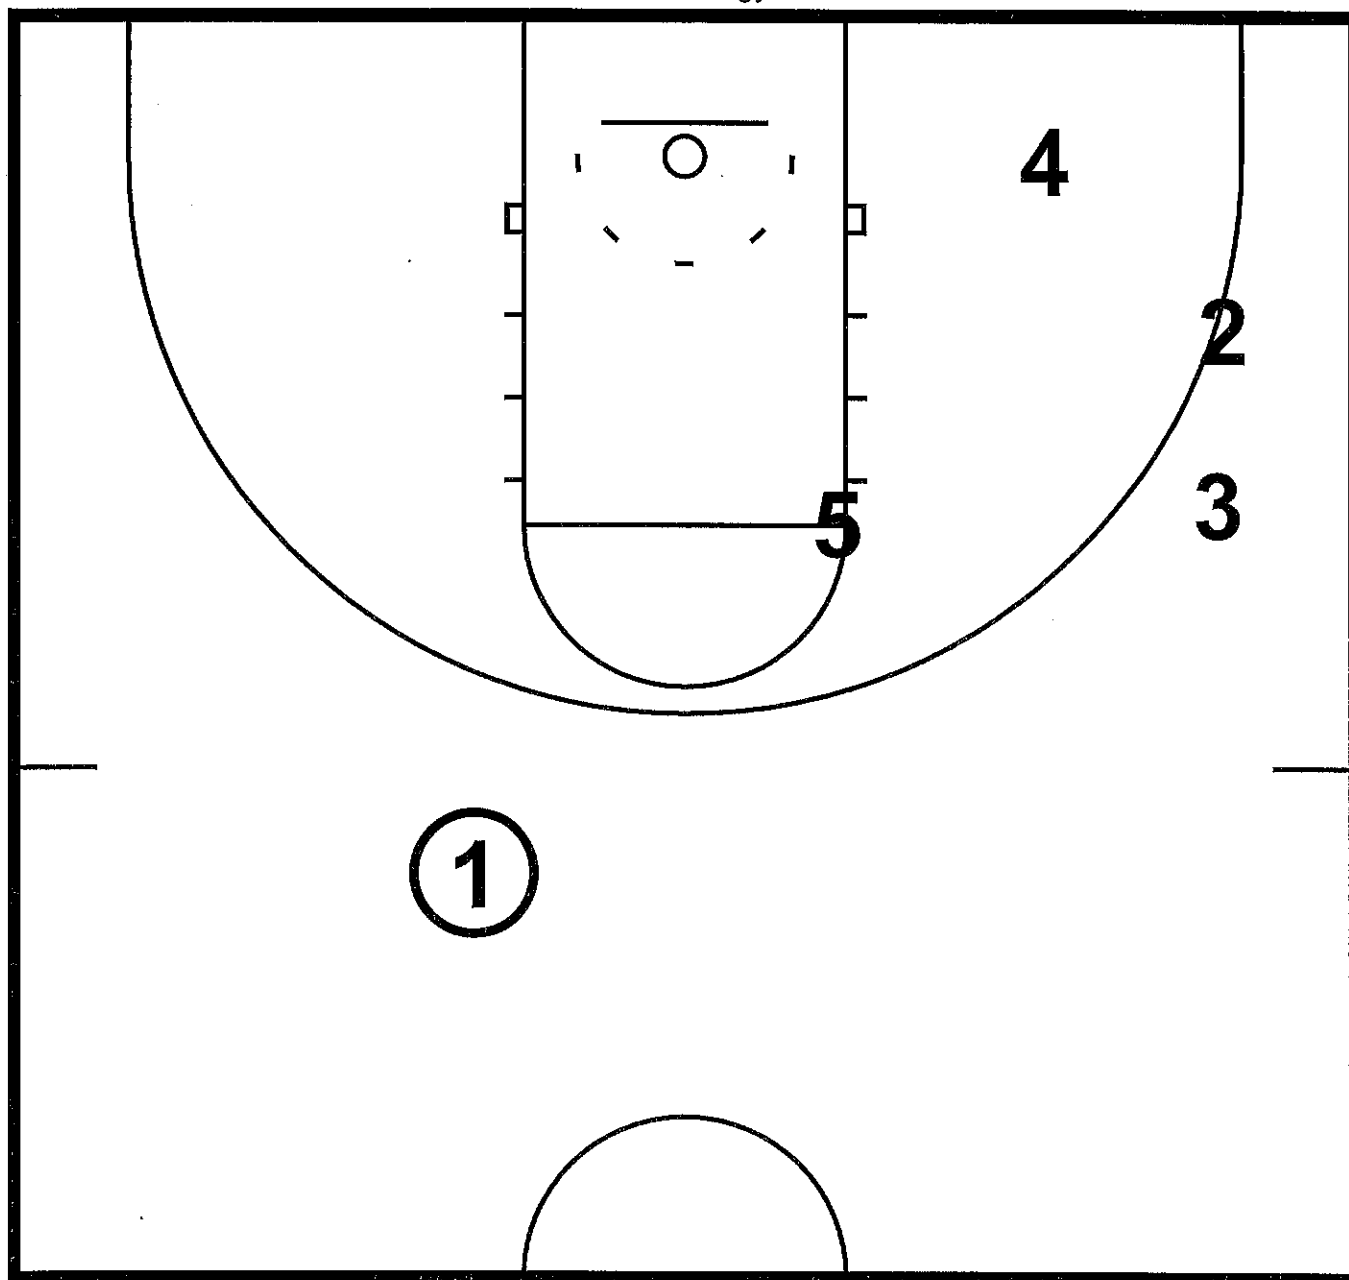

Flood is when two or more players quickly move to one side of the floor creating an overload.

Terminology - Actions/Plays

Flood

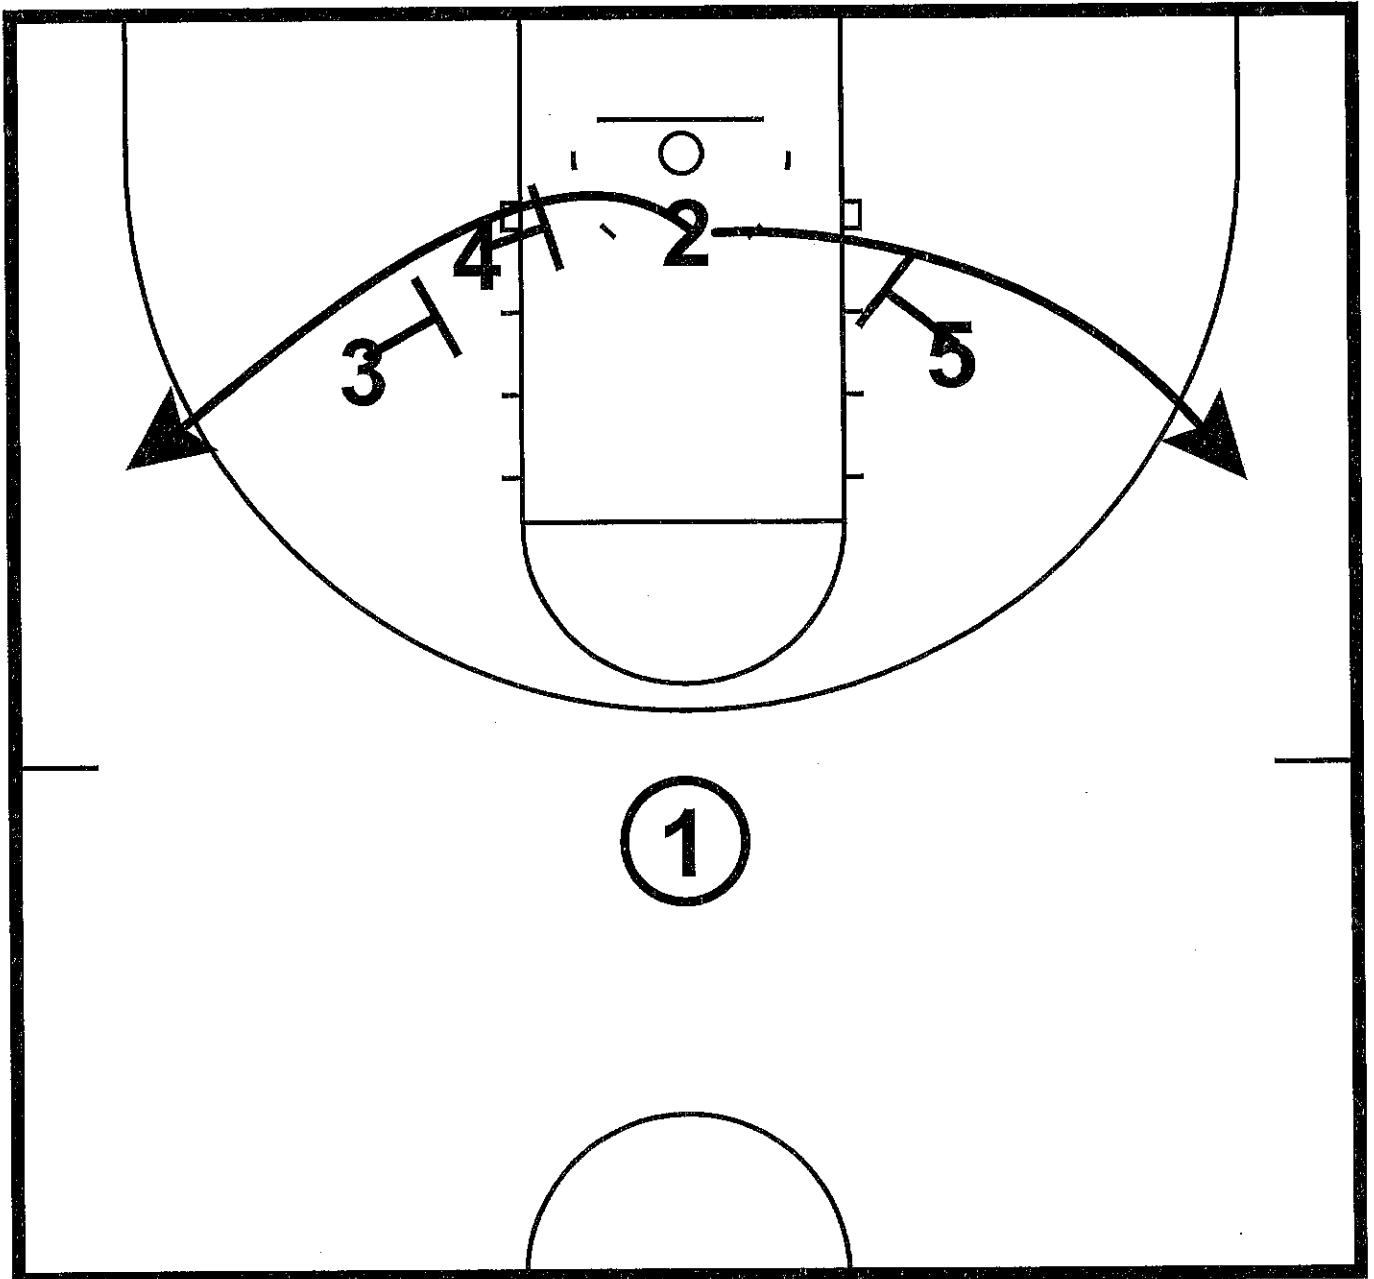

Frame 2
Terminology

Terminology - Actions/Plays

Floppy (Single Double)

Frame 1
Terminology

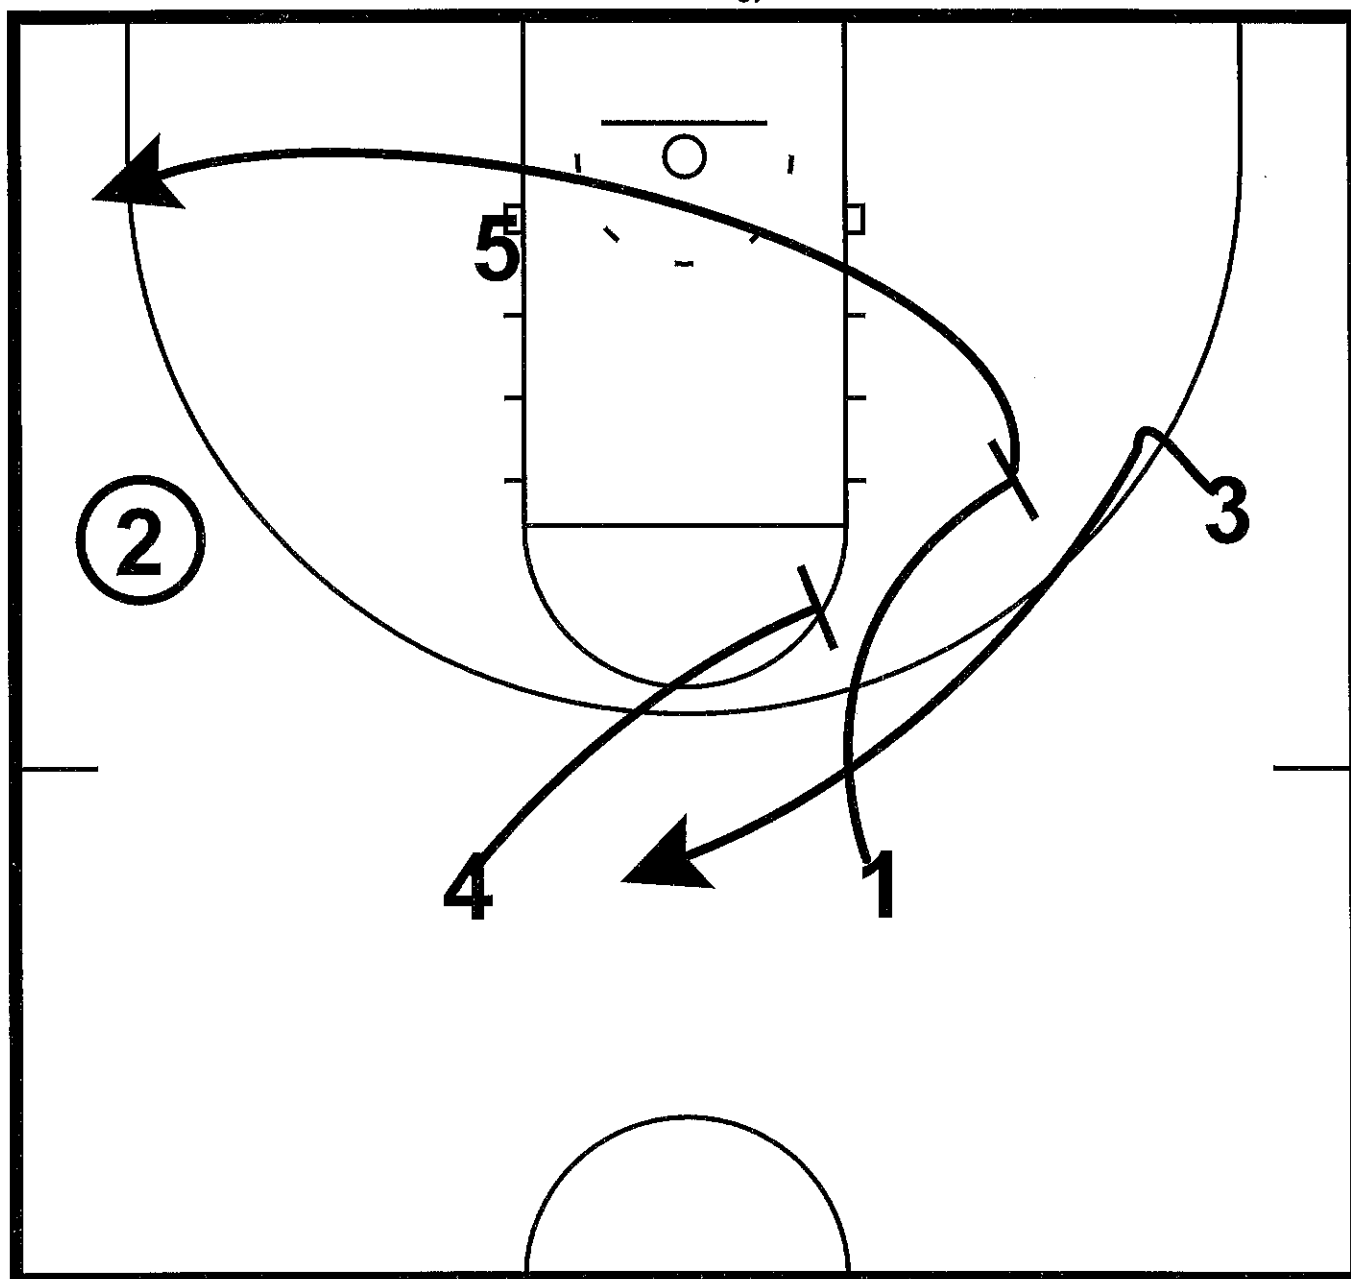

Floppy is when a shooter (2) has the option to cut off of a single screen or staggered screen.

Terminology - Actions/Plays

Gaggle

Frame 1
Terminology

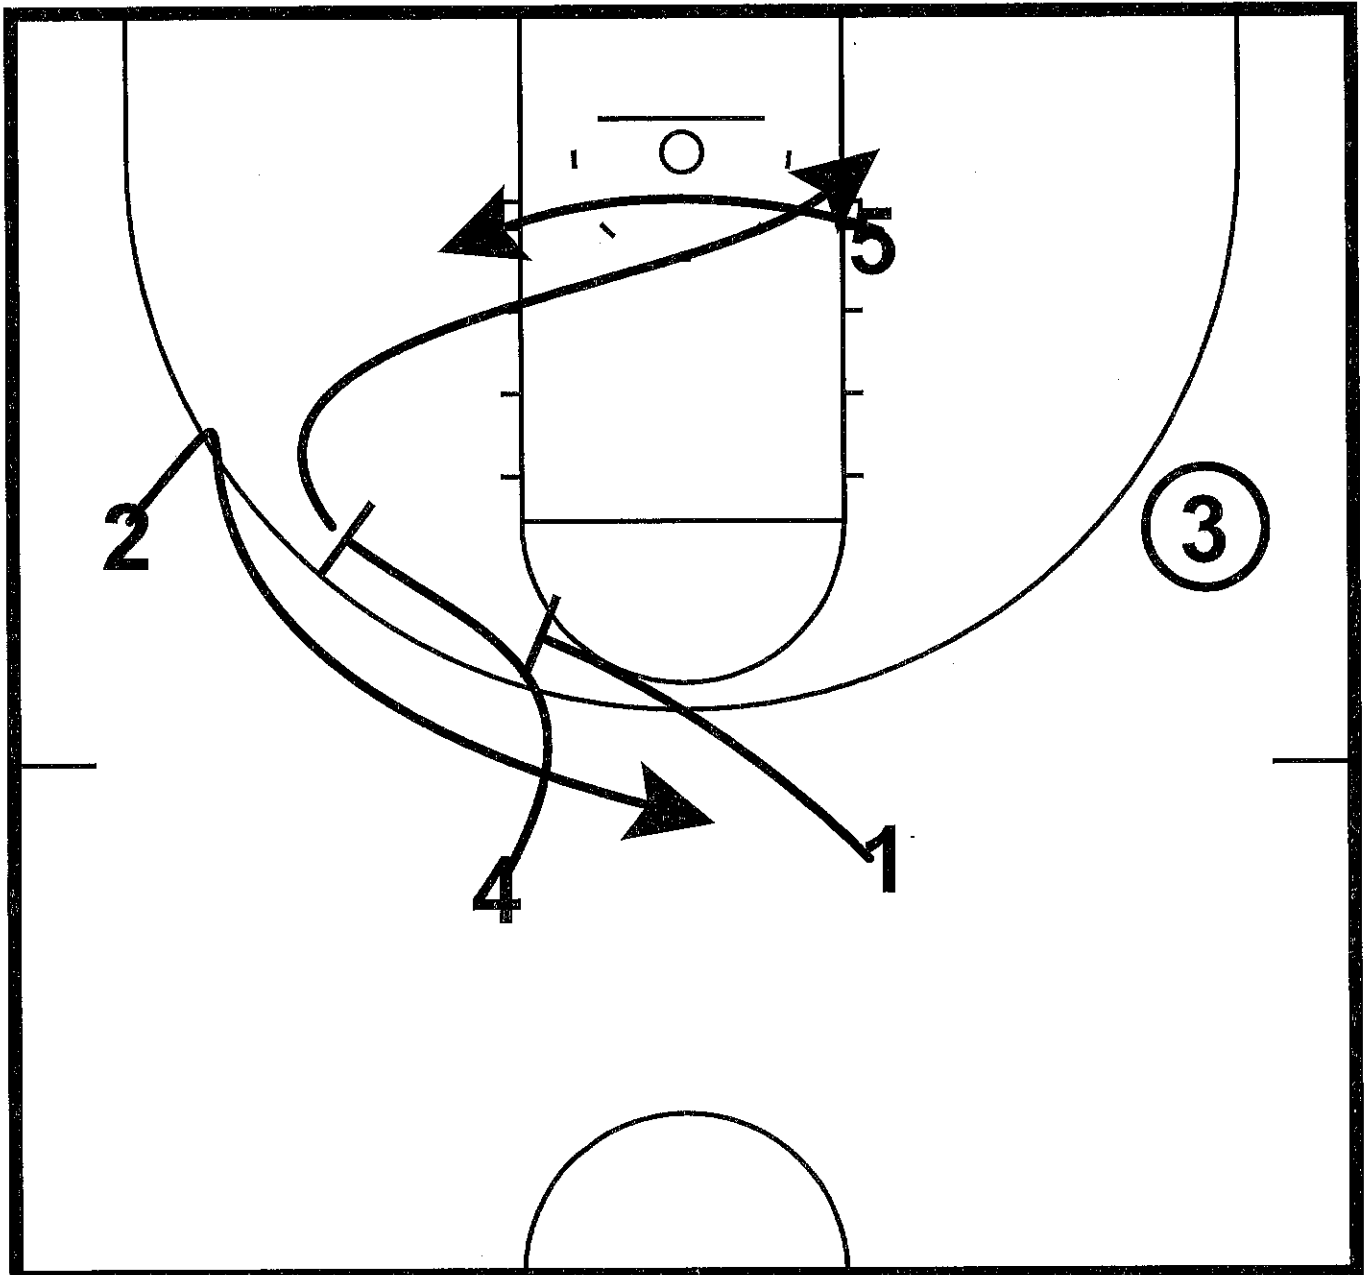

In gaggle, the 1st screener in the staggered screen cuts to the opposite corner.

Terminology - Actions/Plays

Gaggle Post

Frame 1
 Terminology

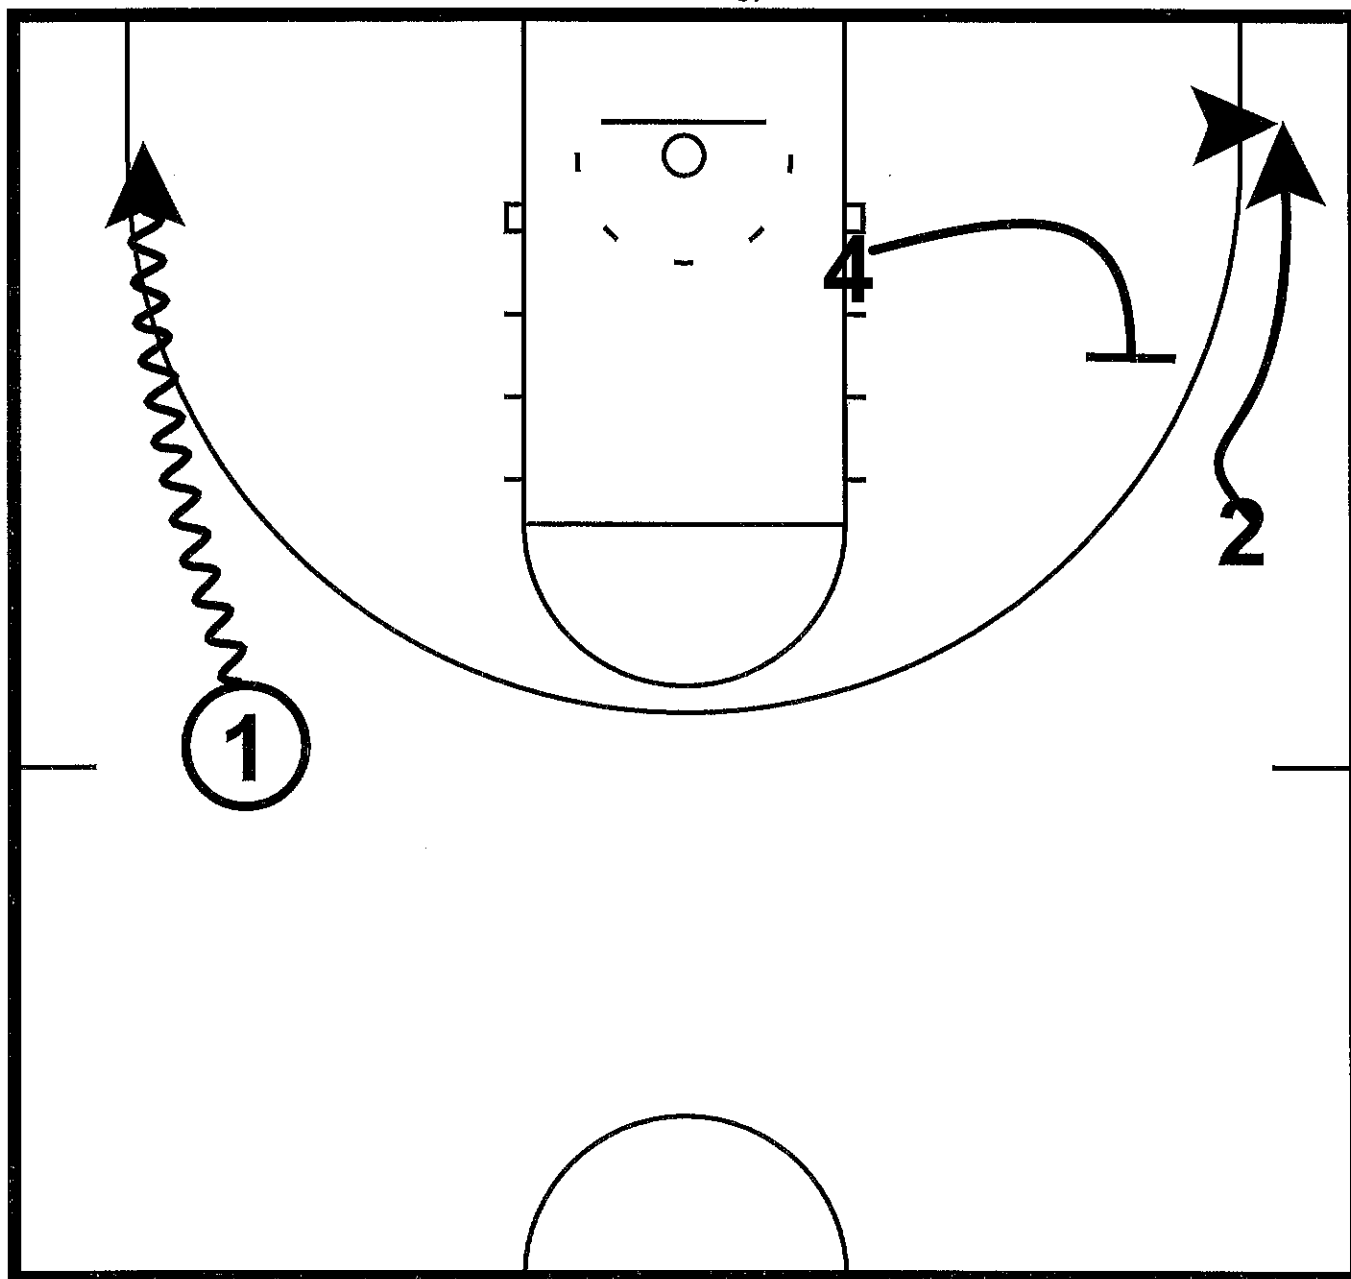

In gaggle post, the 1st screener in the stagger cuts to the opposite block for a post up.

Terminology - Actions/Plays

Hammer

Frame 1
Terminology

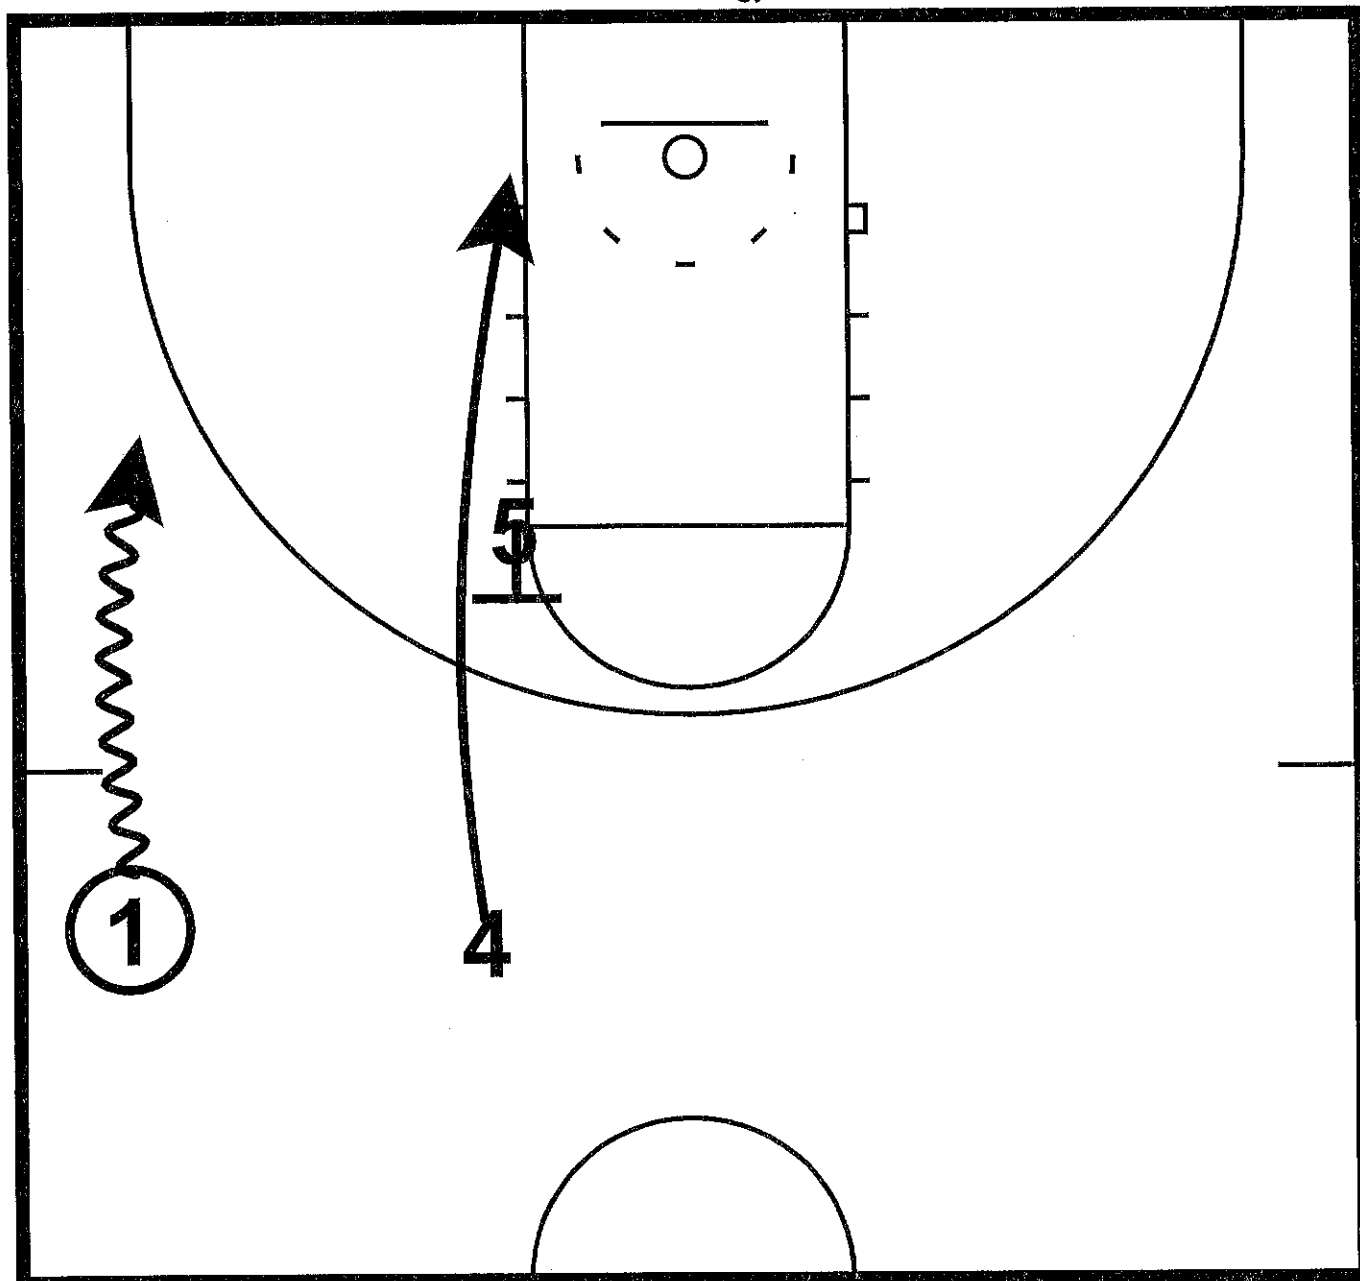

A hammer screen is when a player sets a back screen for another player to cut to the corner for a shot.

Terminology - Actions/Plays

Hawk

Frame 1
Terminology

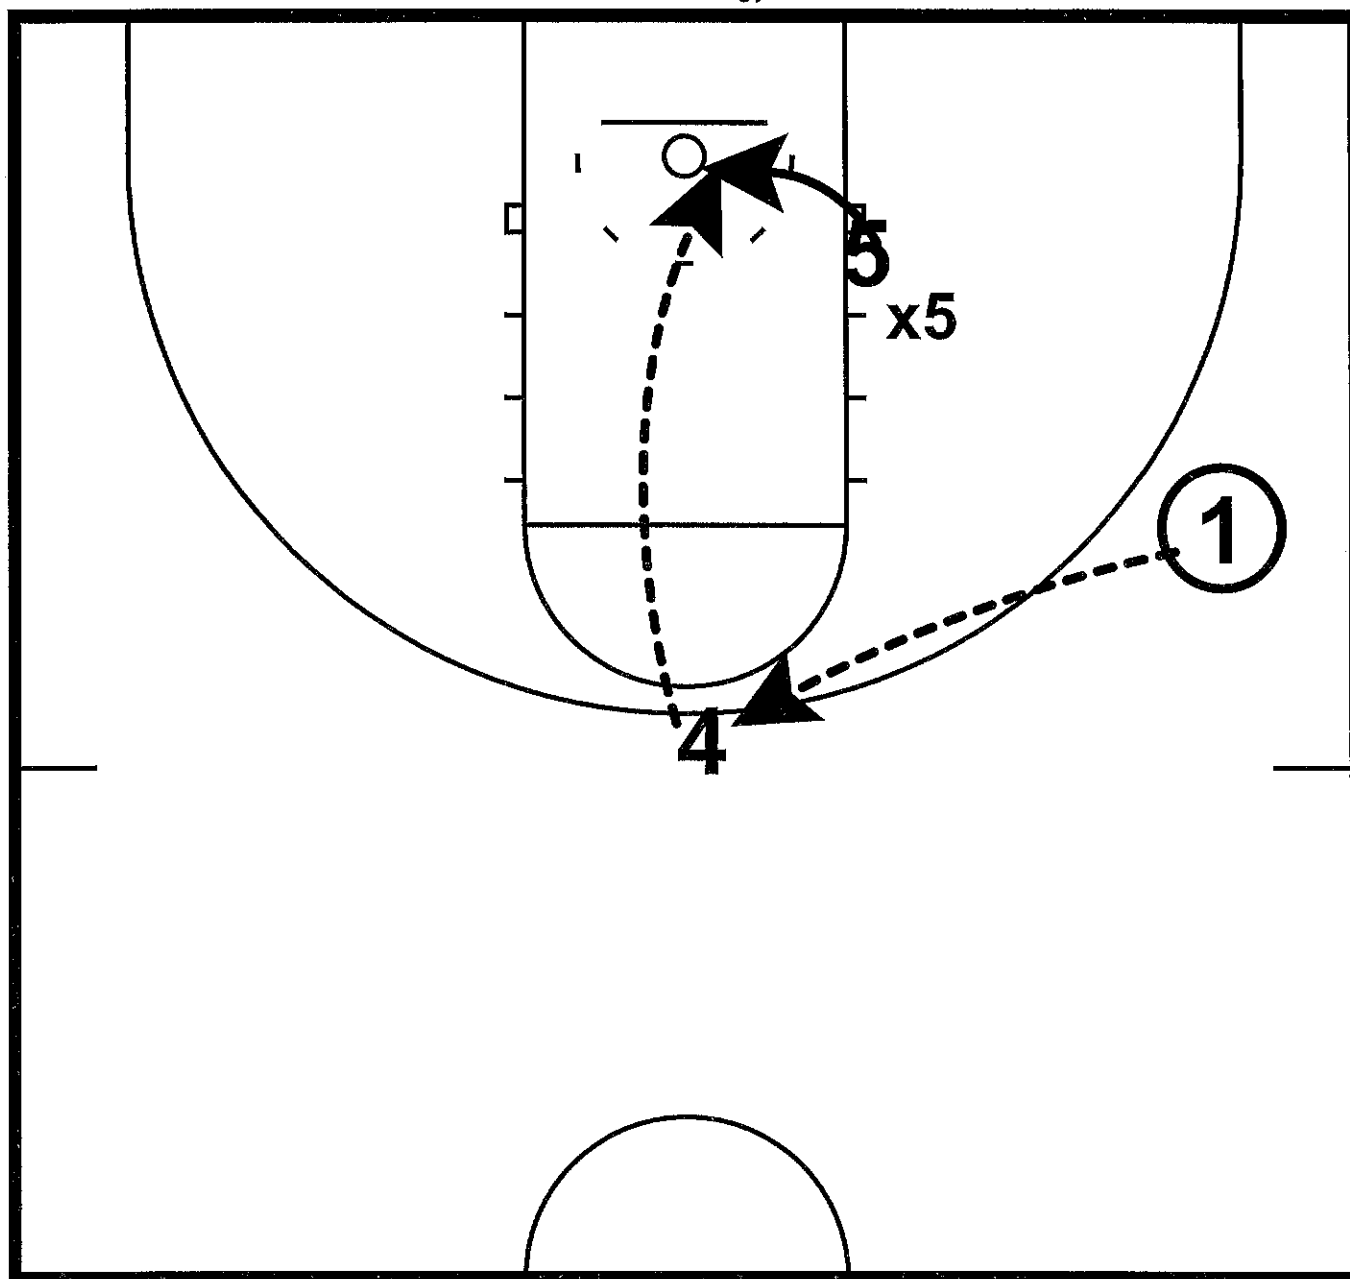

Hawk, from the Atlanta Hawks, is a UCLA cut in transition for the trailing 4 man.

Terminology - Actions/Plays

Hi/Lo

Frame 1
 Terminology

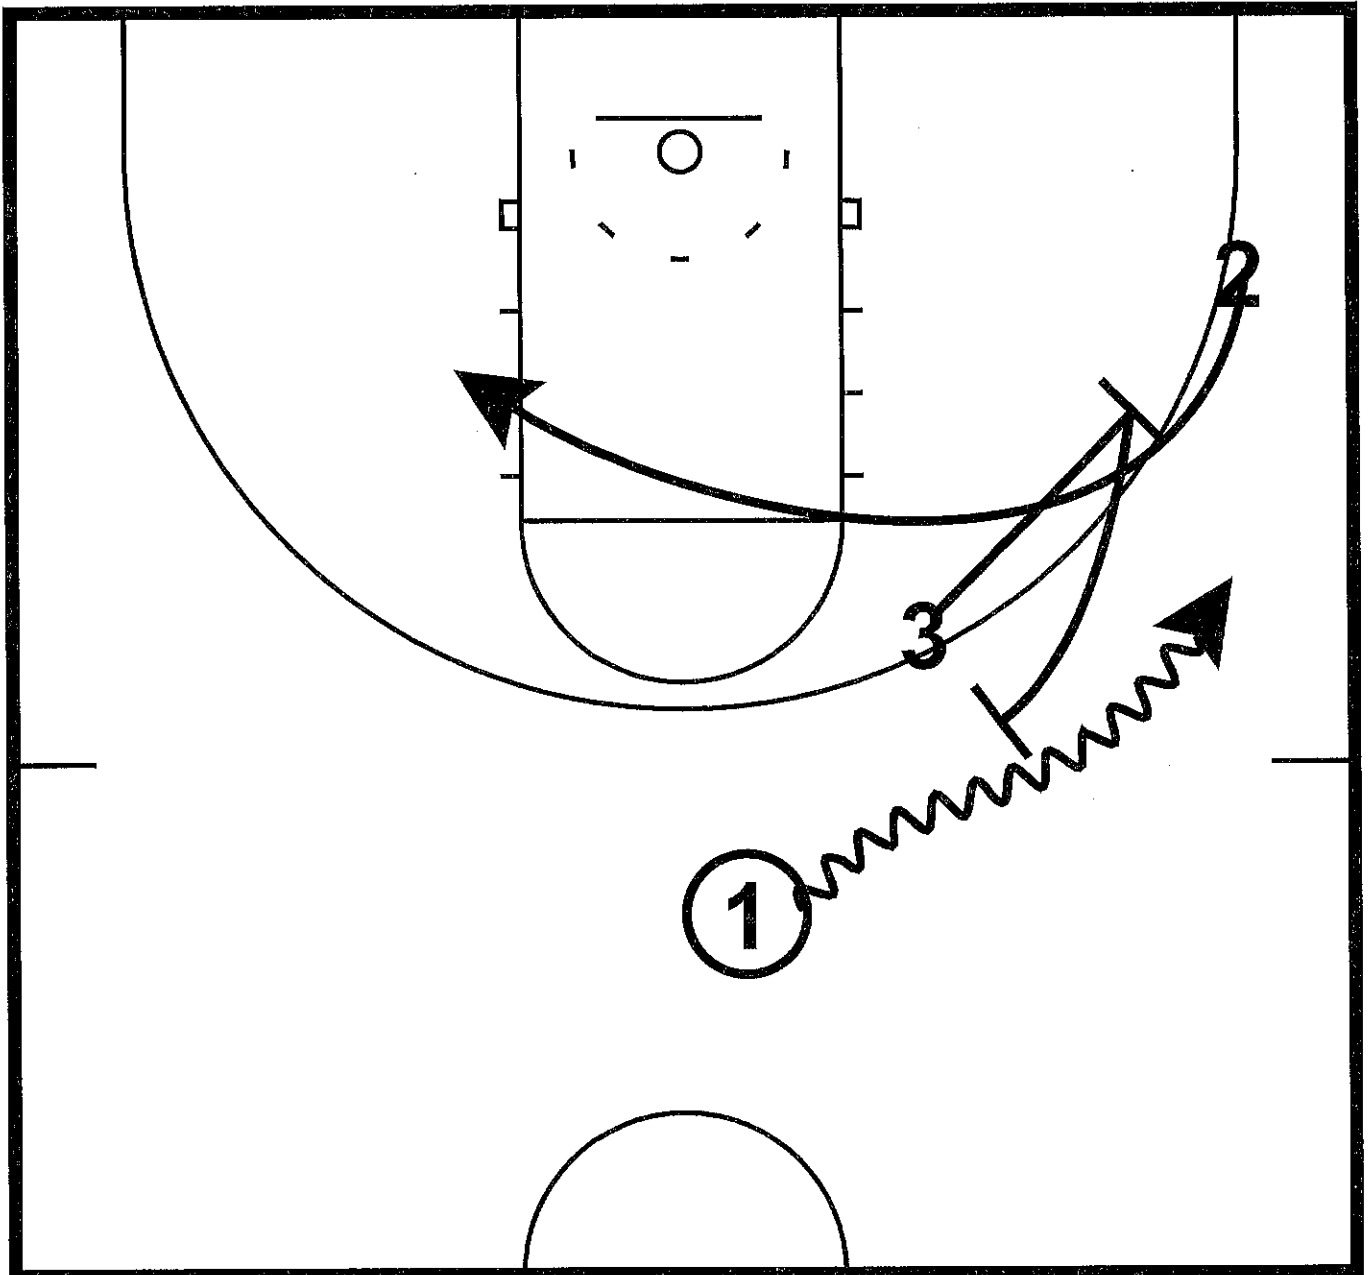

Hi/Lo is an action involving the high and low posts. Typically, the low post player makes a reverse seal for the hi/lo pass.

Terminology - Actions/Plays

Hook

Frame 1
Terminology

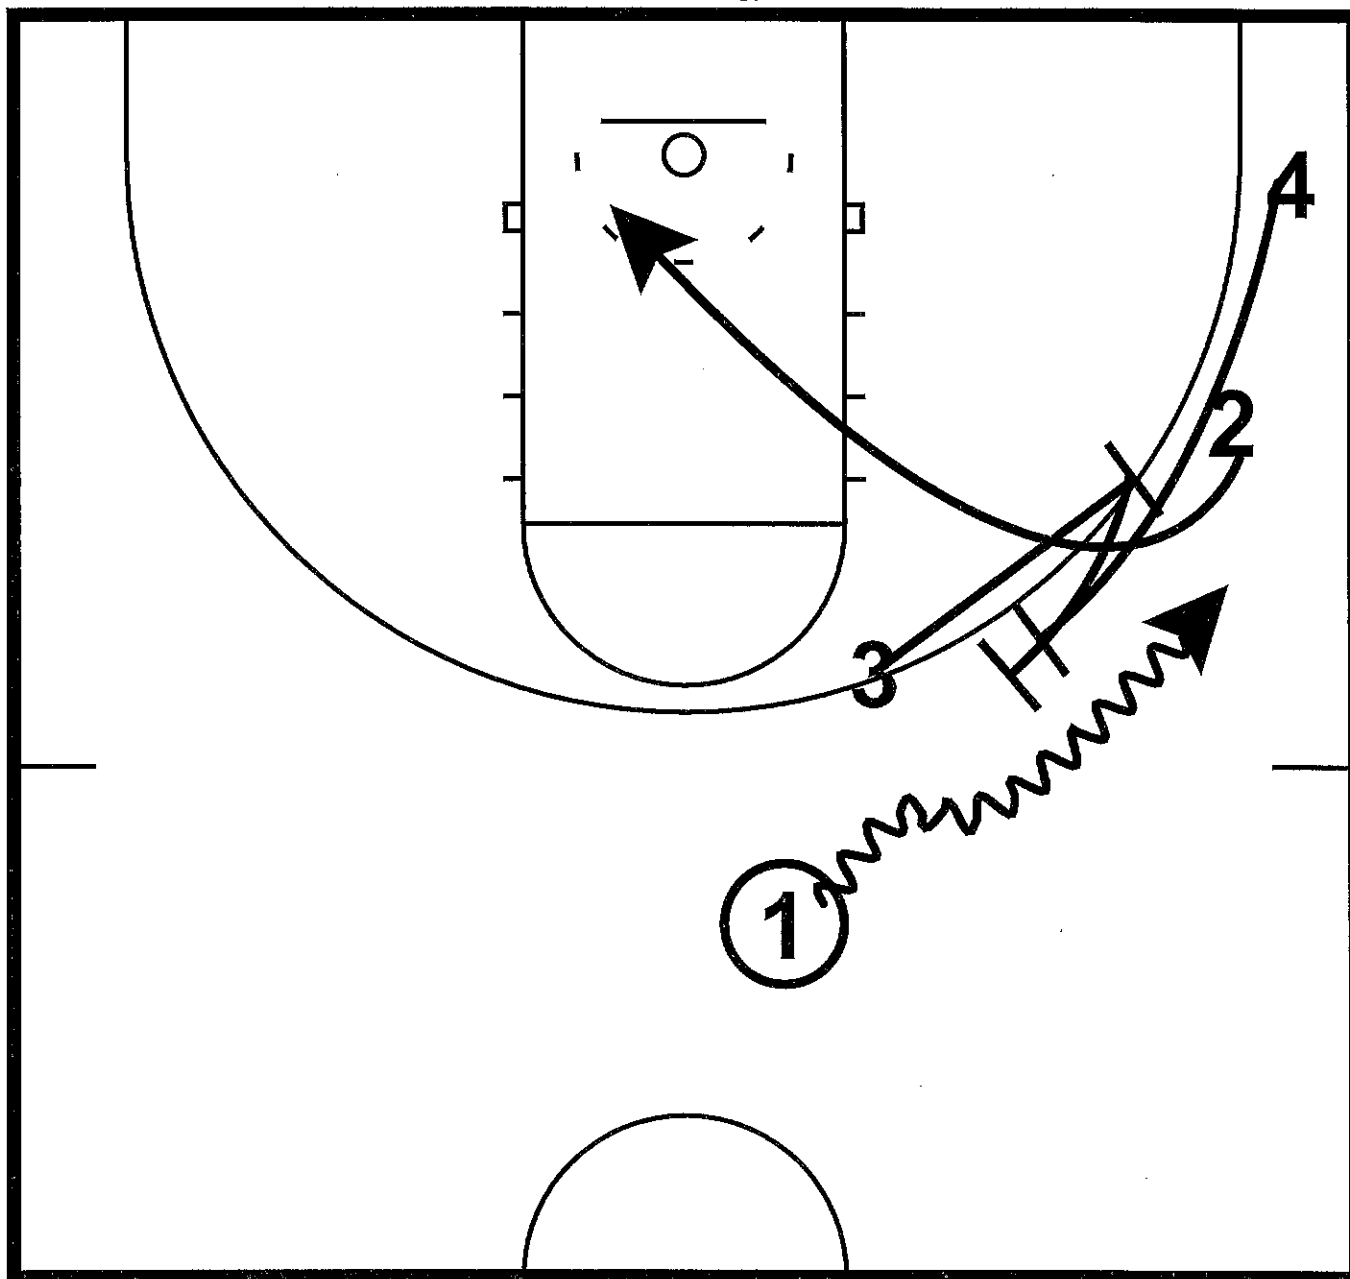

Hook is when a player curls a down screen and the screener turns around to set a ball screen.

Terminology - Actions/Plays

Hook Double

Frame 1
Terminology

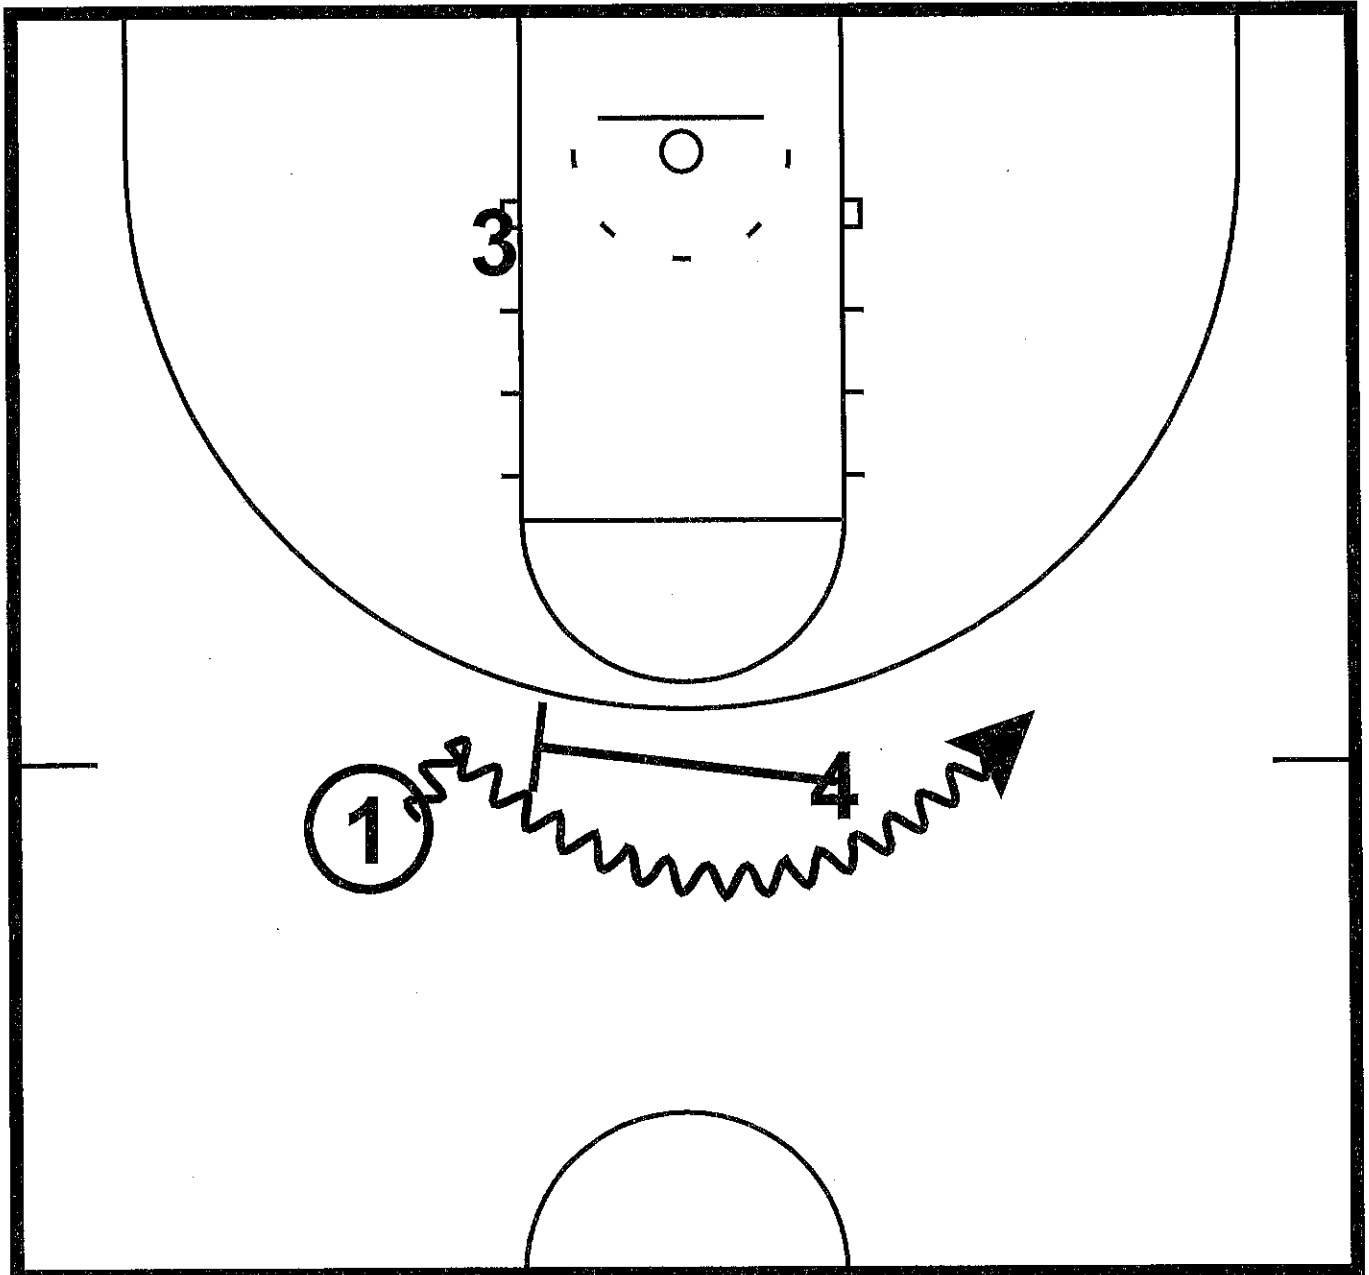

Hook double is when a player curls a down screen and the screener turns around to set a ball screen with an additional player.

Terminology - Actions/Plays

Hoosier

Frame 1
Terminology

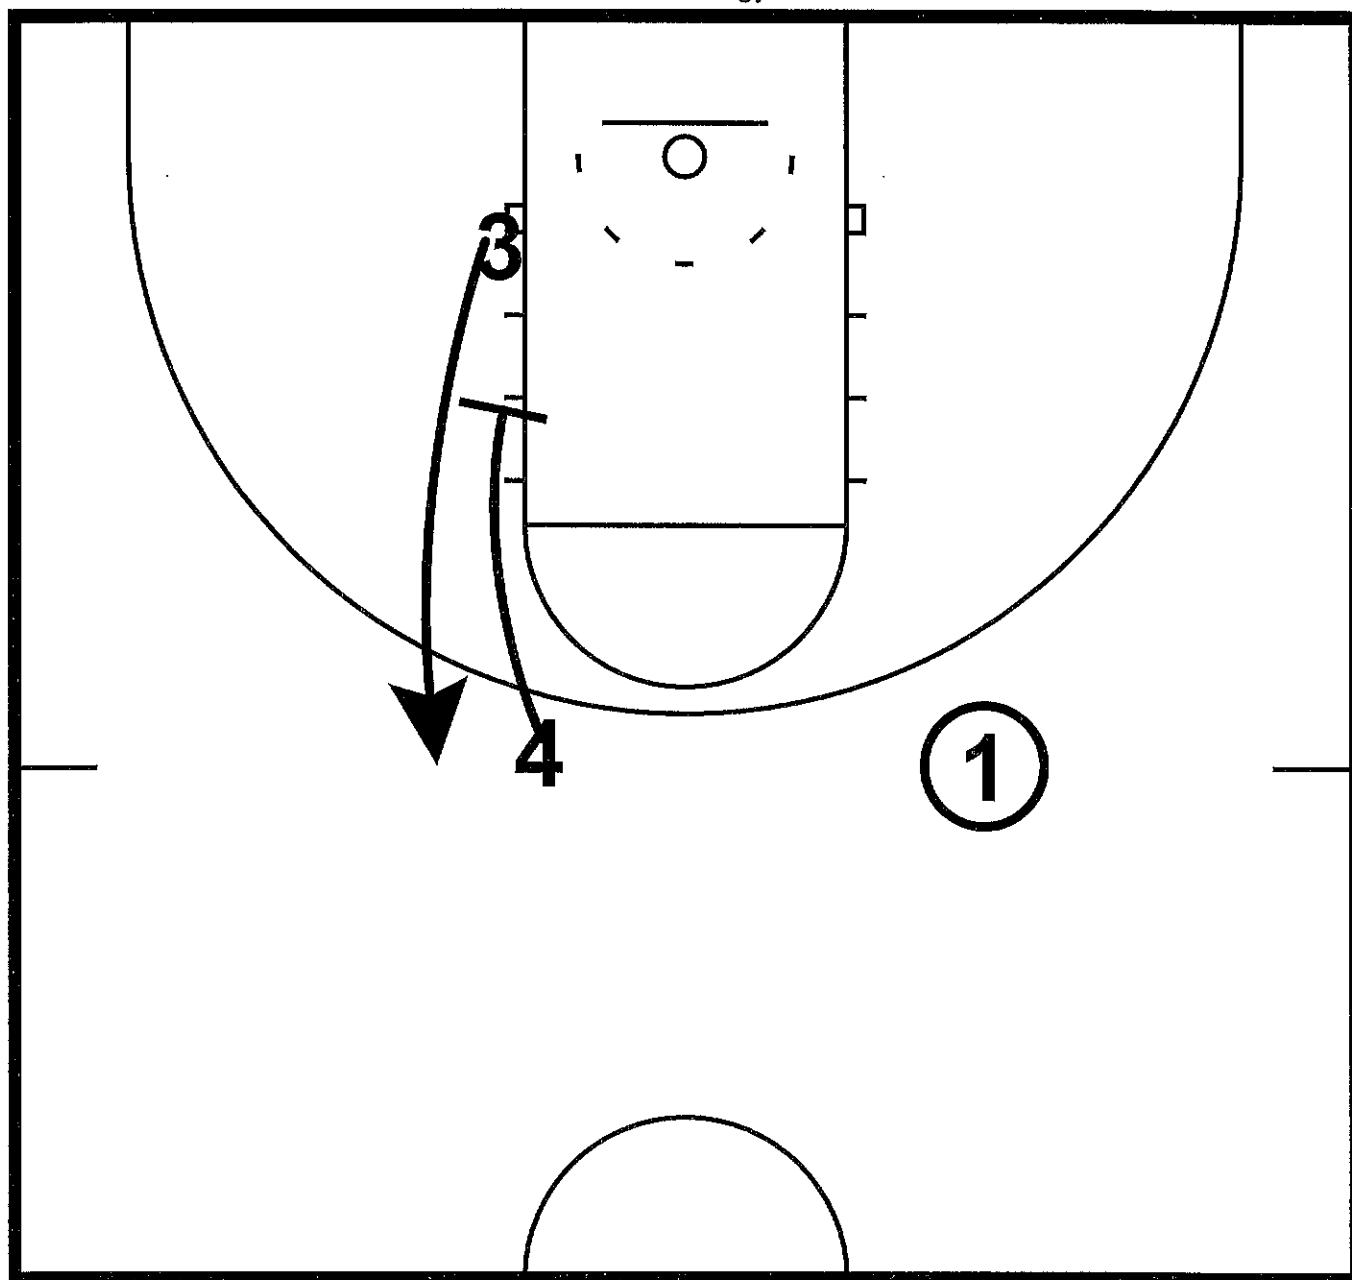

Hoosier is a ball screen directly into a down screen (instead of the screener rolling).

Terminology - Actions/Plays

Hoosier

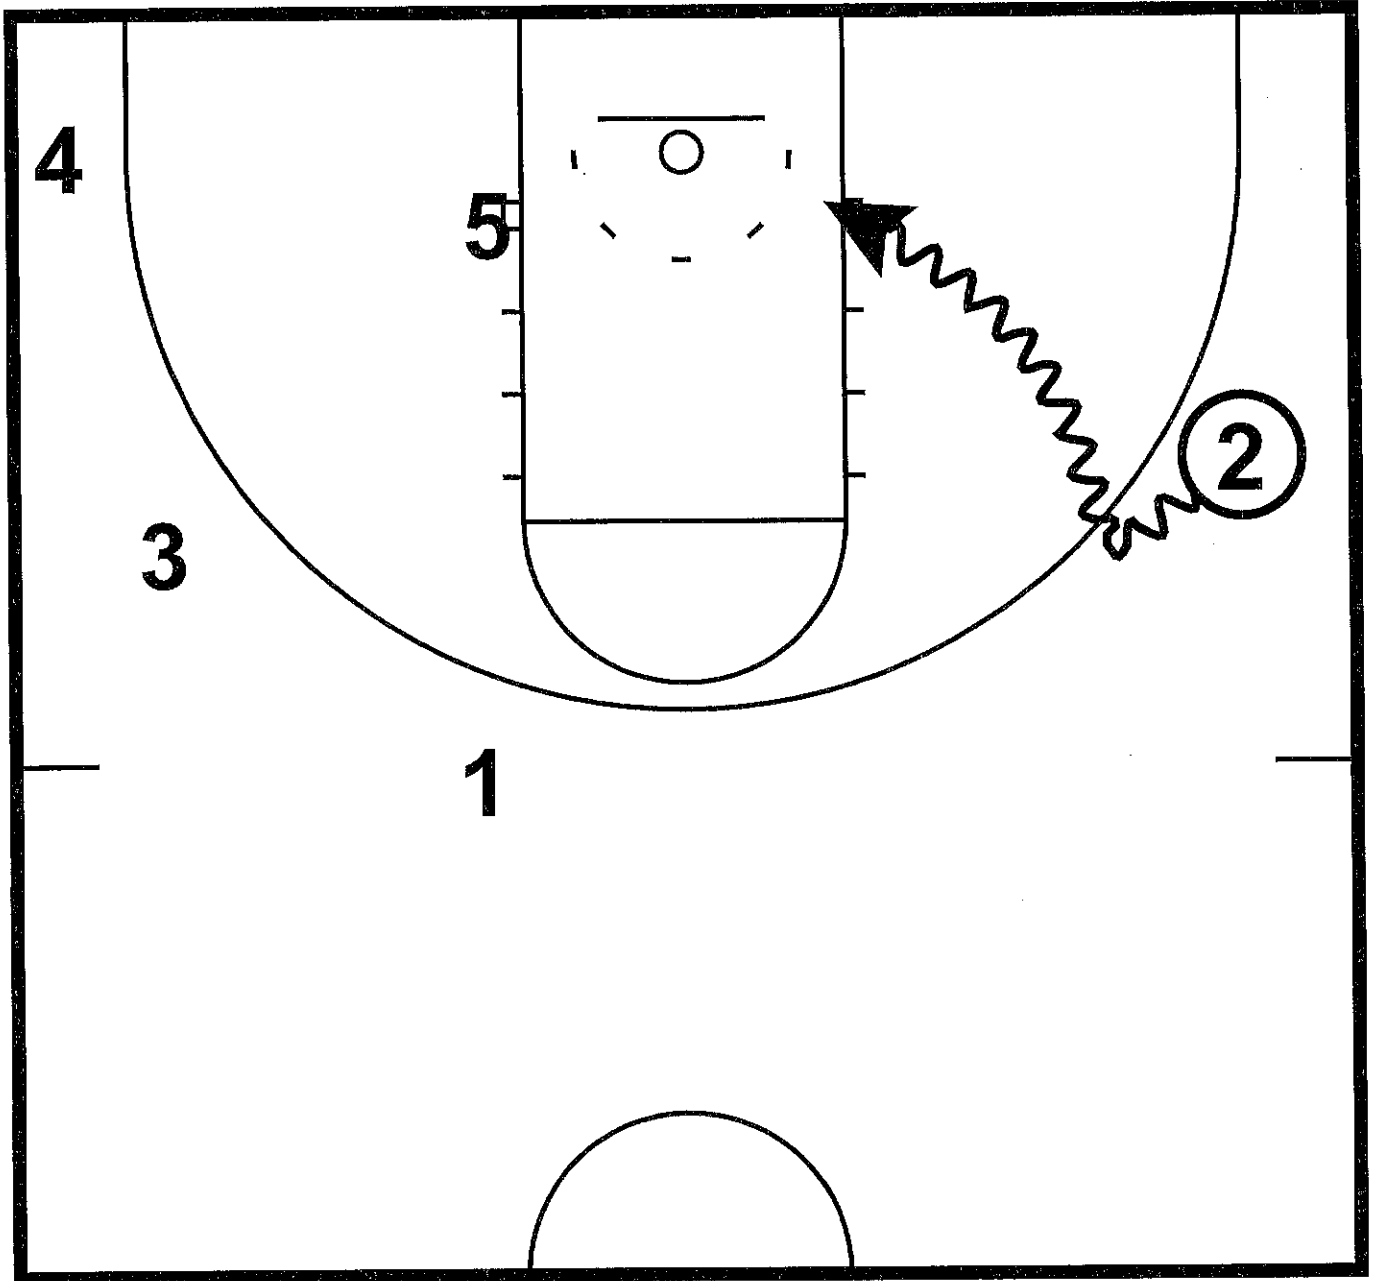

Frame 2
Terminology

Terminology - Actions/Plays

Iso

Frame 1
 Terminology

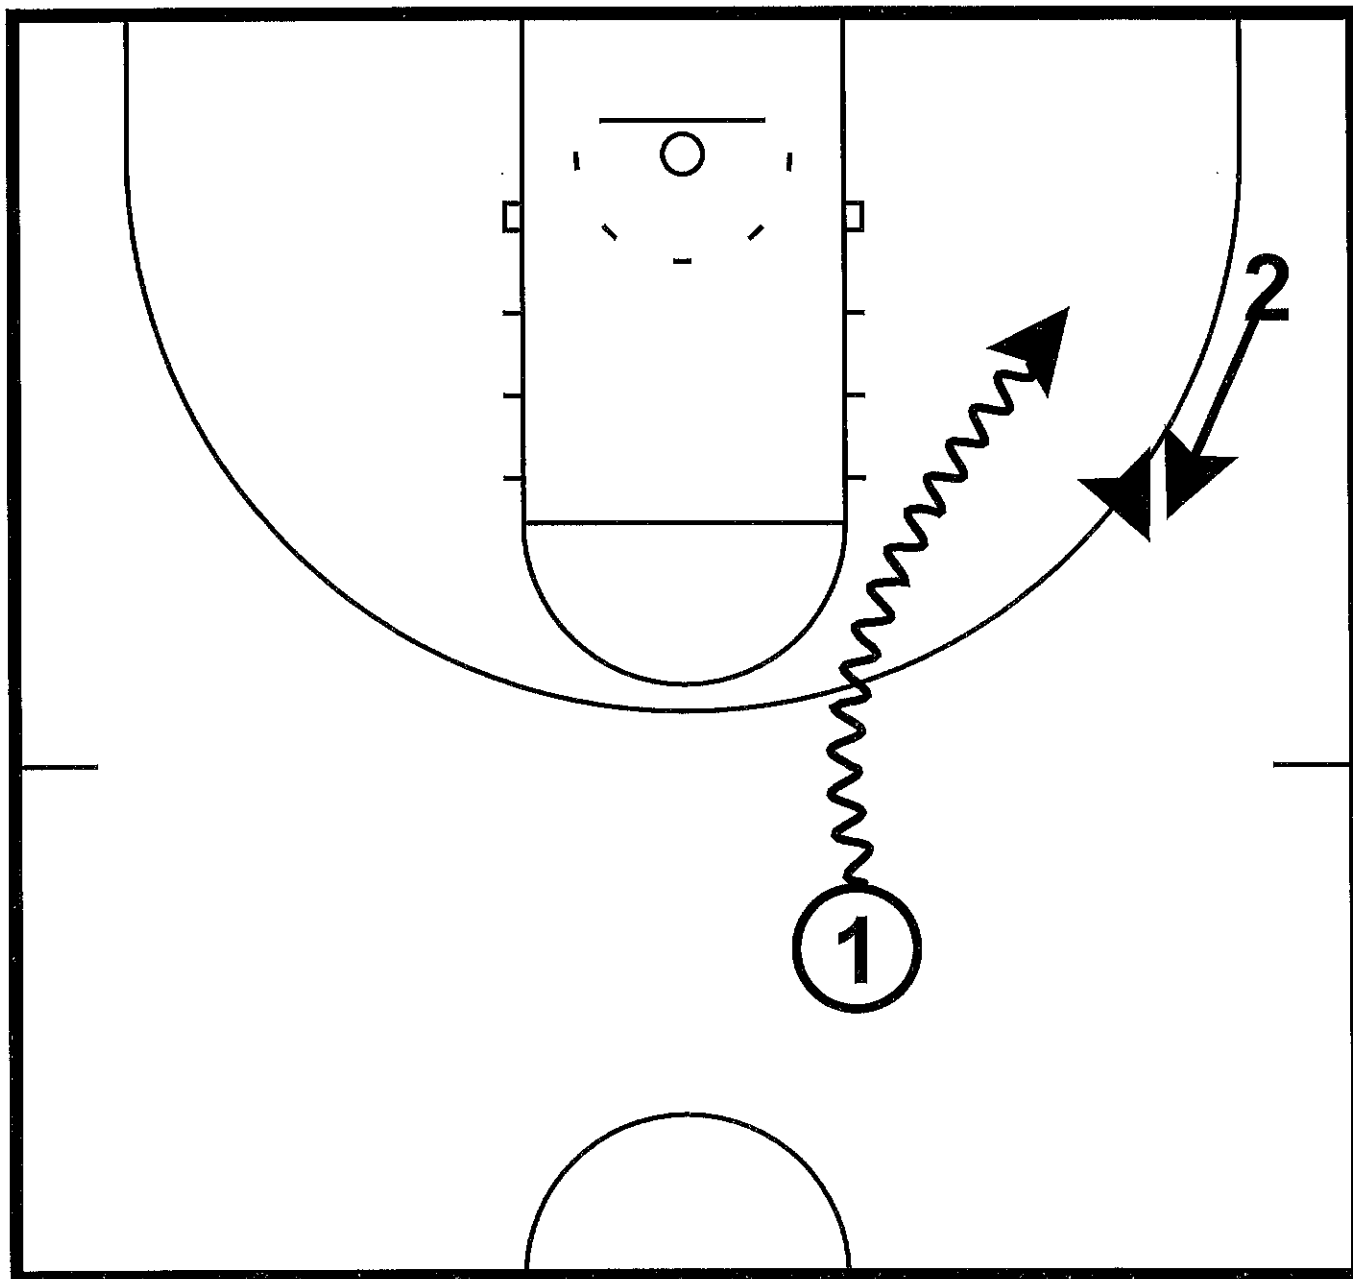

Iso, or isolation, is when the ballhandler has a side of the floor to create a scoring opportunity.

Terminology - Actions/Plays

Jayhawk

Frame 1
Terminology

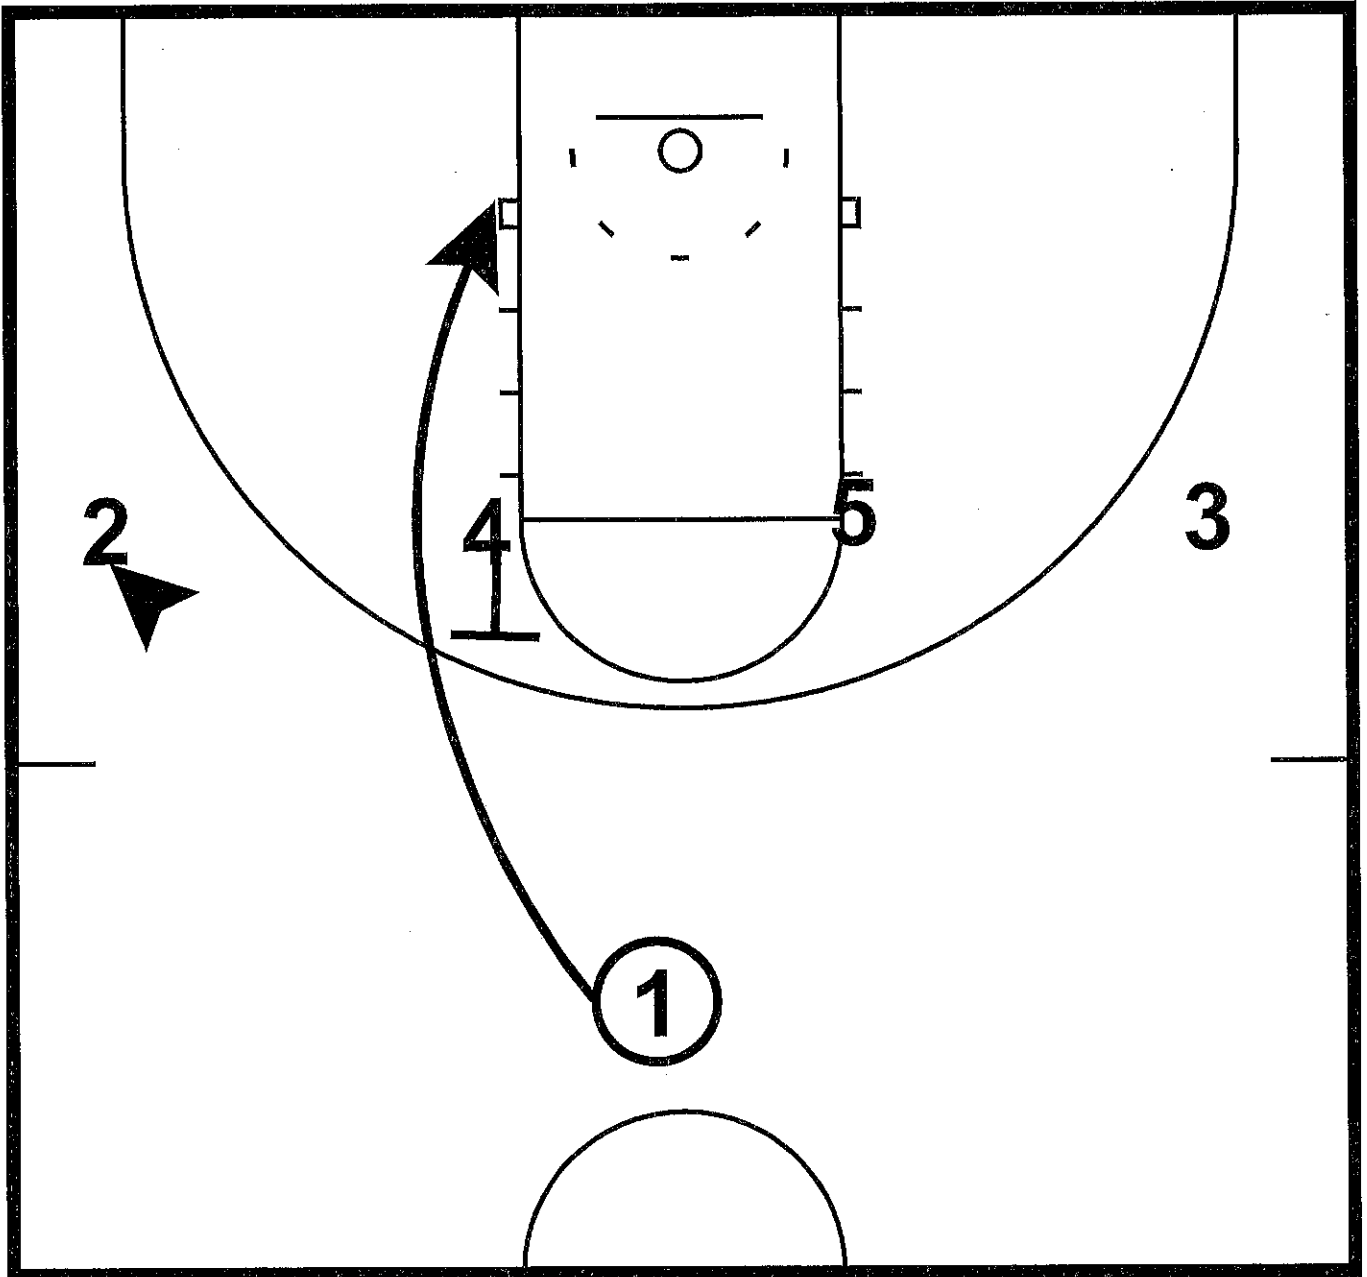

Jayhawk, named for Bill Self's play call when Mario Chalmers hit the 3-point shot against Memphis in 2008, is a quick handoff or pitch pass in transition.

Terminology - Actions/Plays

Jazz (Utah PTP)

Frame 1
Terminology

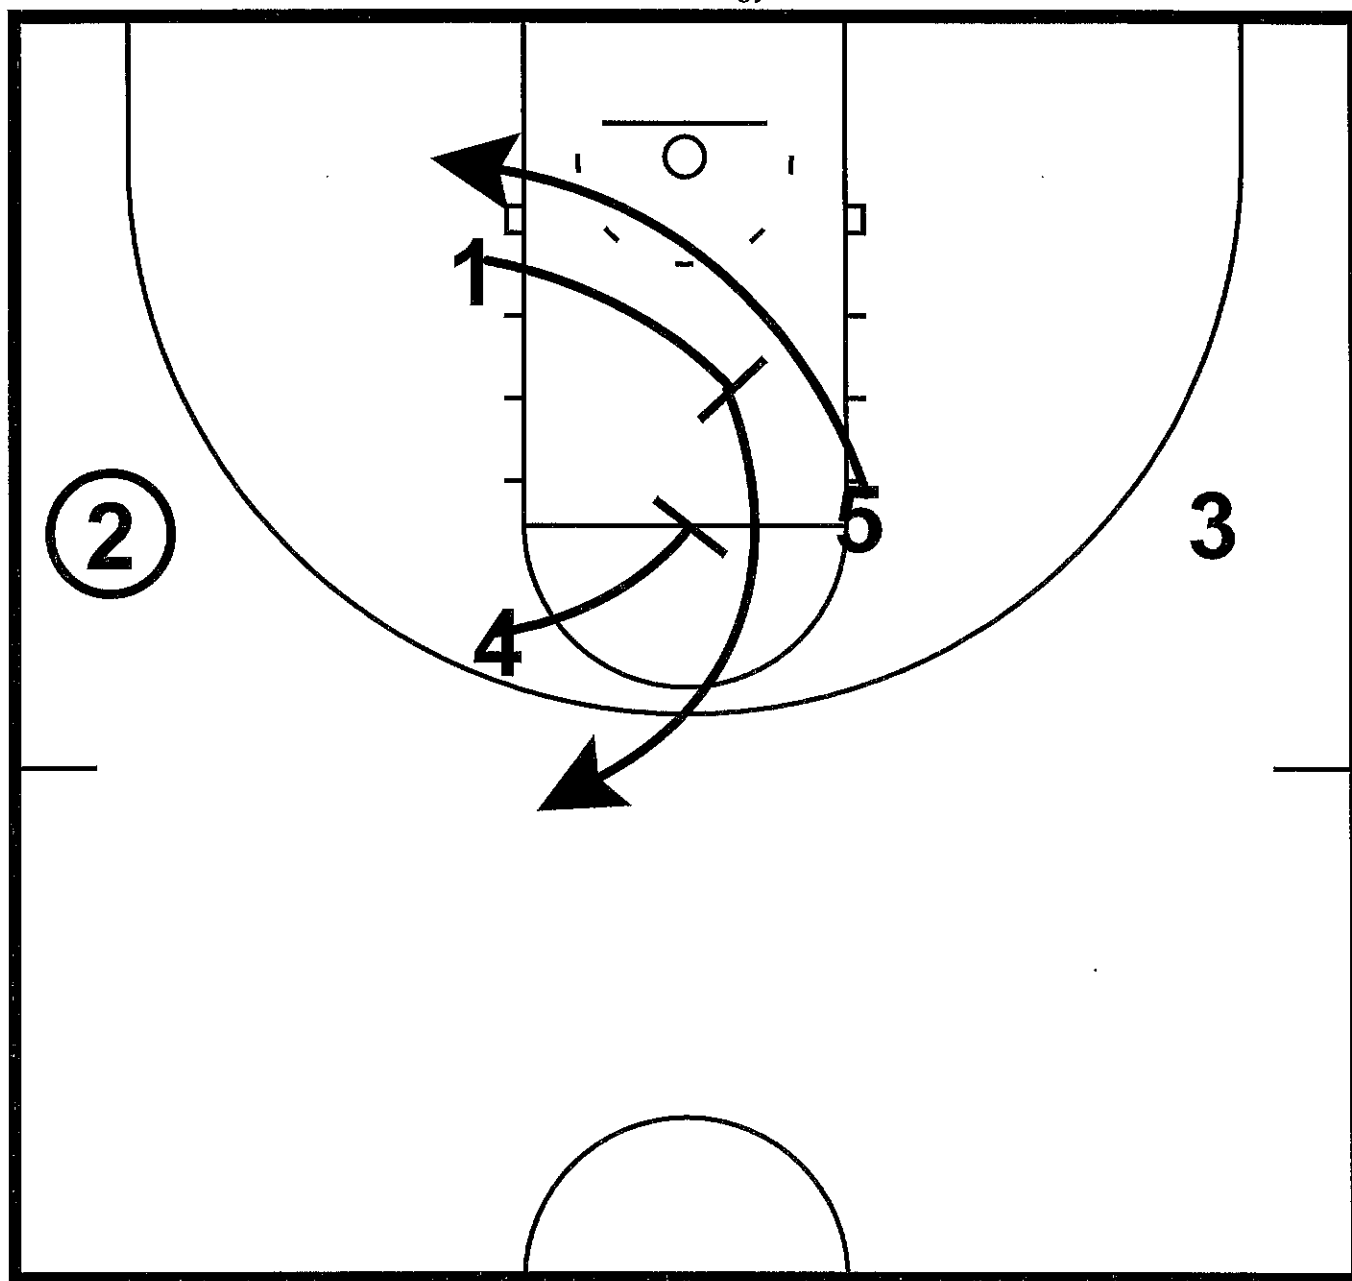

Jazz is a combination action taken from the Utah Jazz. It is a UCLA screen into a pick-the-picker action with the UCLA cutter.

Terminology - Actions/Plays

Jazz (Utah PTP)

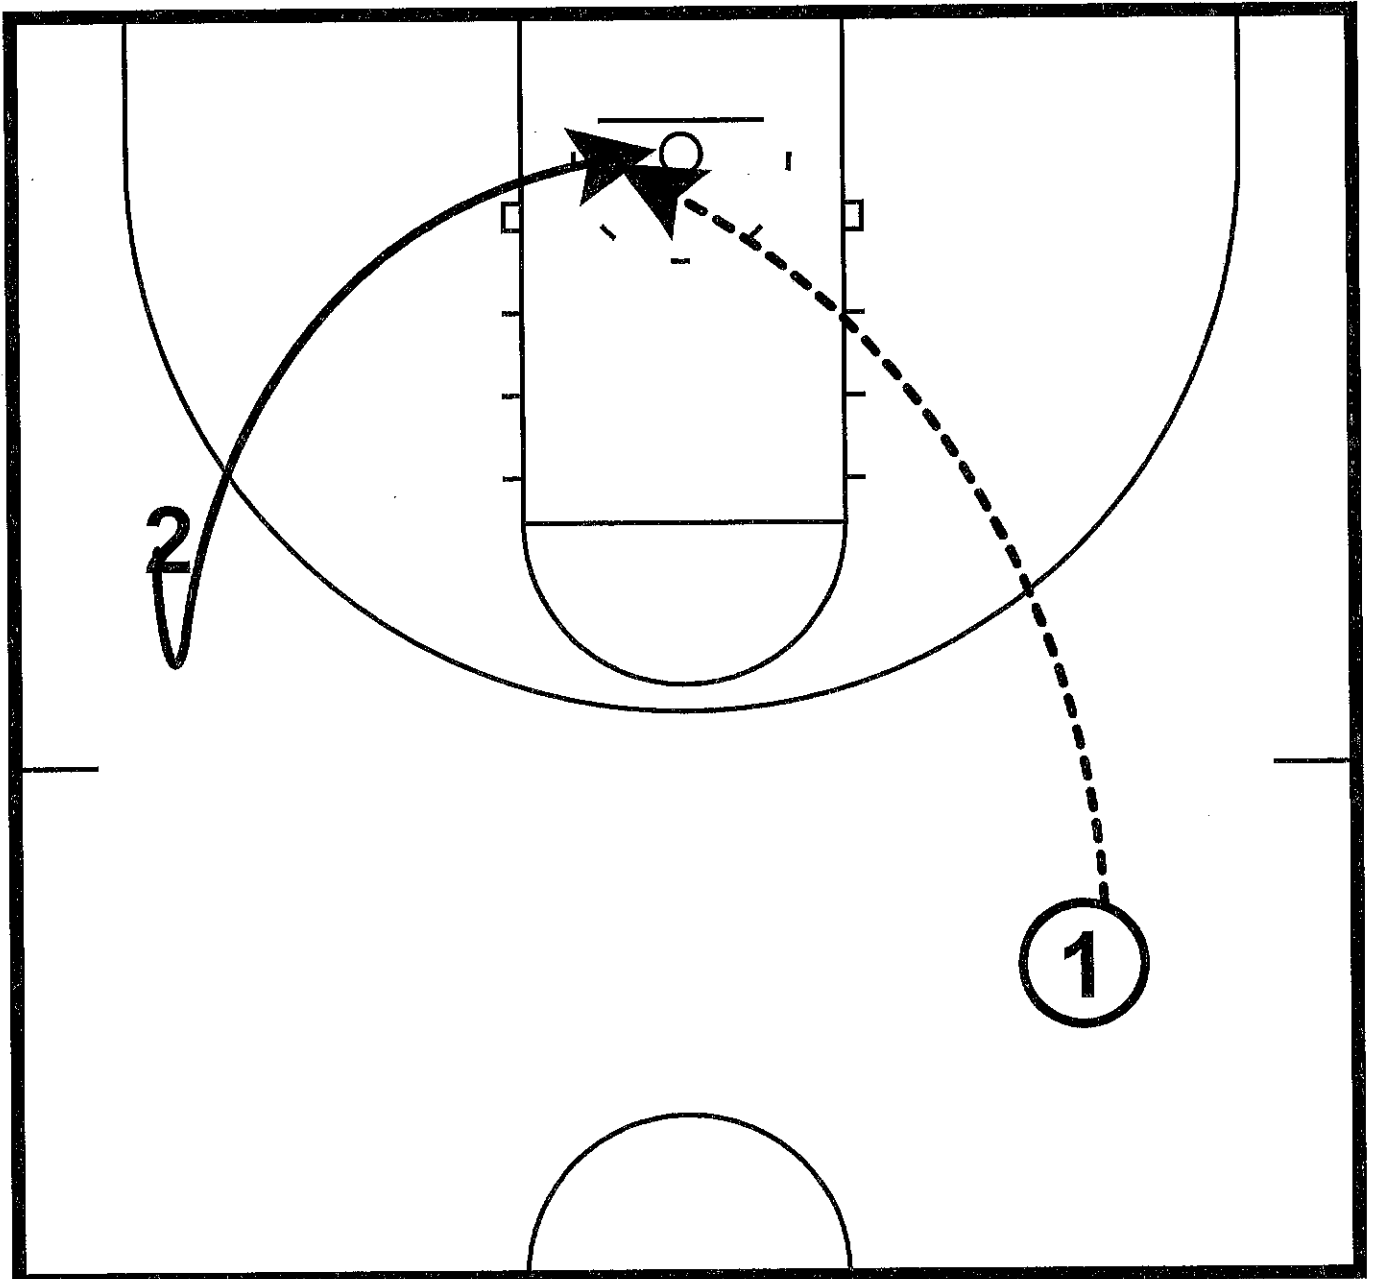

Frame 2
Terminology

Terminology - Actions/Plays

Lob

Frame 1
Terminology

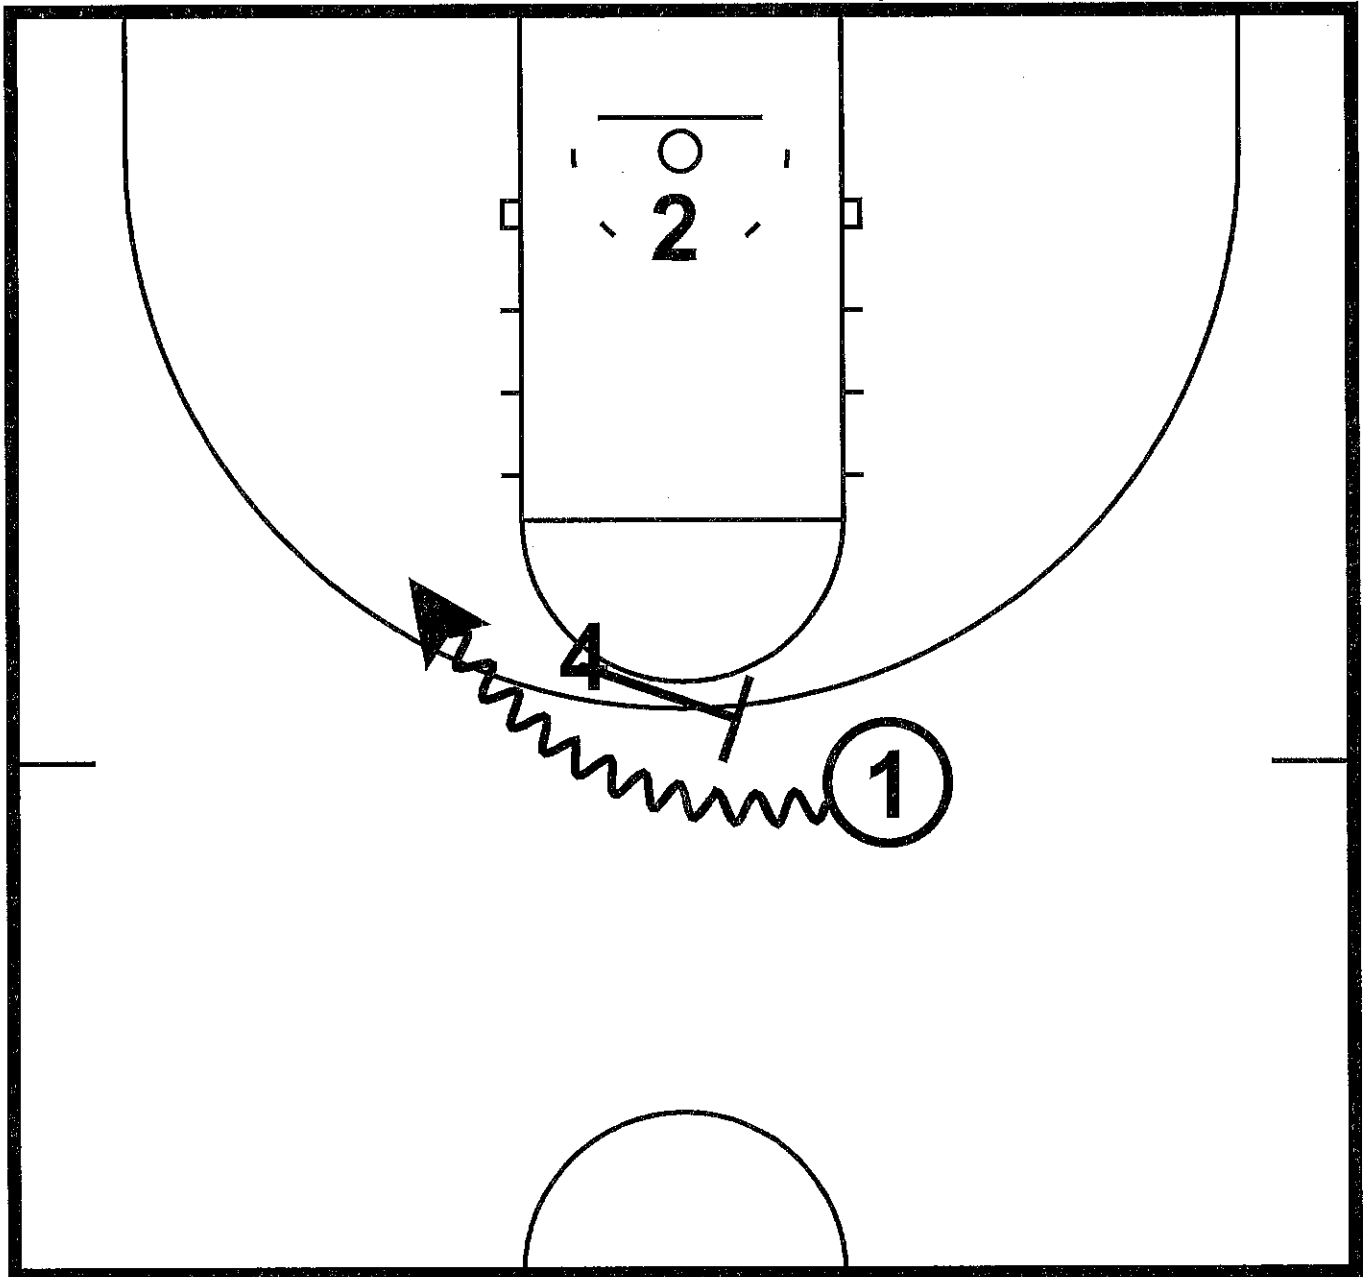

A lob is any pass thrown towards the rim for the player to catch in the air for a layup or dunk.

Terminology - Actions/Plays

Lobo

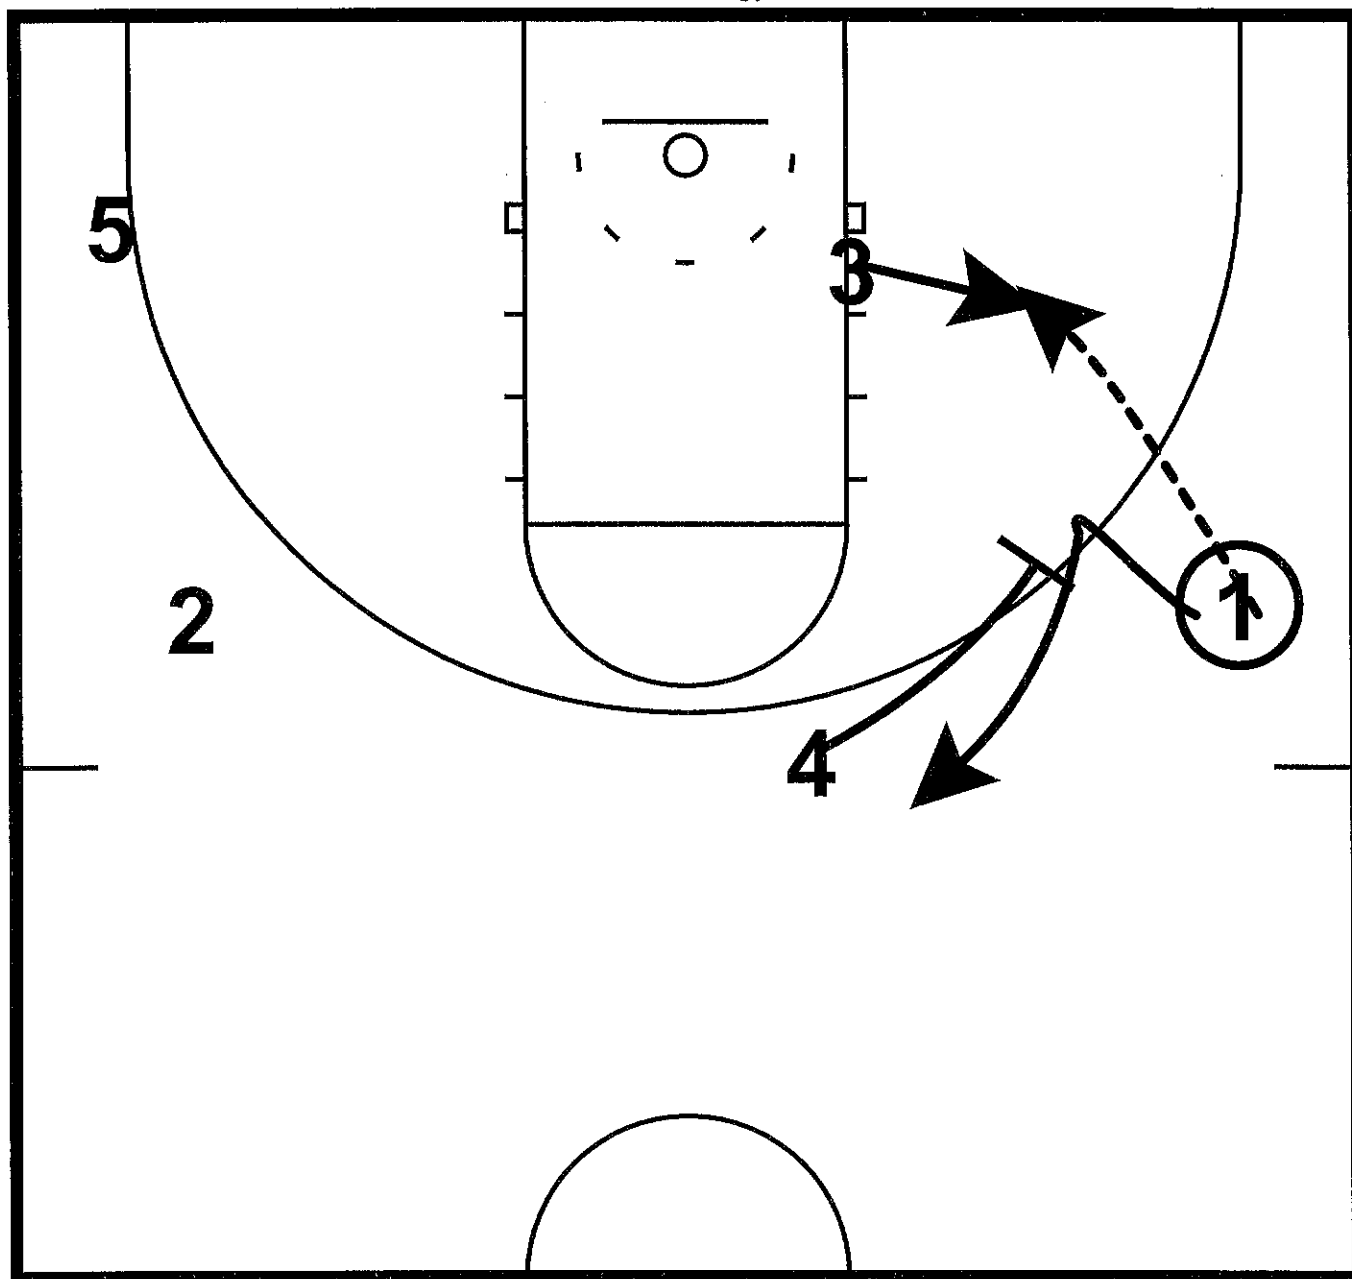

Frame 2
 Terminology

Terminology - Actions/Plays

Logo PNR

Frame 1
Terminology

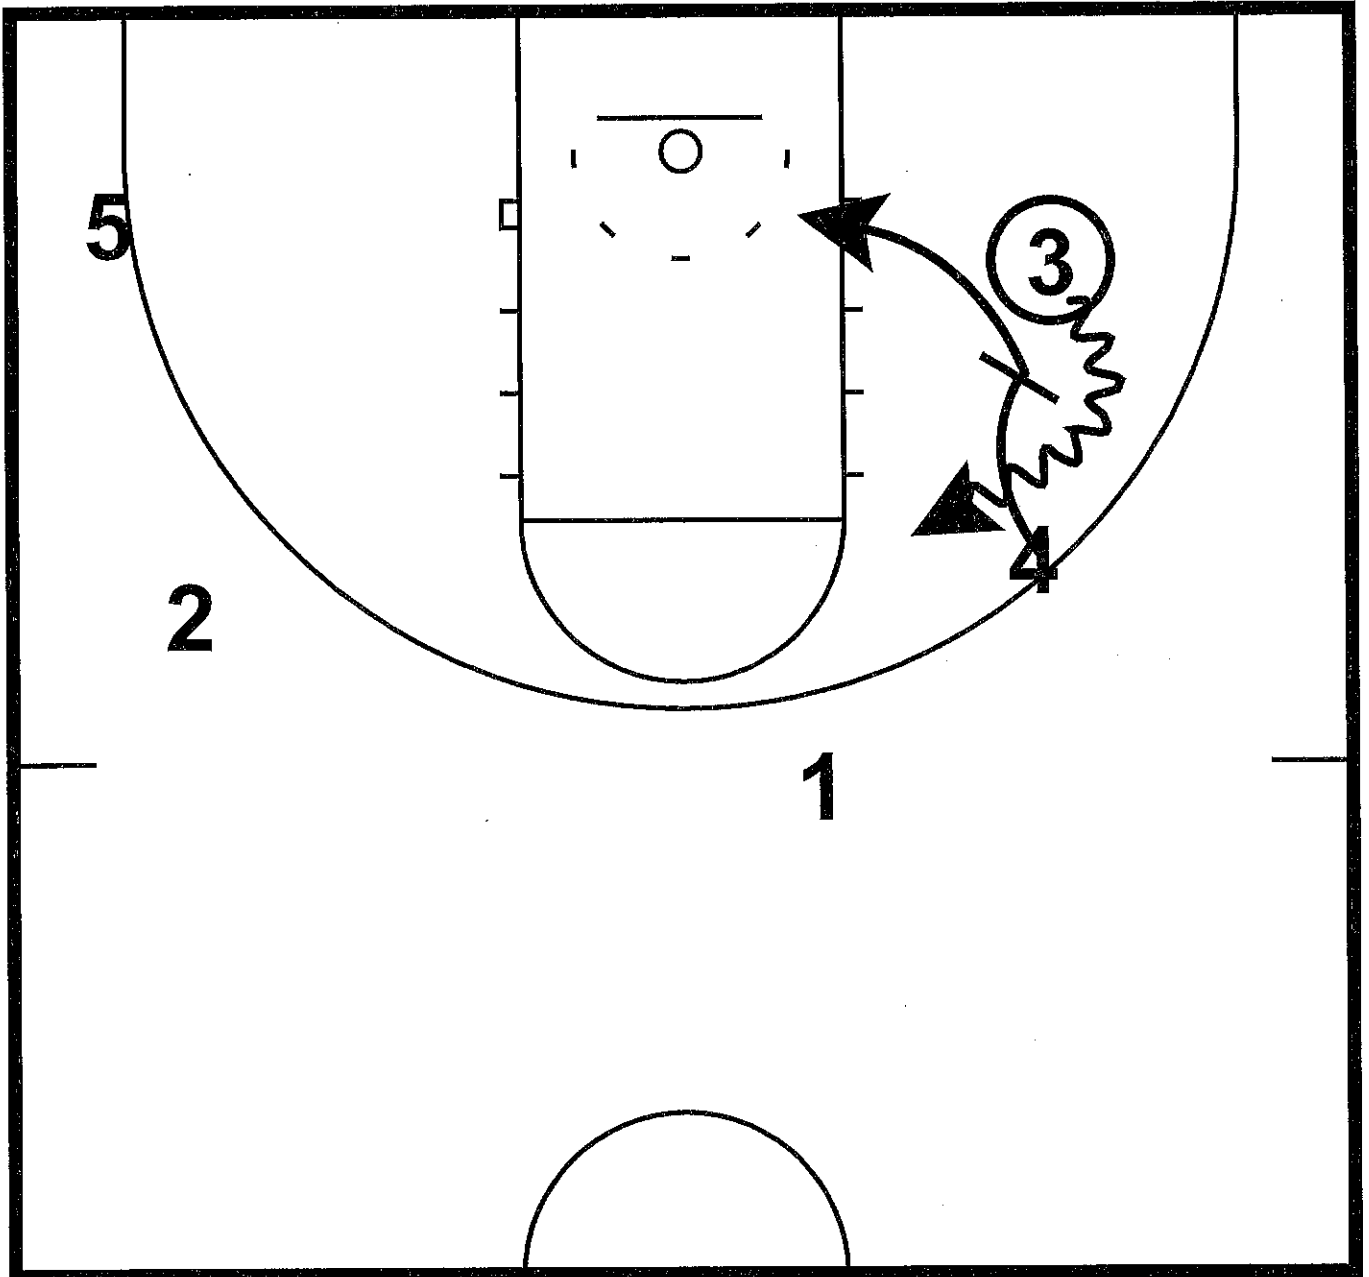

The logo pick and roll is set at the NBA logo in the short corner/mid wing area.

Terminology - Actions/Plays

Logo PNR

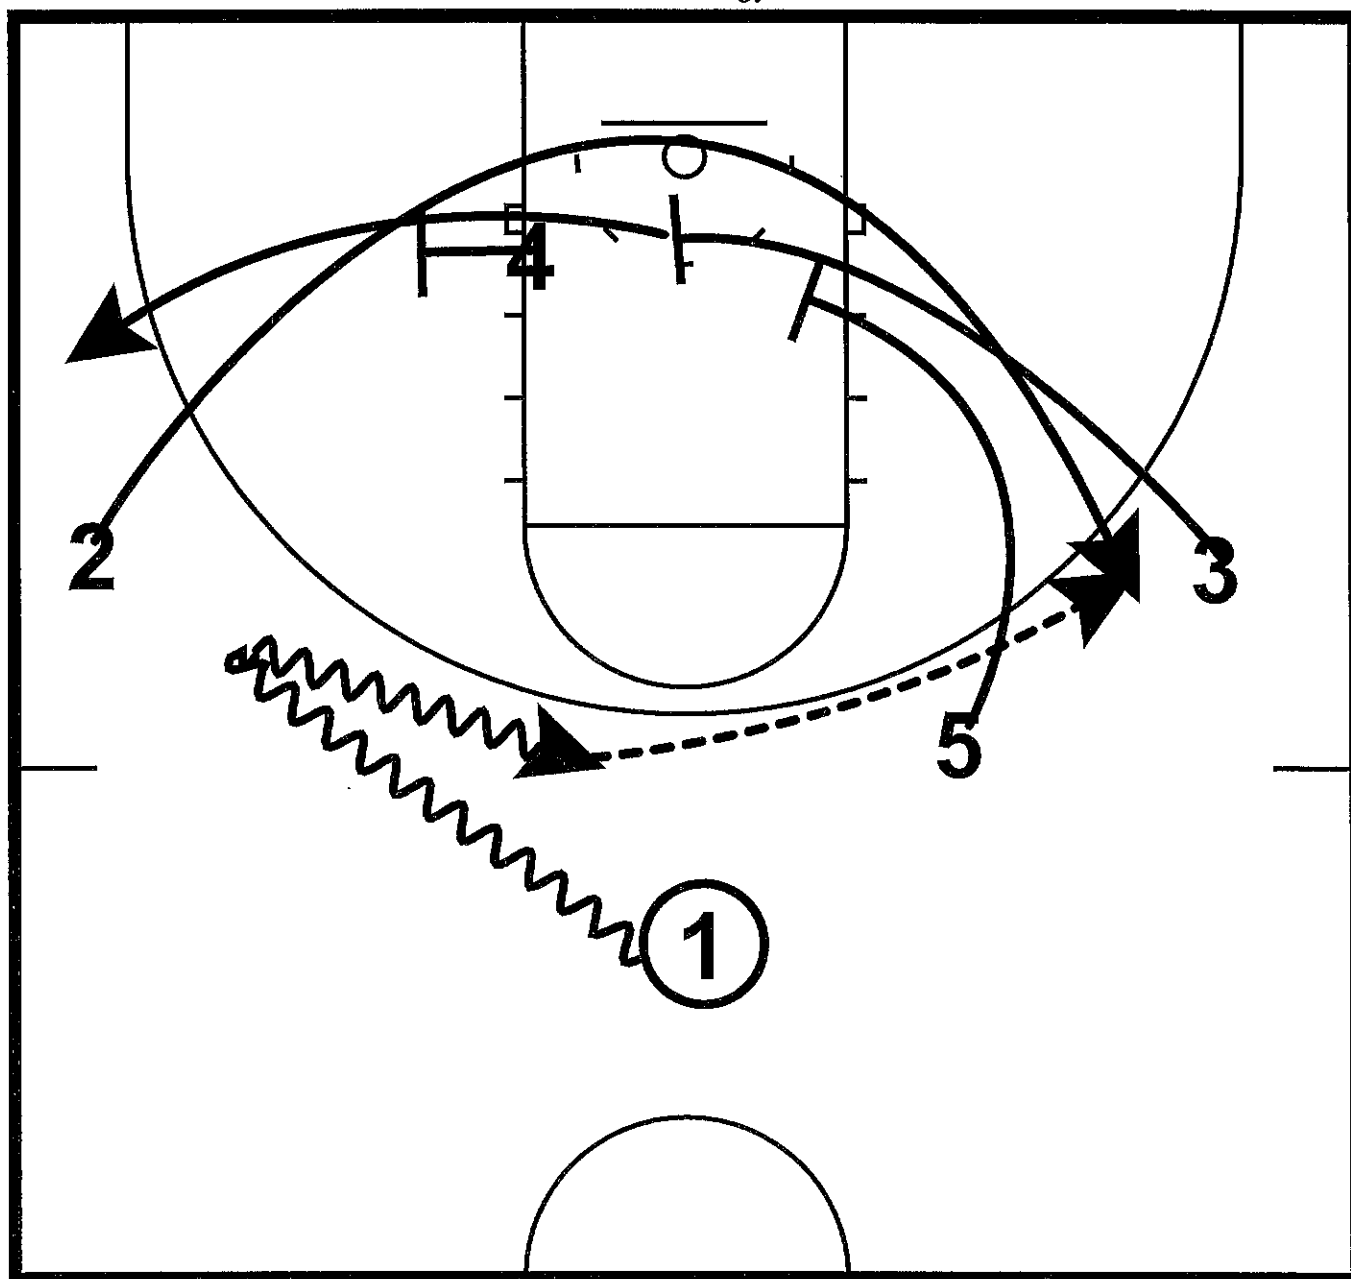

Frame 2
Terminology

Terminology - Actions/Plays

Loop (Triple Stagger)

Frame 1
Terminology

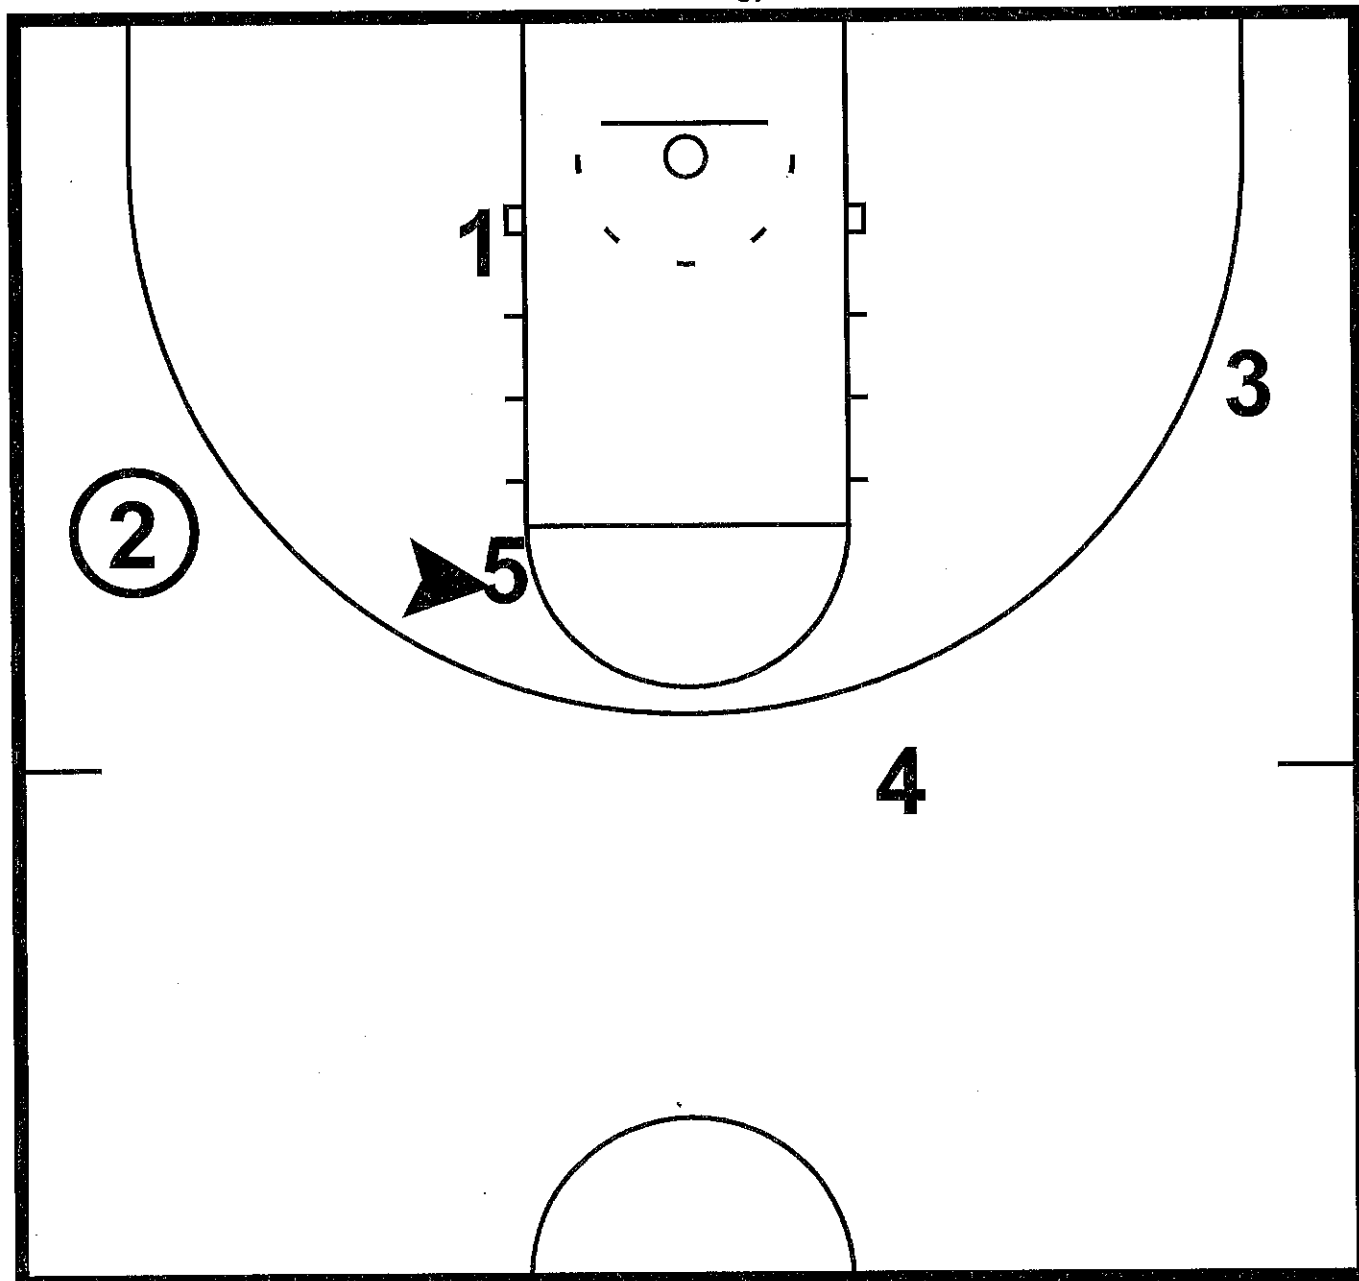

Loop is a triple staggered screen along the baseline with the guard cutting from one wing to the other.

Terminology - Actions/Plays

Miami

Frame 1

Terminology

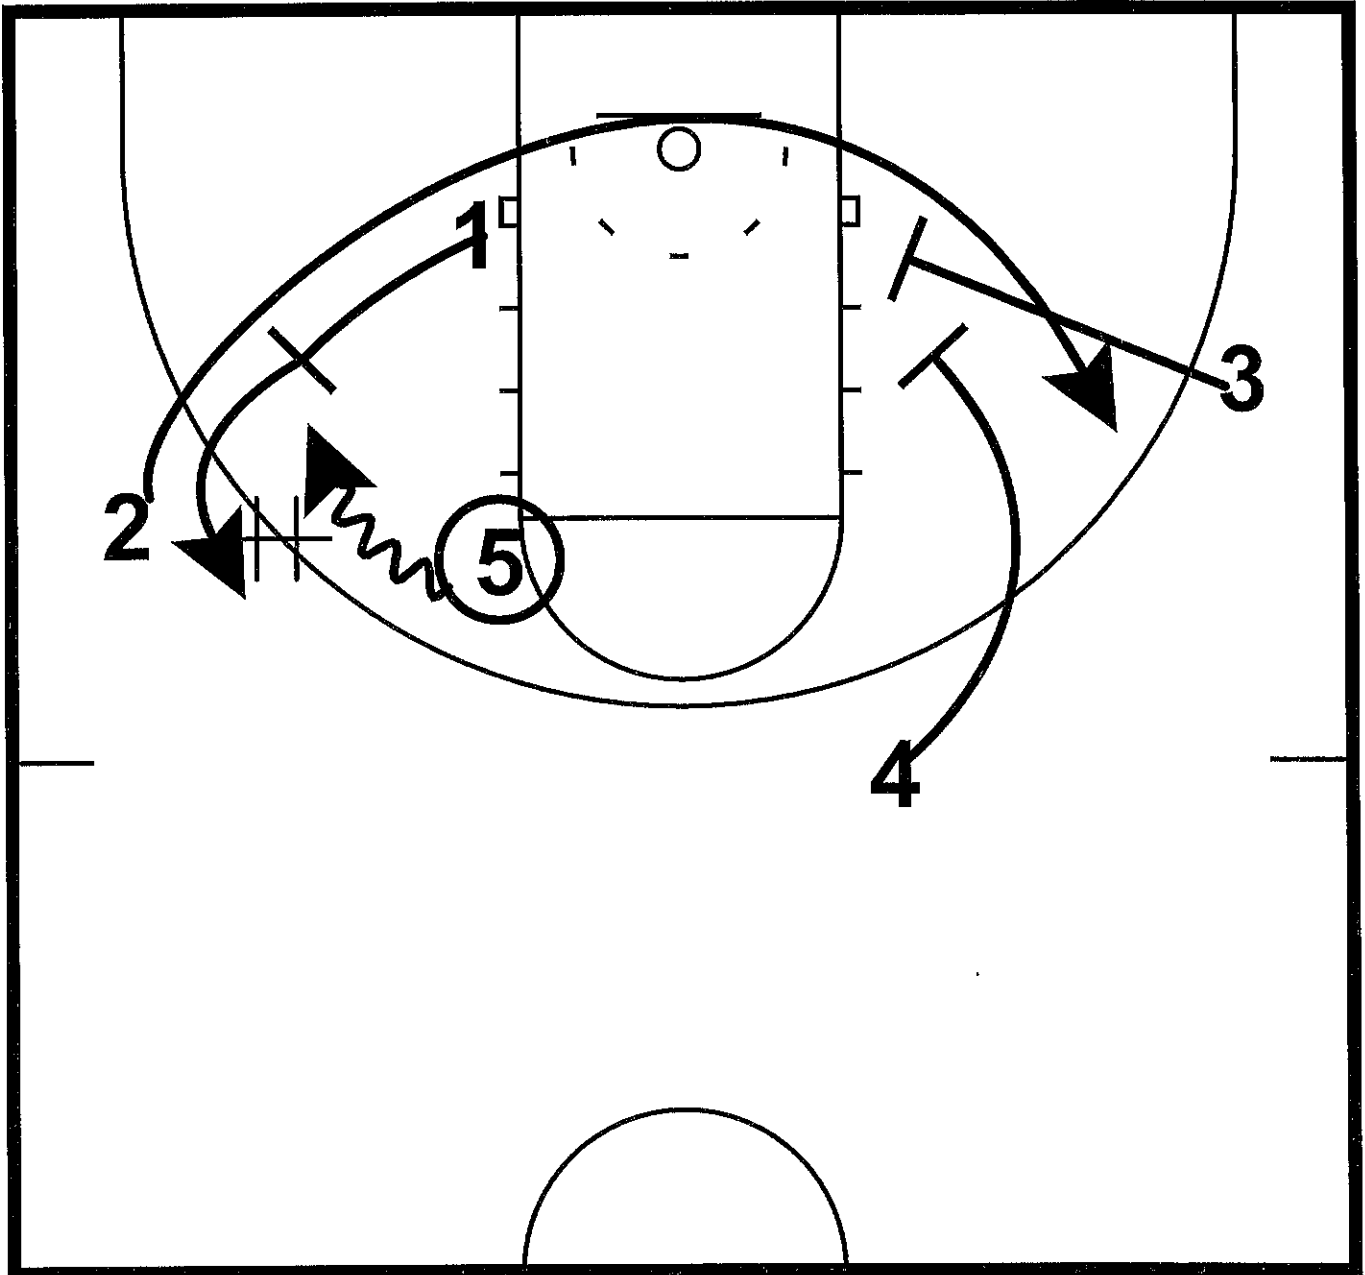

Miami is a combination action where the ball is entered to the high post, a shuffle screen is set by the point guard, and the shuffle screener then gets a dribble handoff from the high post player.

Terminology - Actions/Plays

Miami

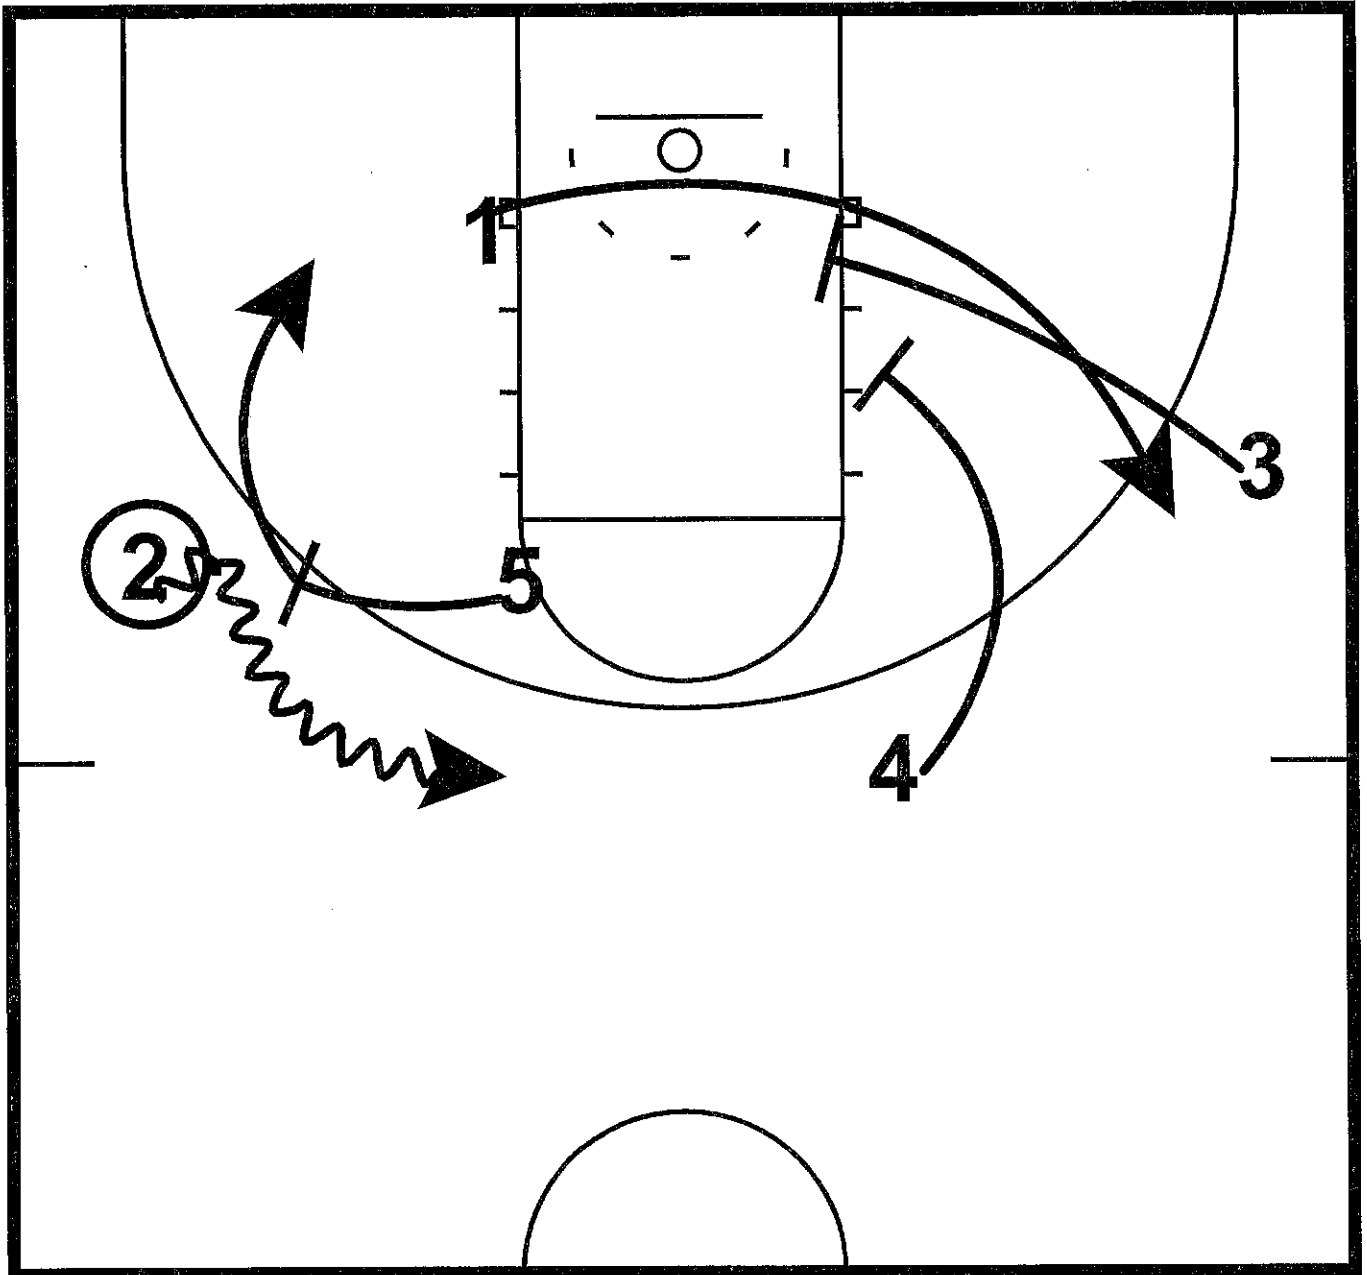

Frame 2
Terminology

Terminology - Actions/Plays

Moon

Frame 1
Terminology

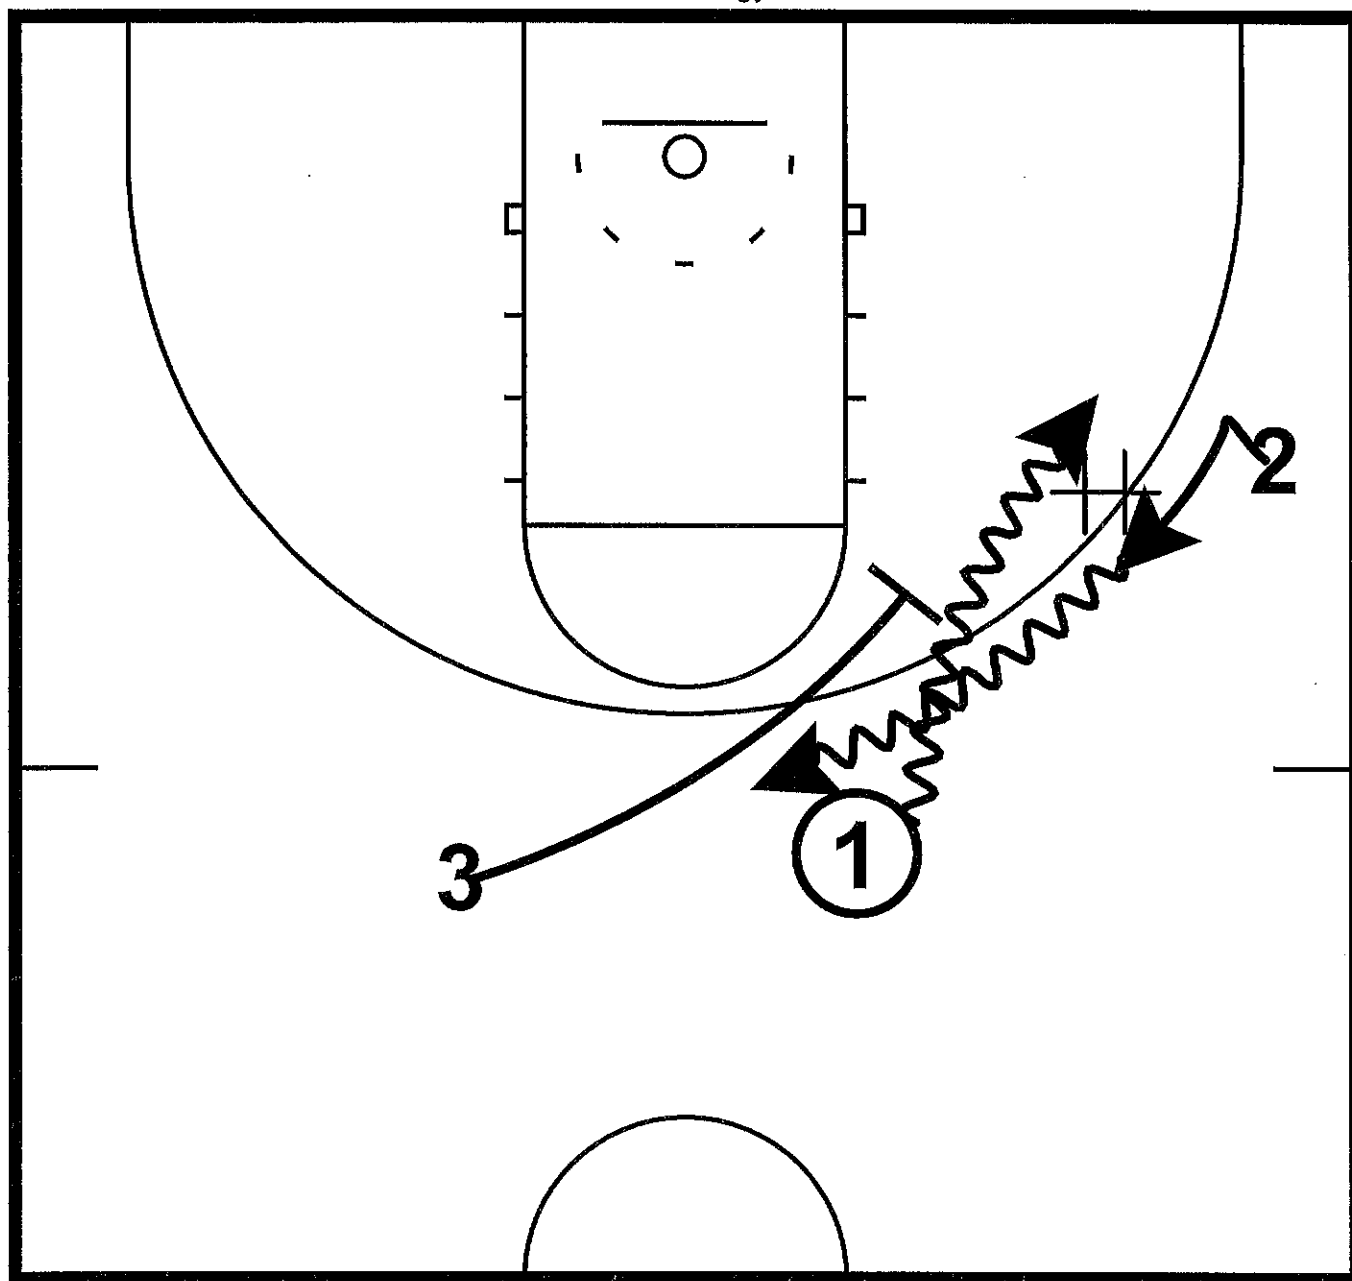

Moon is a cut from the middle of the floor to the wing off of a staggered screen.

Terminology - Actions/Plays

Orlando (DHO Pin Down)

Frame 1
Terminology

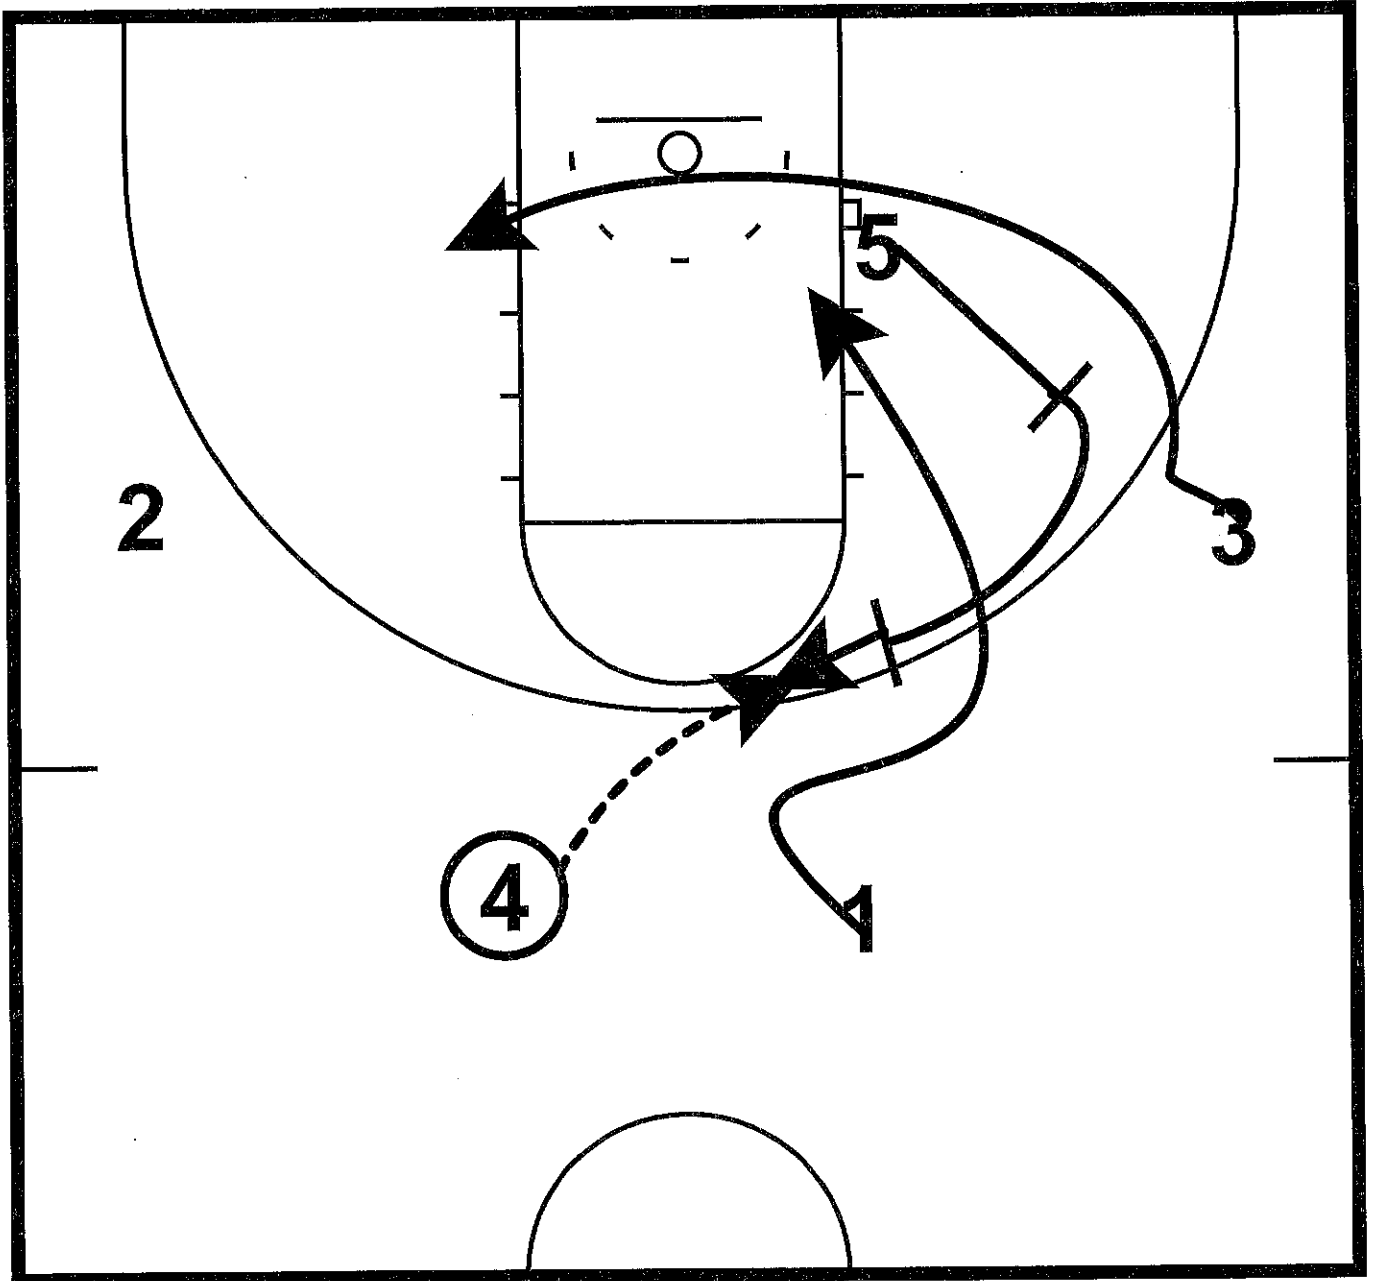

Orlando, taken from the Orlando Magic, is a dribble handoff followed by a pin down.

Terminology - Actions/Plays

Phoenix

Frame 1

Terminology

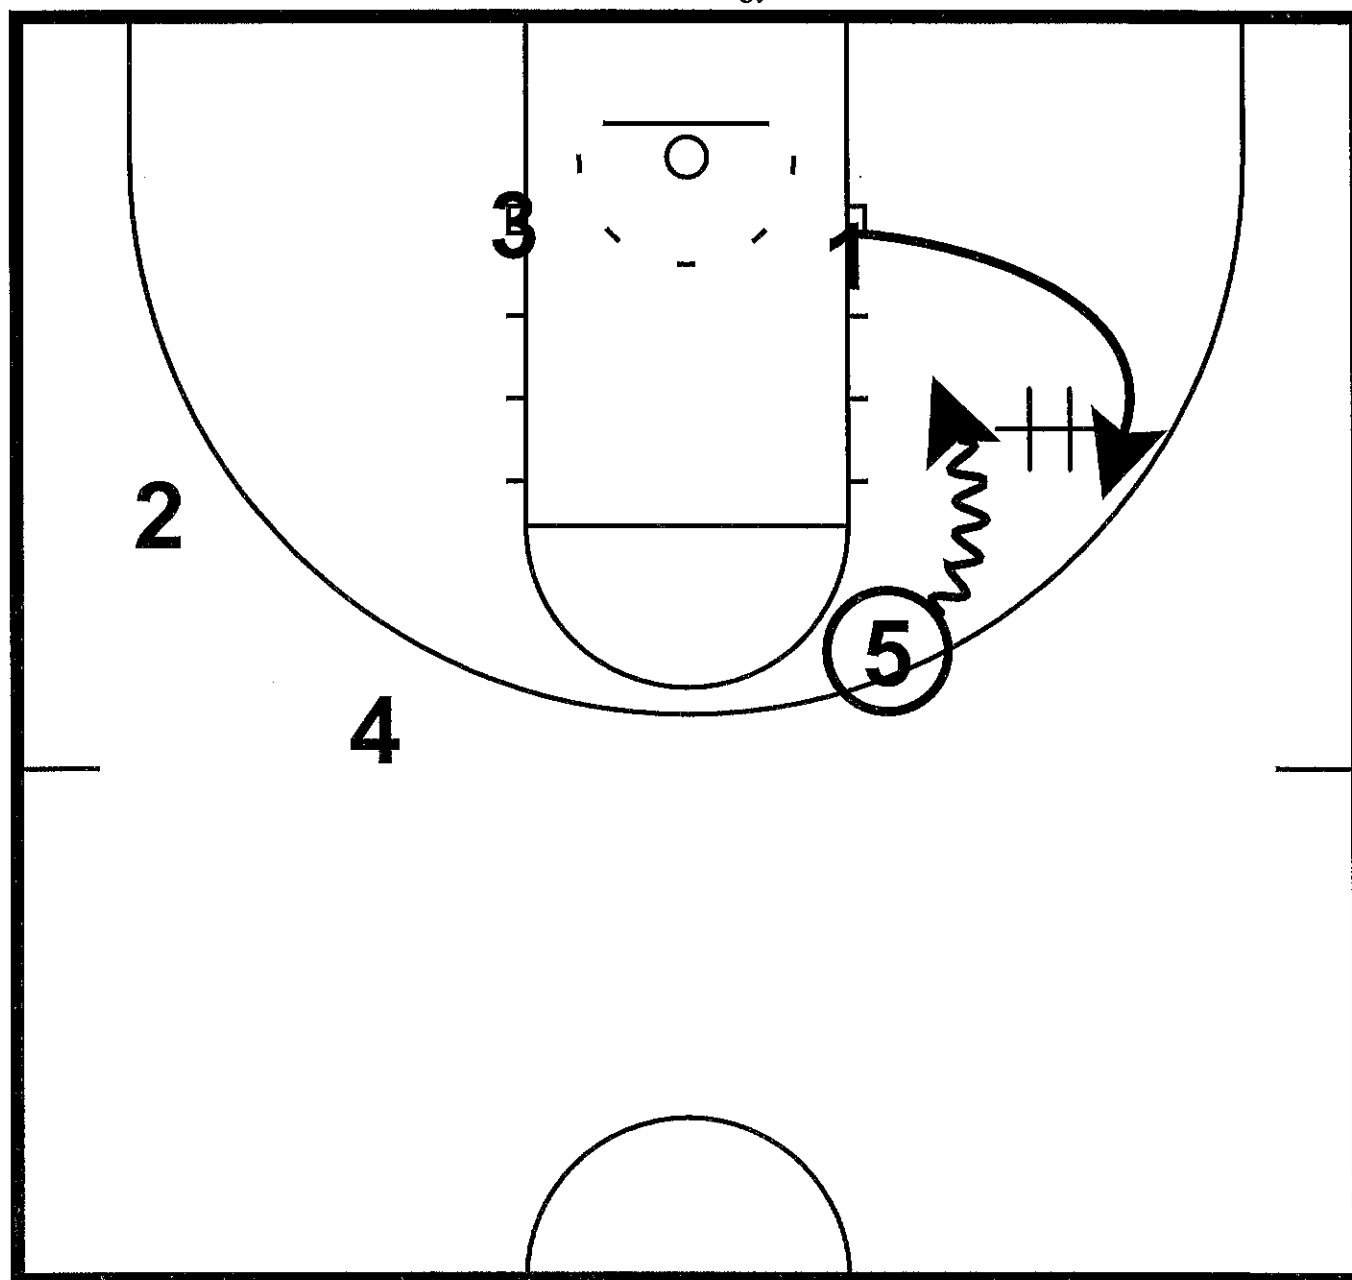

Phoenix is a combination shuffle-flare-DHO action all dictated by the post player.

Terminology - Actions/Plays

Phoenix

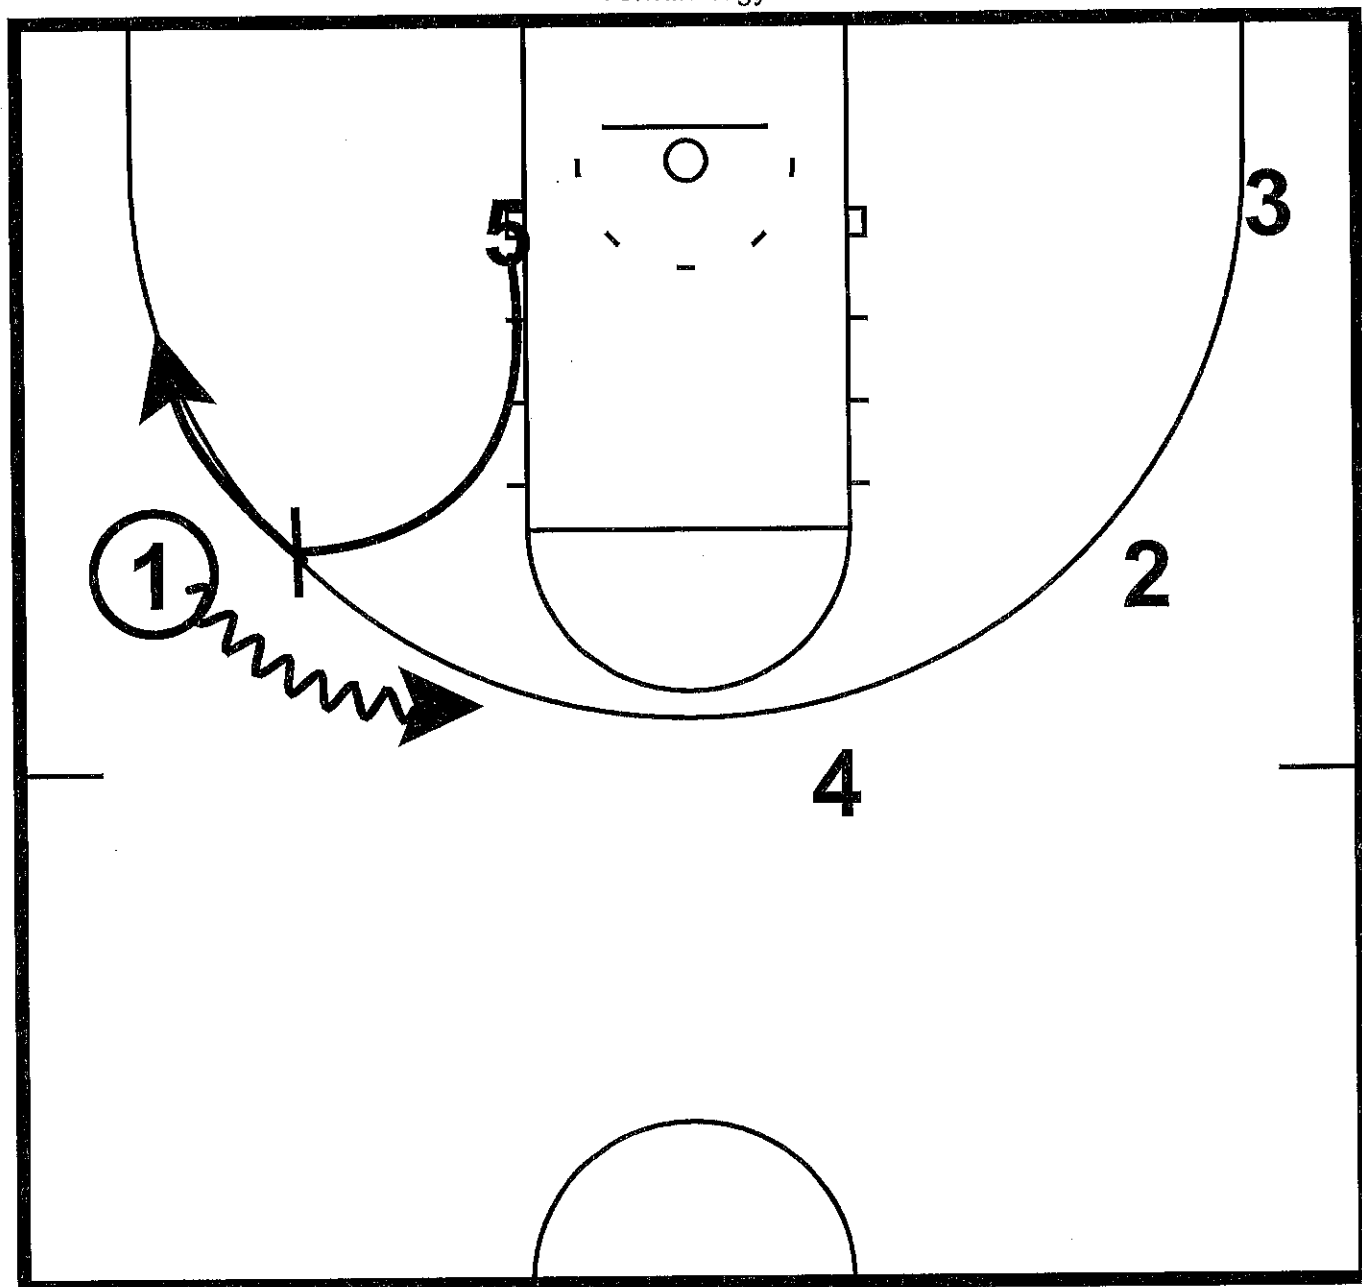

Frame 2
Terminology

Terminology - Actions/Plays

Pick & Pop

Frame 1
Terminology

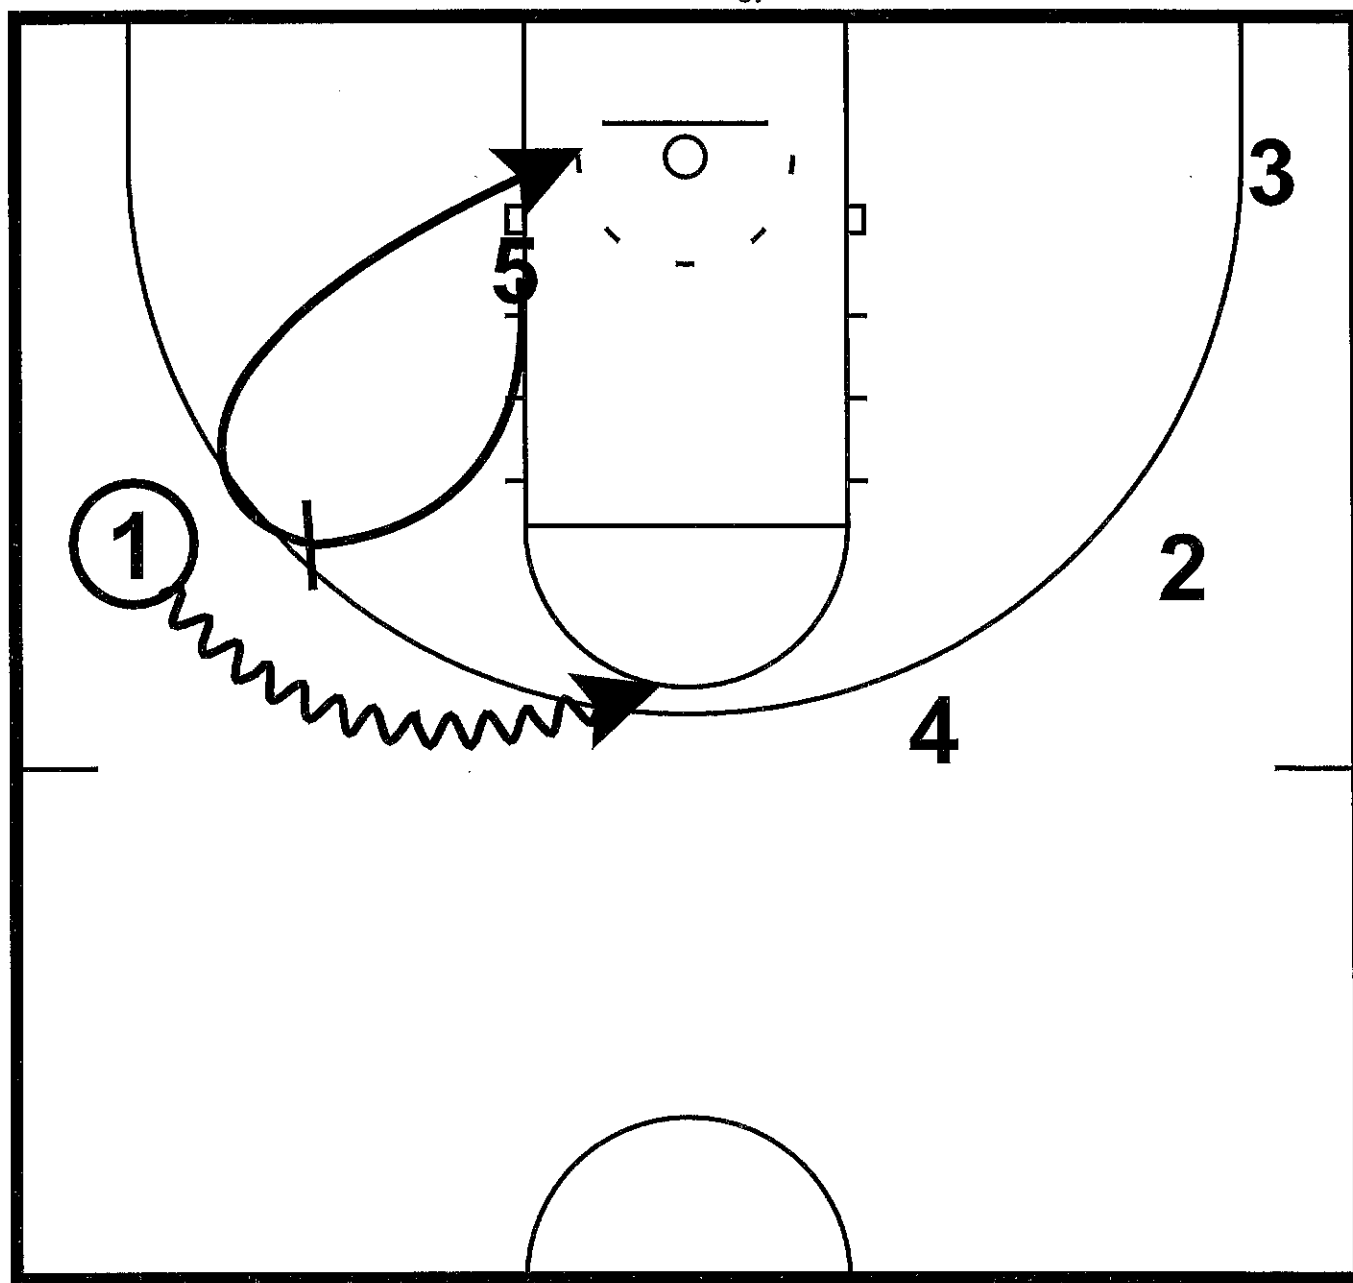

1 dribbles towards the middle as 5 pops out for a shot.

Terminology - Actions/Plays

Pick & Roll

Frame 1
Terminology

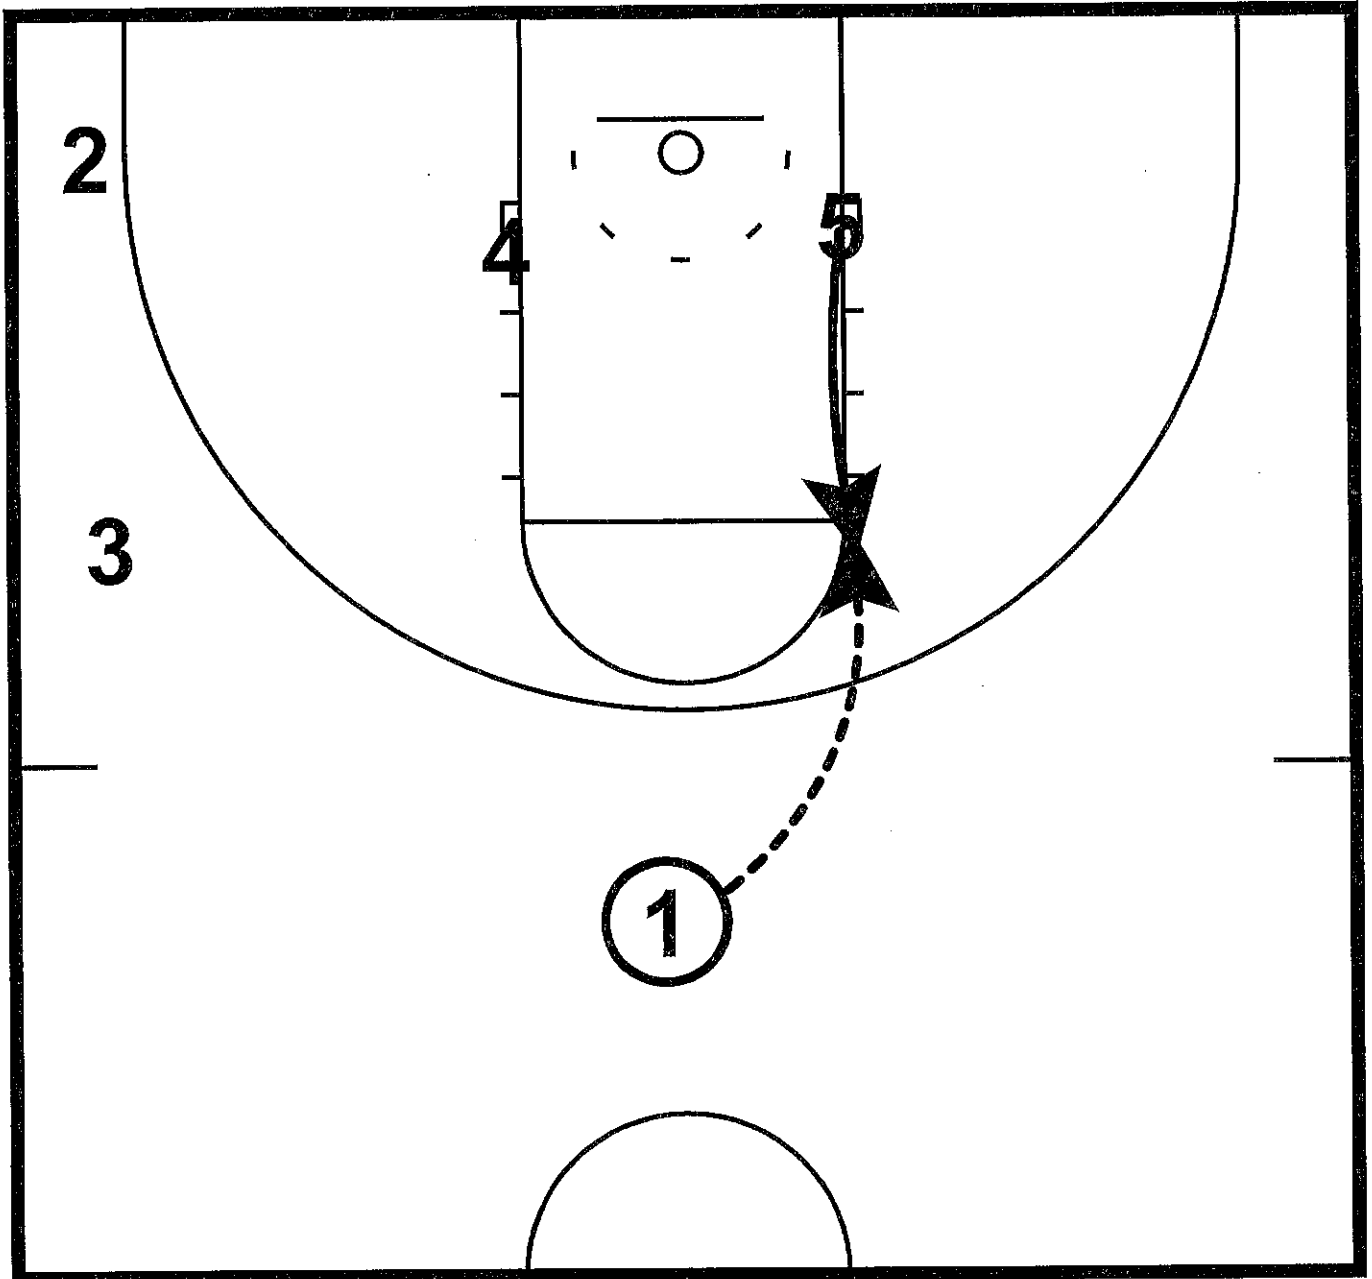

1 dribbles towards the middle as 5 rolls to the rim.

Terminology - Actions/Plays

Pinch Post

Frame 1
Terminology

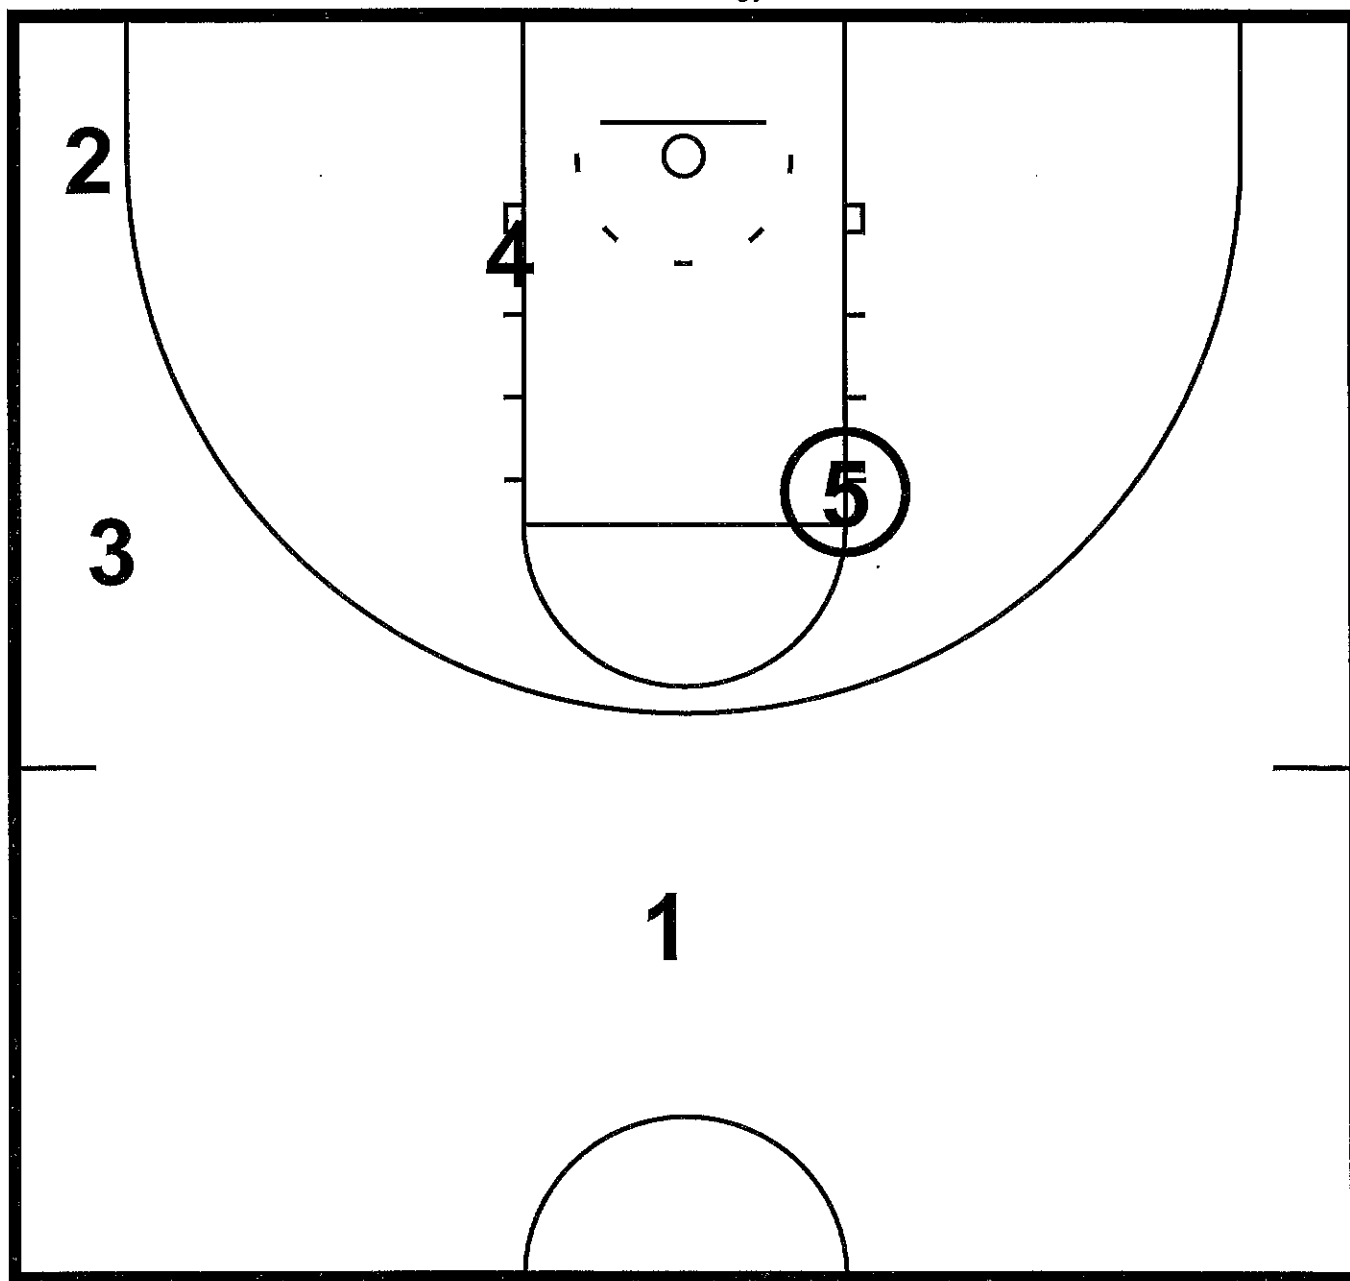

The pinch post is the weak side elbow when there is no other players on that side of the floor.

Terminology - Actions/Plays

Pinch Post

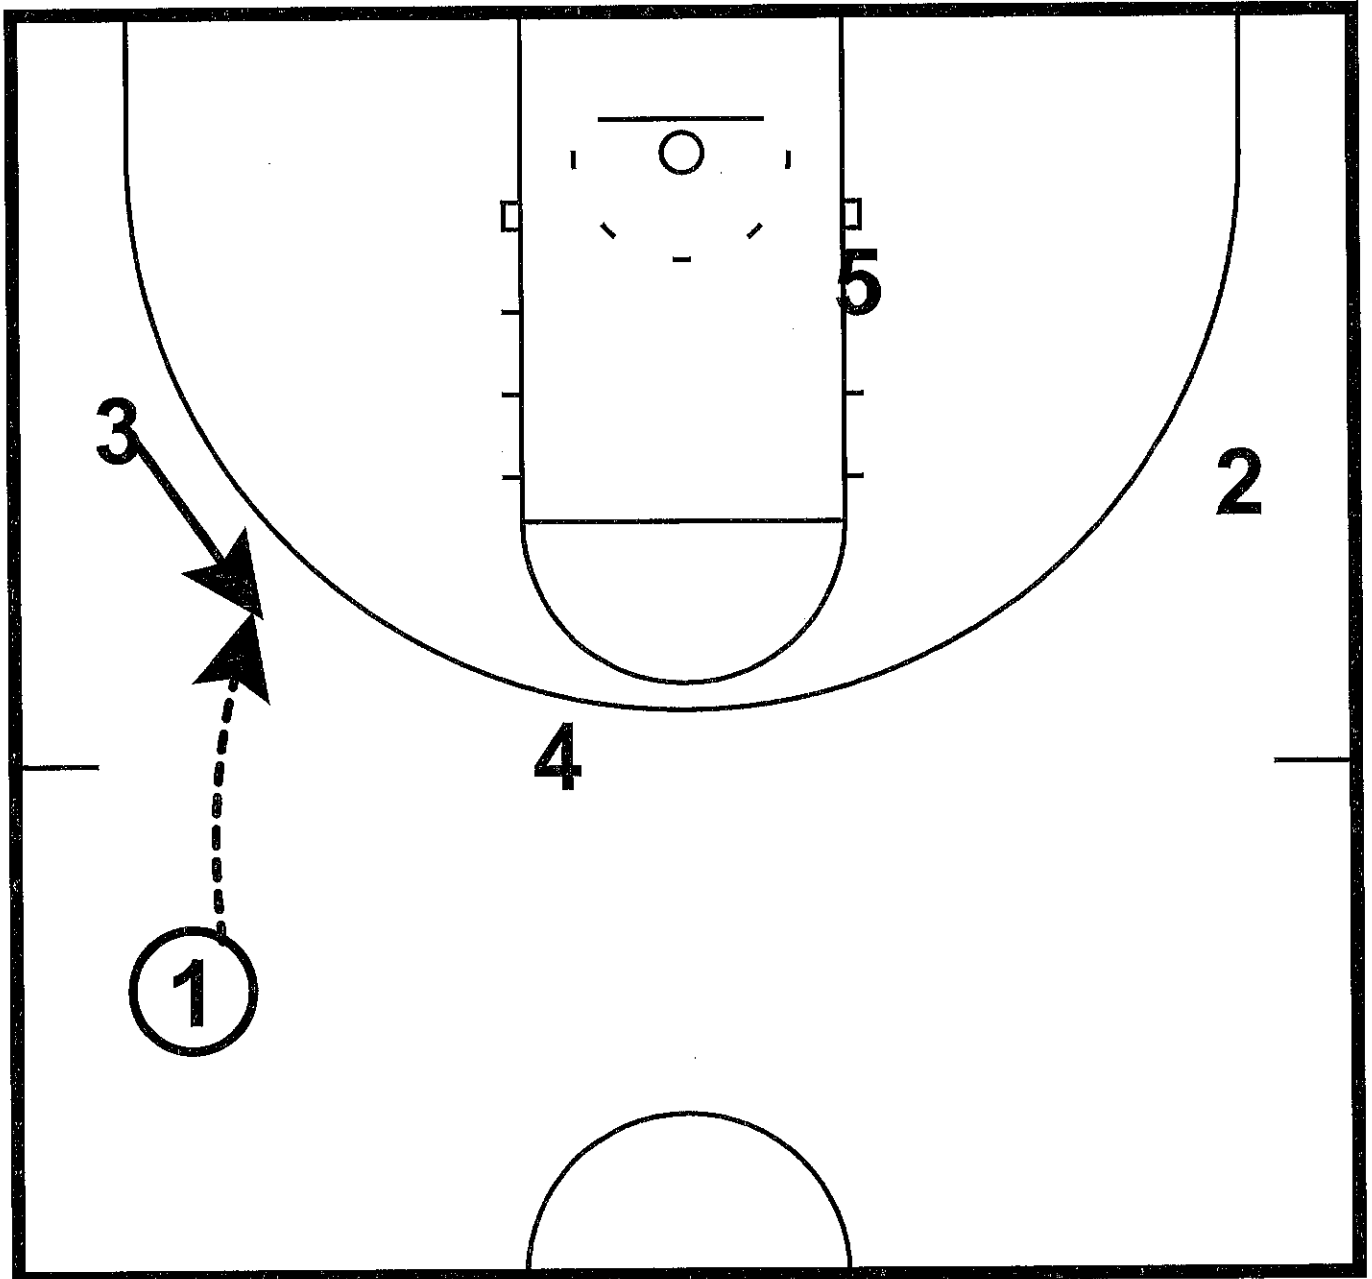

Frame 2
Terminology

Terminology - Actions/Plays

Pistol

Frame 1
Terminology

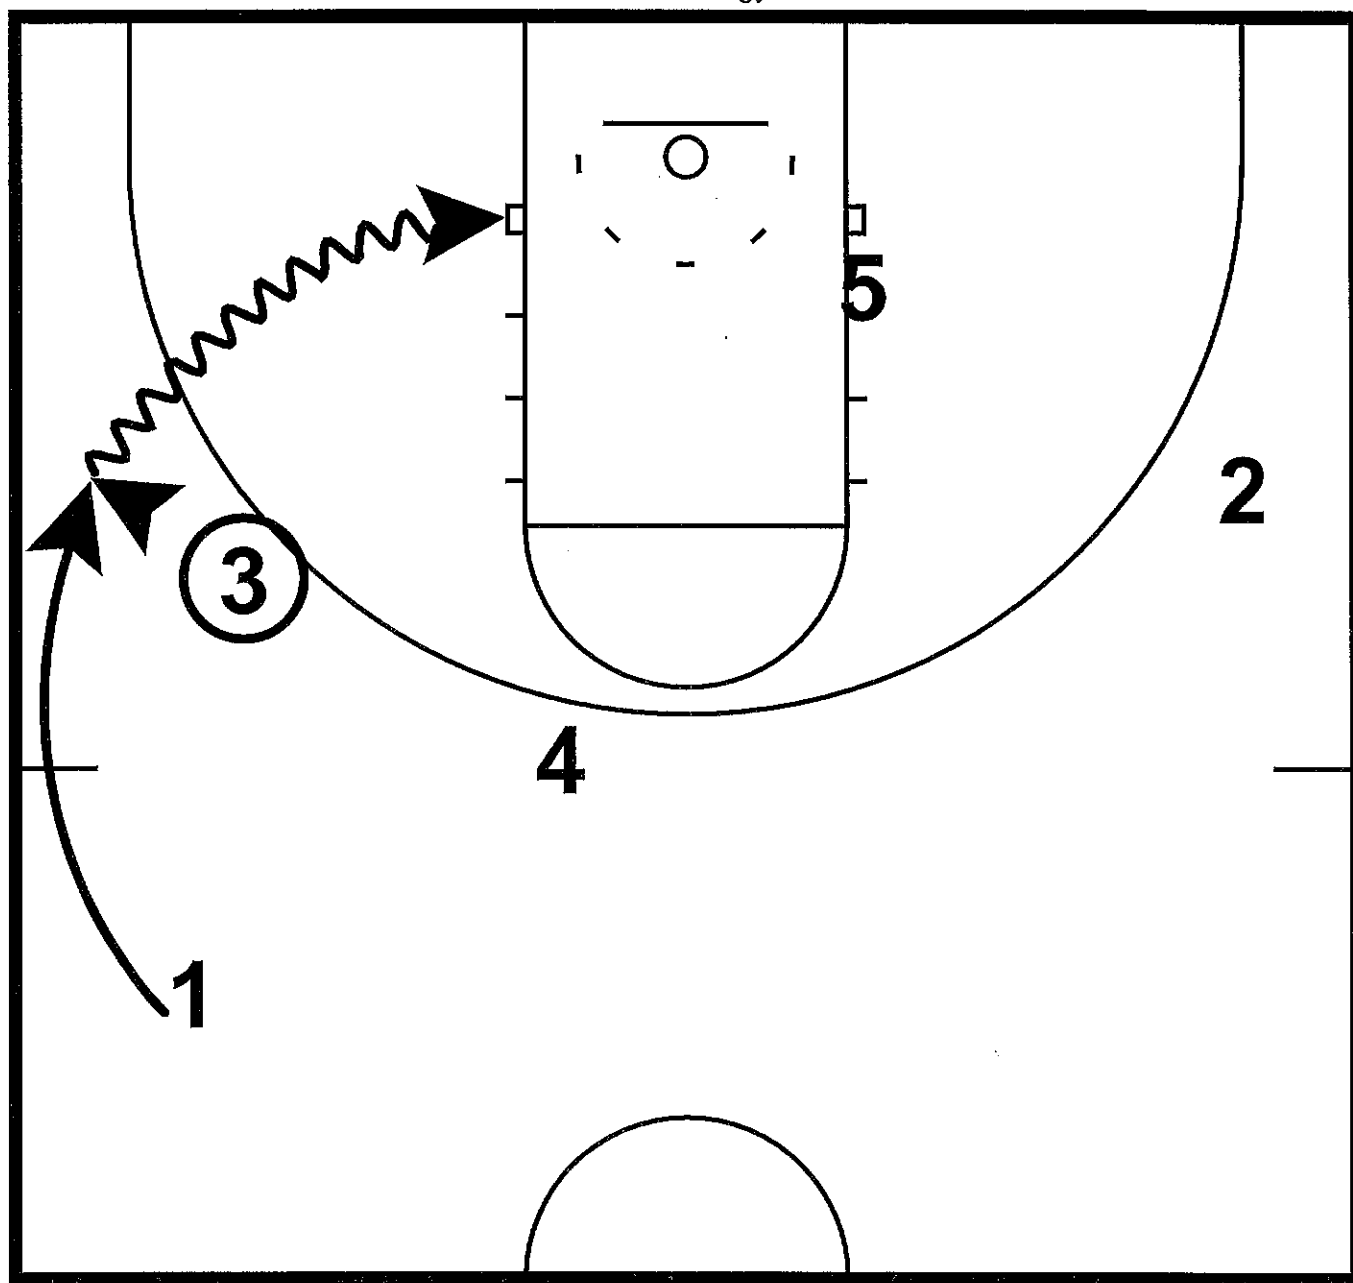

Pistol is when the point guard throw to a player on the wing and cuts around him to get a handoff to drive to the rim at full speed.

Terminology - Actions/Plays

Pistol

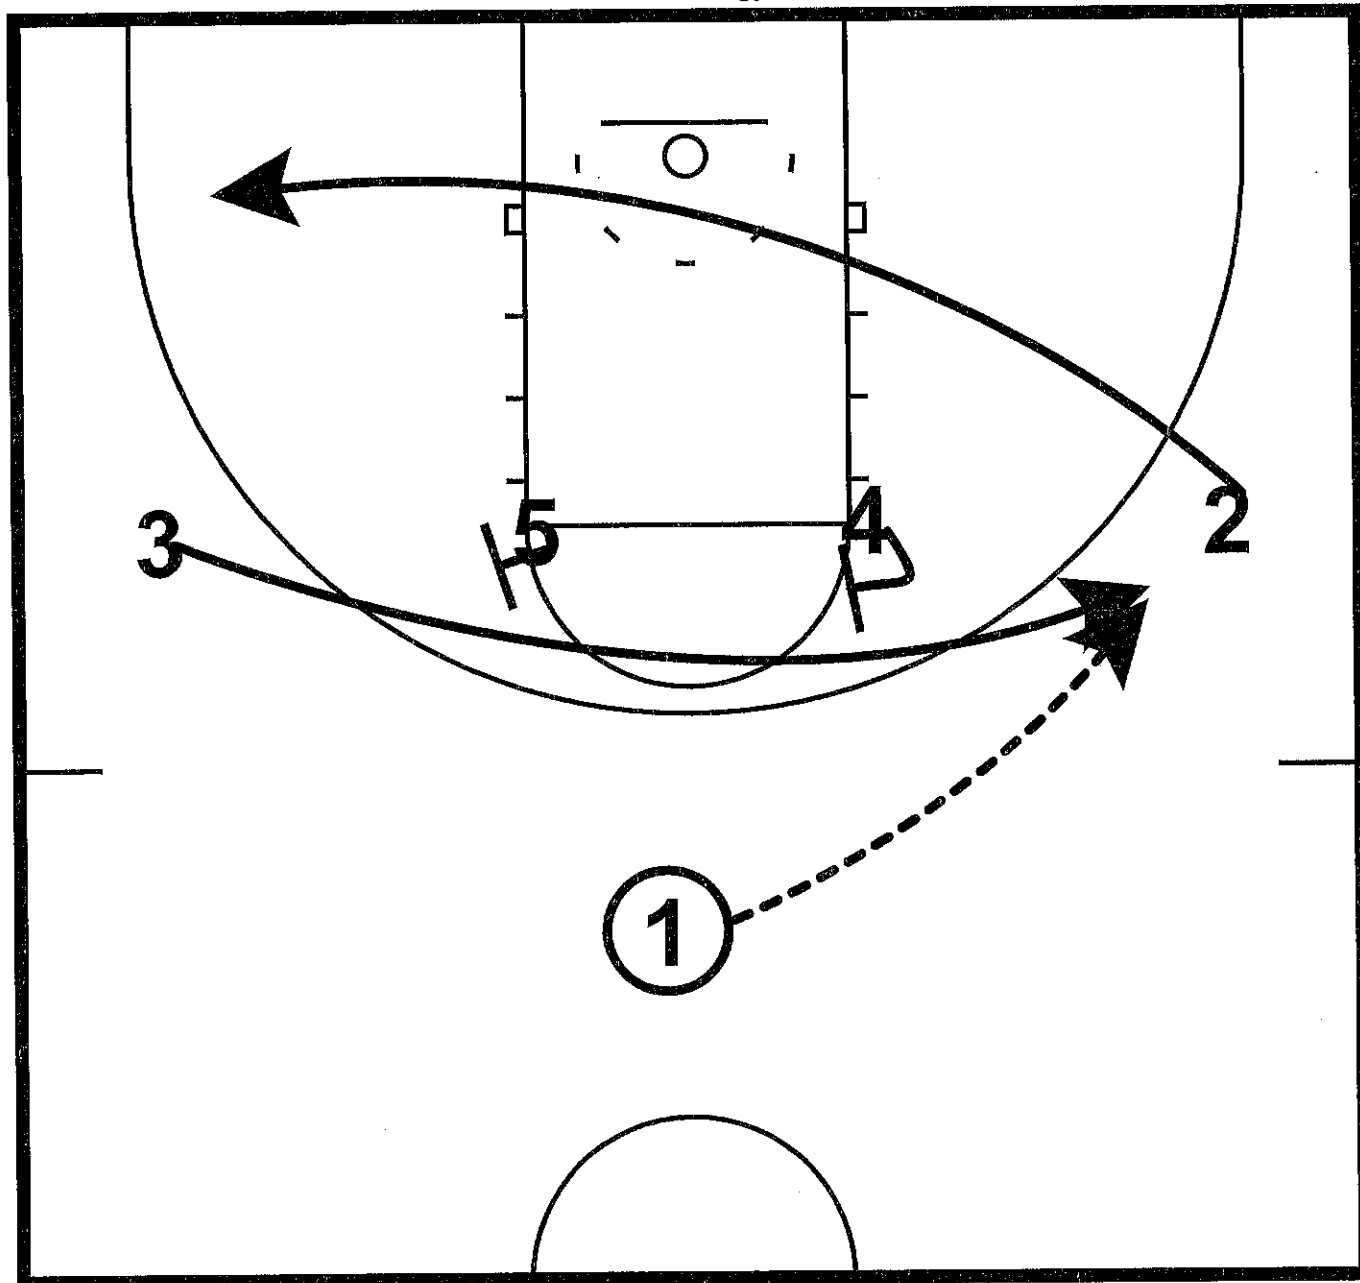

Frame 2
Terminology

Terminology - Actions/Plays

Piston (Iverson)

Frame 1
Terminology

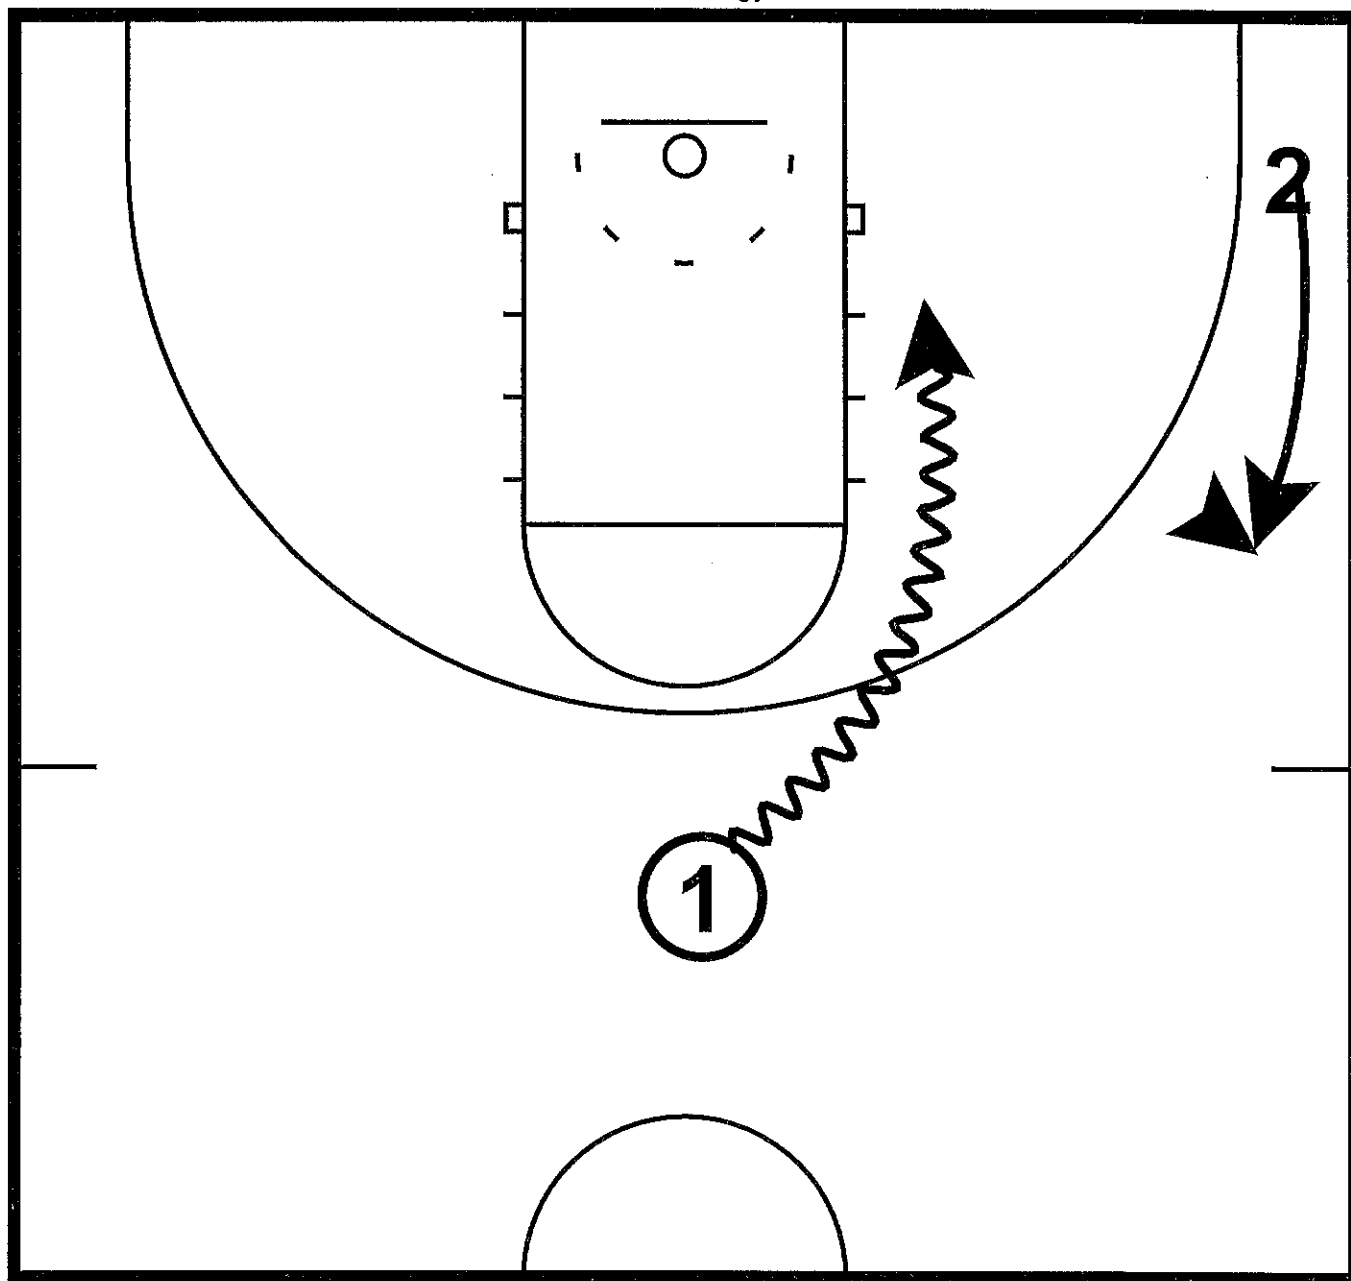

A Piston, or Iverson, cut is when a player cuts from one wing to the other off of the two players at the high post.

Terminology - Actions/Plays

Pitch

Frame 1
 Terminology

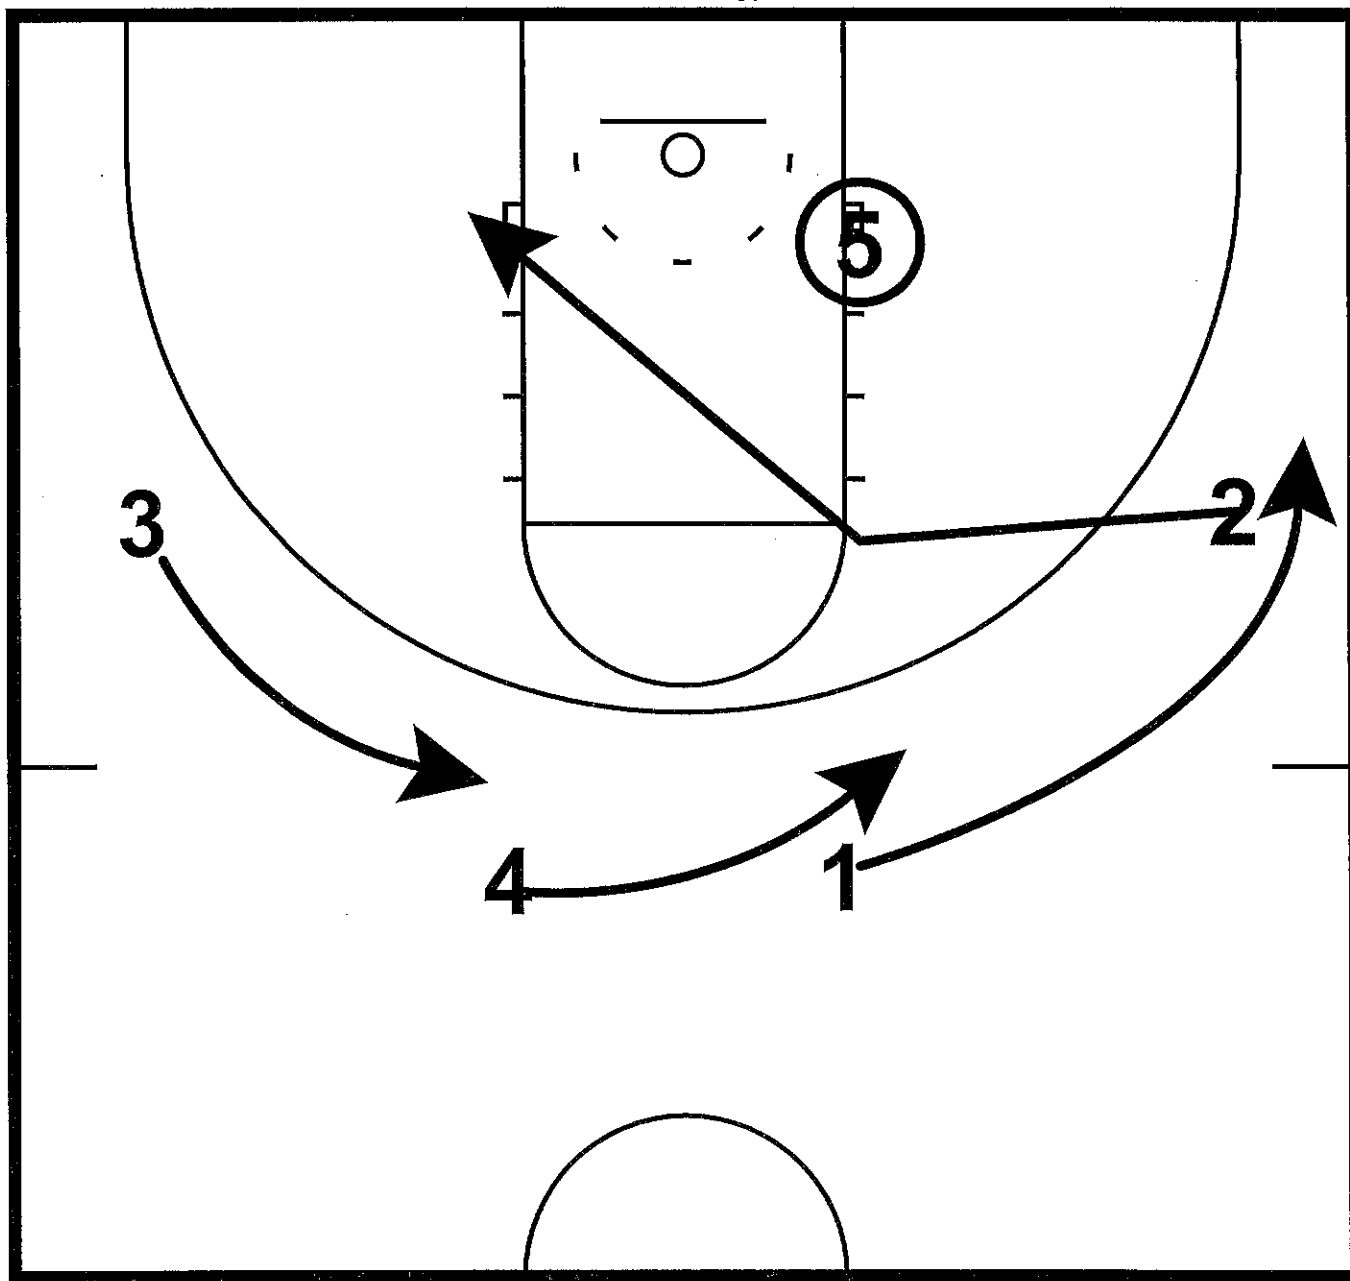

A pitch is when a dribble pivots and passes back to a player lifting up from the corner for a shot.

Terminology - Actions/Plays

Post Cutting

Frame 1
Terminology

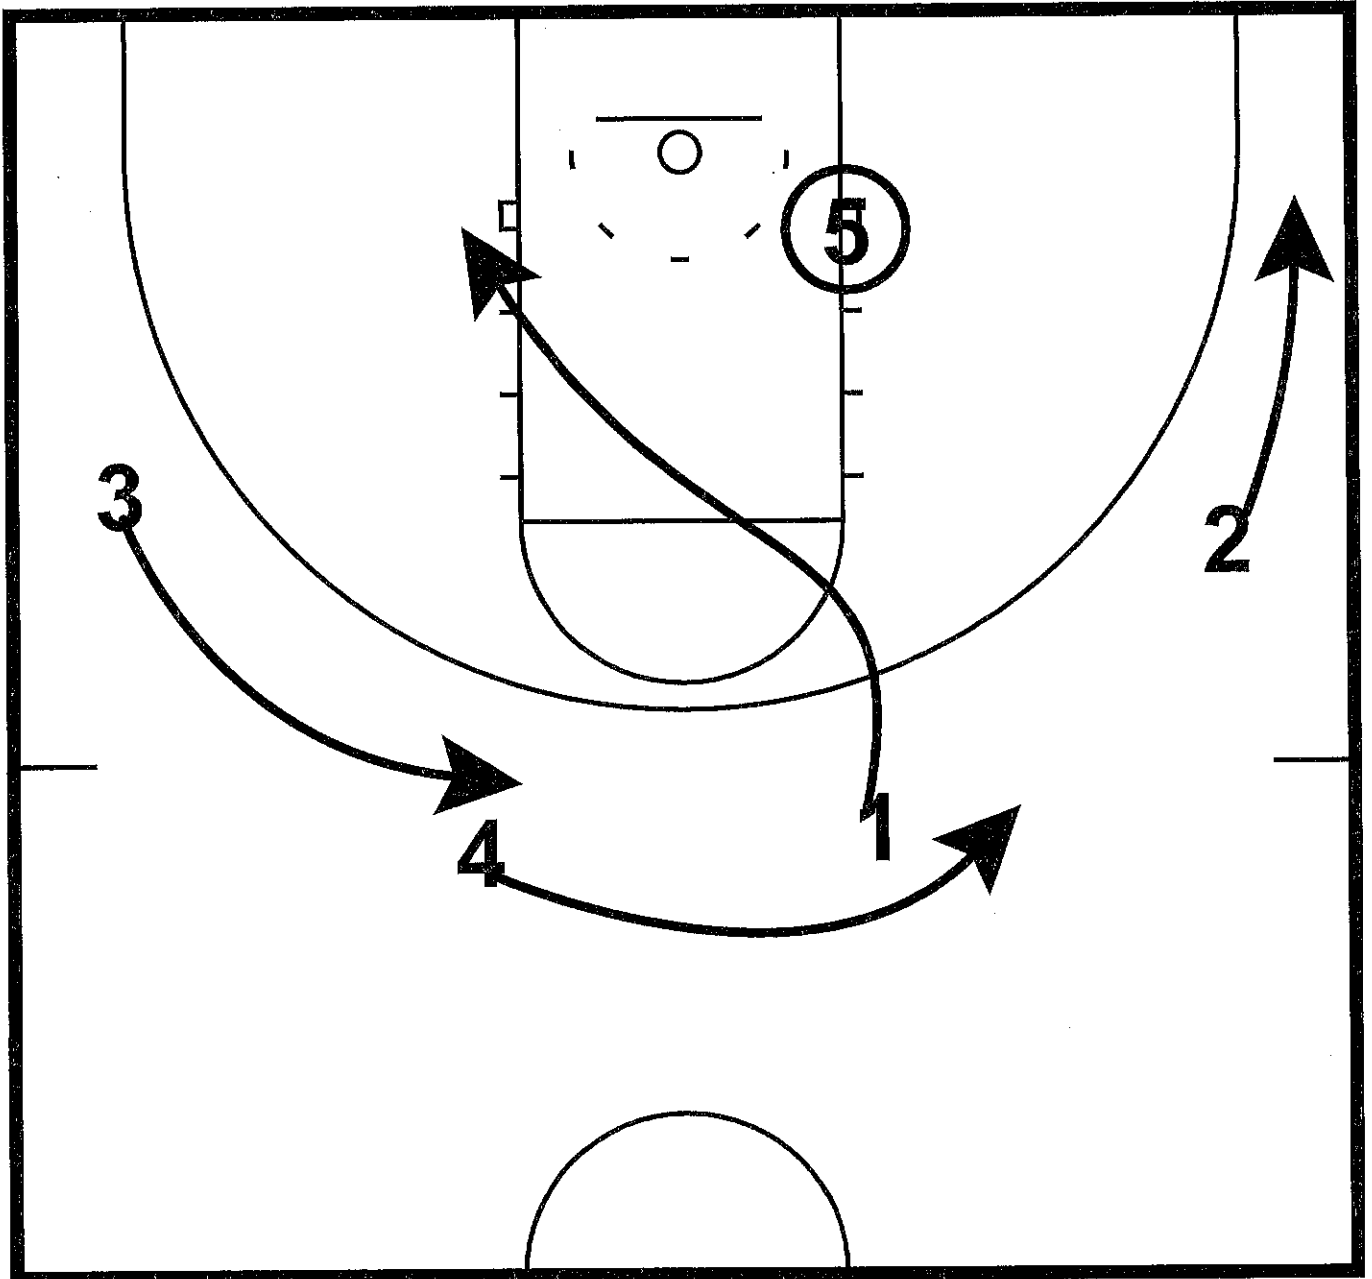

Once the ball is in the post, it is important to have a post cutting strategy to maintain movement in your offense.

Terminology - Actions/Plays

Post Cutting

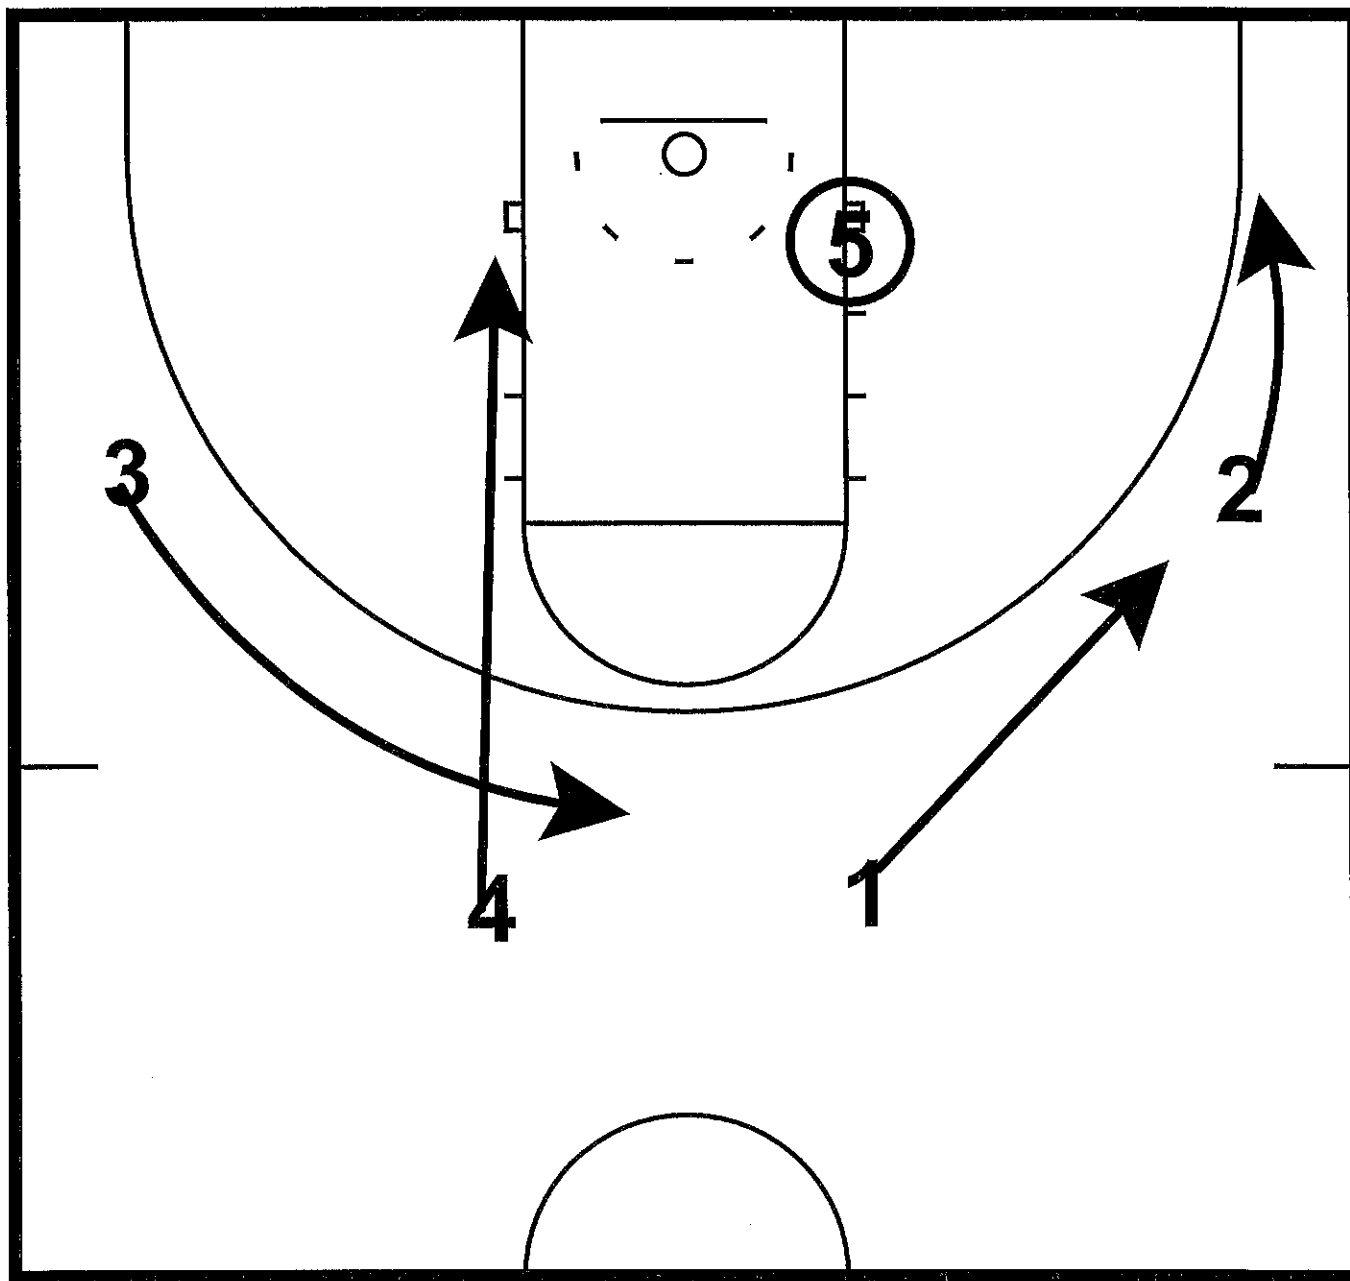

Frame 2
Terminology

Terminology - Actions/Plays

Post Cutting

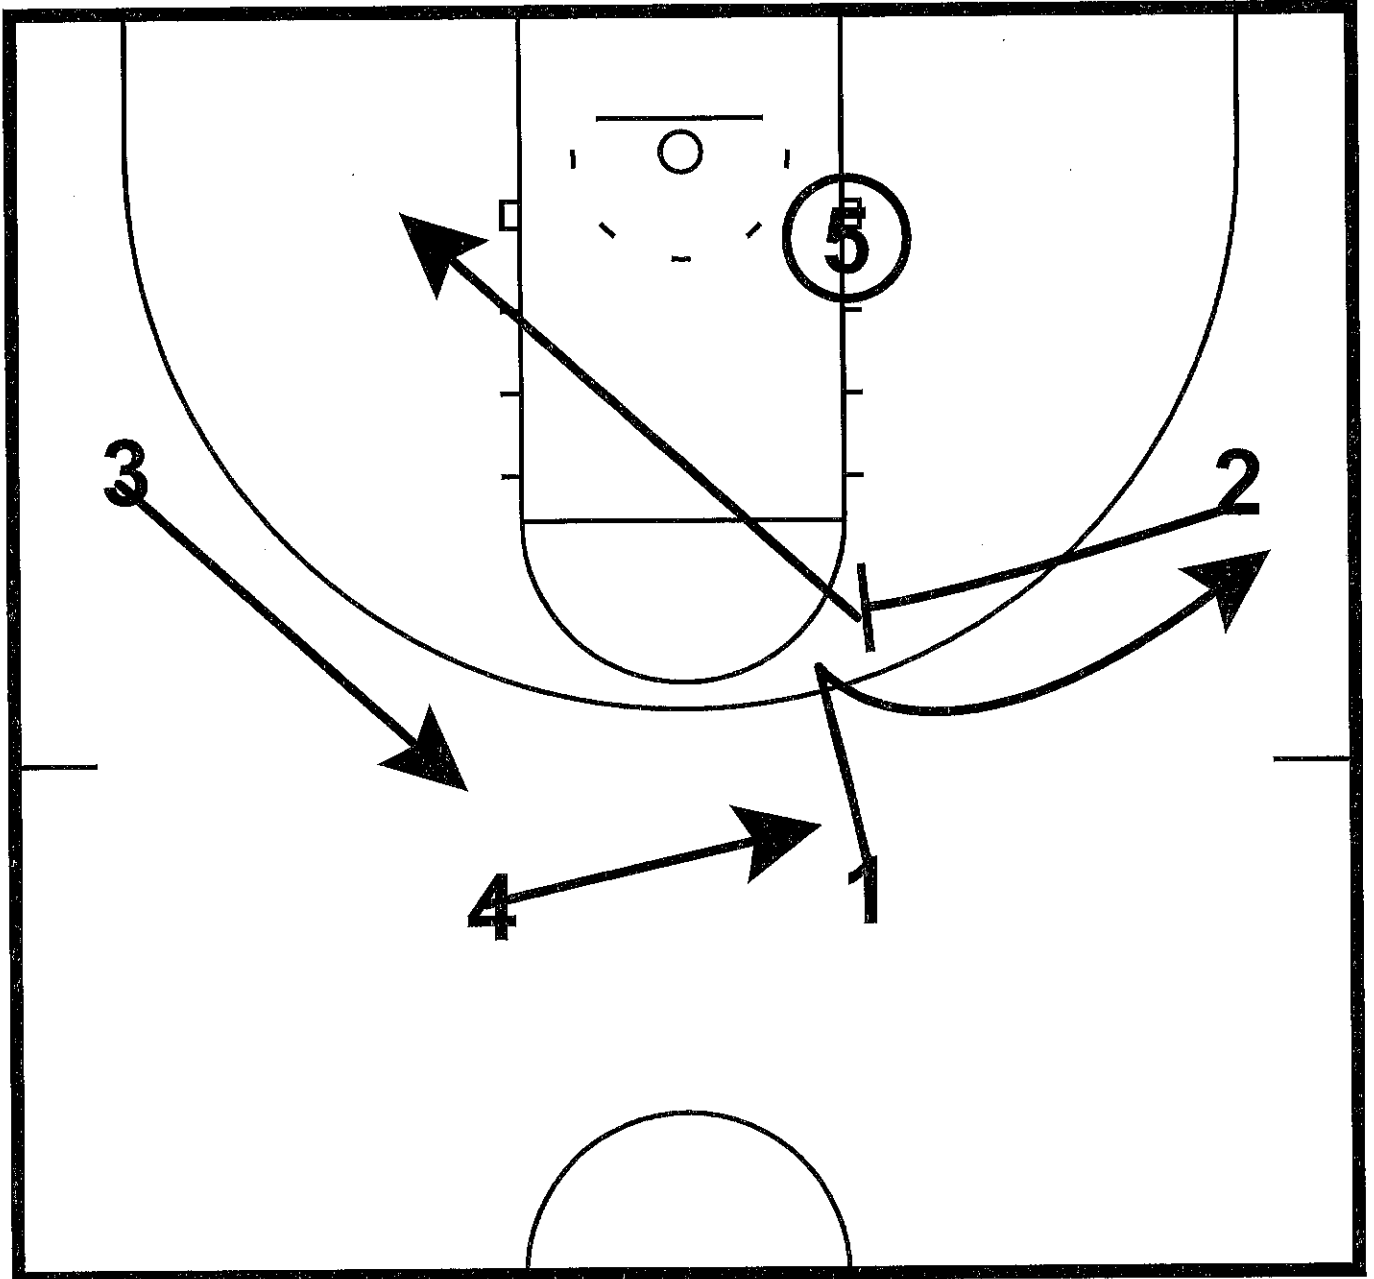

Frame 3
Terminology

Terminology - Actions/Plays

Post Cutting

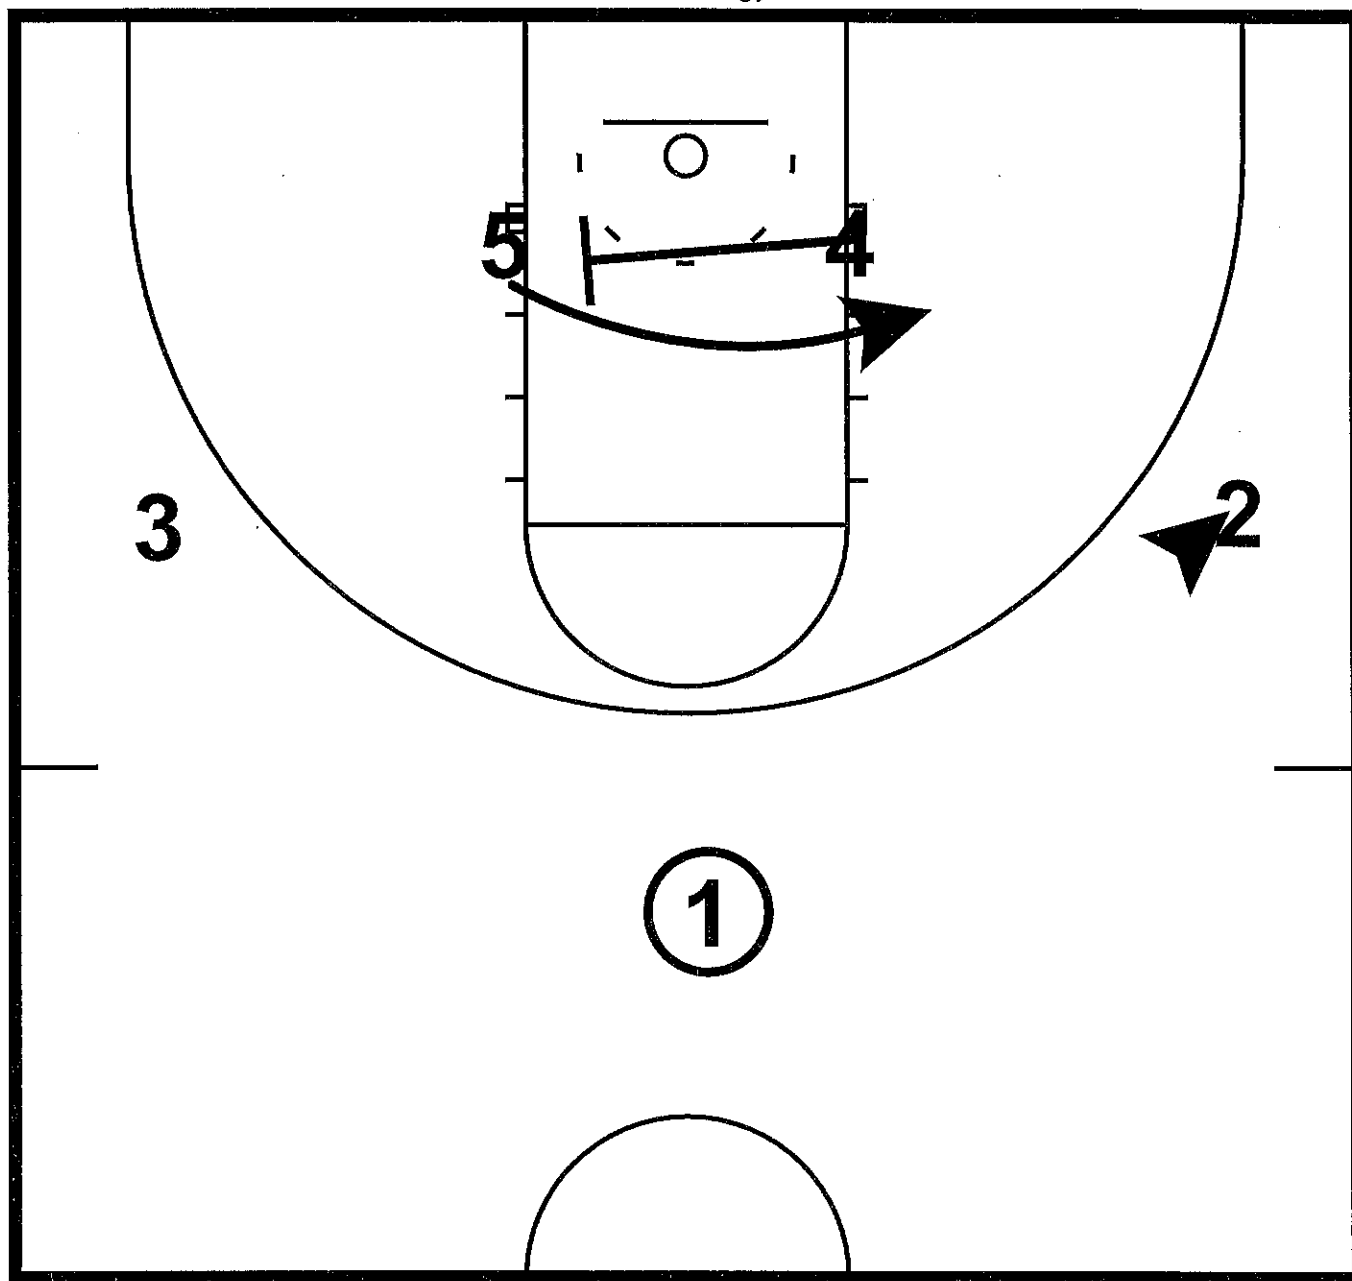

Frame 4
Terminology

Terminology - Actions/Plays

Power

Frame 1
Terminology

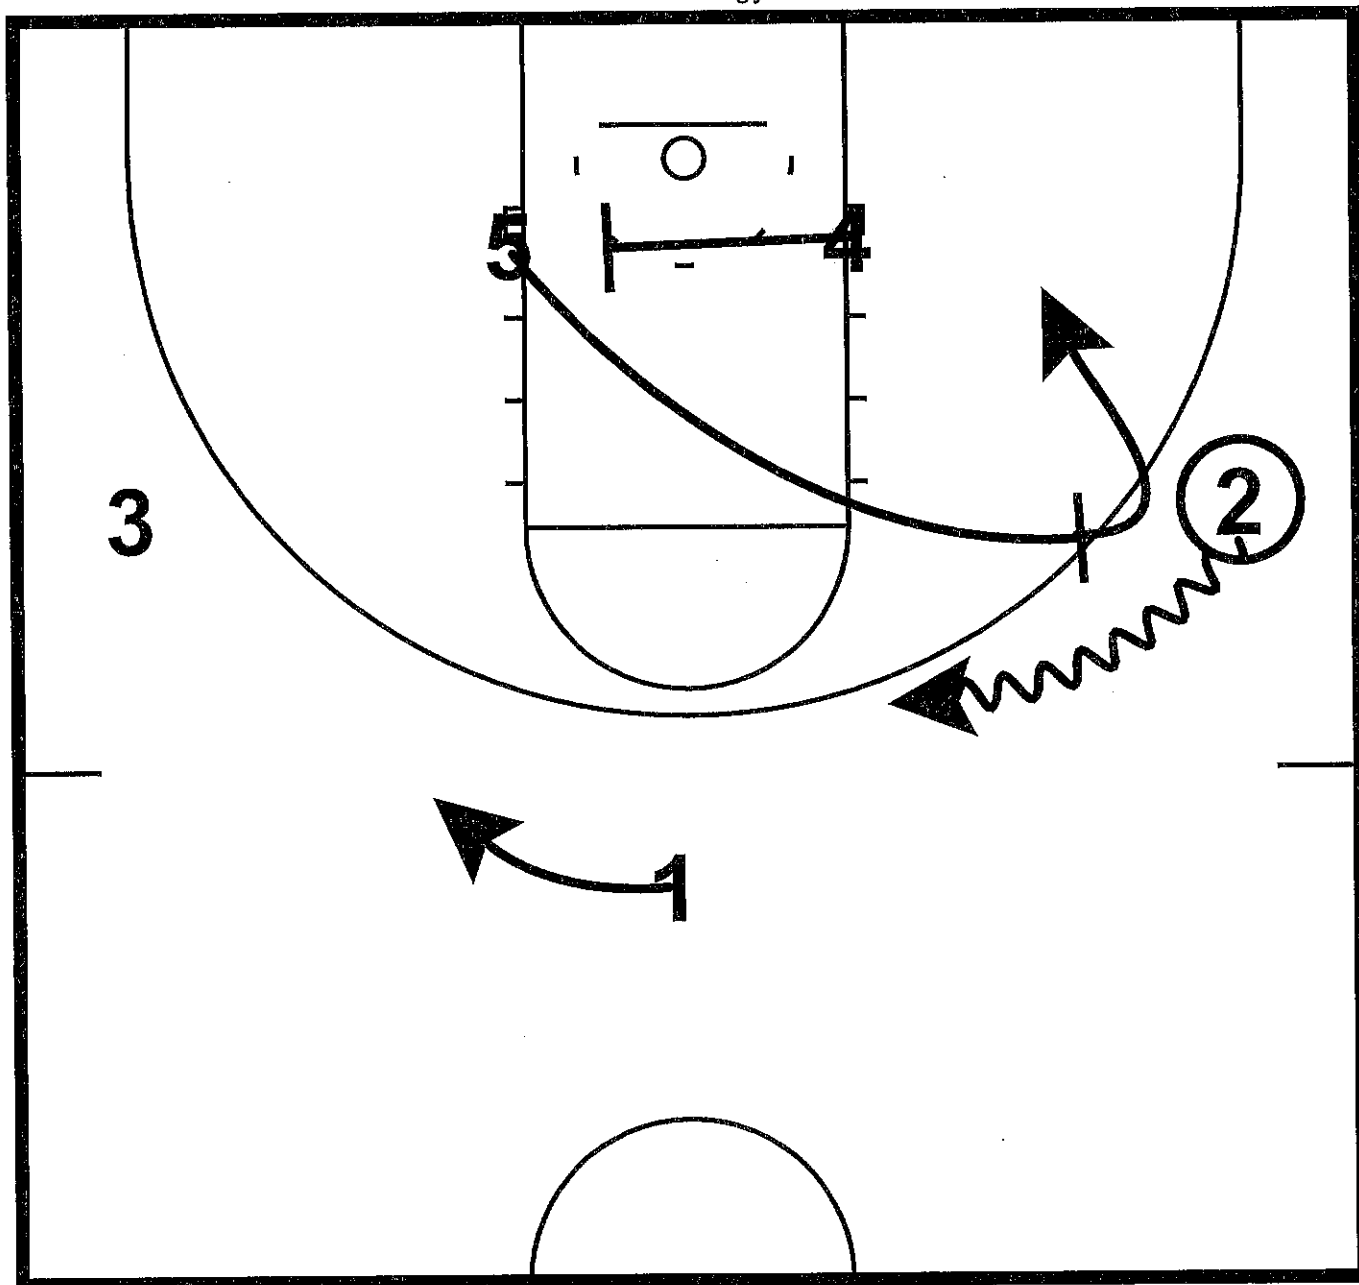

Power is a post-post cross screen in the lane.

Terminology - Actions/Plays

Power Ram

Frame 1
Terminology

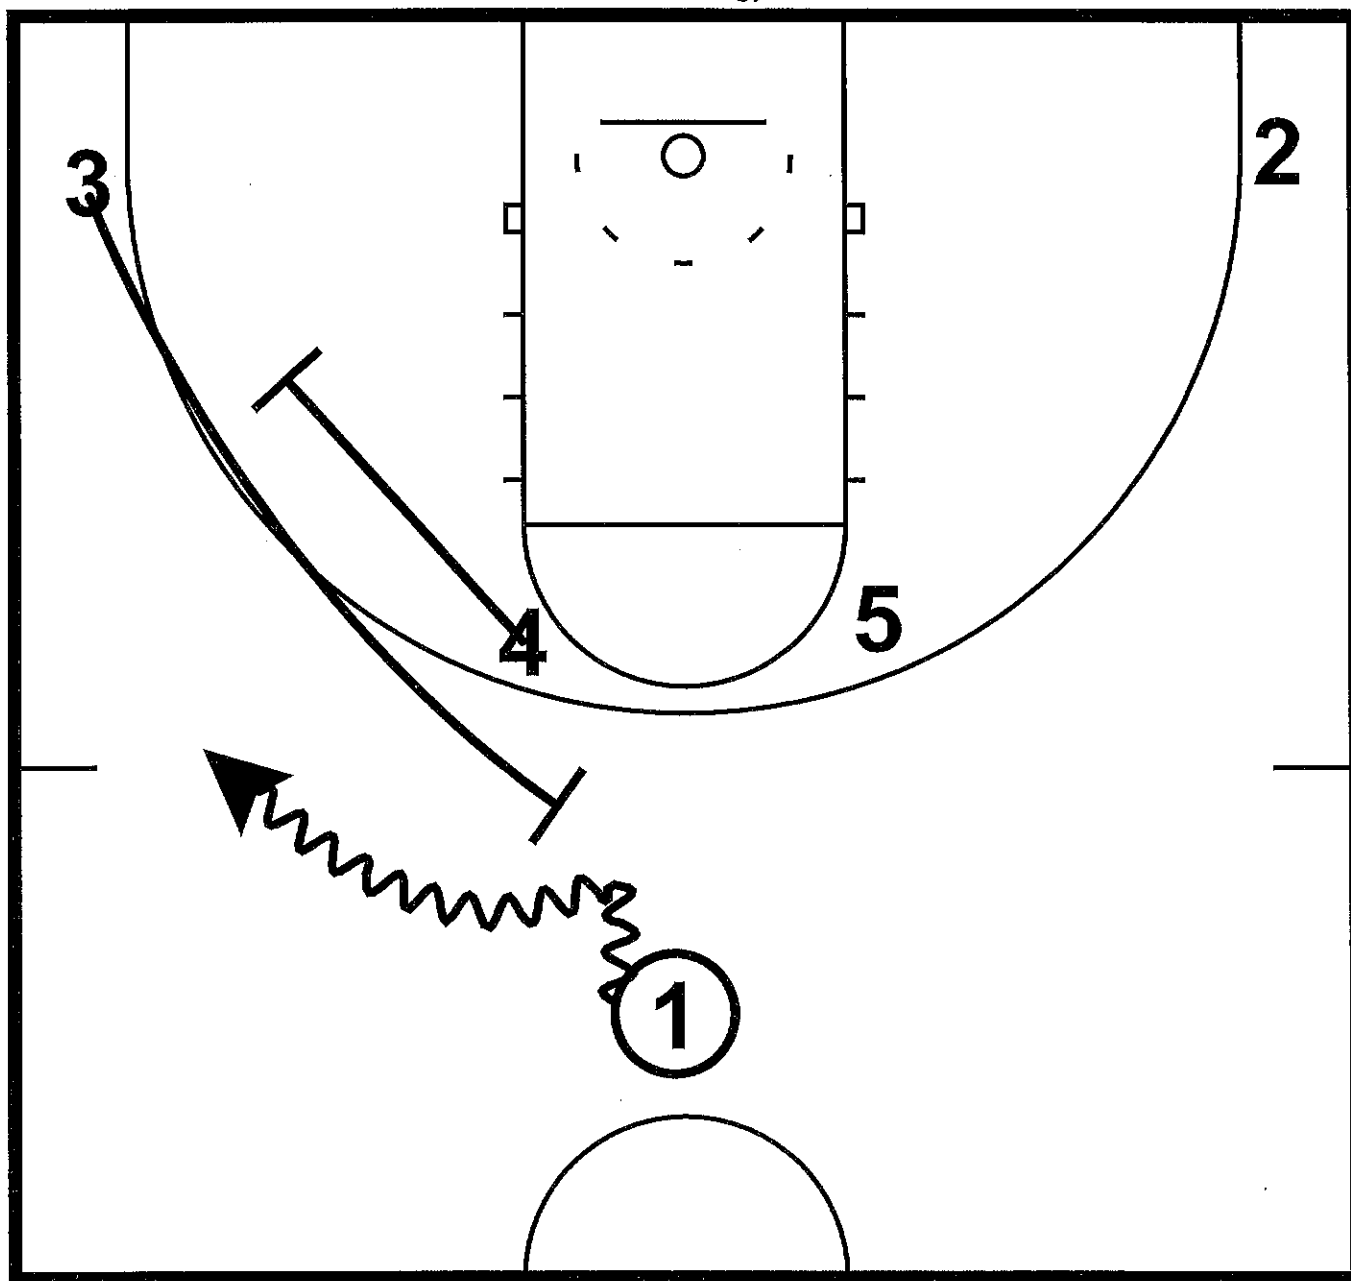

In power ram, a post-post cross screen is set with the cutter sprinting directly into a ball screen.

Terminology - Actions/Plays

Ram

Frame 1
Terminology

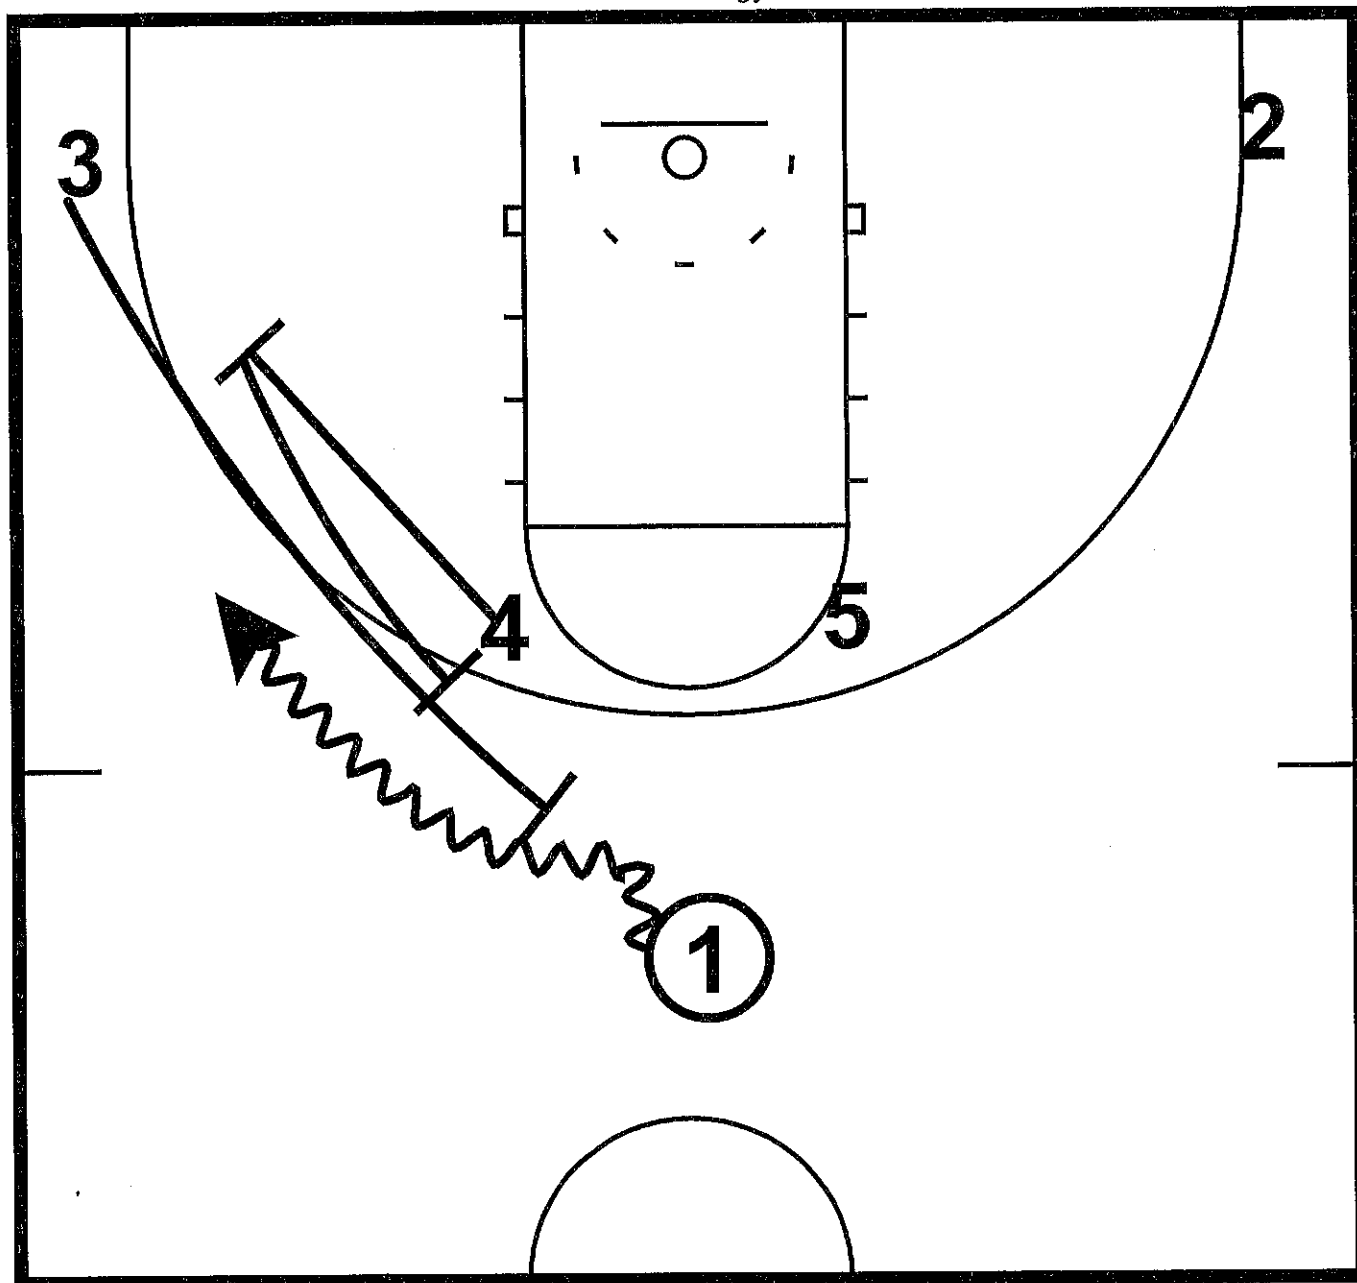

A ram action is when a player sprints directly into a ball screen after cutting off of a screen from another player.

Terminology - Actions/Plays

Ram Double

Frame 1
Terminology

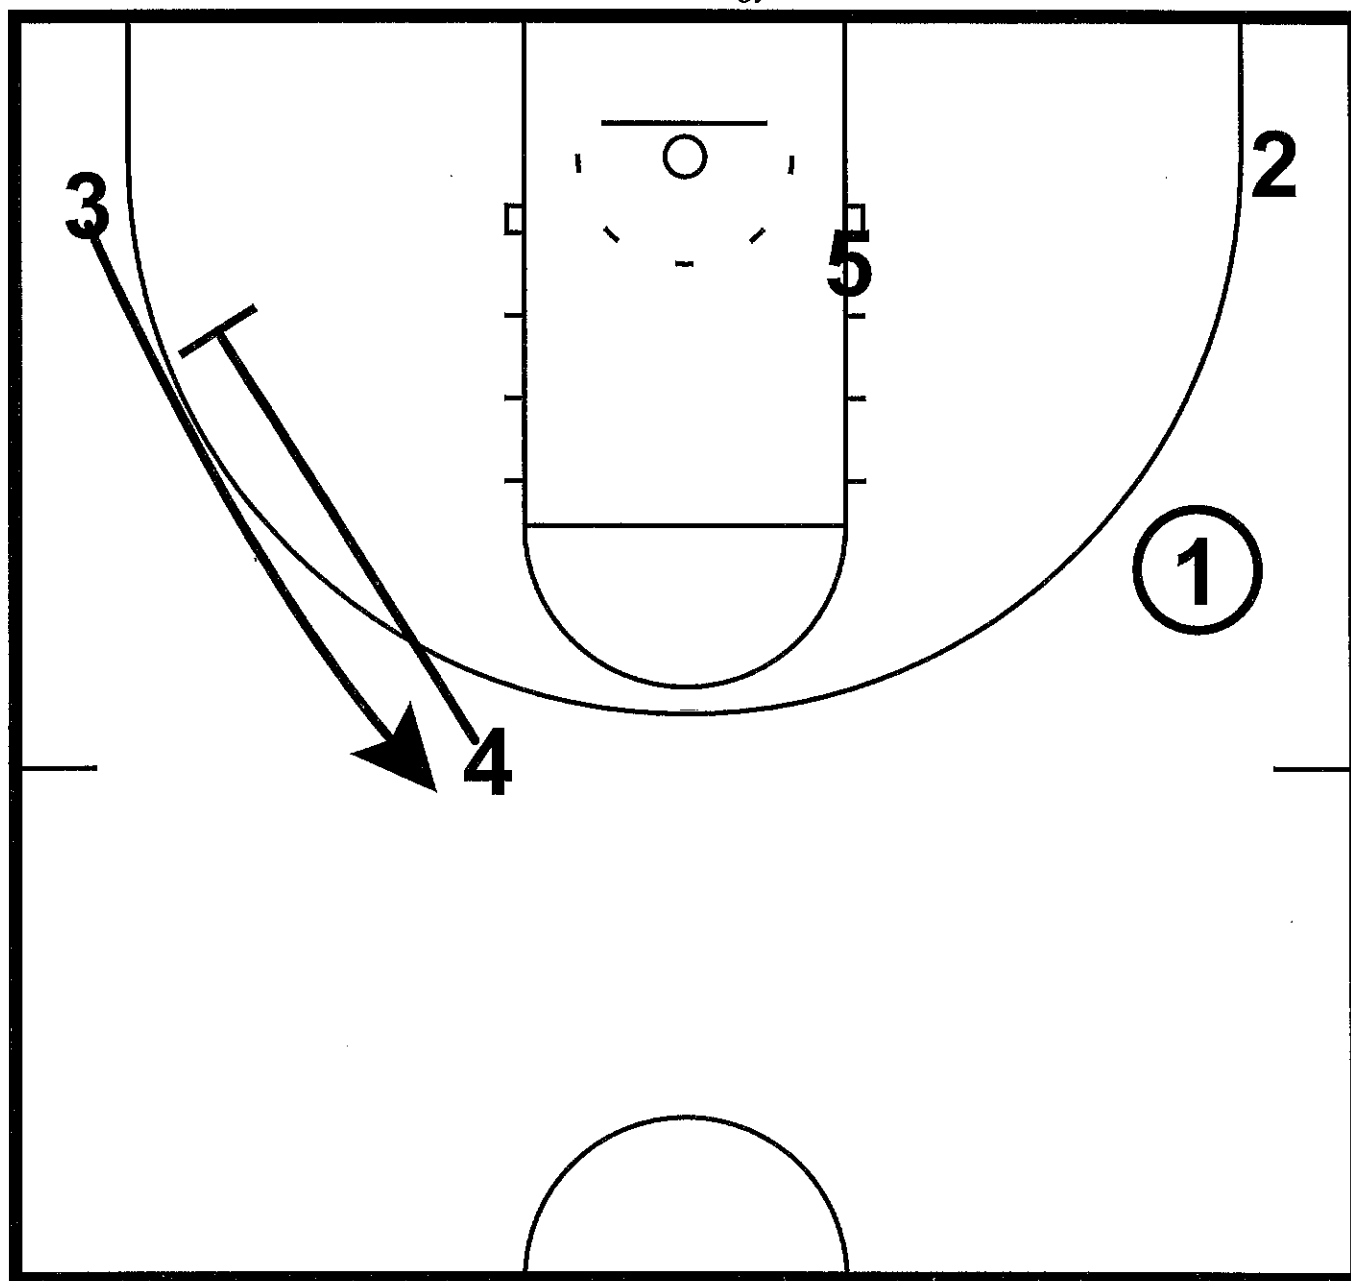

In ram double, the down screener turns to set a ball screen with the cutter.

Terminology - Actions/Plays

Re-Screen

Frame 1
Terminology

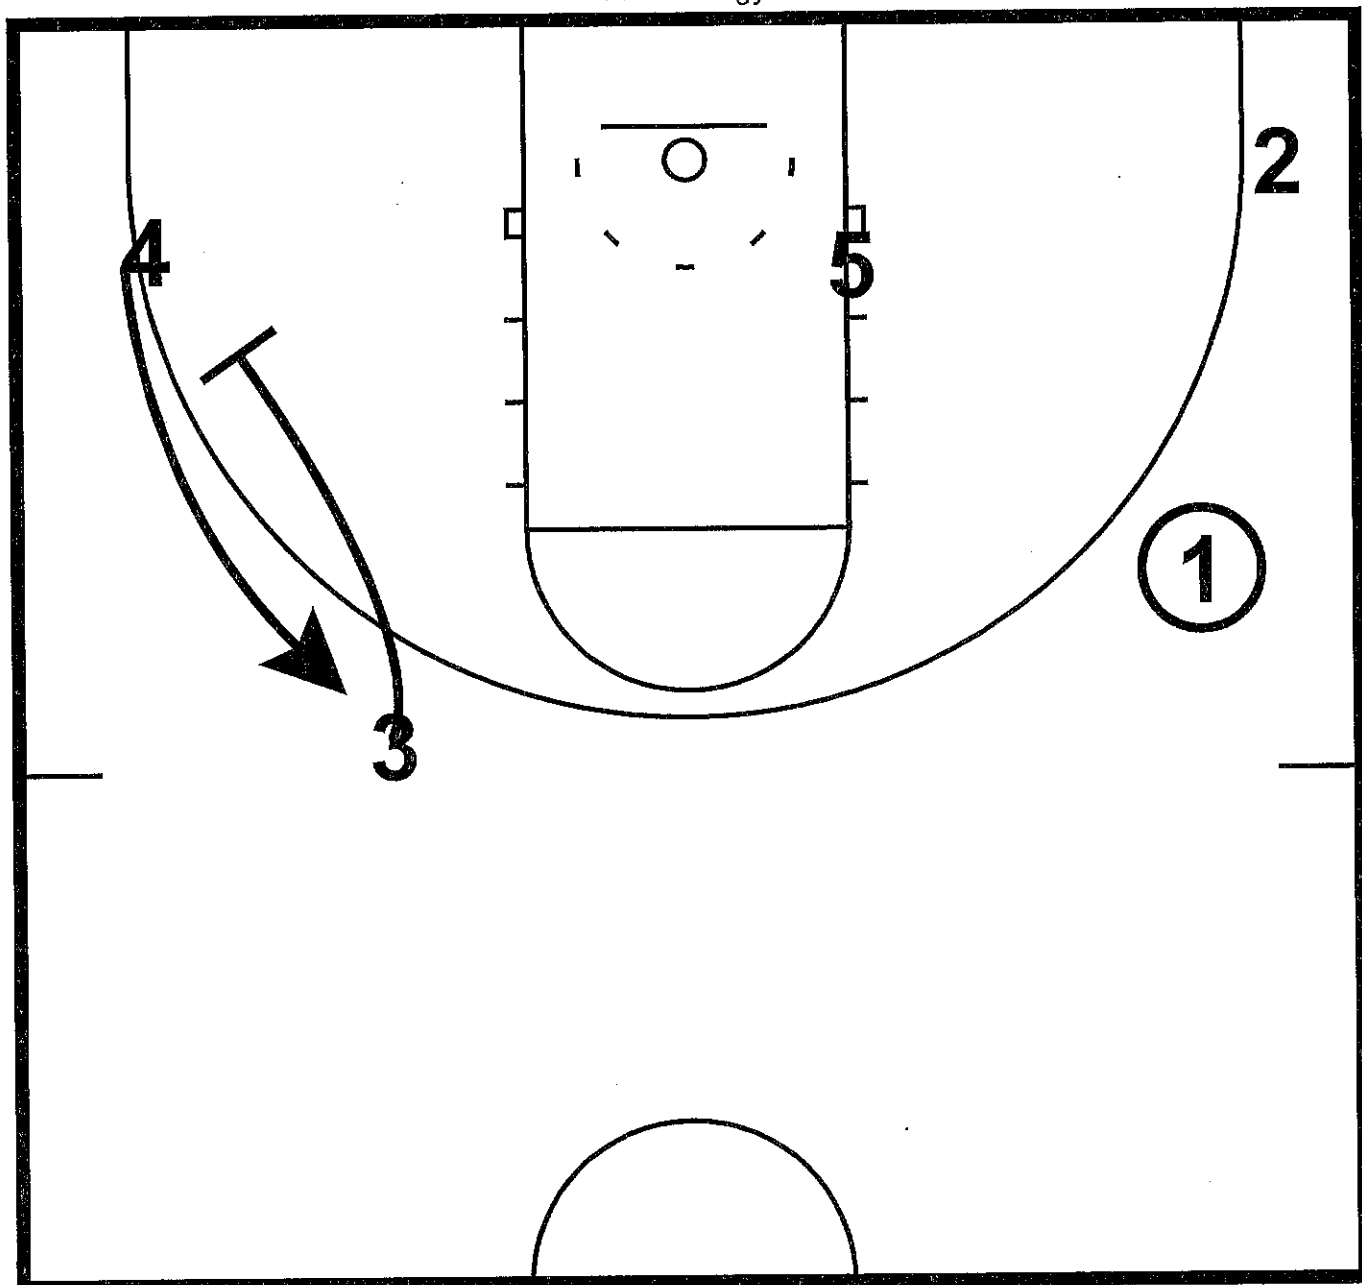

A re-screen action is simply any screen that is repeated by the same two players.

Terminology - Actions/Plays

Re-Screen

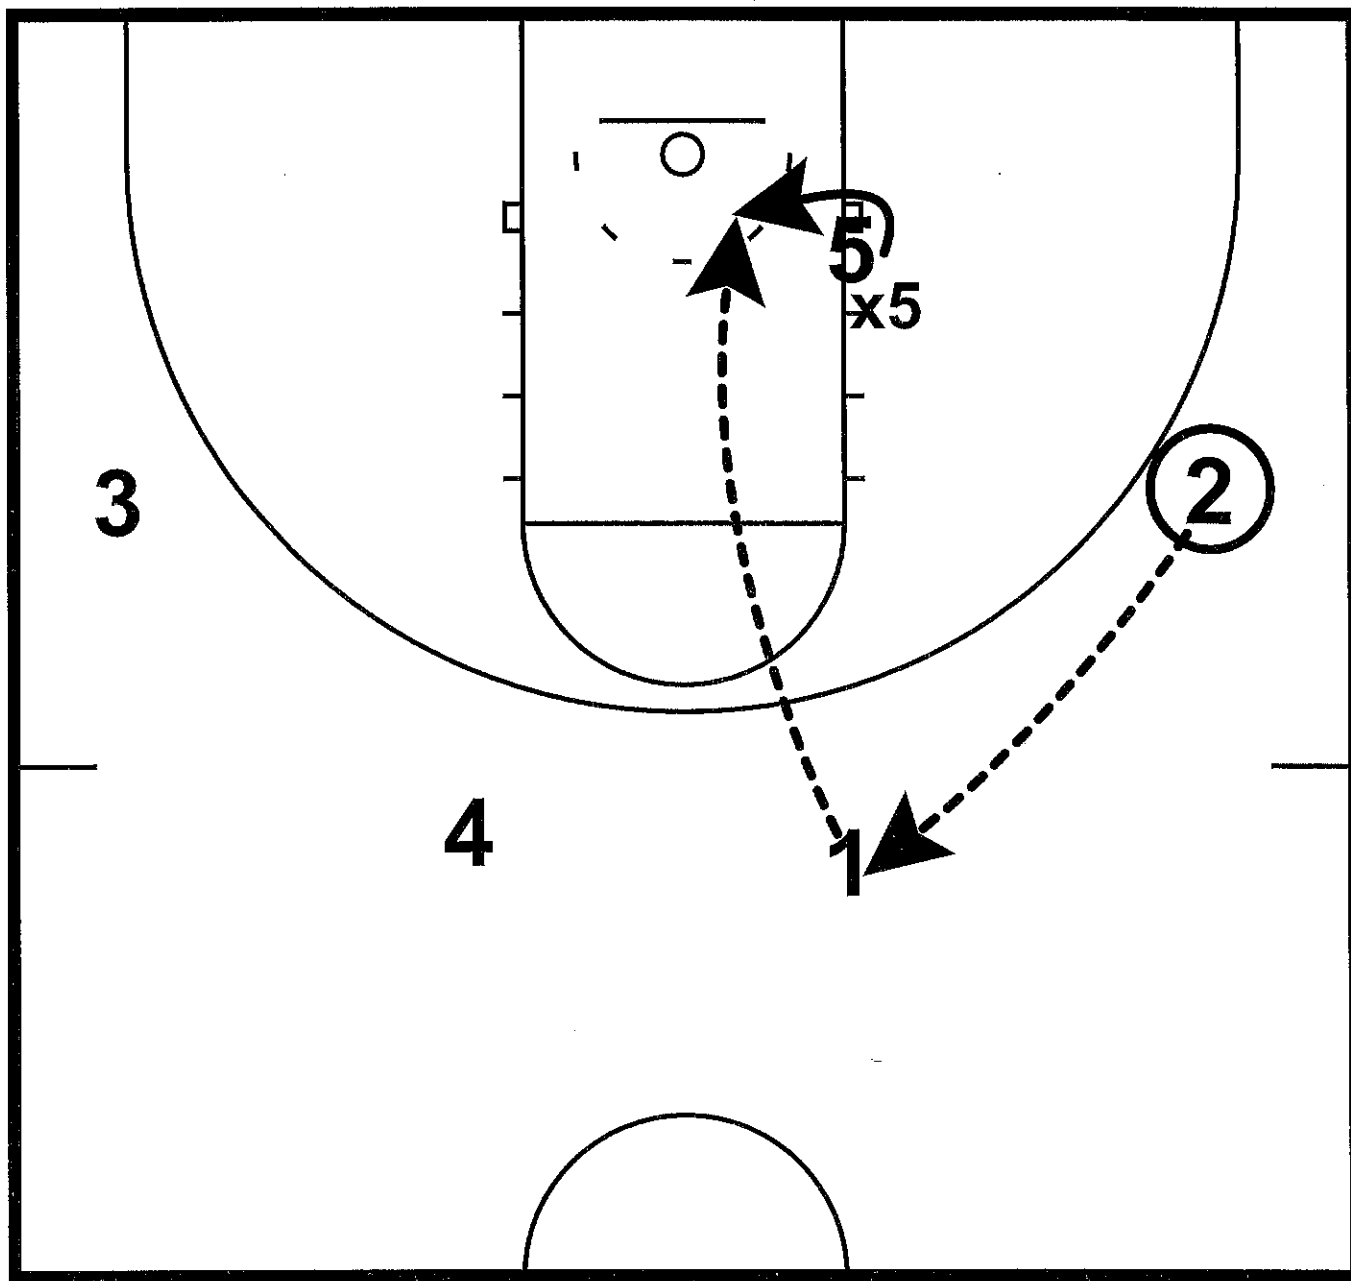

Frame 2
 Terminology

Terminology - Actions/Plays

Reverse Seal

Frame 1
Terminology

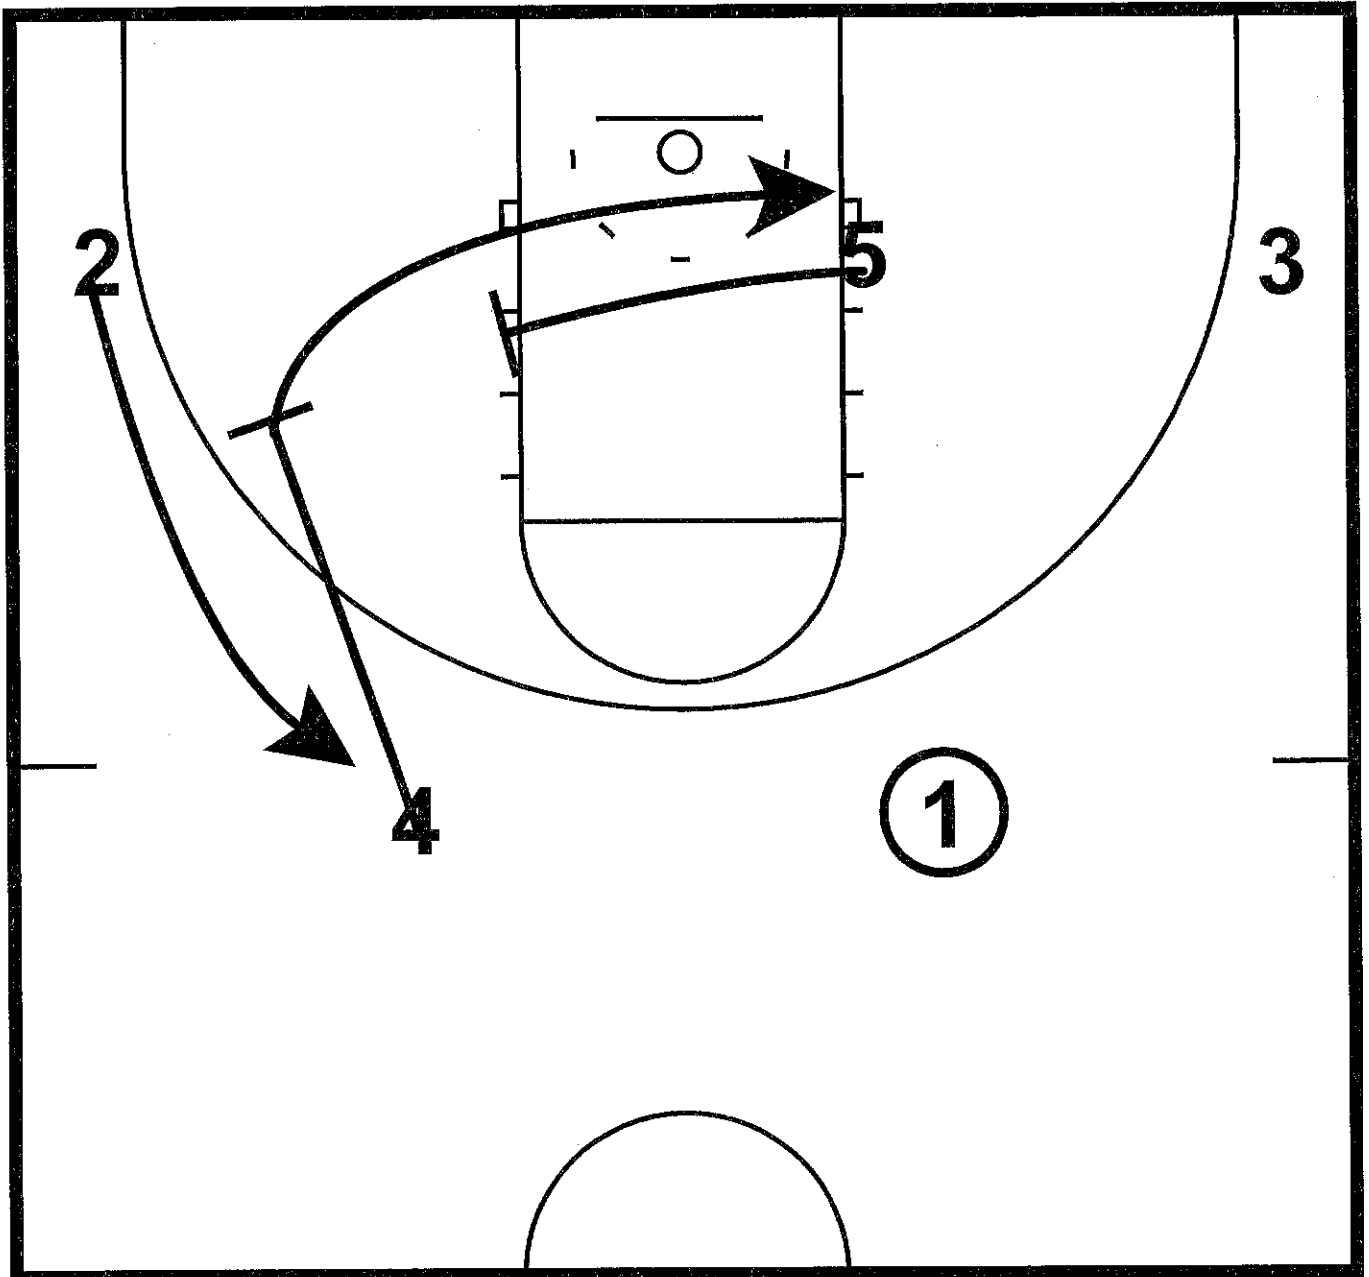

A reverse seal is when a post player holds his defender on his outside hip as the ball is thrown from the wing to the slot or top of the key. On the pass, the post defender is out of position to defend a hi/lo or lob pass.

Terminology - Actions/Plays

Rip

Frame 1
Terminology

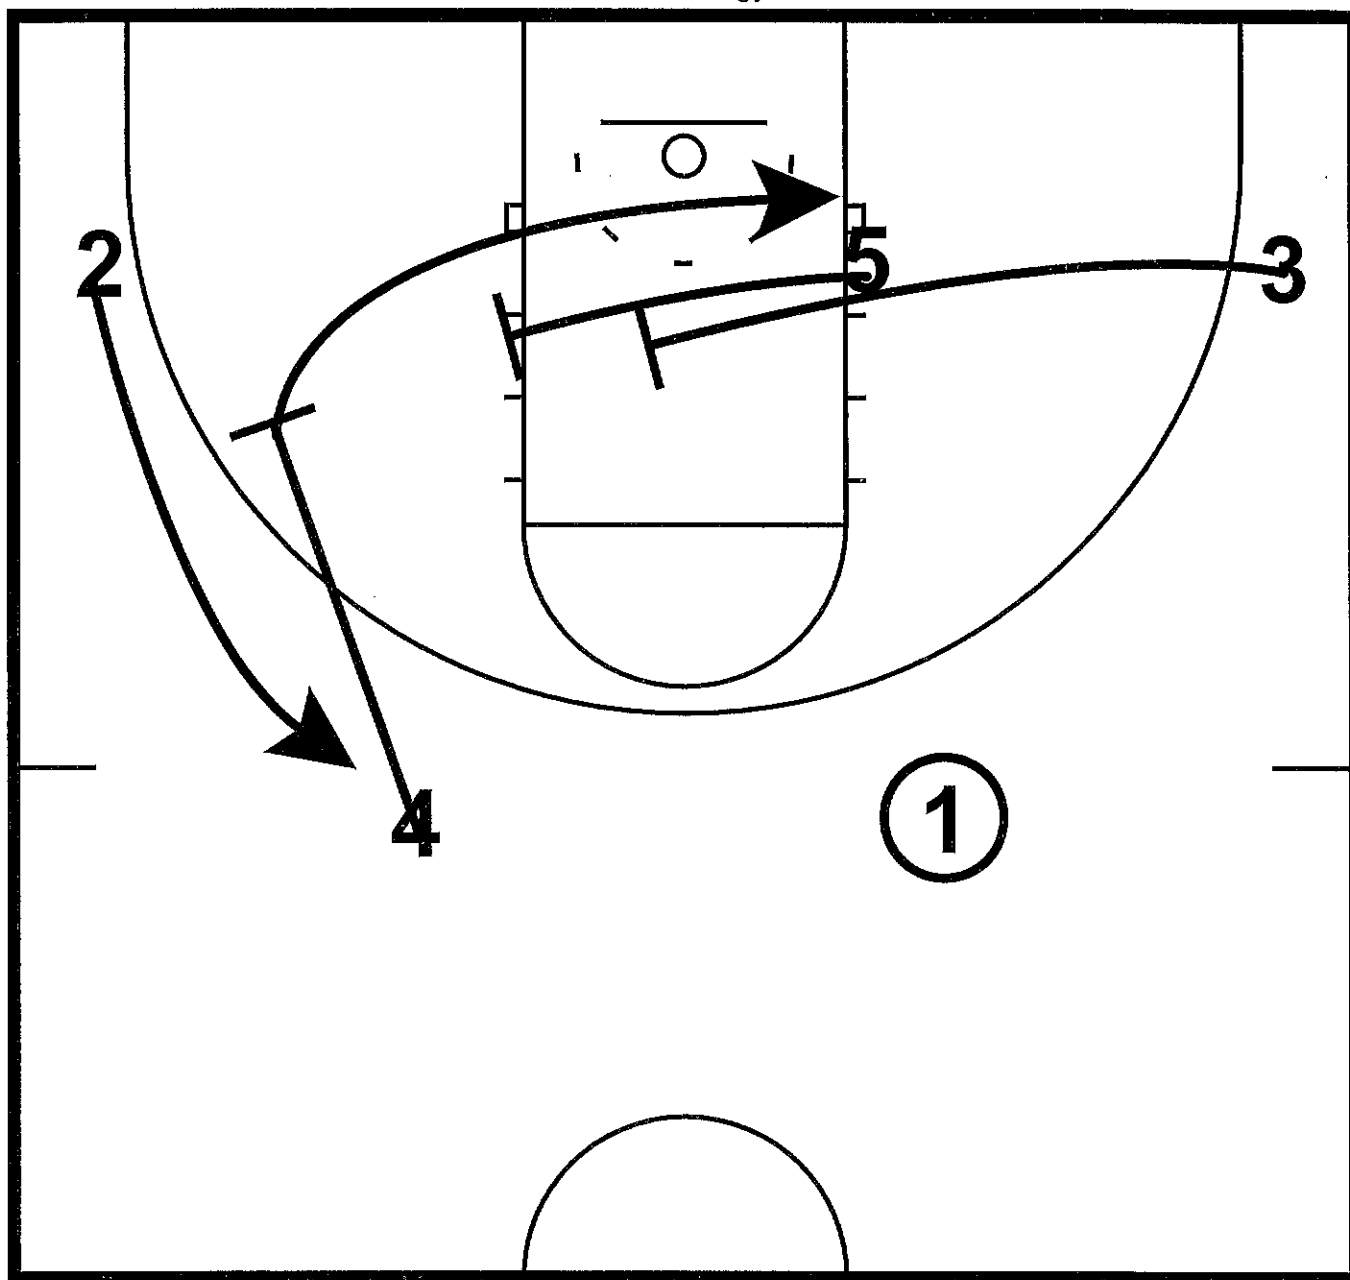

Rip is a screen set across the lane for a player who just set a down screen.

Terminology - Actions/Plays

Rip Double

Frame 1
Terminology

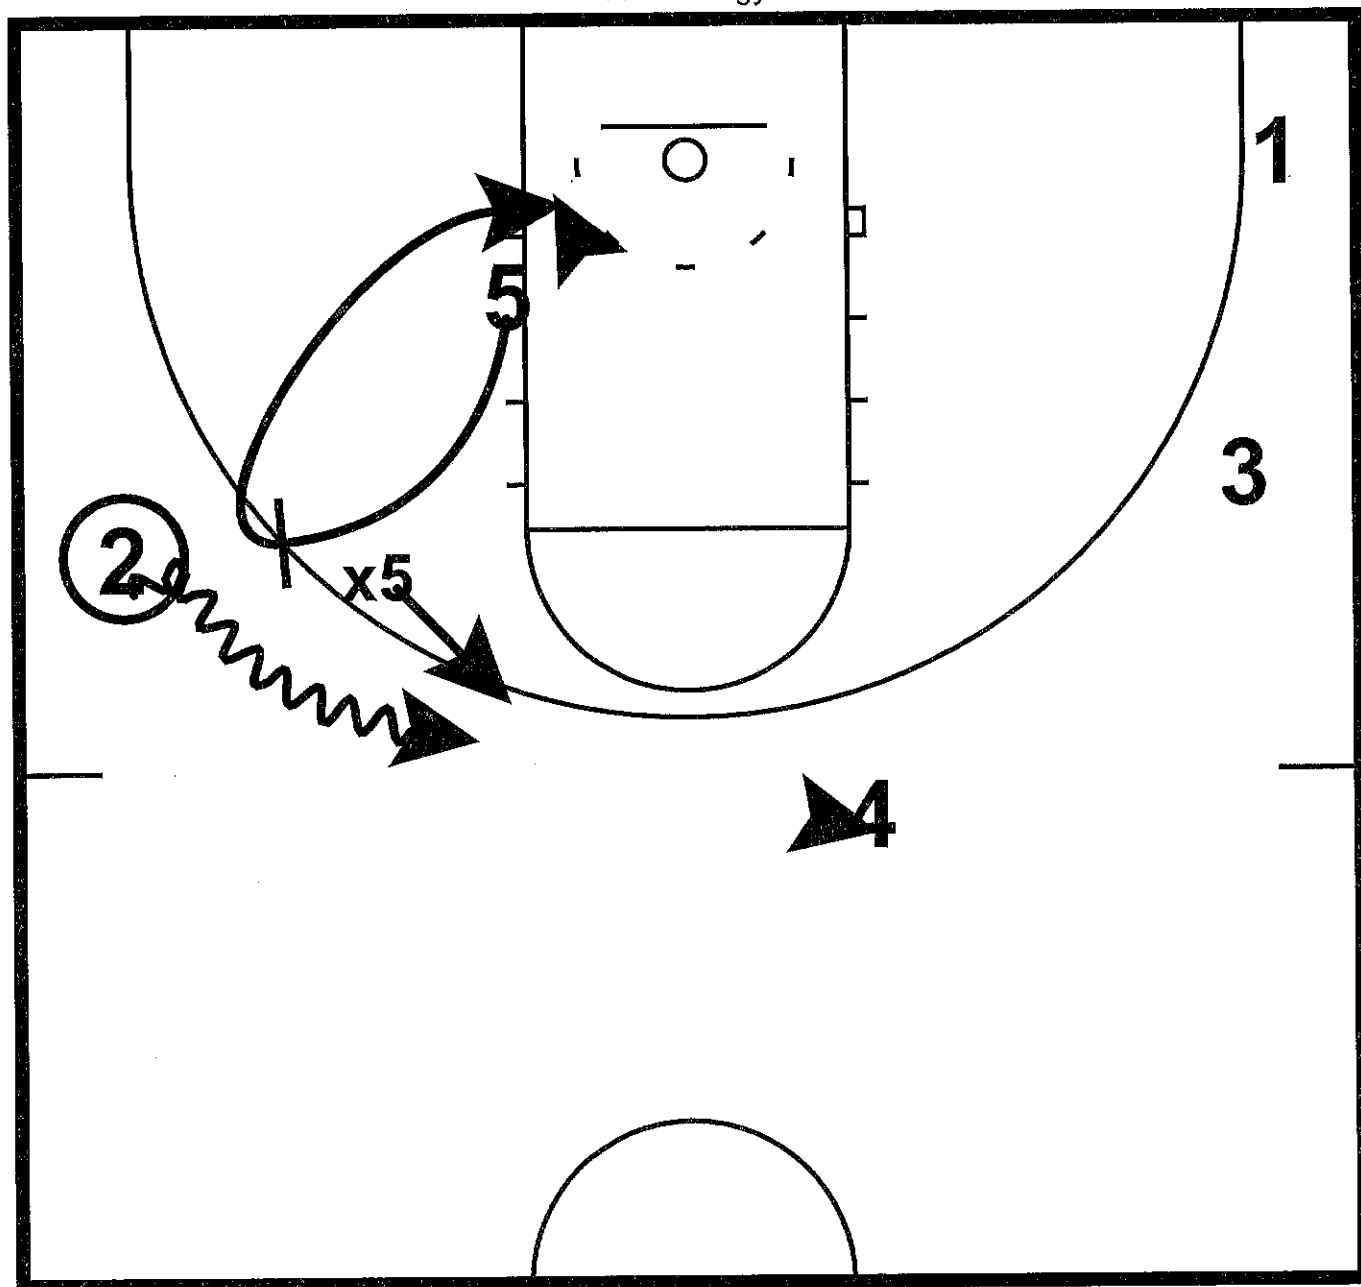

Rip is a screen set across the lane for a player who just set a down screen. In rip double, two players set the rip screen.

Terminology - Actions/Plays

Rocket

Frame 1
Terminology

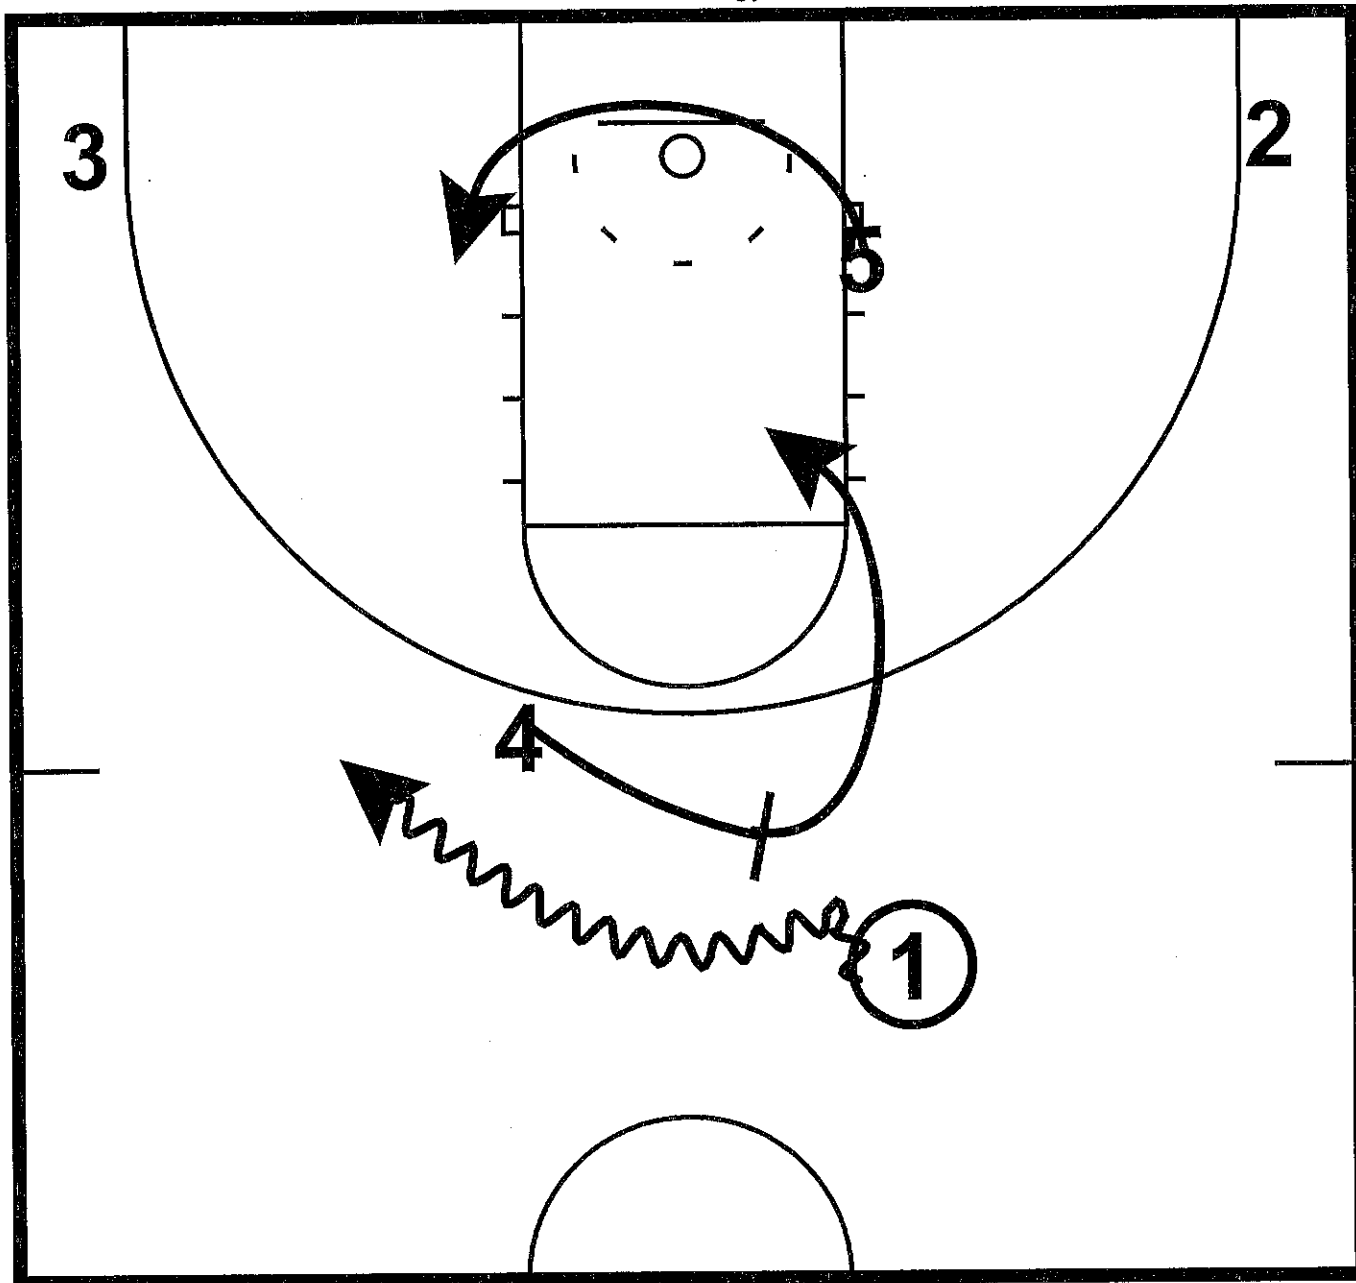

Rocket is used to attack hard hedging ball screen defense. The opposite slot player holds and gets a quick pass from the ballhandler once he clears the screen. With x5 hedging, he cannot get back to 5 quick enough as 4 passes to 5 for a layup.

Terminology - Actions/Plays

Roll/Short Roll (Hoiberg Roll)

Frame 1
Terminology

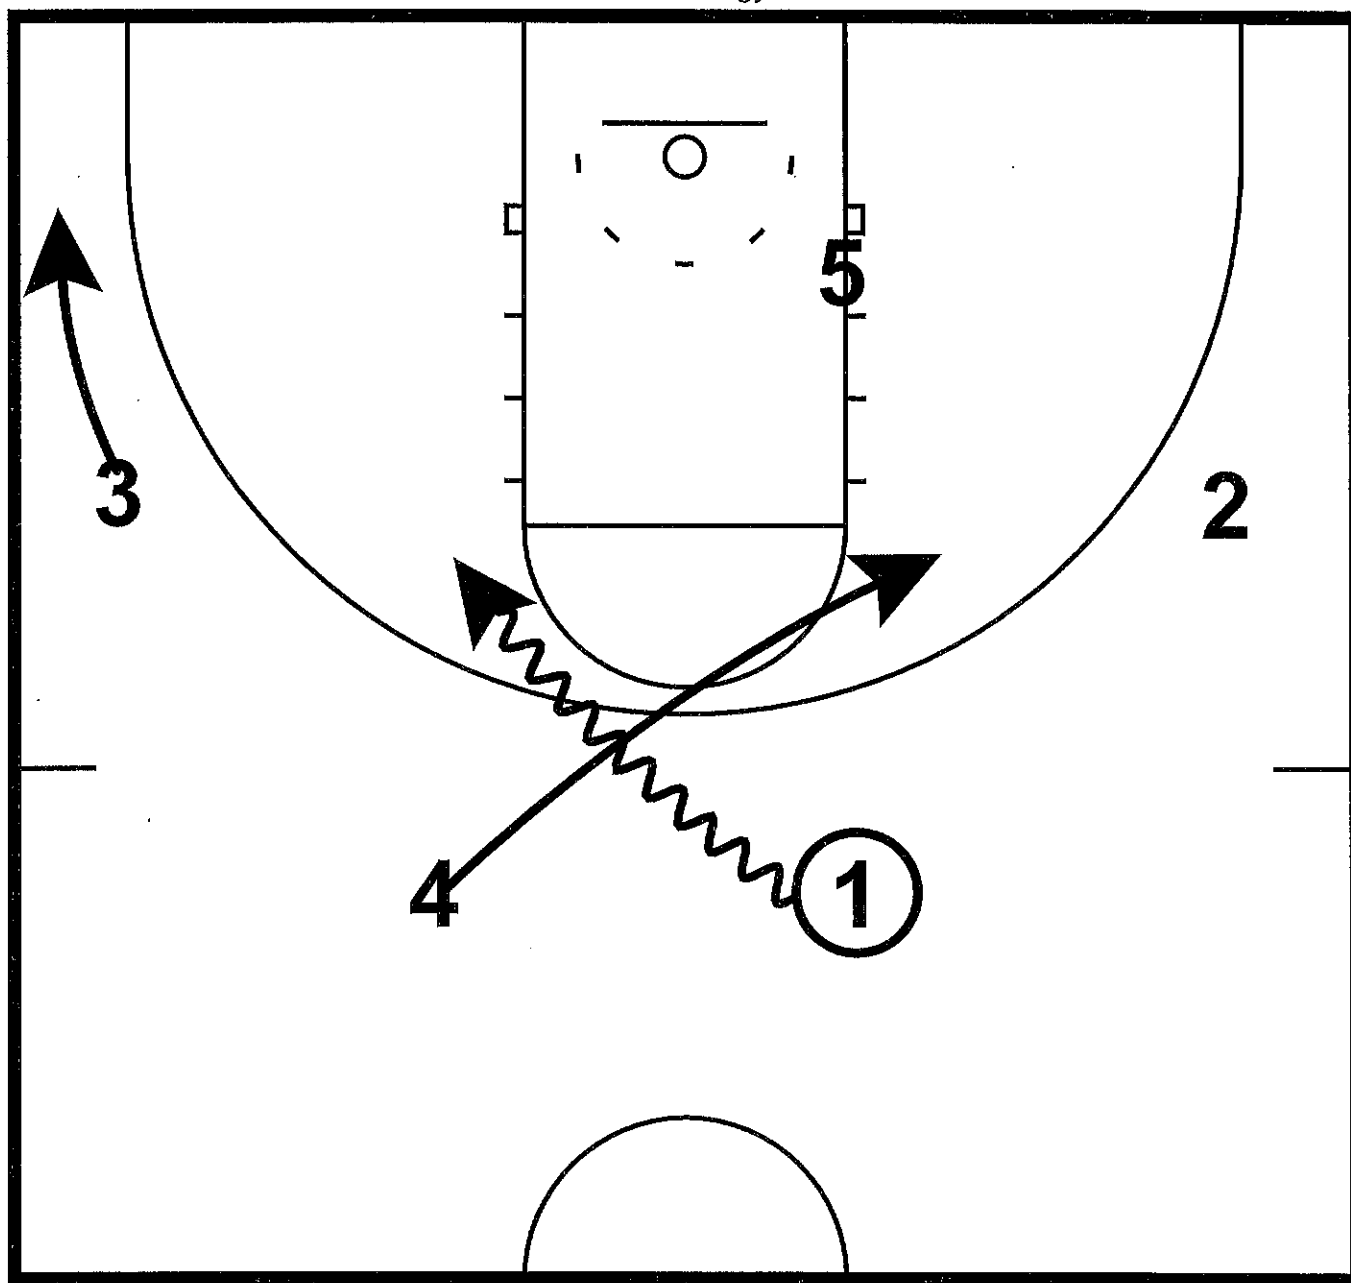

A roll/short roll, or Hoiberg roll (from Fred Hoiberg), is a counter to the typical roll/replace action. The ball screener rolls hard into the lane and the opposite big moves from one block to the other in a "short roll".

Terminology - Actions/Plays

Rub

Frame 1
Terminology

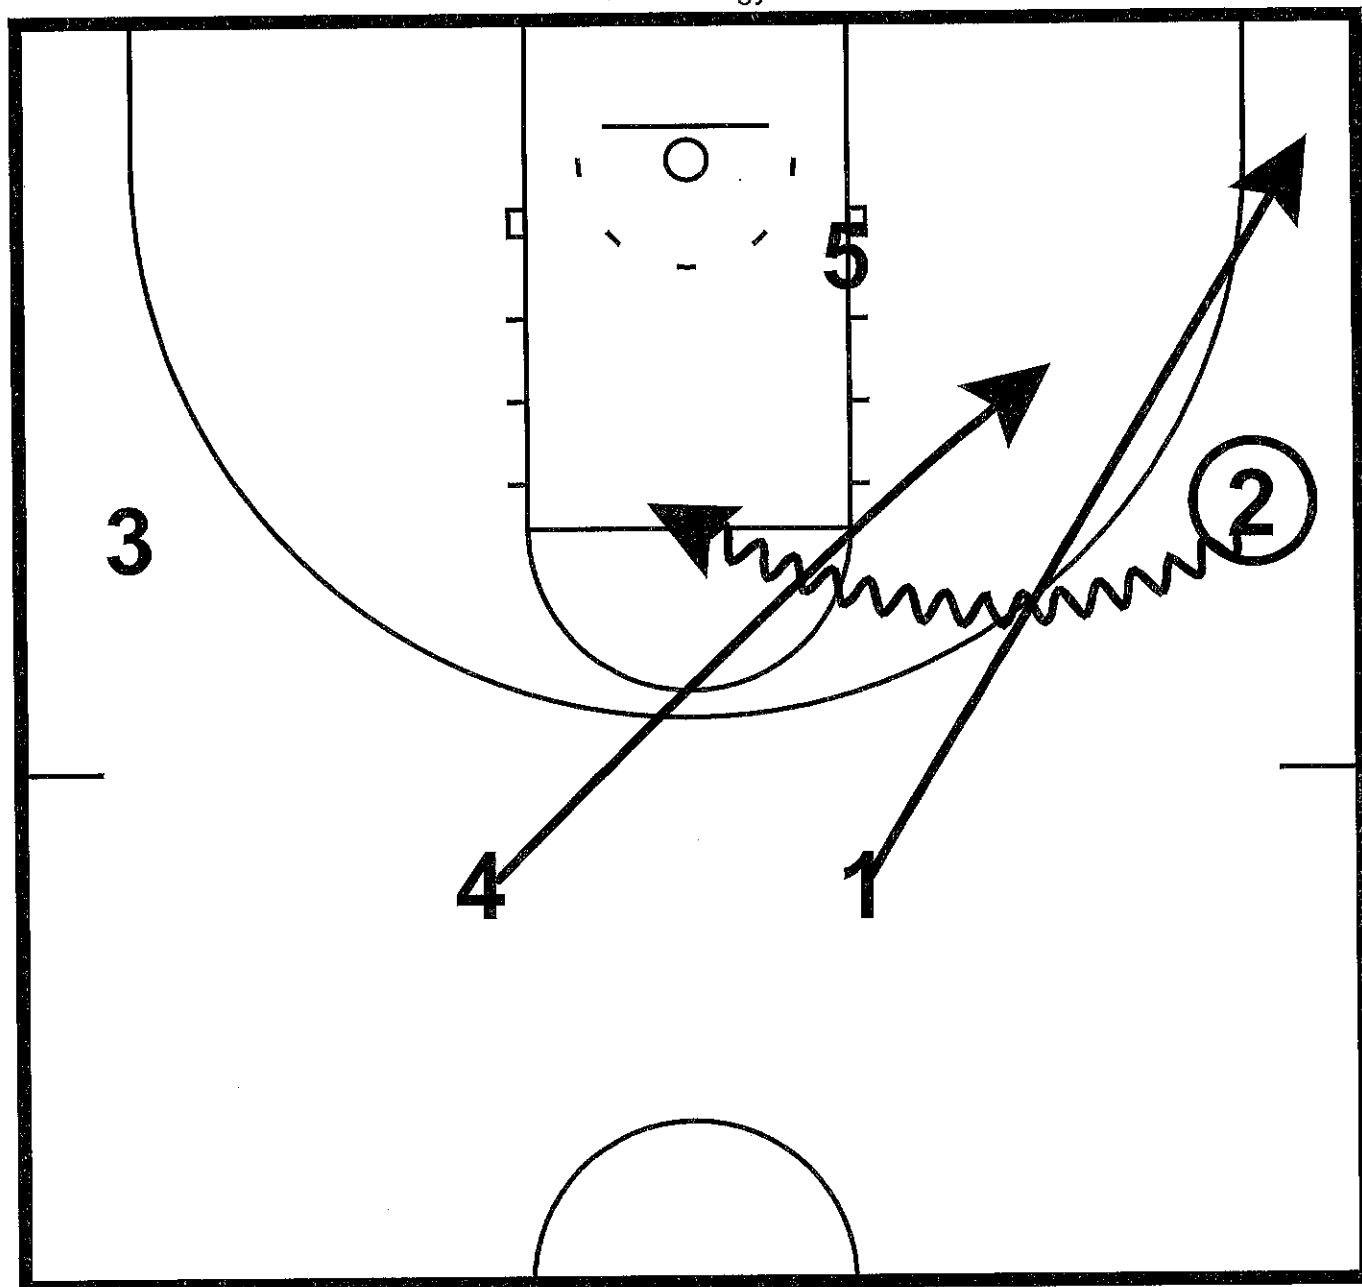

A rub screen is a cut right in front of the ball with the ballhandler attacking right behind the action.

Terminology - Actions/Plays

Rub Double

Frame 1
 Terminology

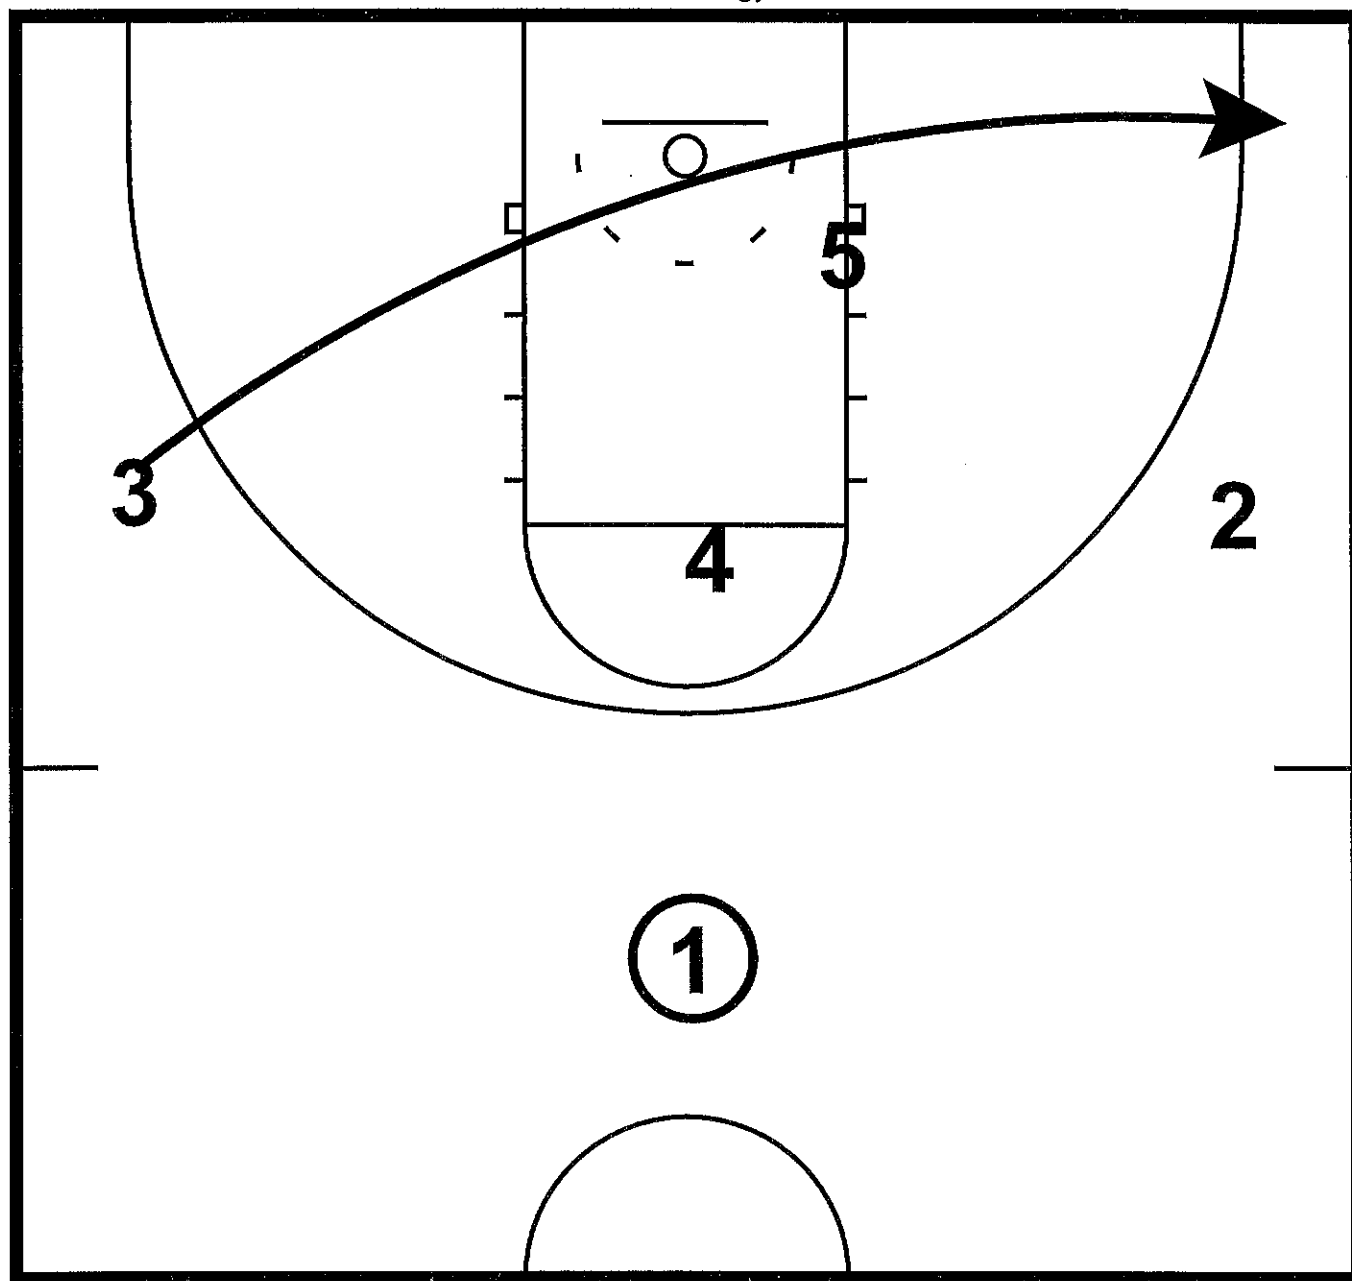

Rub double is two shallow cuts in front of the ball with the ballhandler penetrating directly behind the action.

Terminology - Actions/Plays

Runner

Frame 1
Terminology

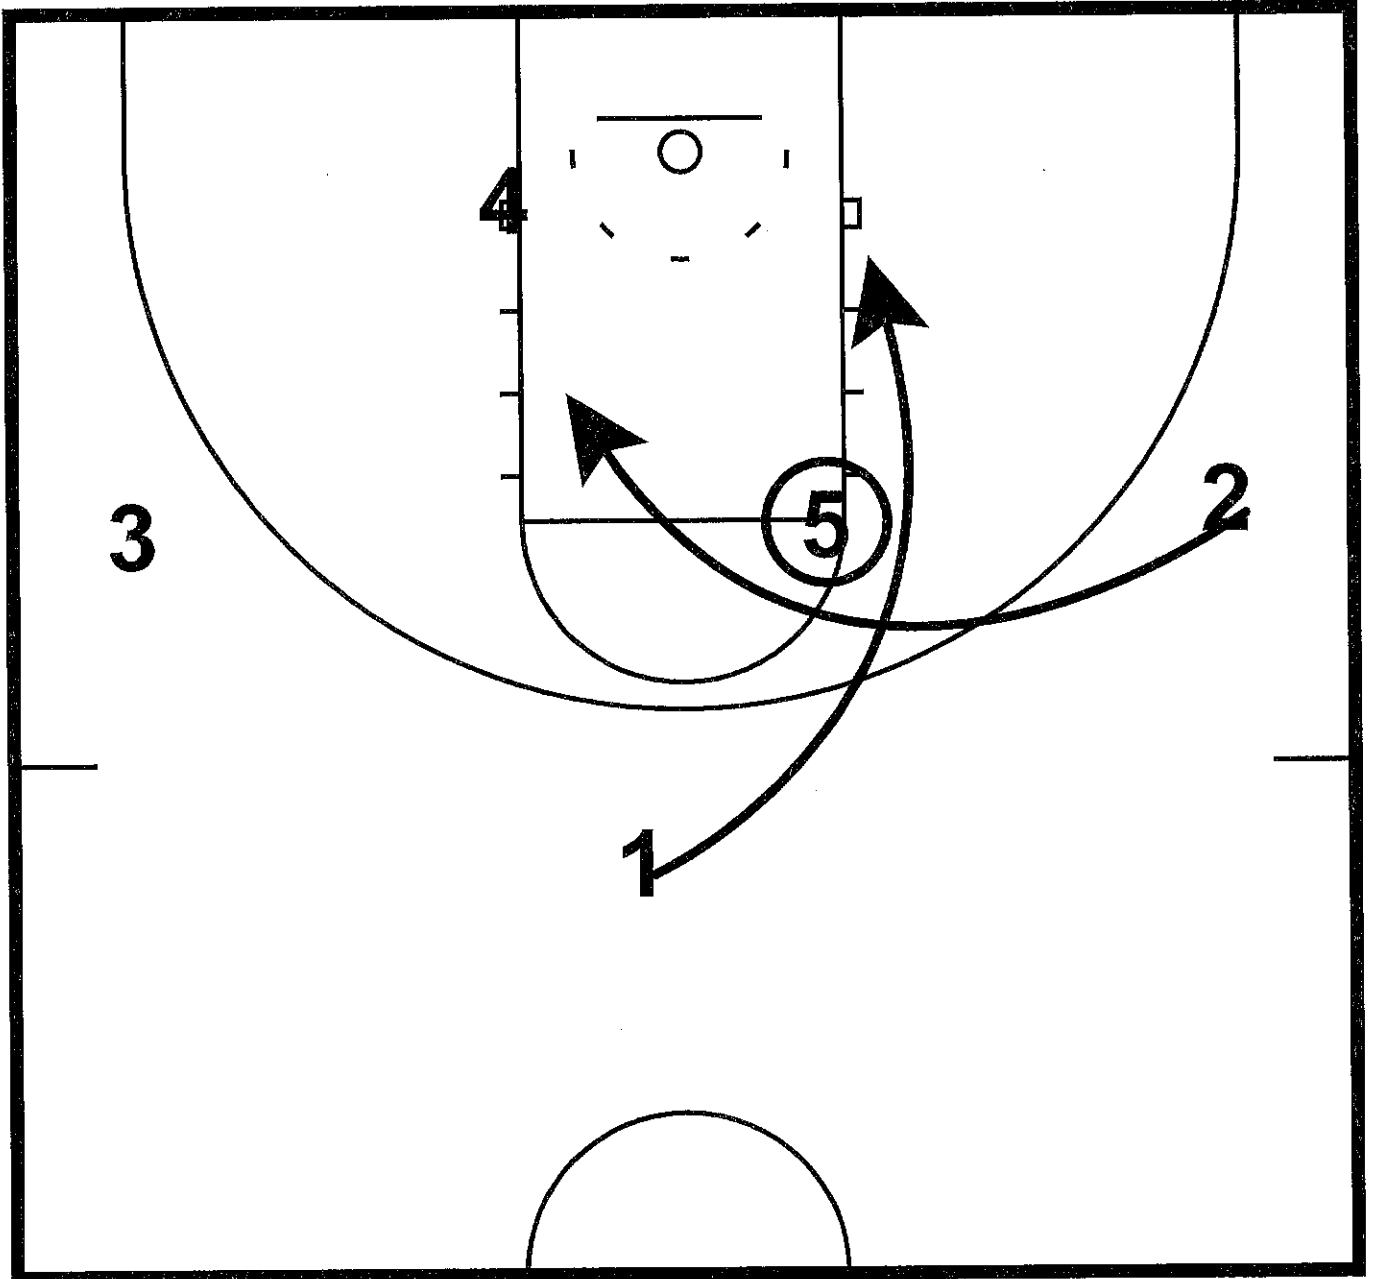

Runners are often used to attack zone defenses or to create overloads. A runner is any player running the baseline to the opposite wing or corner.

Terminology - Actions/Plays

Scissor

Frame 1

Terminology

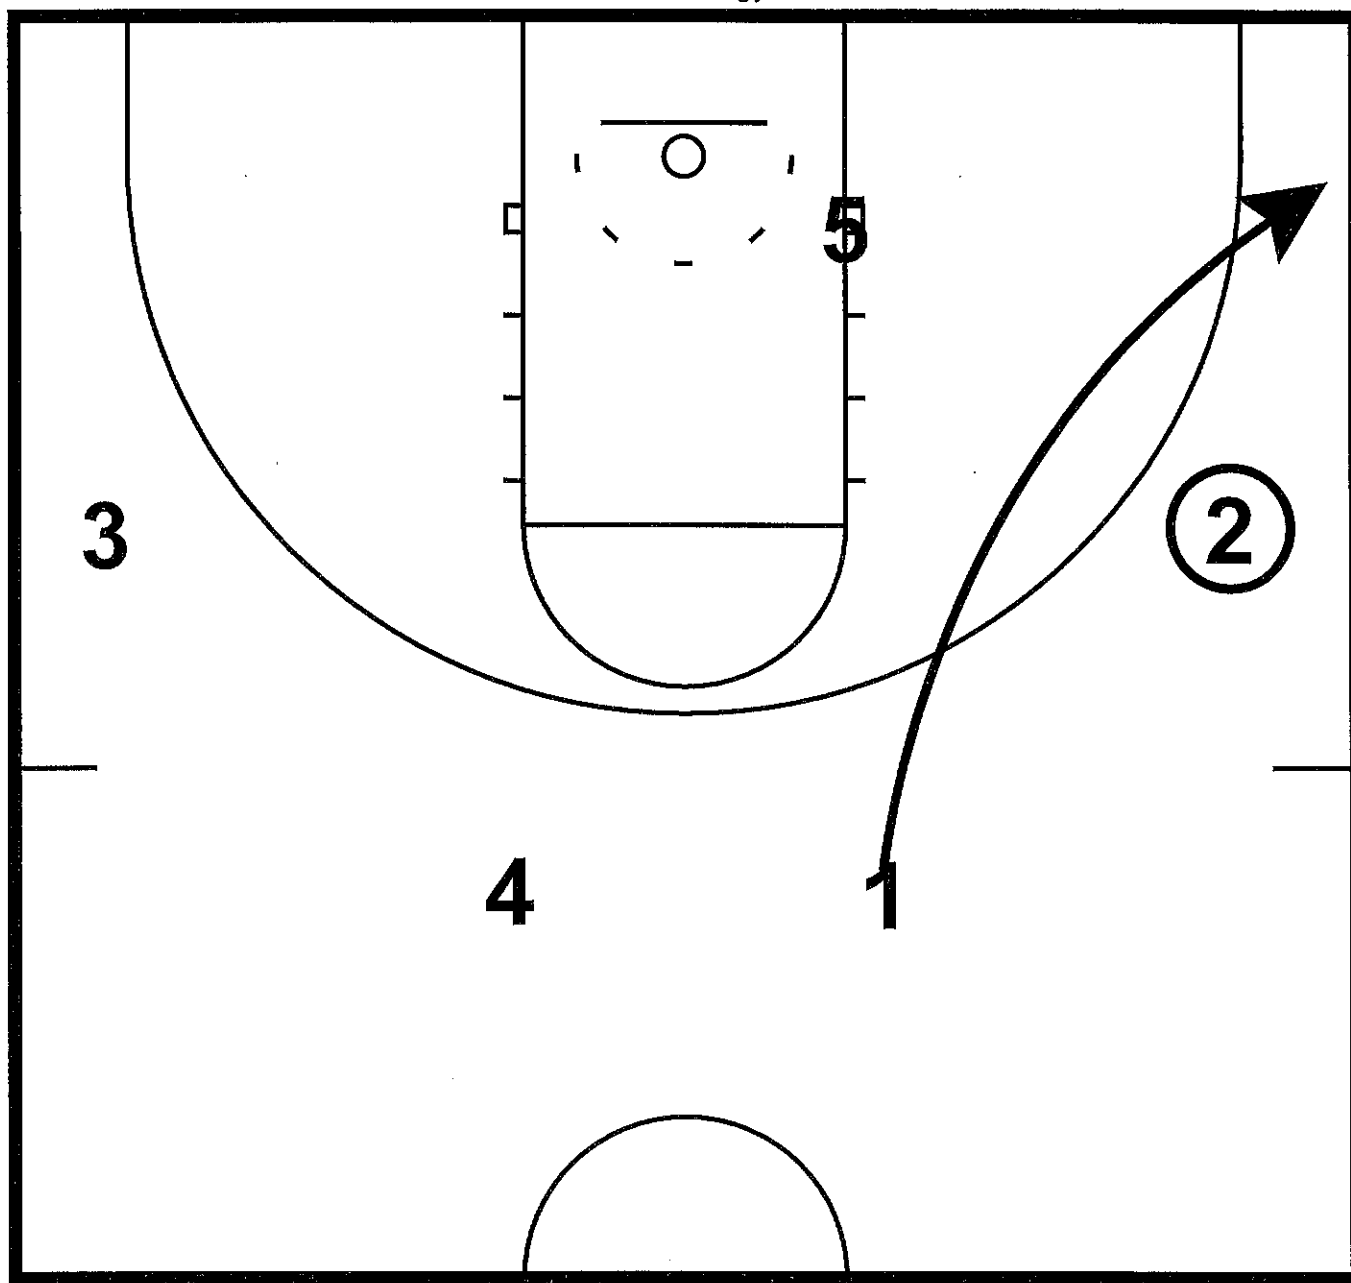

Scissor involves two players running around the high post looking for a handoff.

Terminology - Actions/Plays

Shallow Cut

Frame 1
Terminology

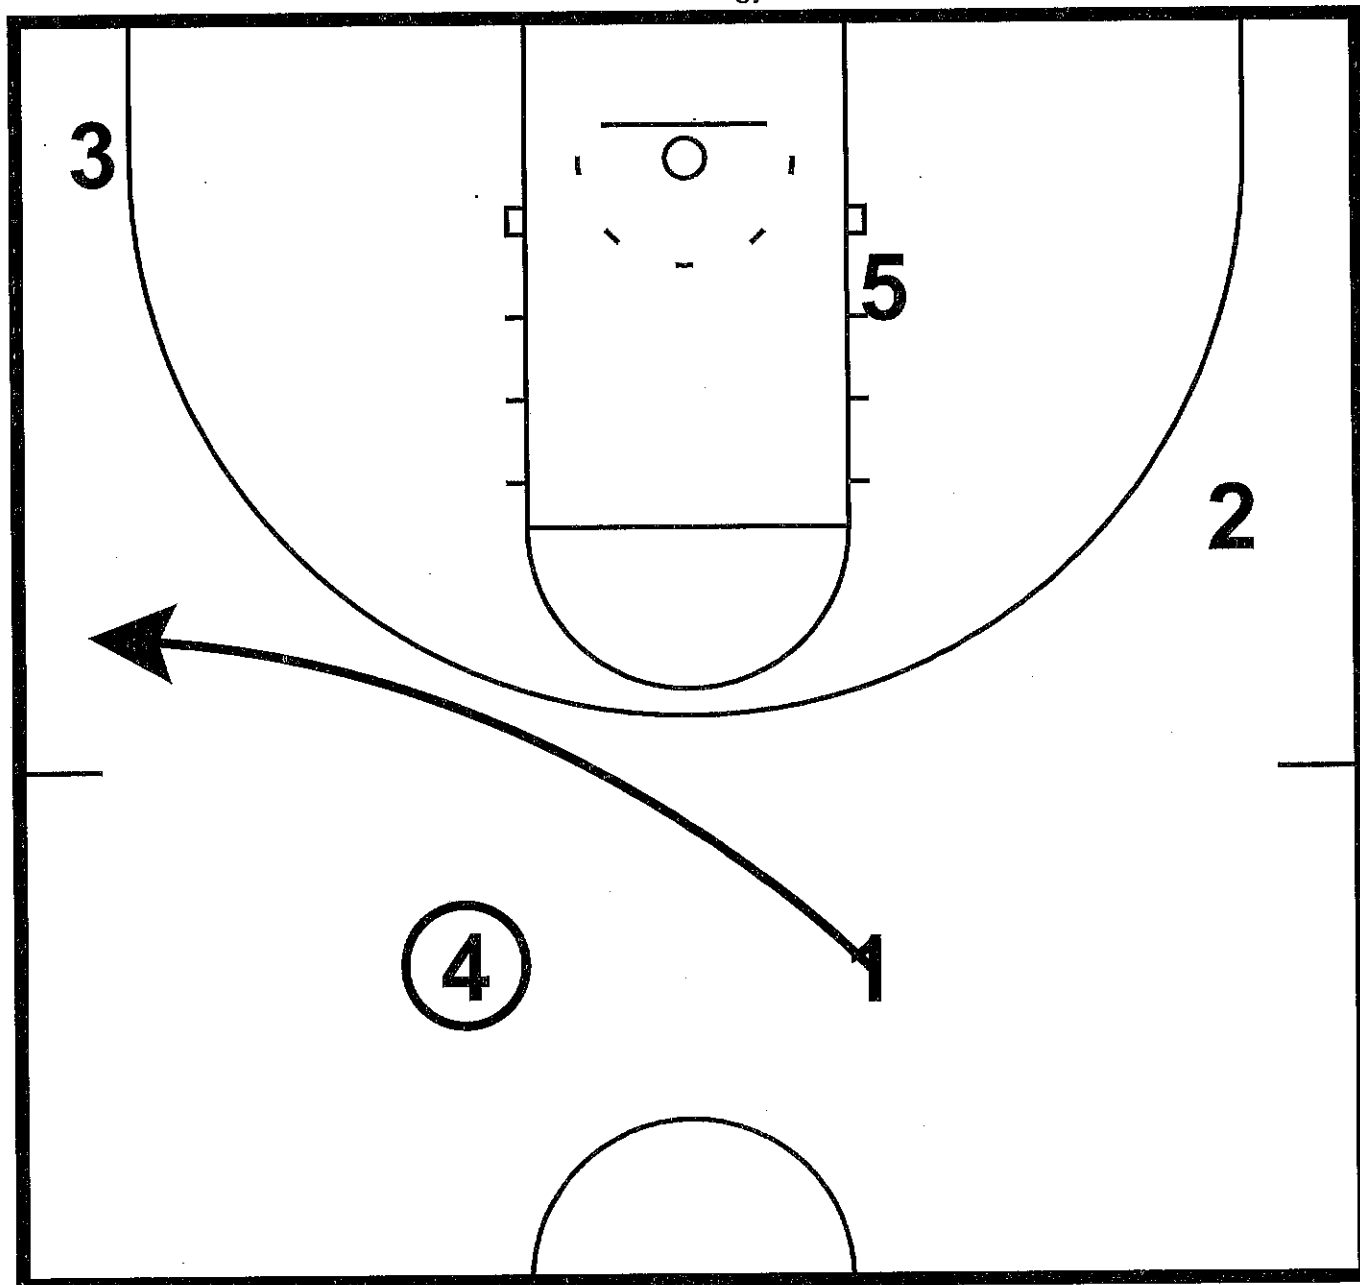

A shallow cut is made in front of the ball to a new position next to the ballhandler.

Terminology - Actions/Plays

Shallow Cut

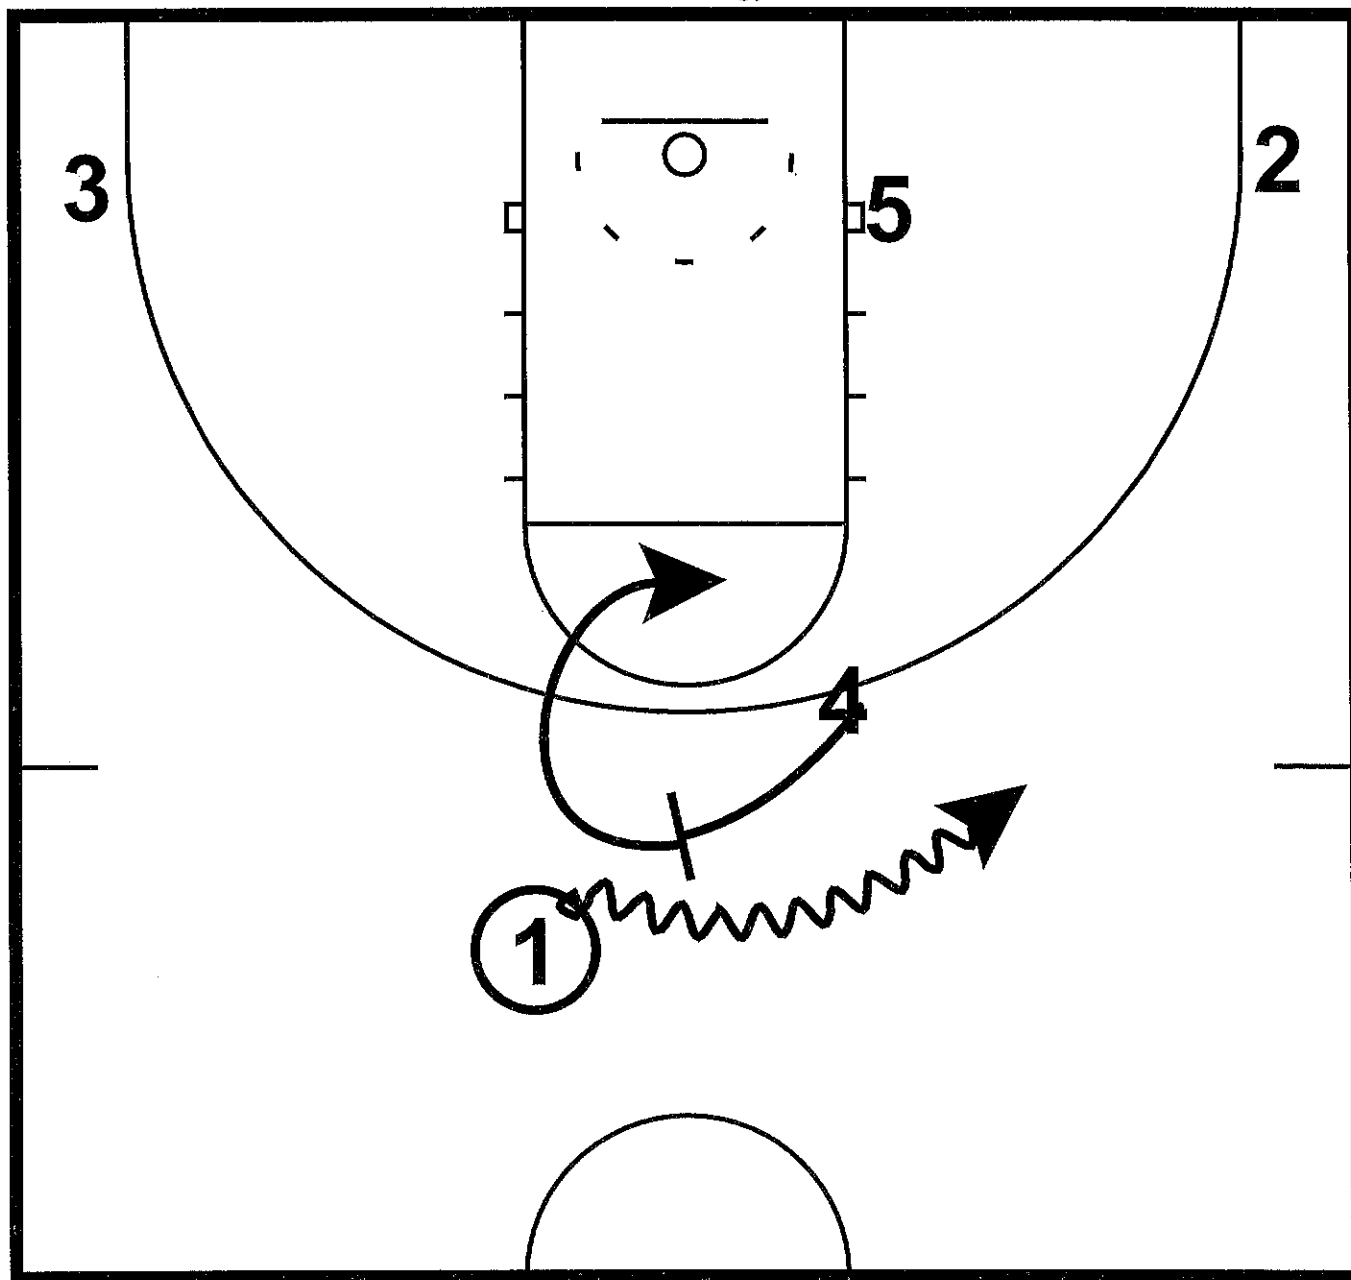

Frame 2
Terminology

Terminology - Actions/Plays

Short Roll (Draymond Roll)

Frame 1
Terminology

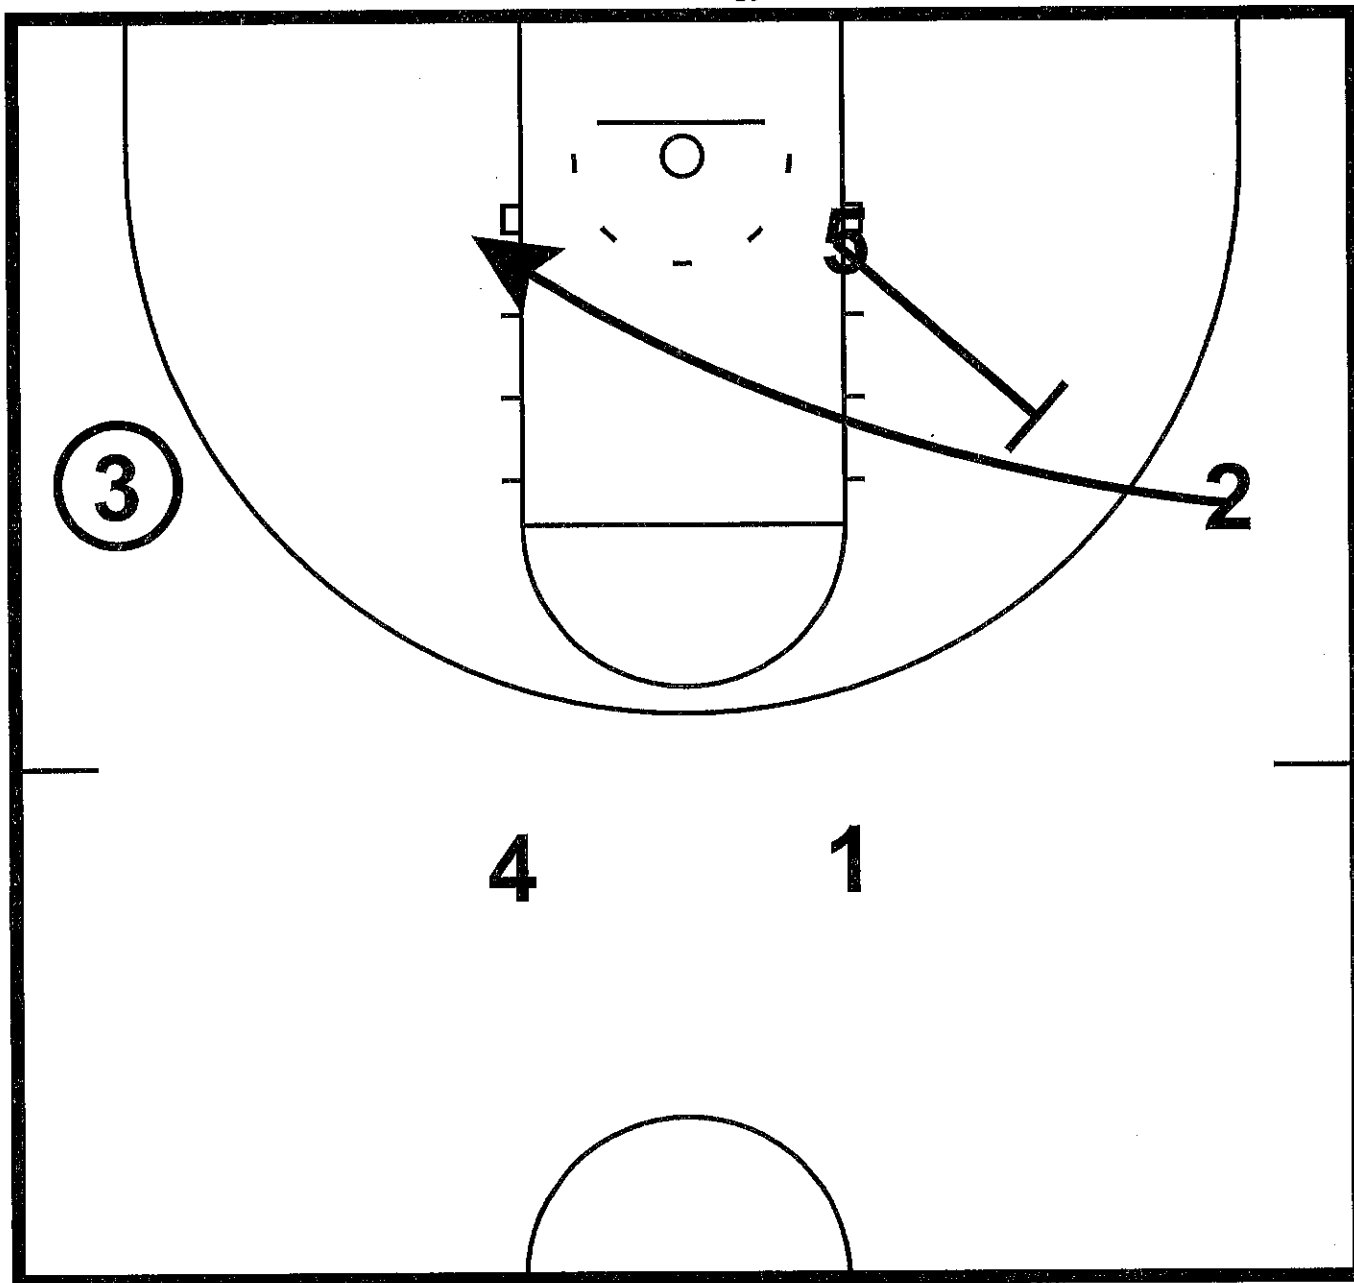

A short roll, used a lot by Draymond Green, is a roll into the high post instead of all the way to the rim.

Terminology - Actions/Plays

Shuffle/Badger

Frame 1
Terminology

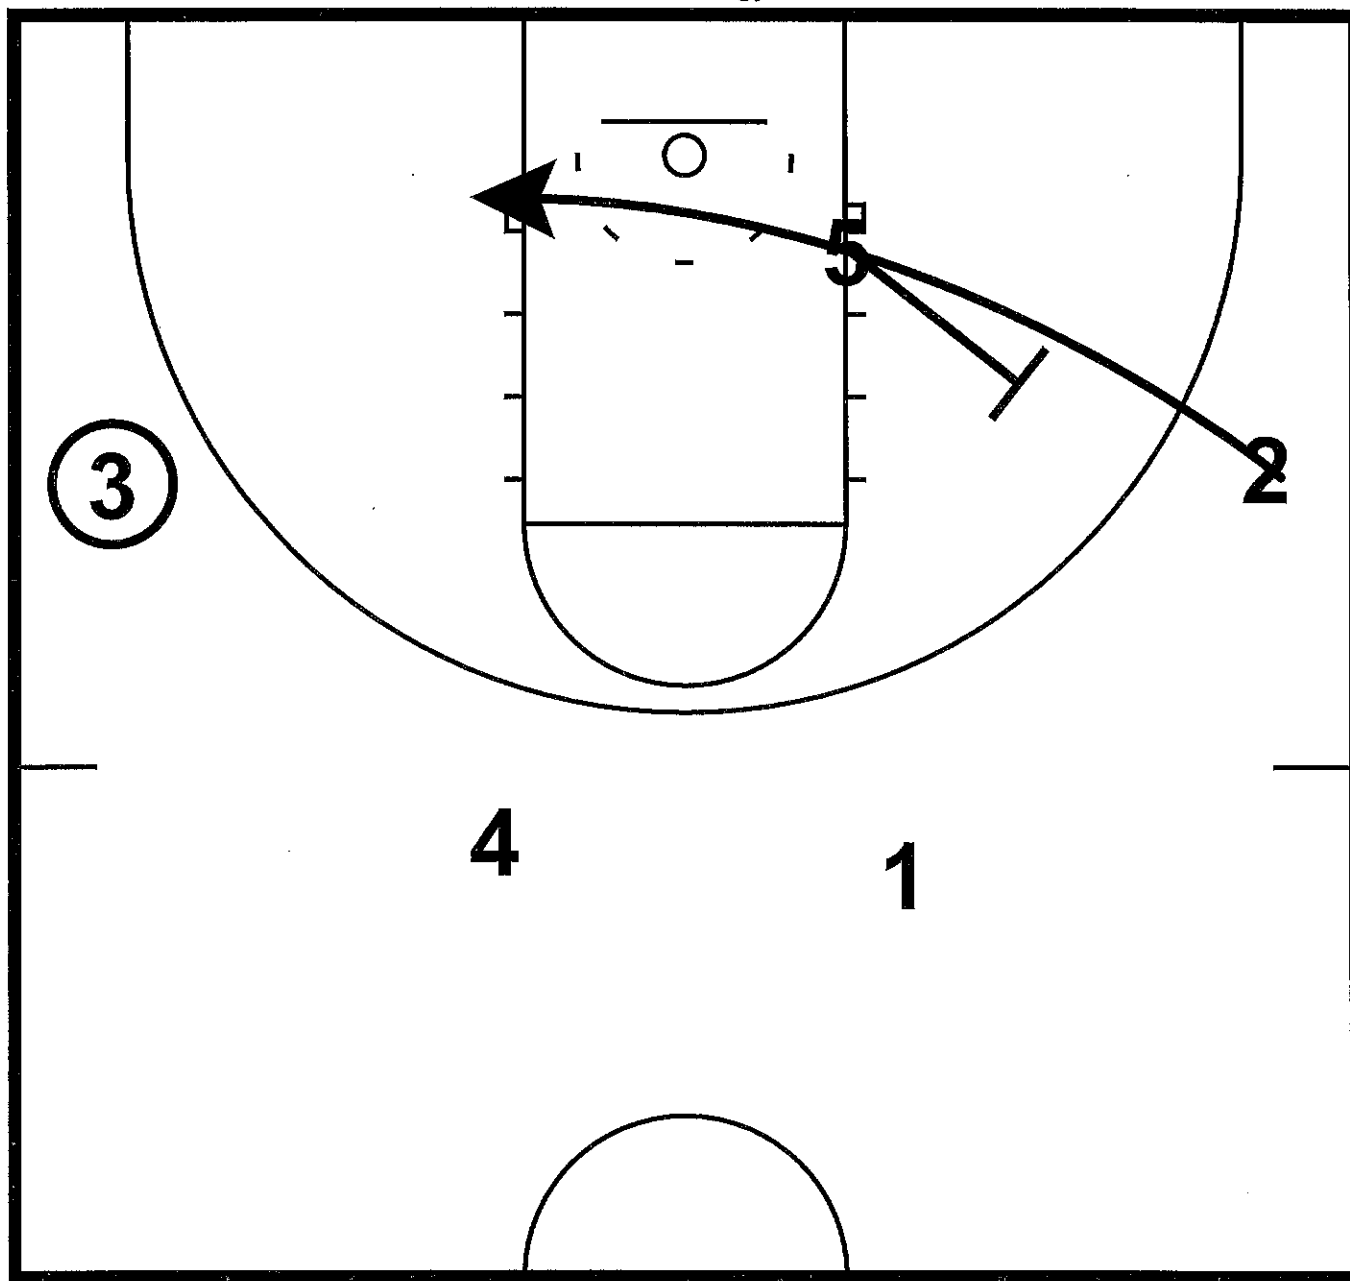

Often used in the swing offense, very popular in Wisconsin, a shuffle/badger action involves a back screen from the block to the wing with the cutter moving into the lane to post up.

Terminology - Actions/Plays

Shuffle/Badger

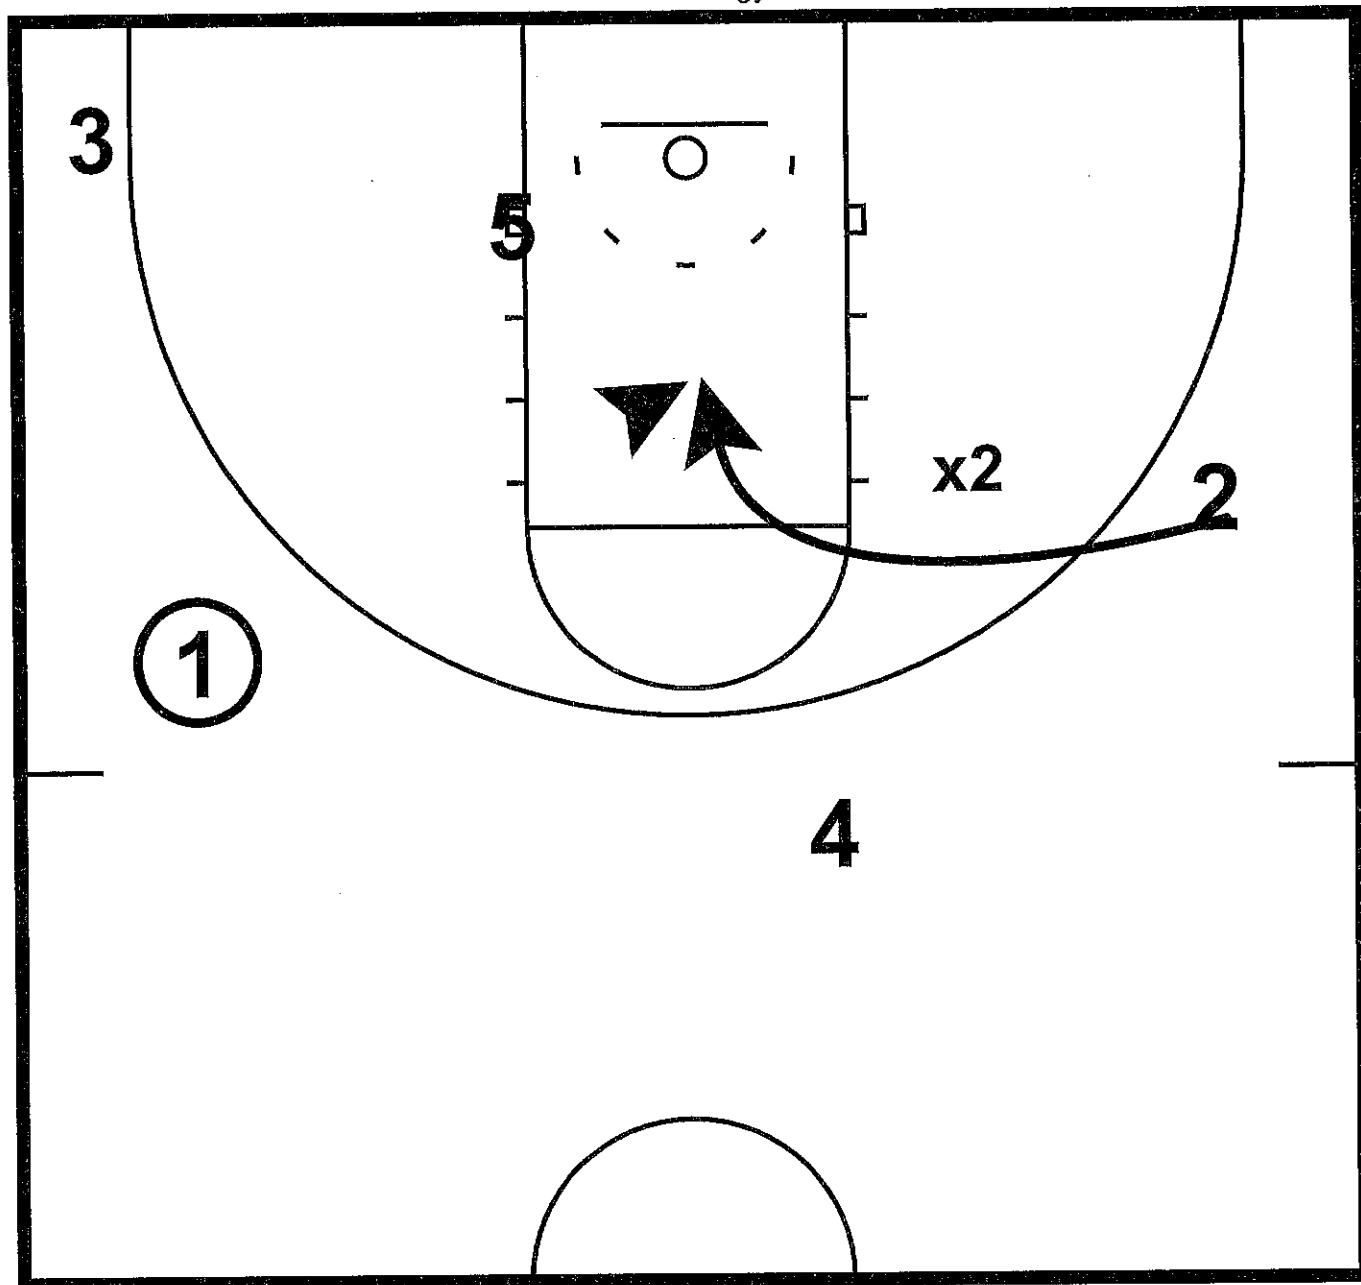

Frame 2
Terminology

Terminology - Actions/Plays

Slash (Open)

Frame 1
Terminology

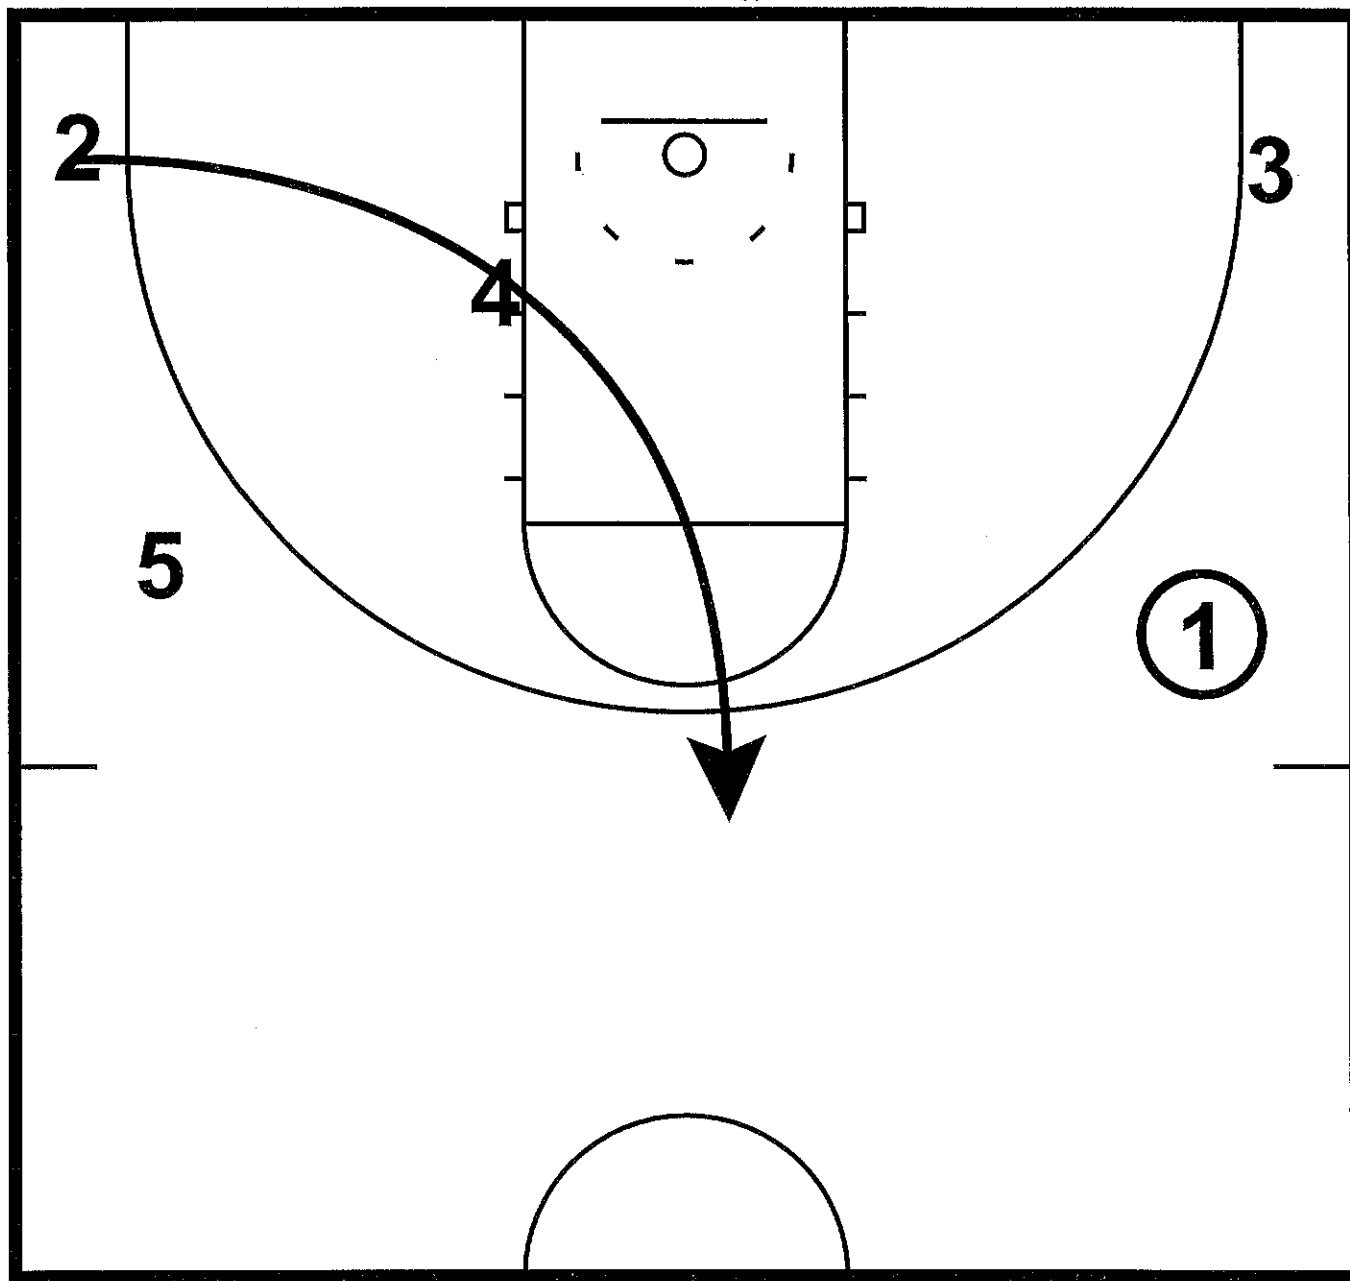

A slash, or open cut, is from the opposite wing into the lane (in front of the help defender).

Terminology - Actions/Plays

Slice

Frame 1
Terminology

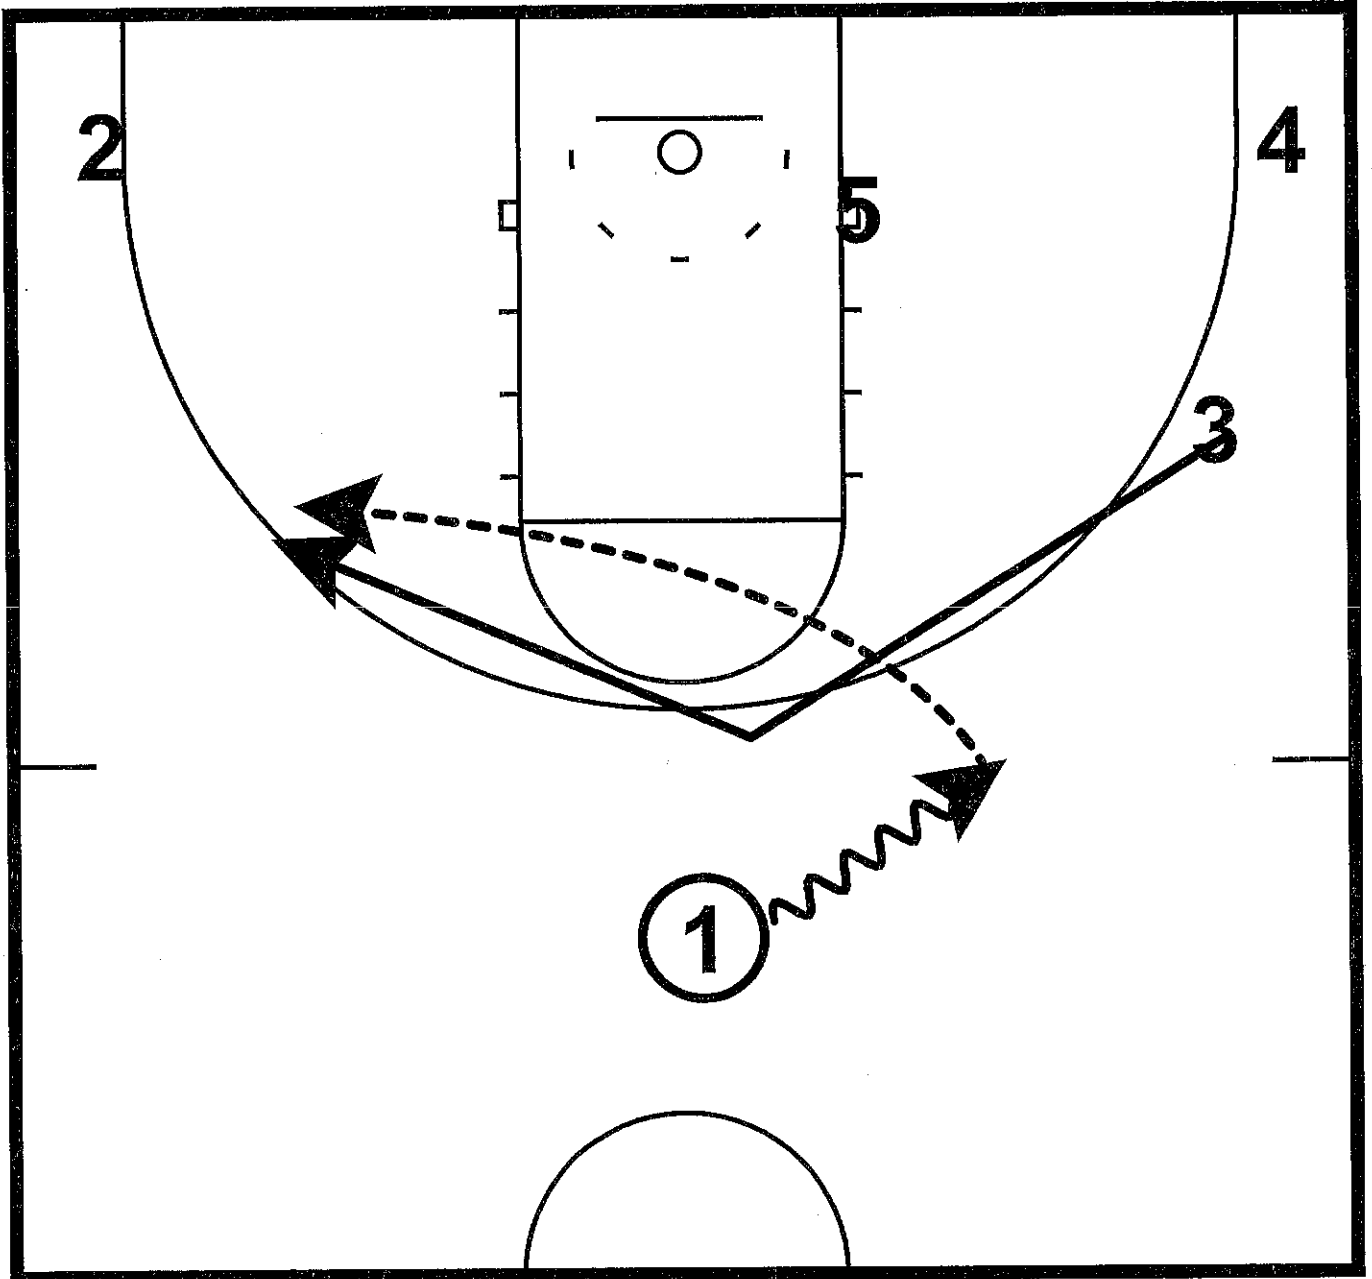

Slice is a cut from the opposite corner through the lane (sometimes off of a screen) to the top of the key.

Terminology - Actions/Plays

Slide

Frame 1
Terminology

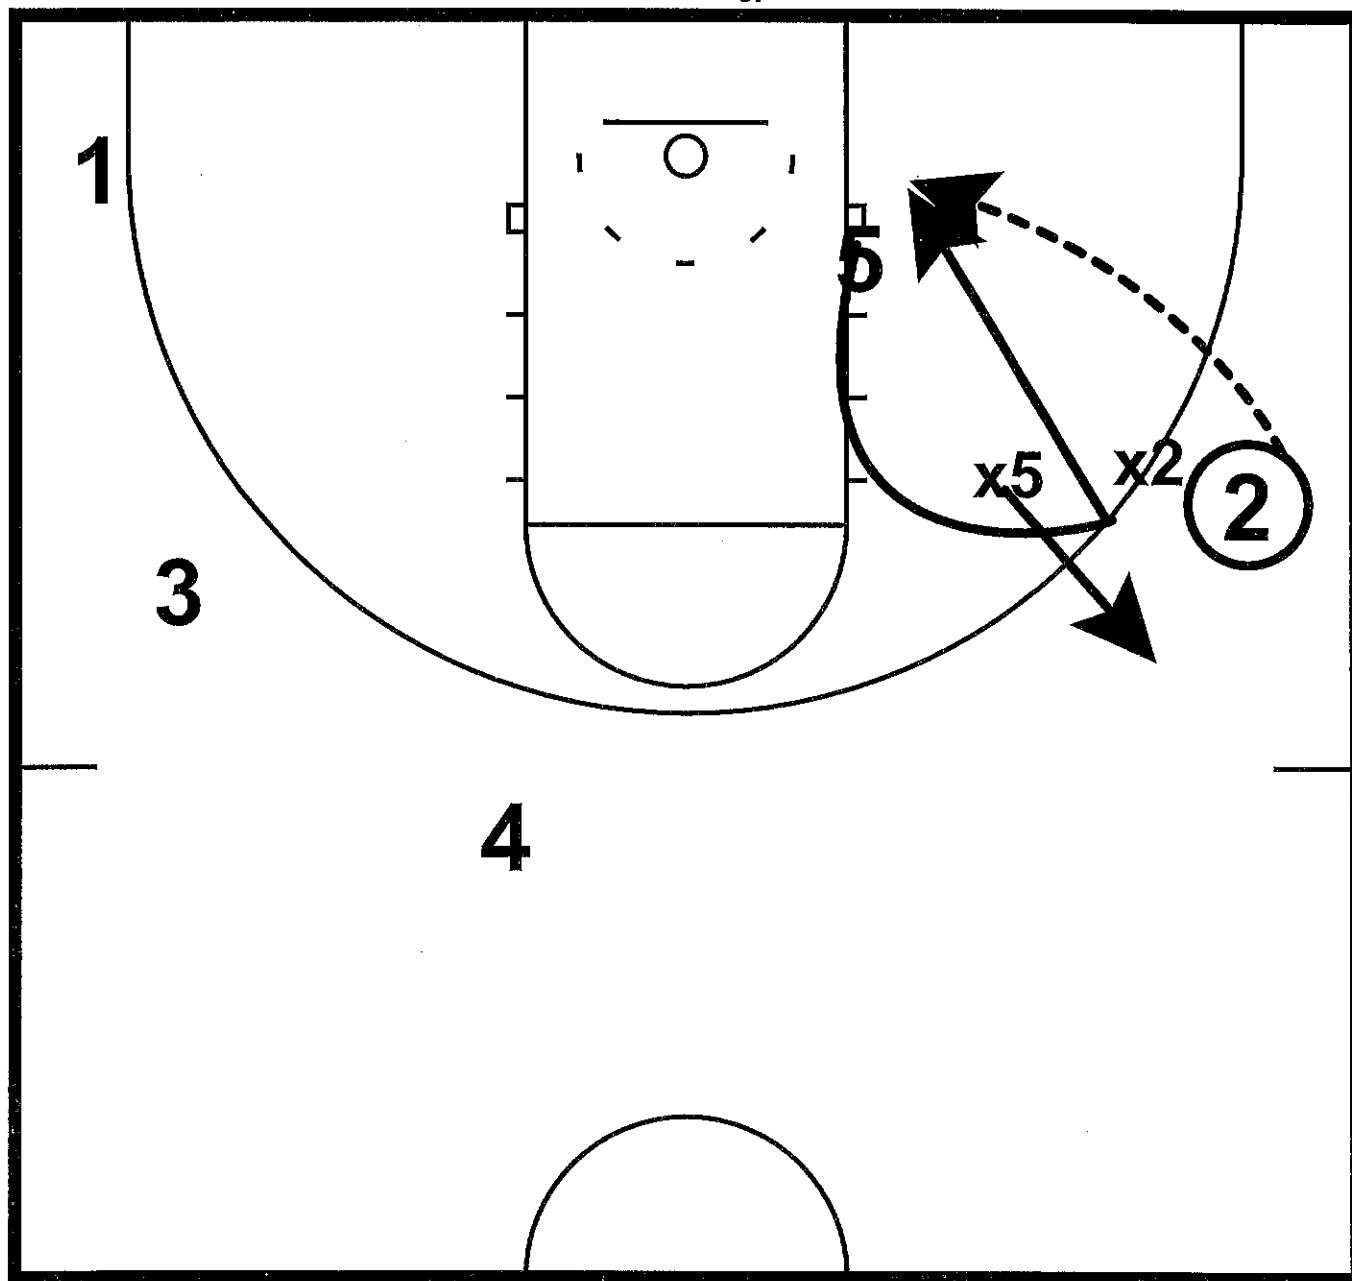

Slide is a high pick and roll slip action, typically used in a guard/guard ball screen.

Terminology - Actions/Plays

Slip (Silver)

Frame 1
Terminology

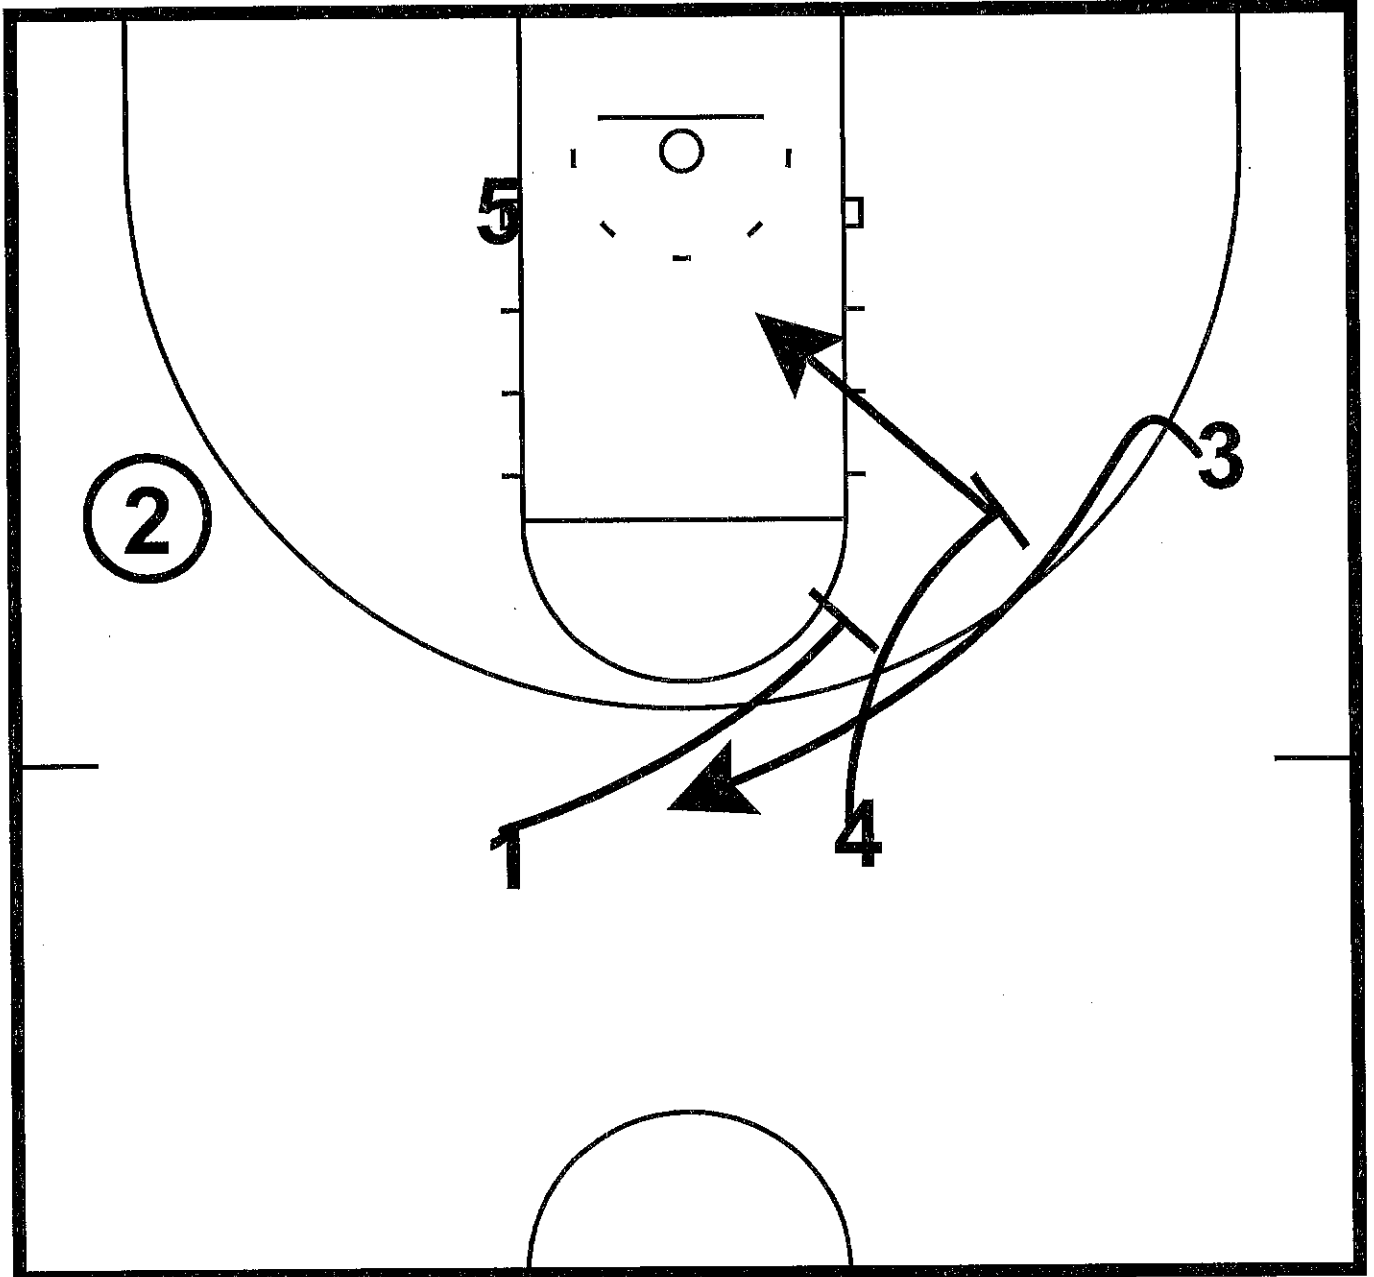

A slip, or silver, action is a great way to attack defenses that try to jump screens. The screener detects that his defender is above him and cannot help if he cuts to the rim.

Terminology - Actions/Plays

Slip (Silver)

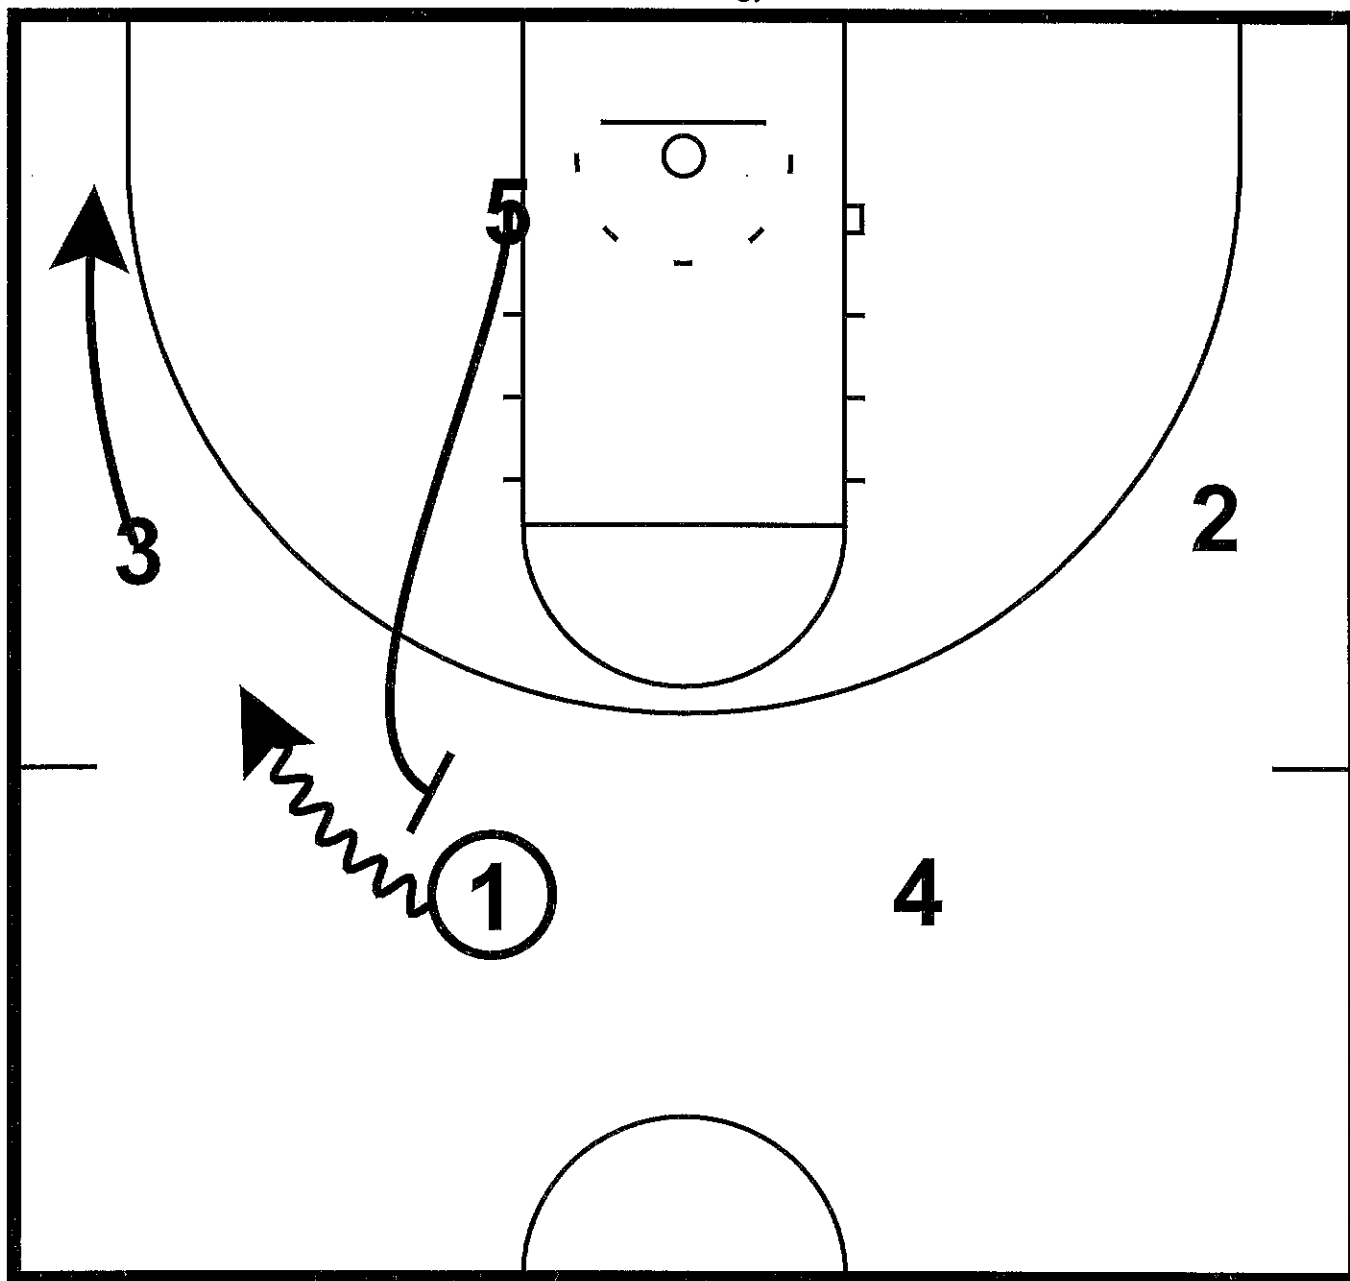

Frame 2
Terminology

Terminology - Actions/Plays

Slot Screen

Frame 1
Terminology

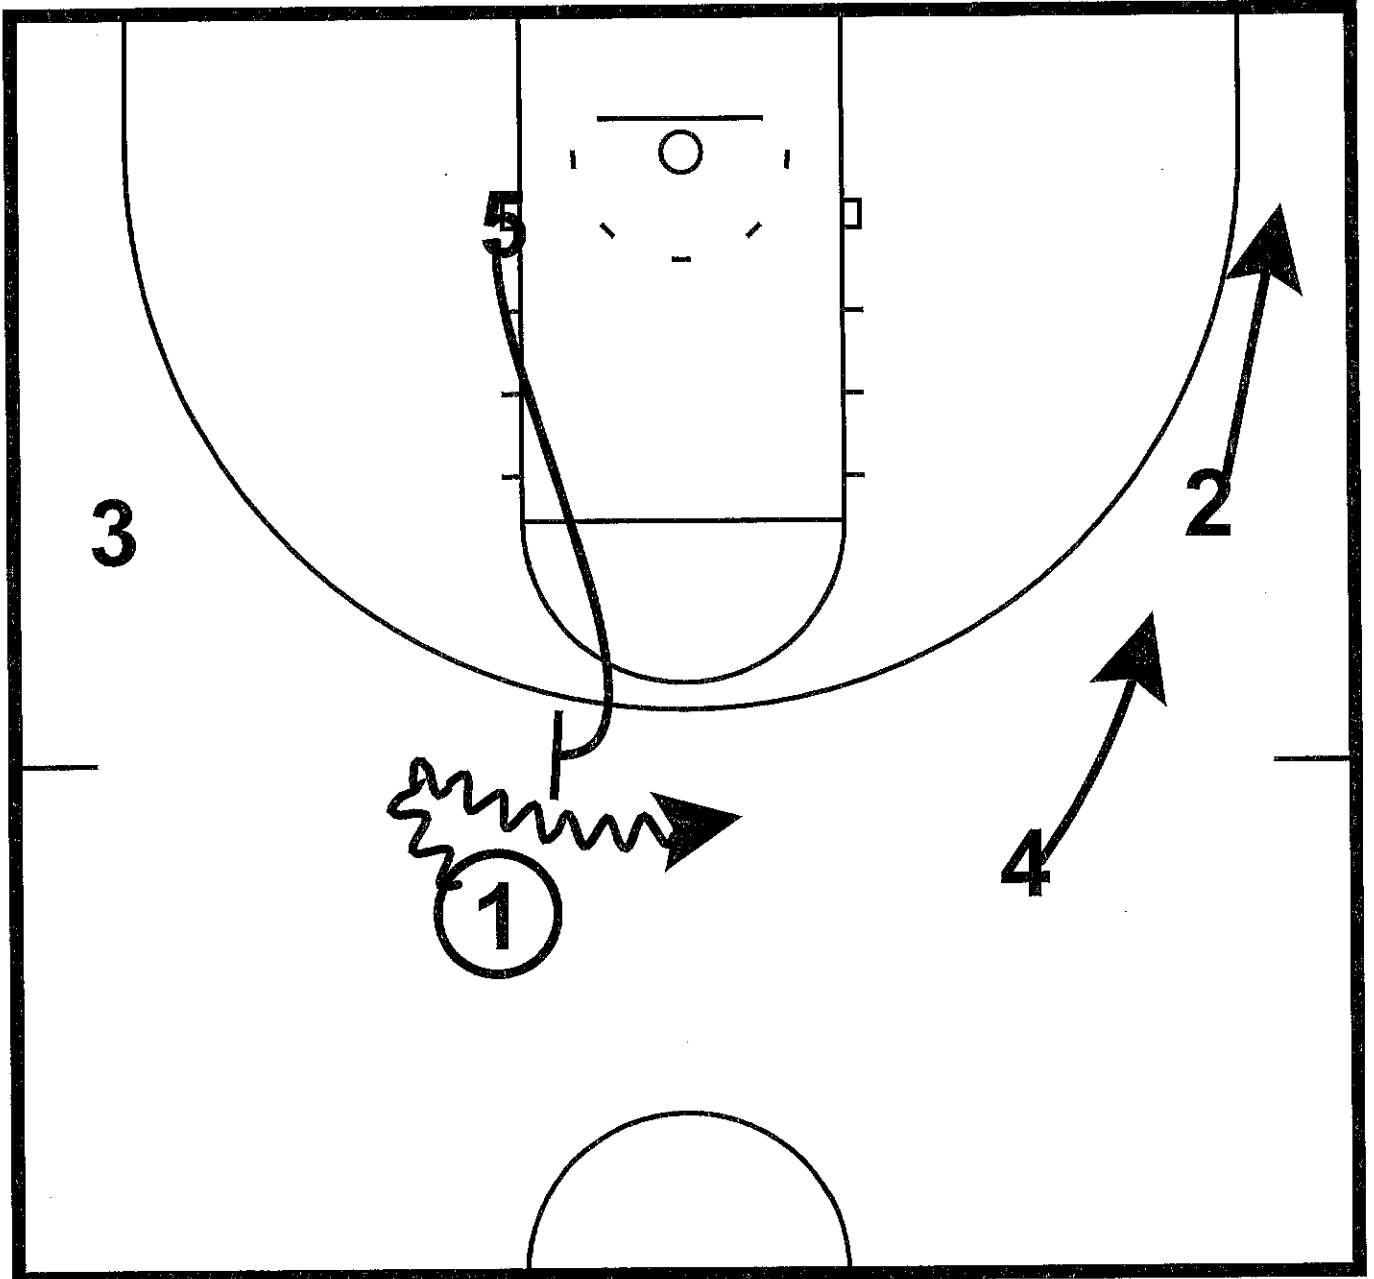

A slot screen is any ball screen set in the lane line extended area.

Terminology - Actions/Plays

Slot Screen

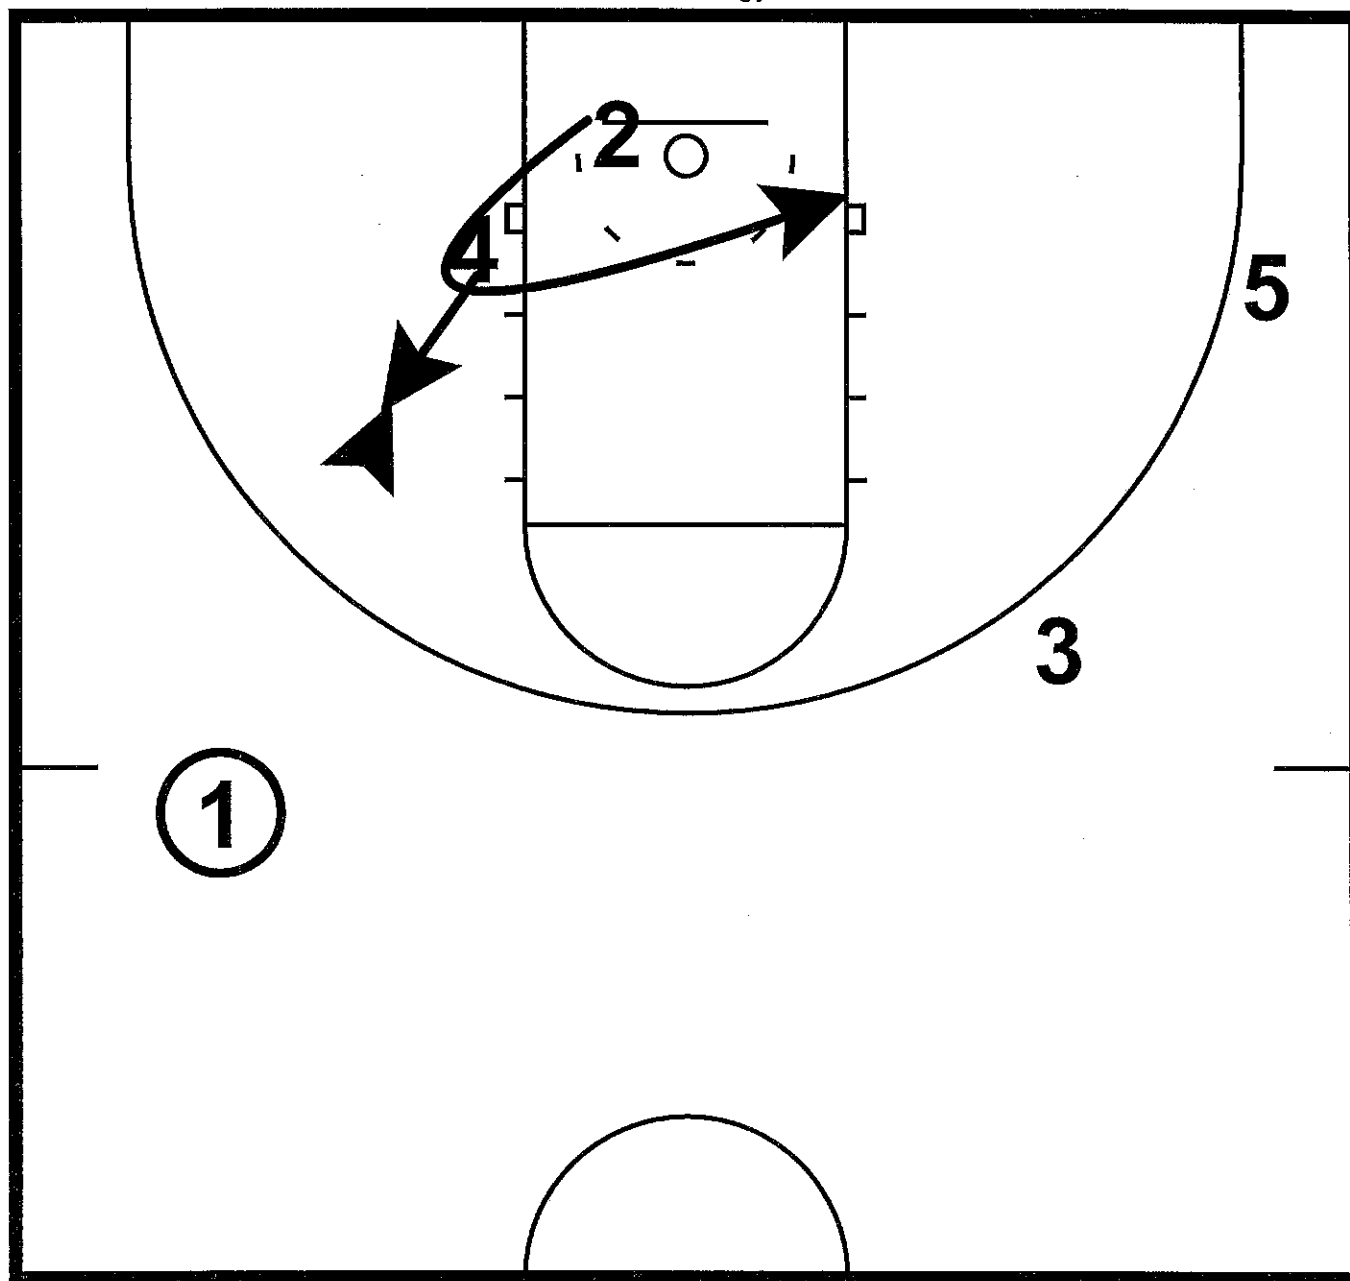

Frame 2
Terminology

Terminology - Actions/Plays

Snap

Frame 1
Terminology

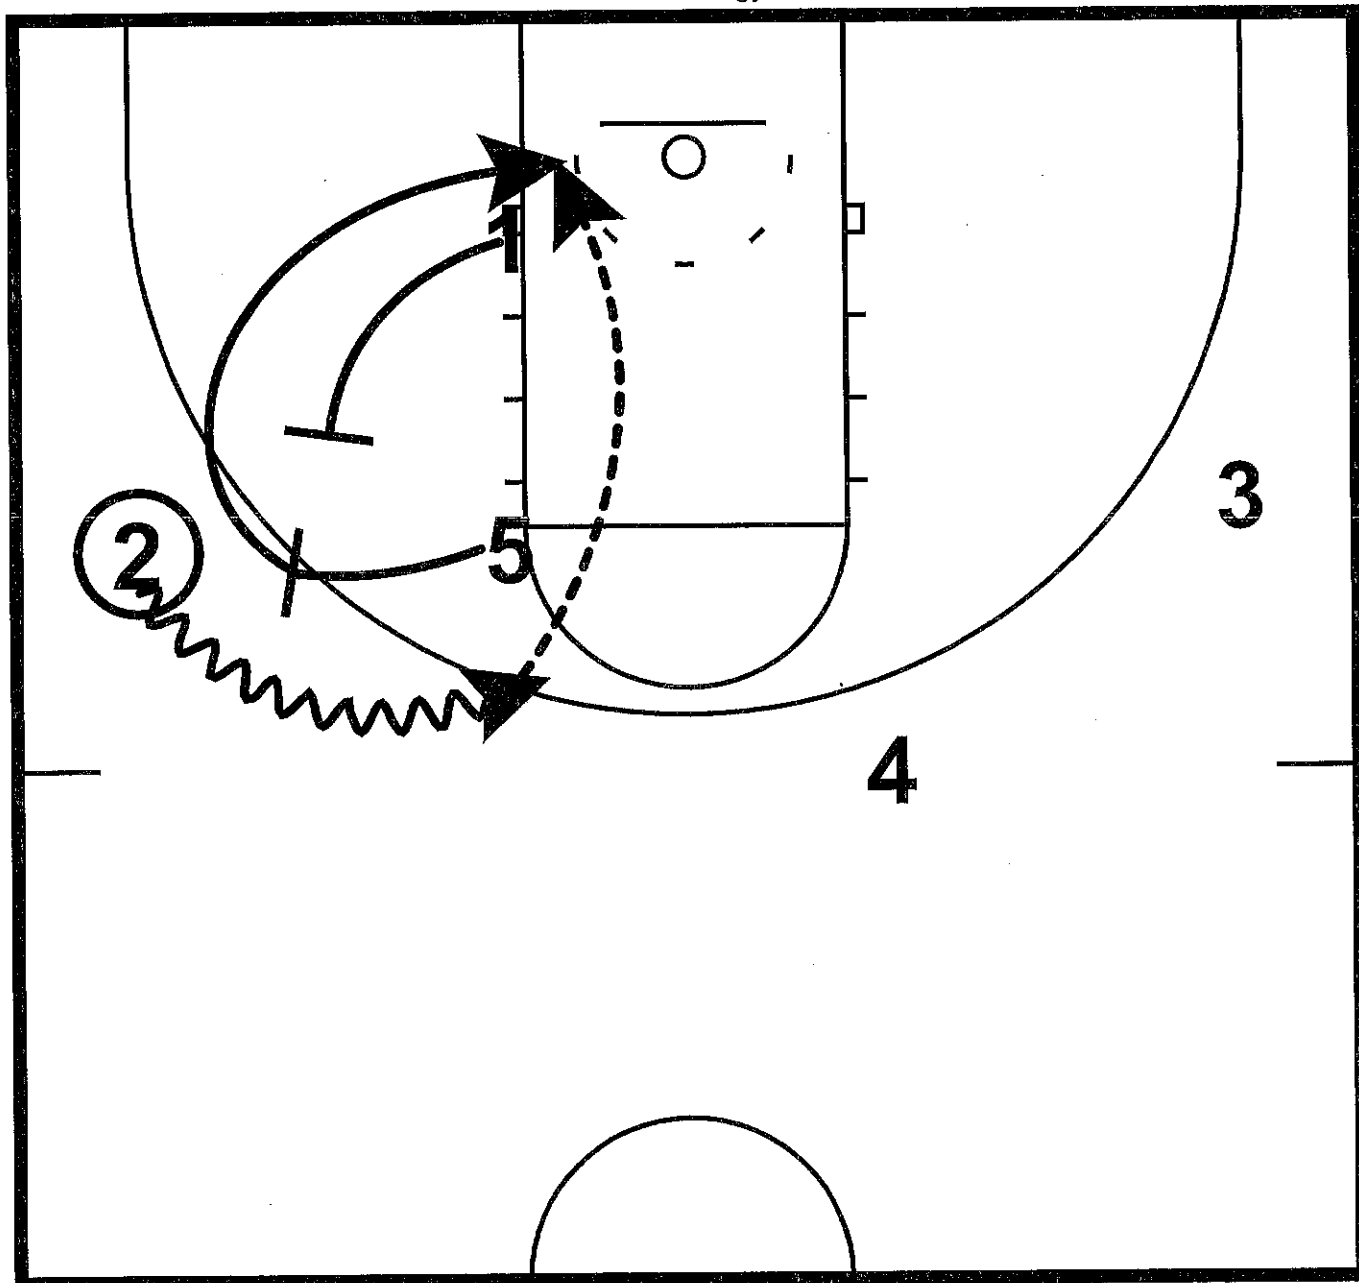

Snap is similar to Twirl but the ball is throw into the post instead of the screener popping out. The cutter curls around the screen opening up the entry into the post.

Terminology - Actions/Plays

Spain

Frame 1
Terminology

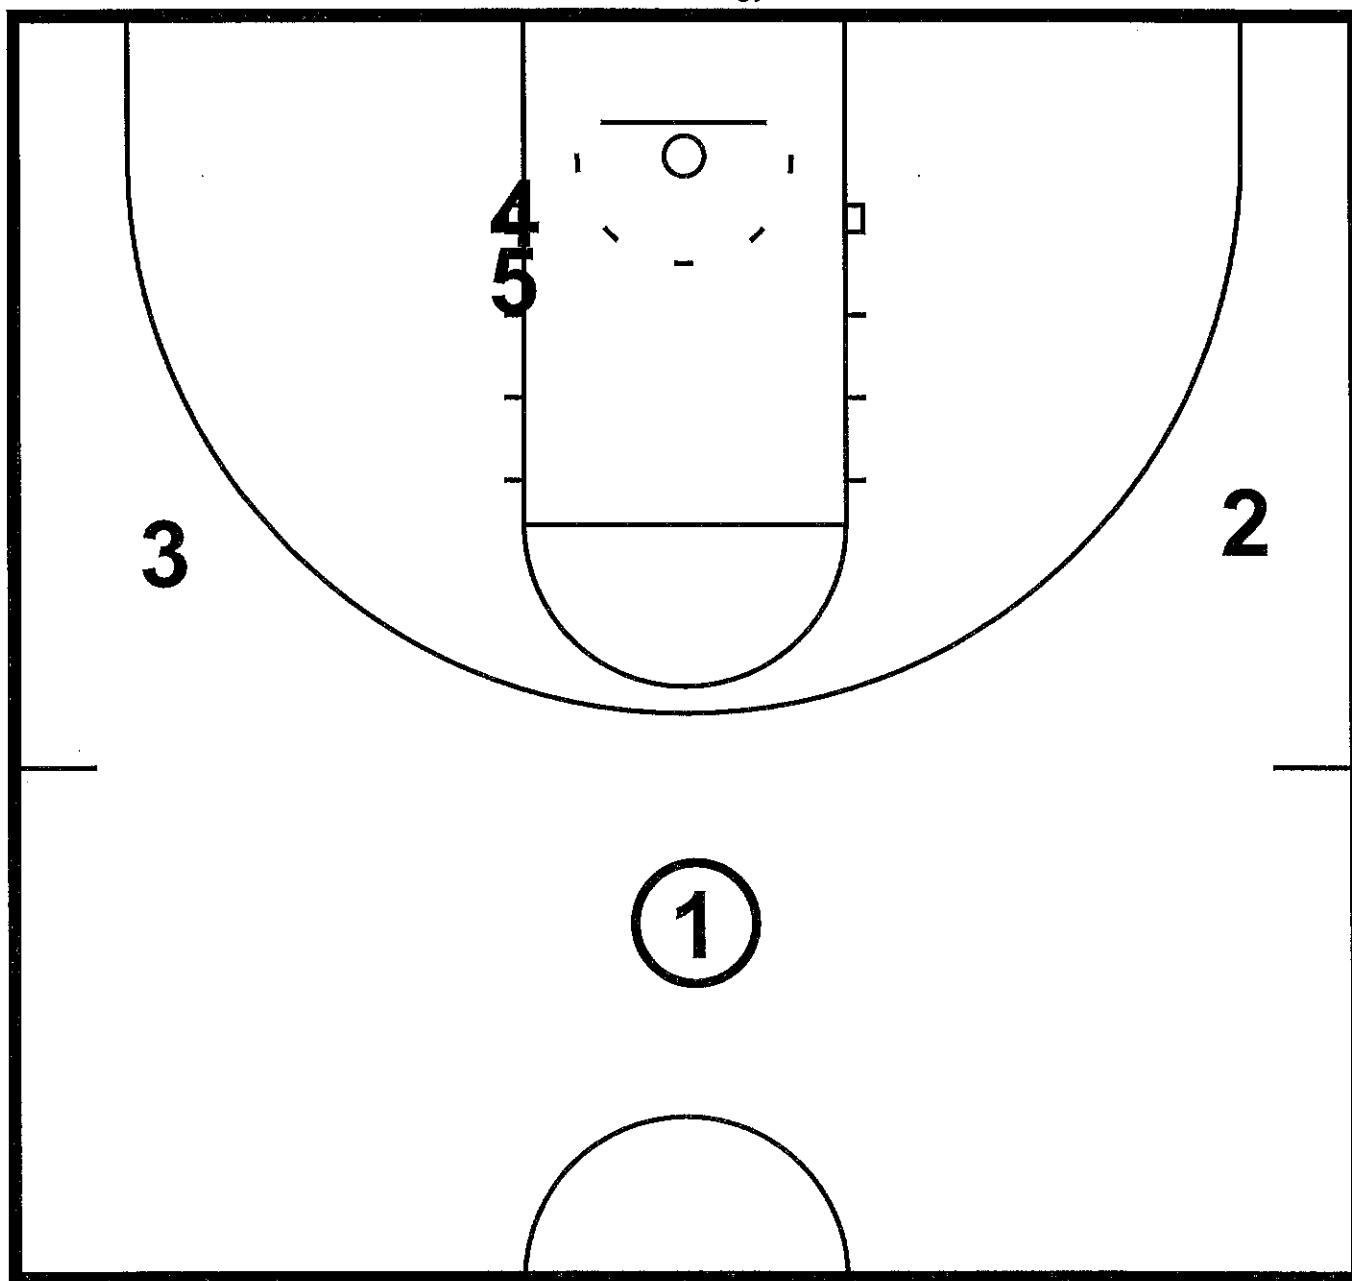

Spain is a back screen for the ball screener who is rolling to the basket.

Terminology - Actions/Plays

Stack

Frame 1
 Terminology

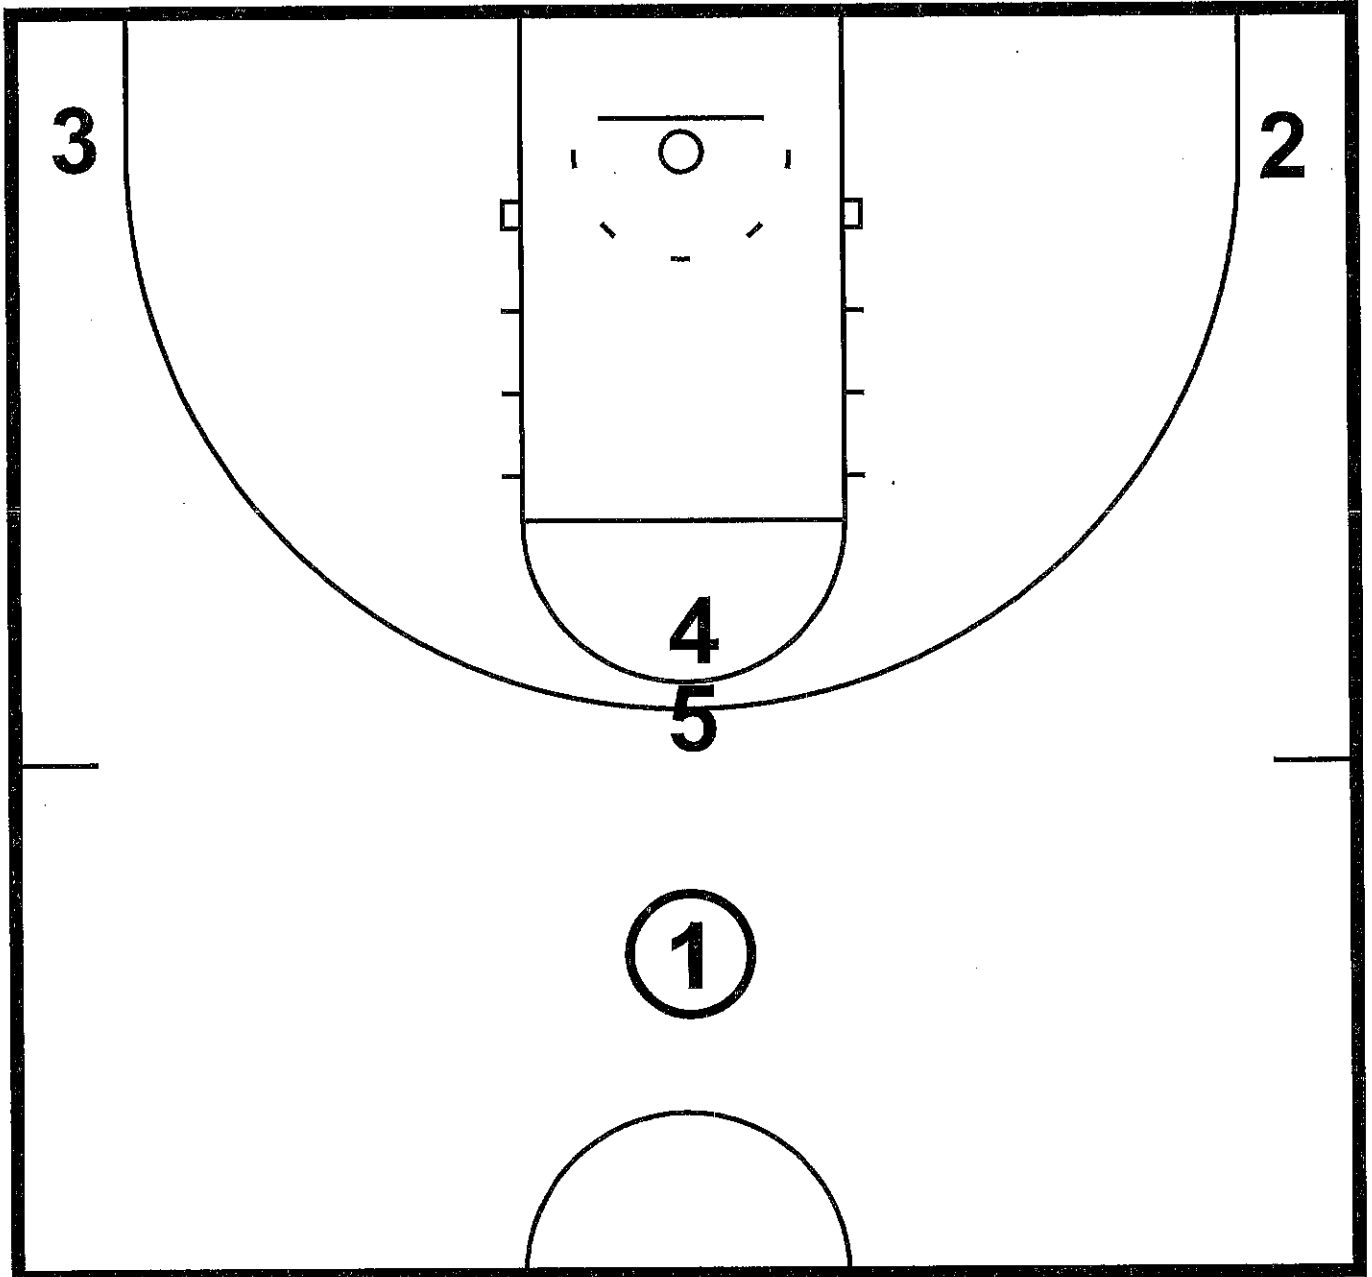

A stack is two players standing next to each other, with one player closer to the baseline and one player closer to half court. Common locations include the low block or the top of the key.

Terminology - Actions/Plays

Stack

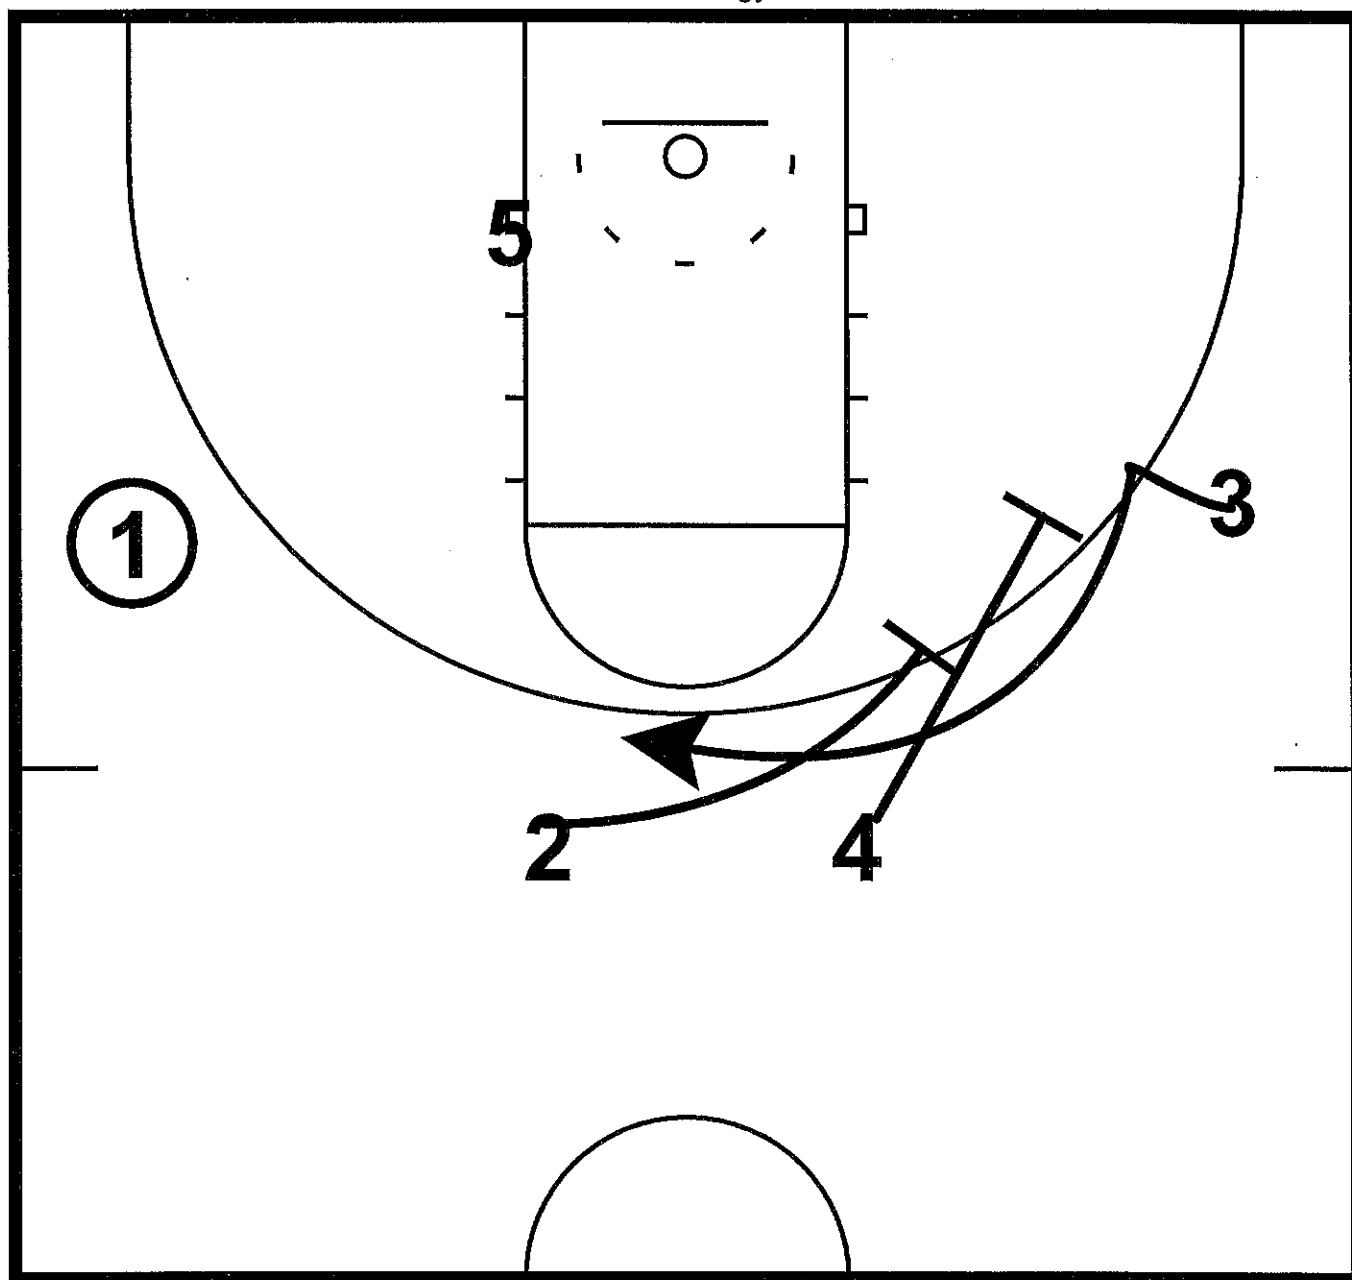

Frame 2
Terminology

Terminology - Actions/Plays

Stagger Screen

Frame 1
Terminology

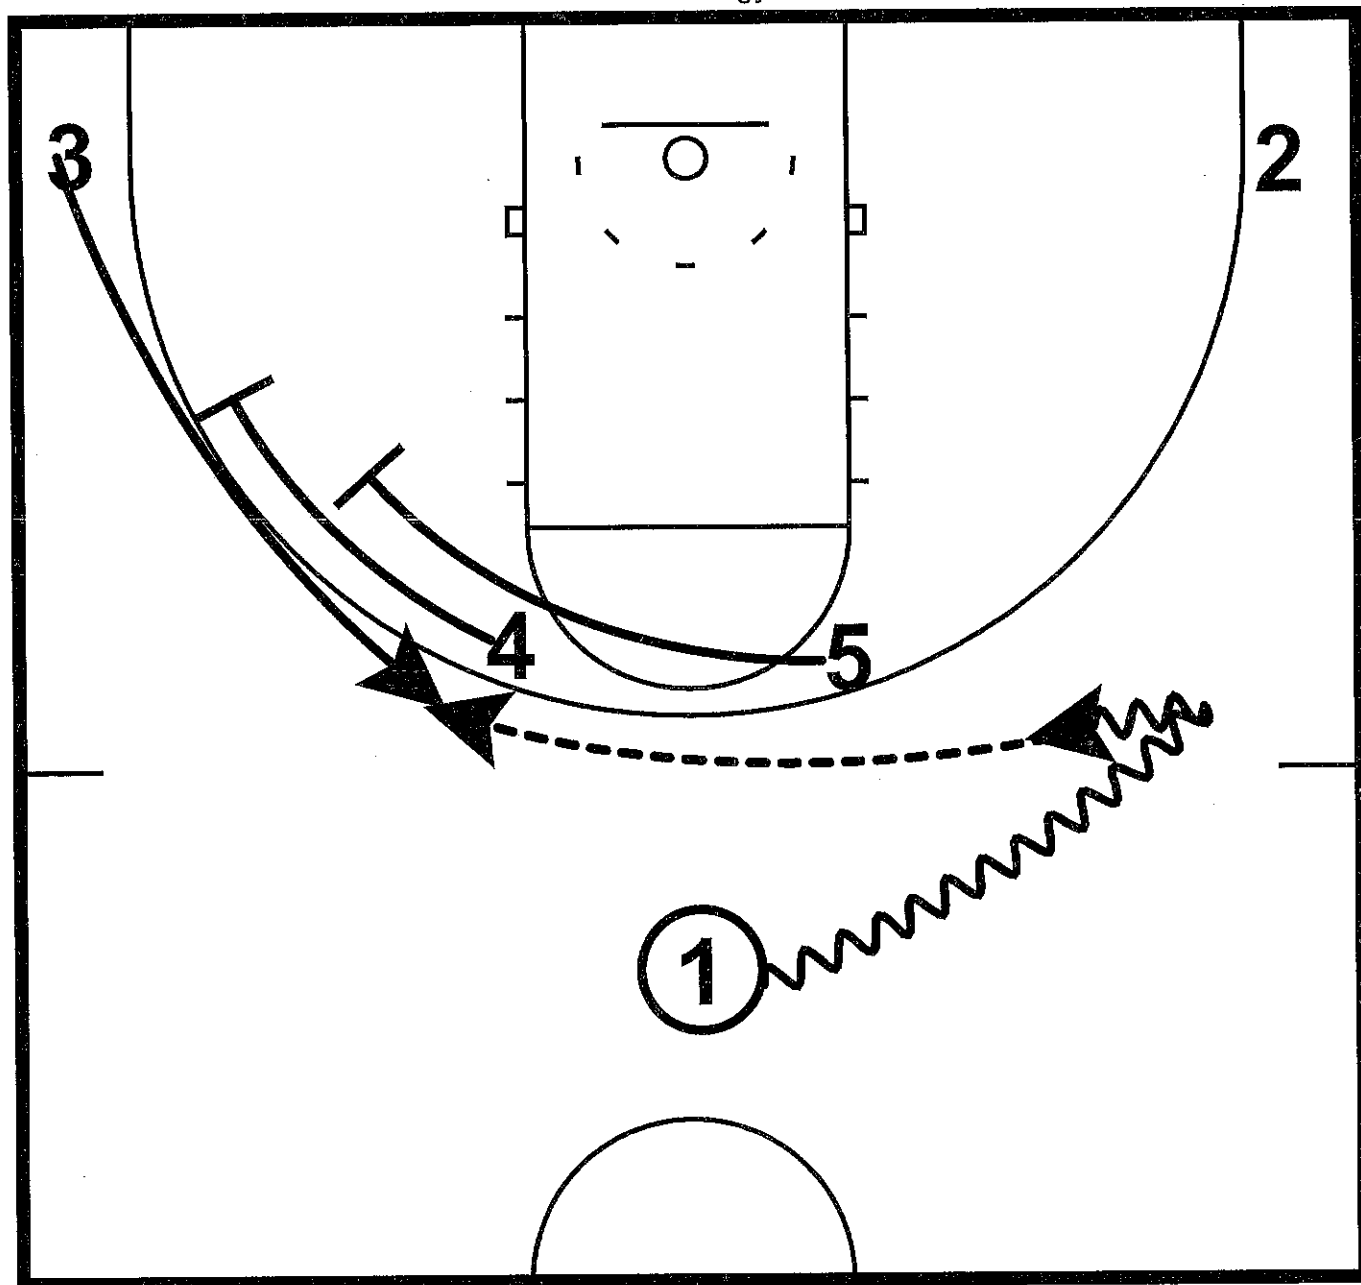

A staggered screen is set with one player being in front of the other while screening. Staggered screens can also be used in ball screen situations.

Terminology - Actions/Plays

Stagger Wheel

Frame 1
Terminology

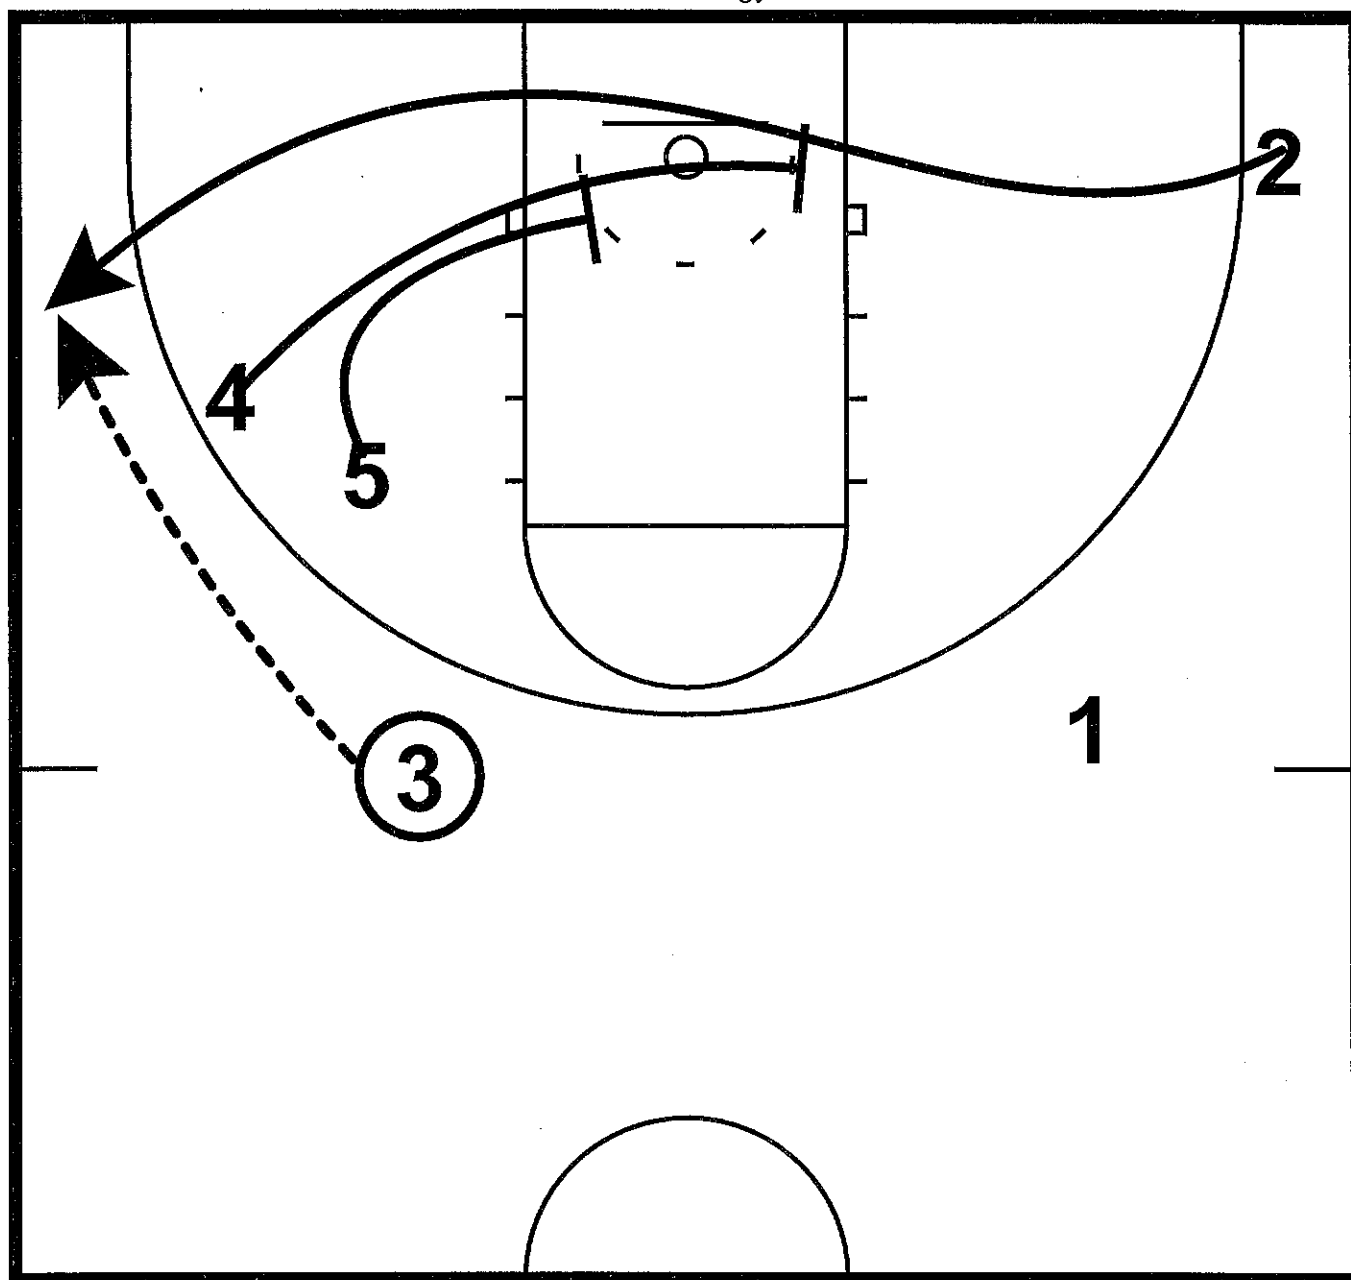

A stagger wheel is a continuous action of staggered screens. The play can continue as long as you want it to.

Terminology - Actions/Plays

Stagger Wheel

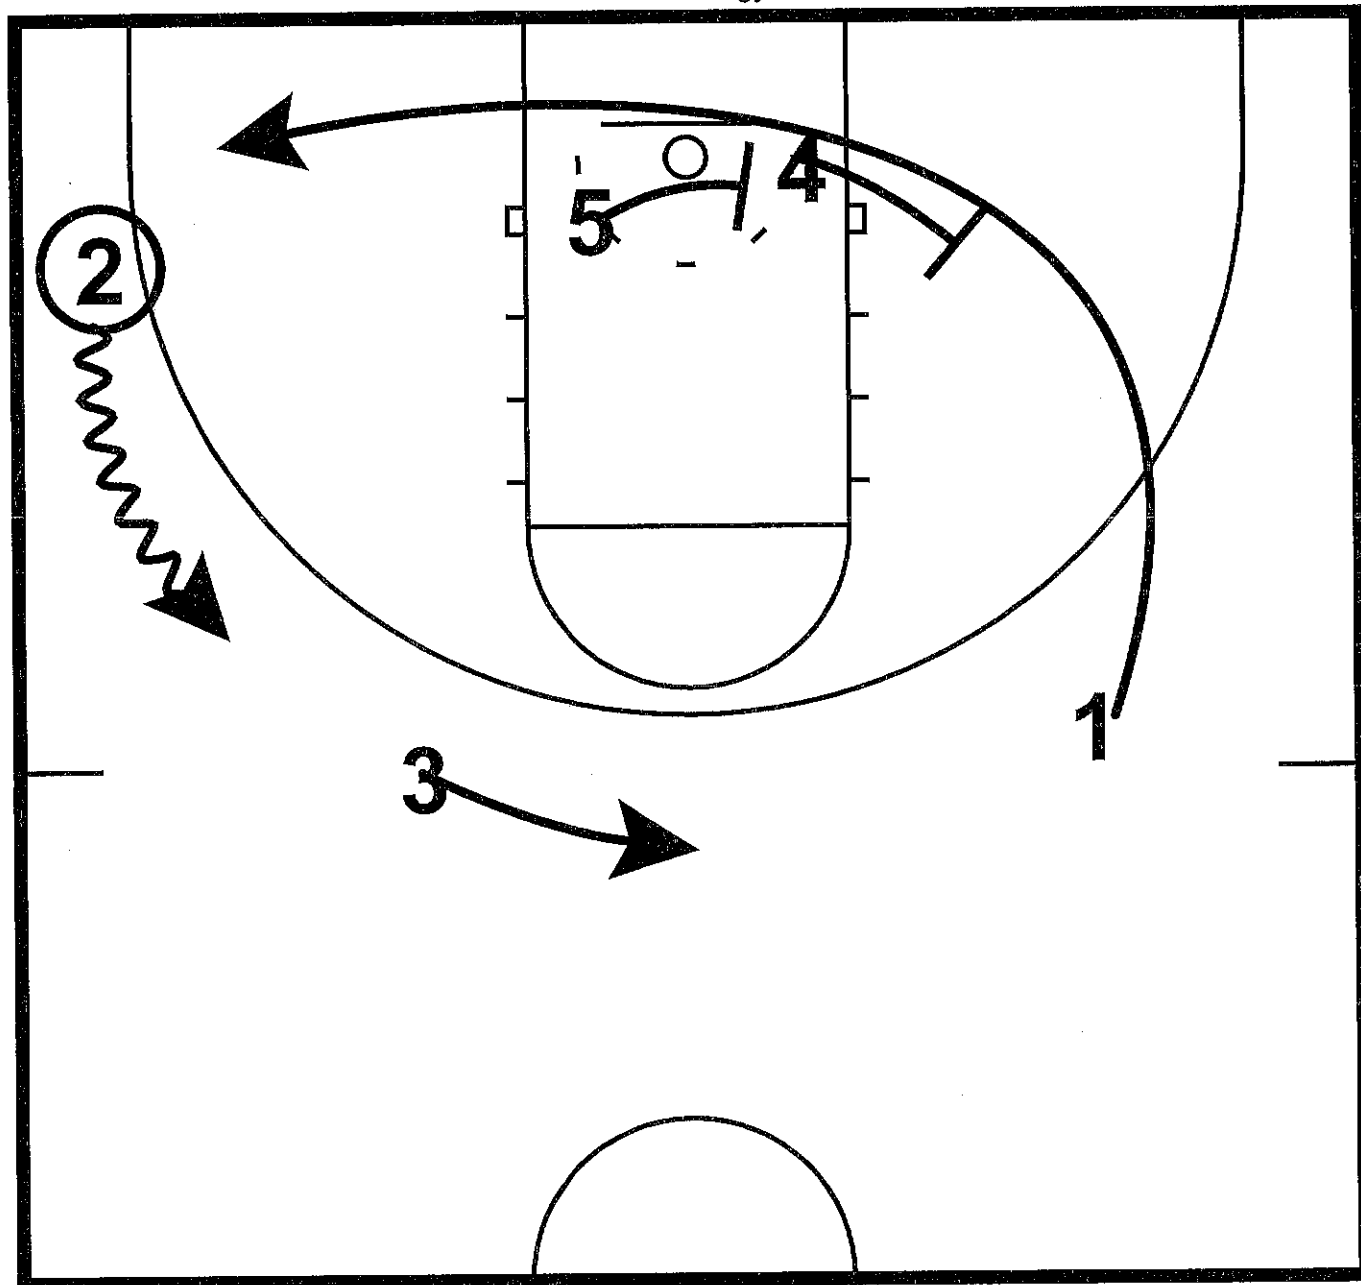

Frame 2
 Terminology

Terminology - Actions/Plays

Stagger Wheel

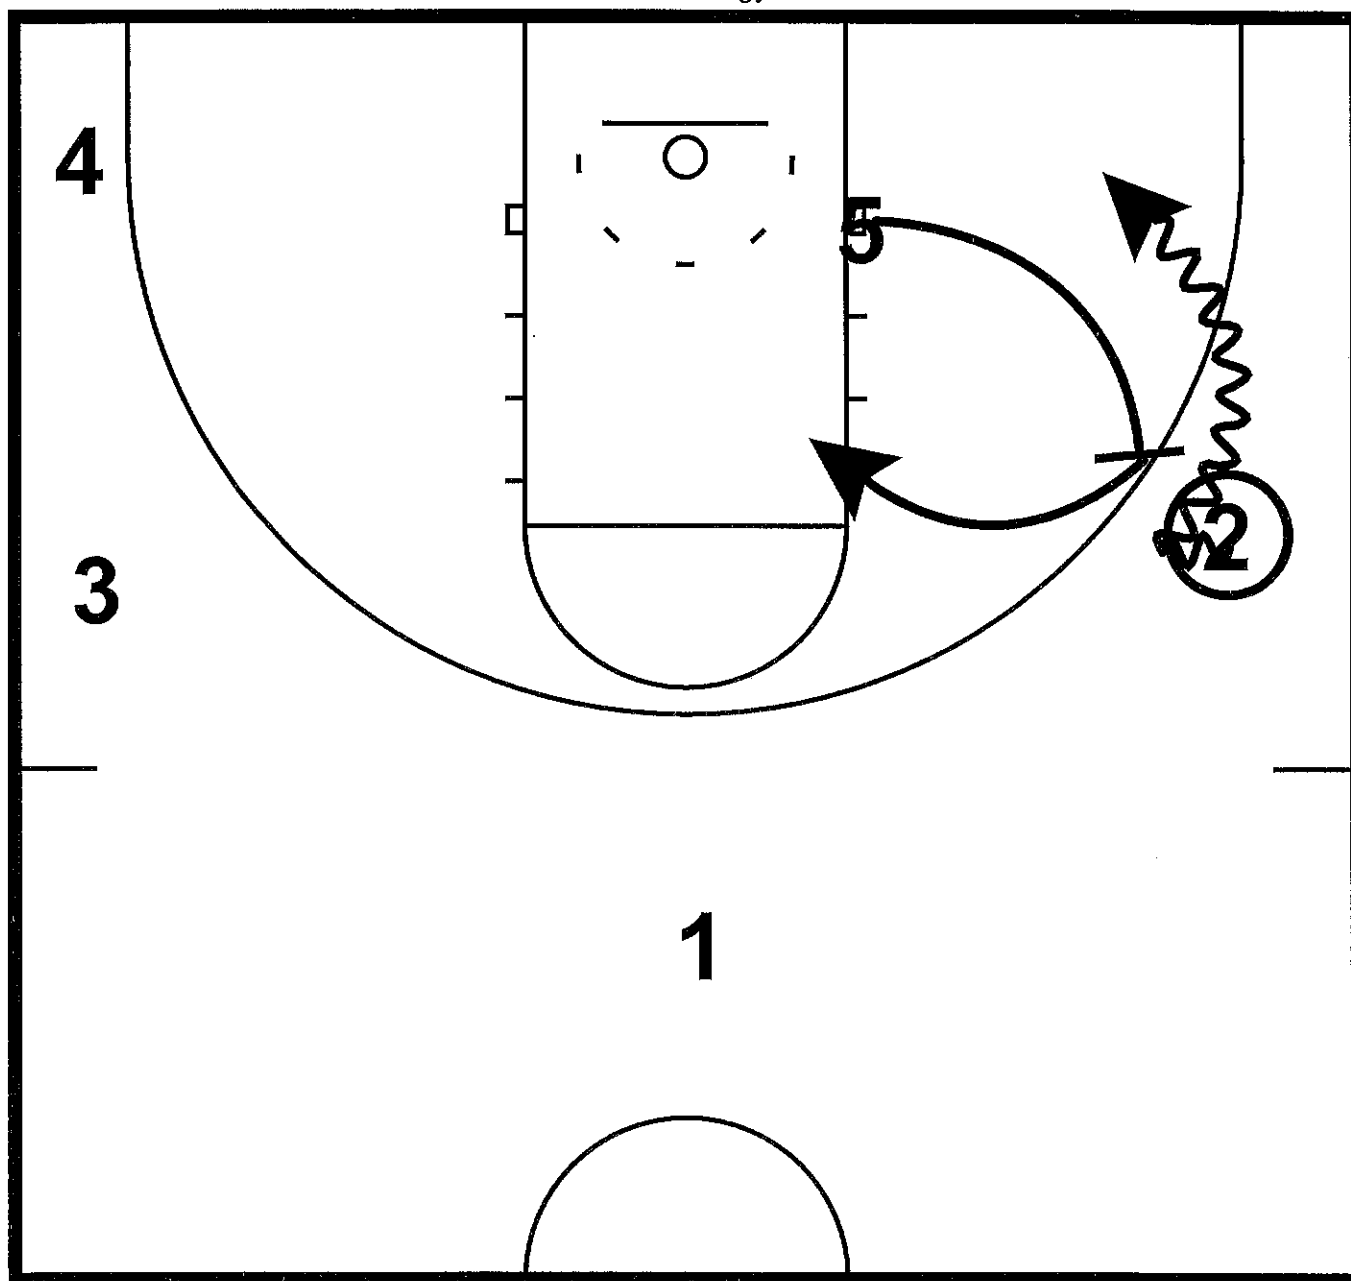

Frame 3
 Terminology

Terminology - Actions/Plays

Step-Up (Knicks)

Frame 1
Terminology

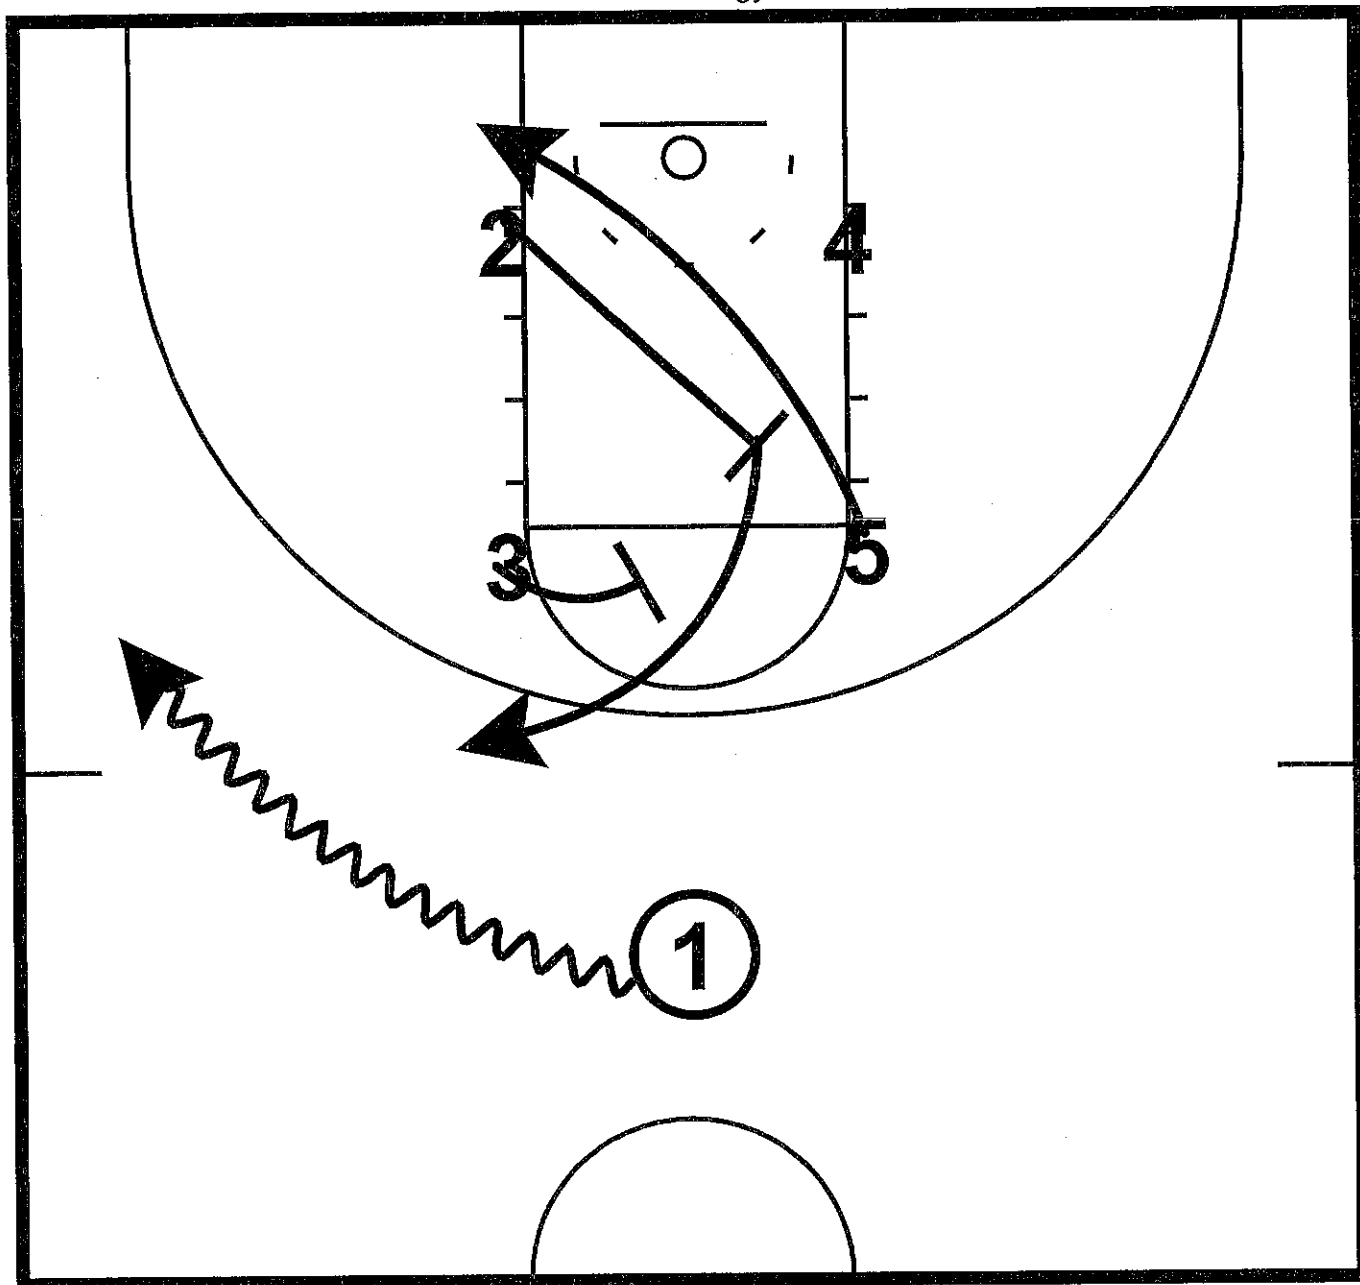

A step-up or "knicks" screen is a wing ball screen set with the screener's back to the baseline allowing the ballhandler to drive towards the baseline.

Terminology - Actions/Plays

STS (PTP)

Frame 1
Terminology

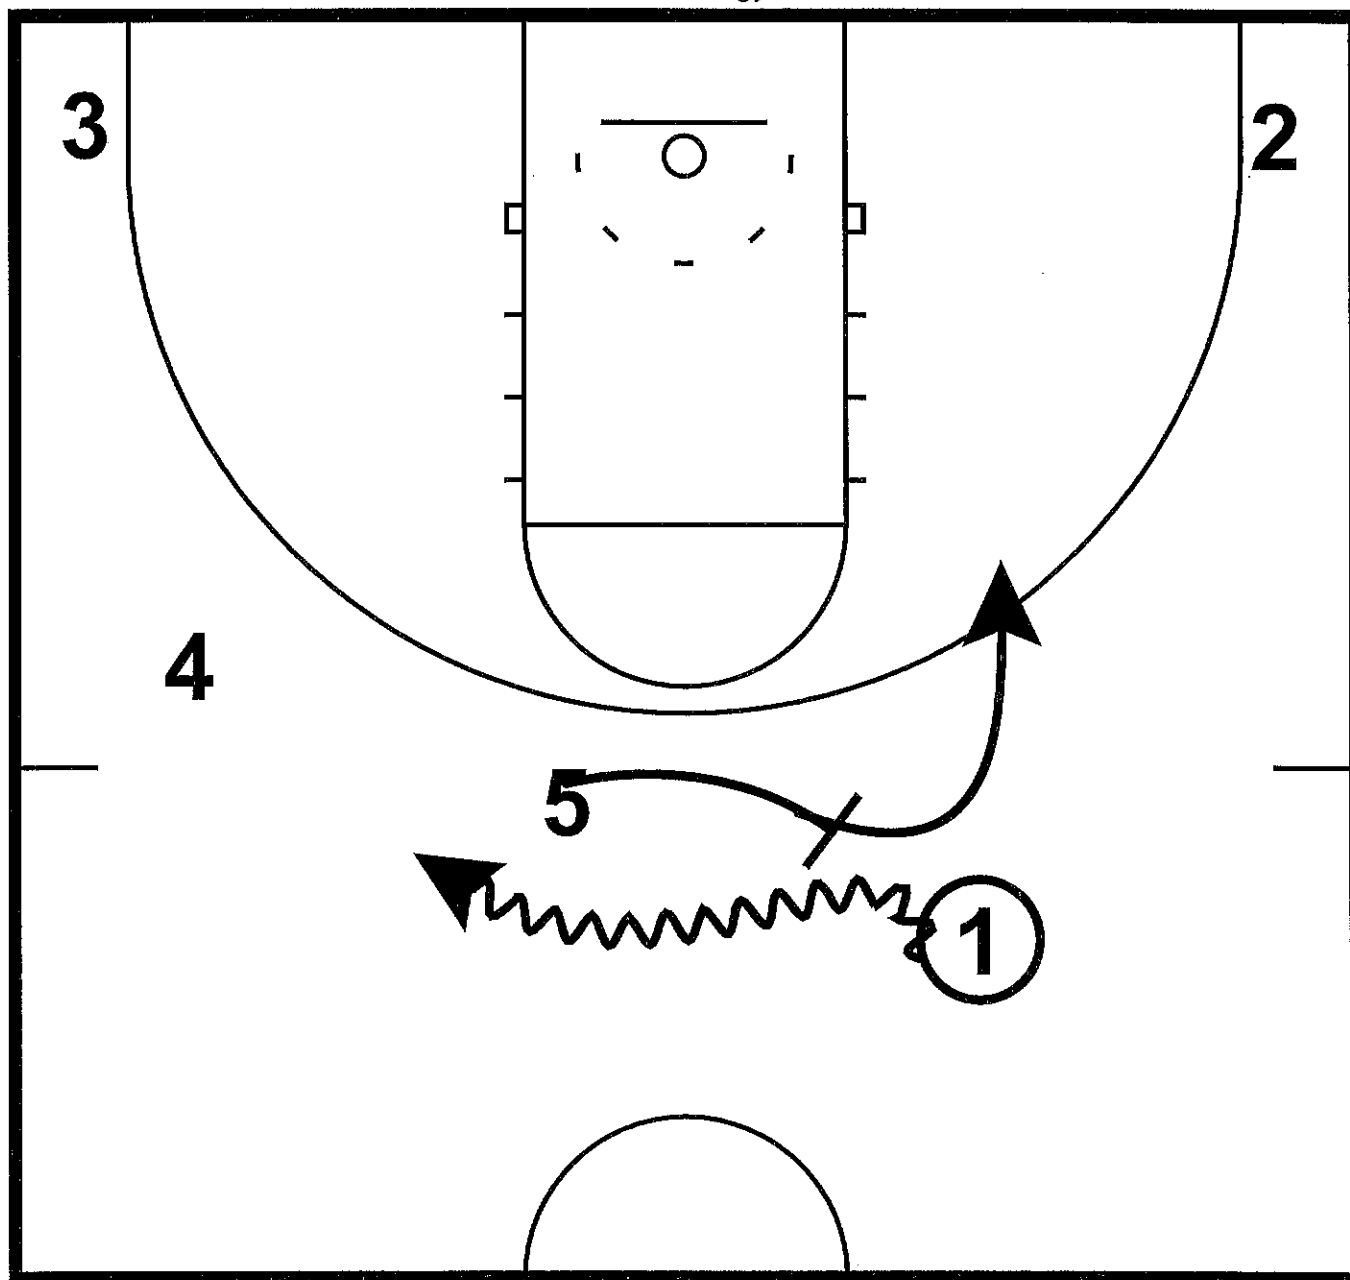

Screen the screener or pick the picker actions can be used in a variety of ways. The initial screener will cut off of a second screen and can usually get a good shot with his defender helping on the first cut.

Terminology - Actions/Plays

Tandem Double

Frame 1
Terminology

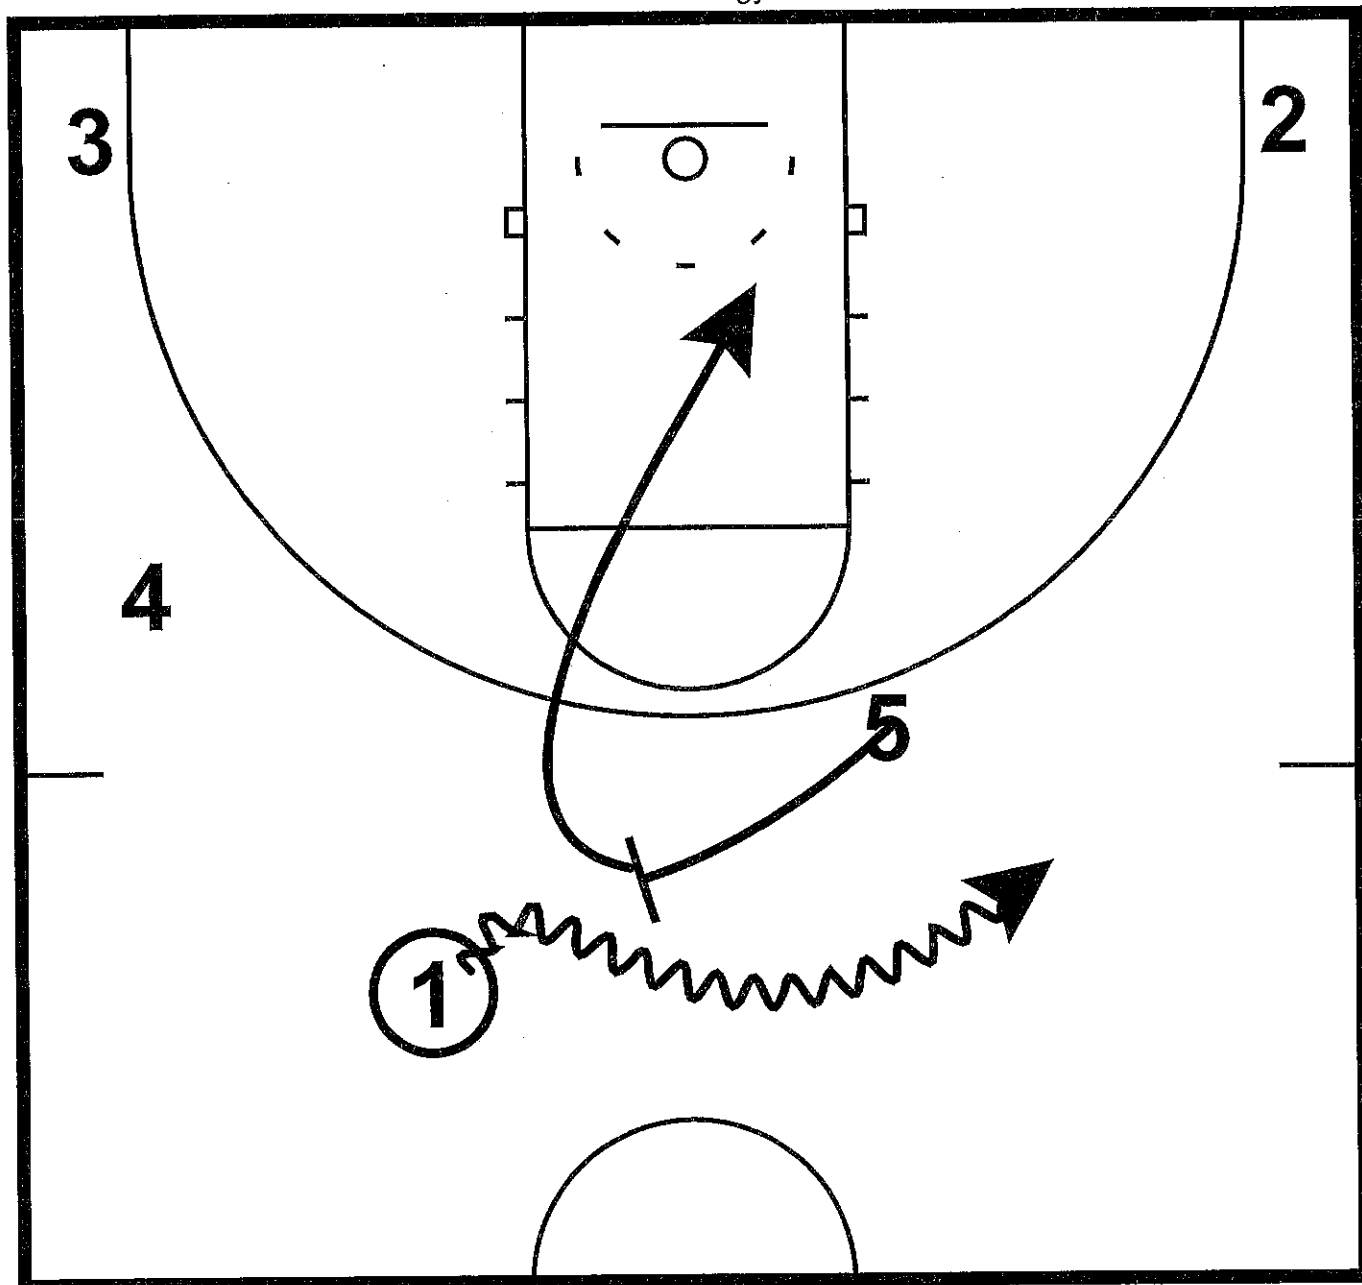

A high ball screen set with the action towards the two man side.

Terminology - Actions/Plays

Tandem Single

Frame 1
Terminology

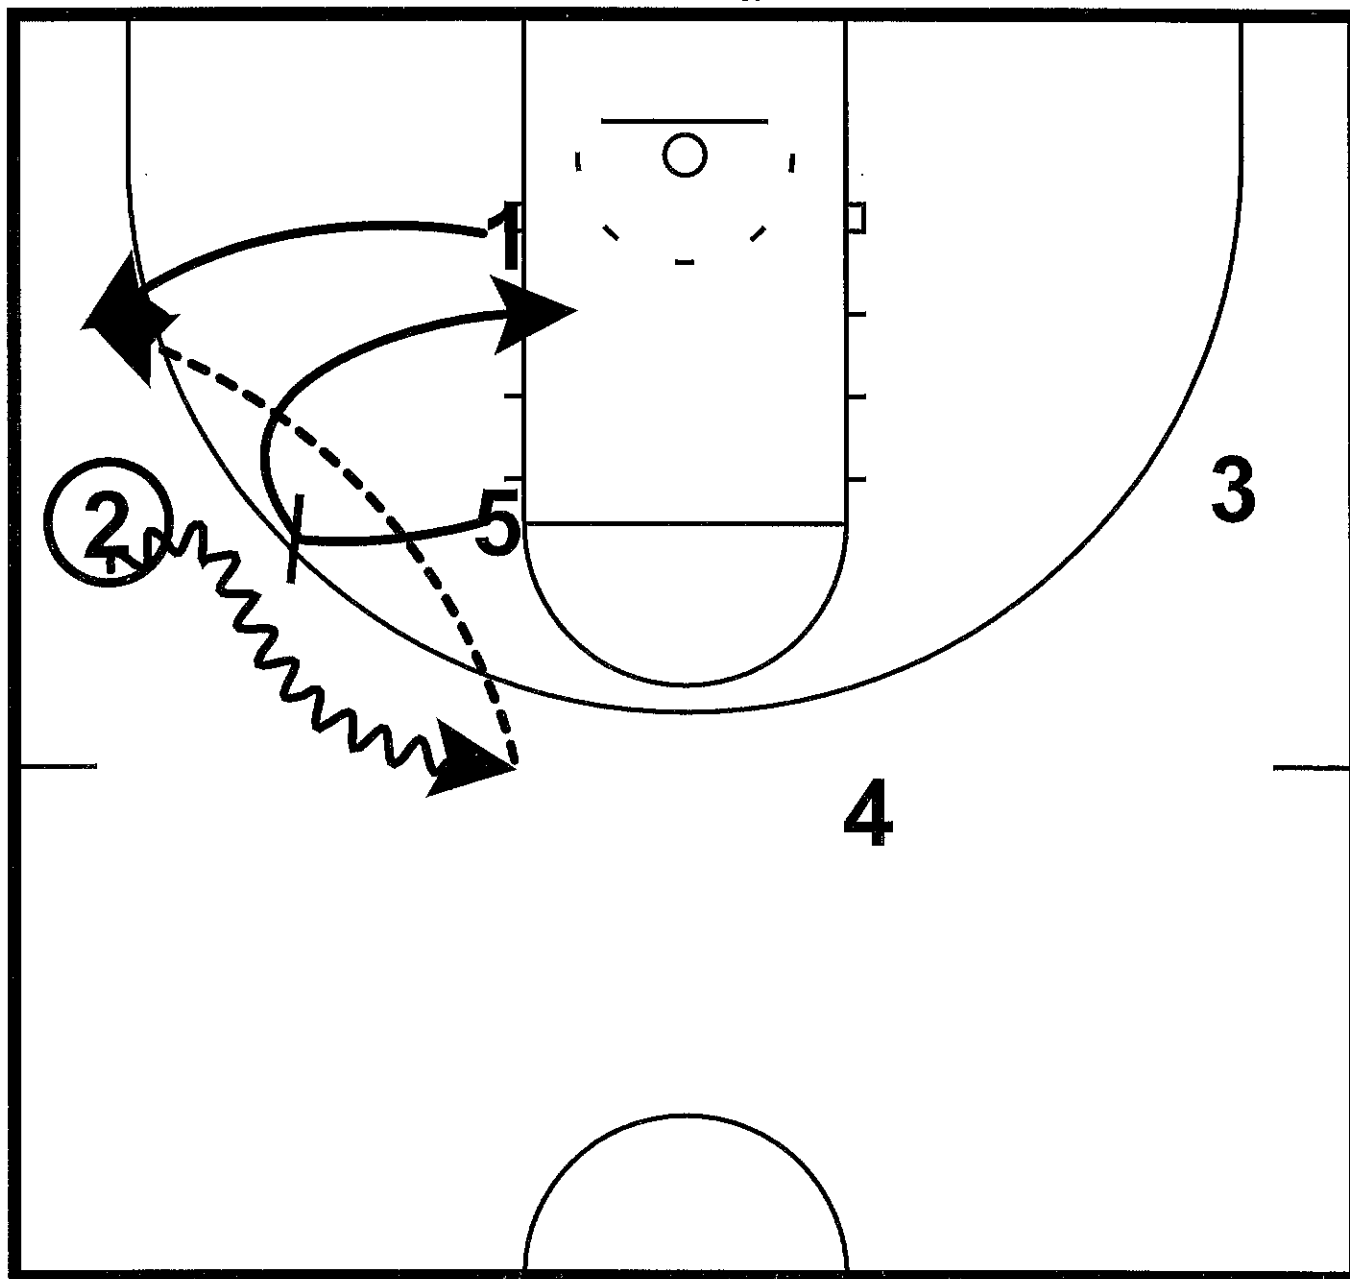

A high ball screen set with the action towards the single man side.

Terminology - Actions/Plays

Throw Back

Frame 1
Terminology

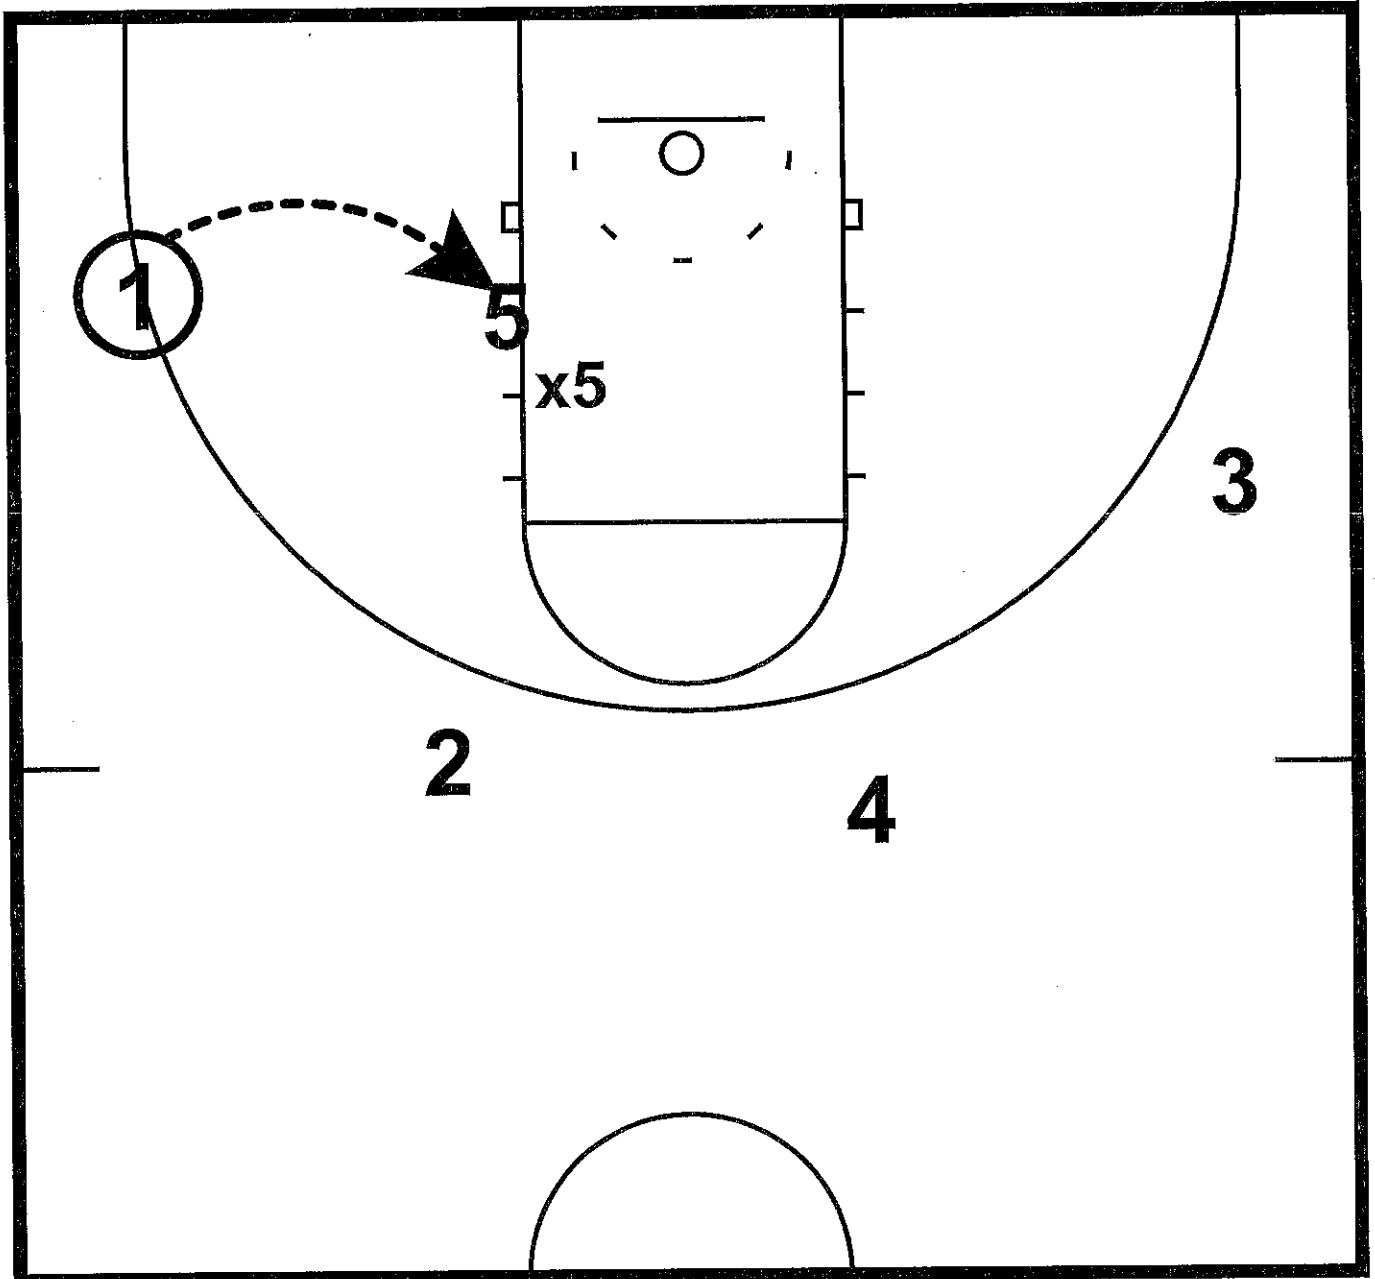

On a throw back action, the ballhandler uses a ball screen and throws back to the guard replacing the big man. Once the guard has the ball on the wing, he looks to pass inside to the screener that just rolled to the block.

Terminology - Actions/Plays

Throw Back

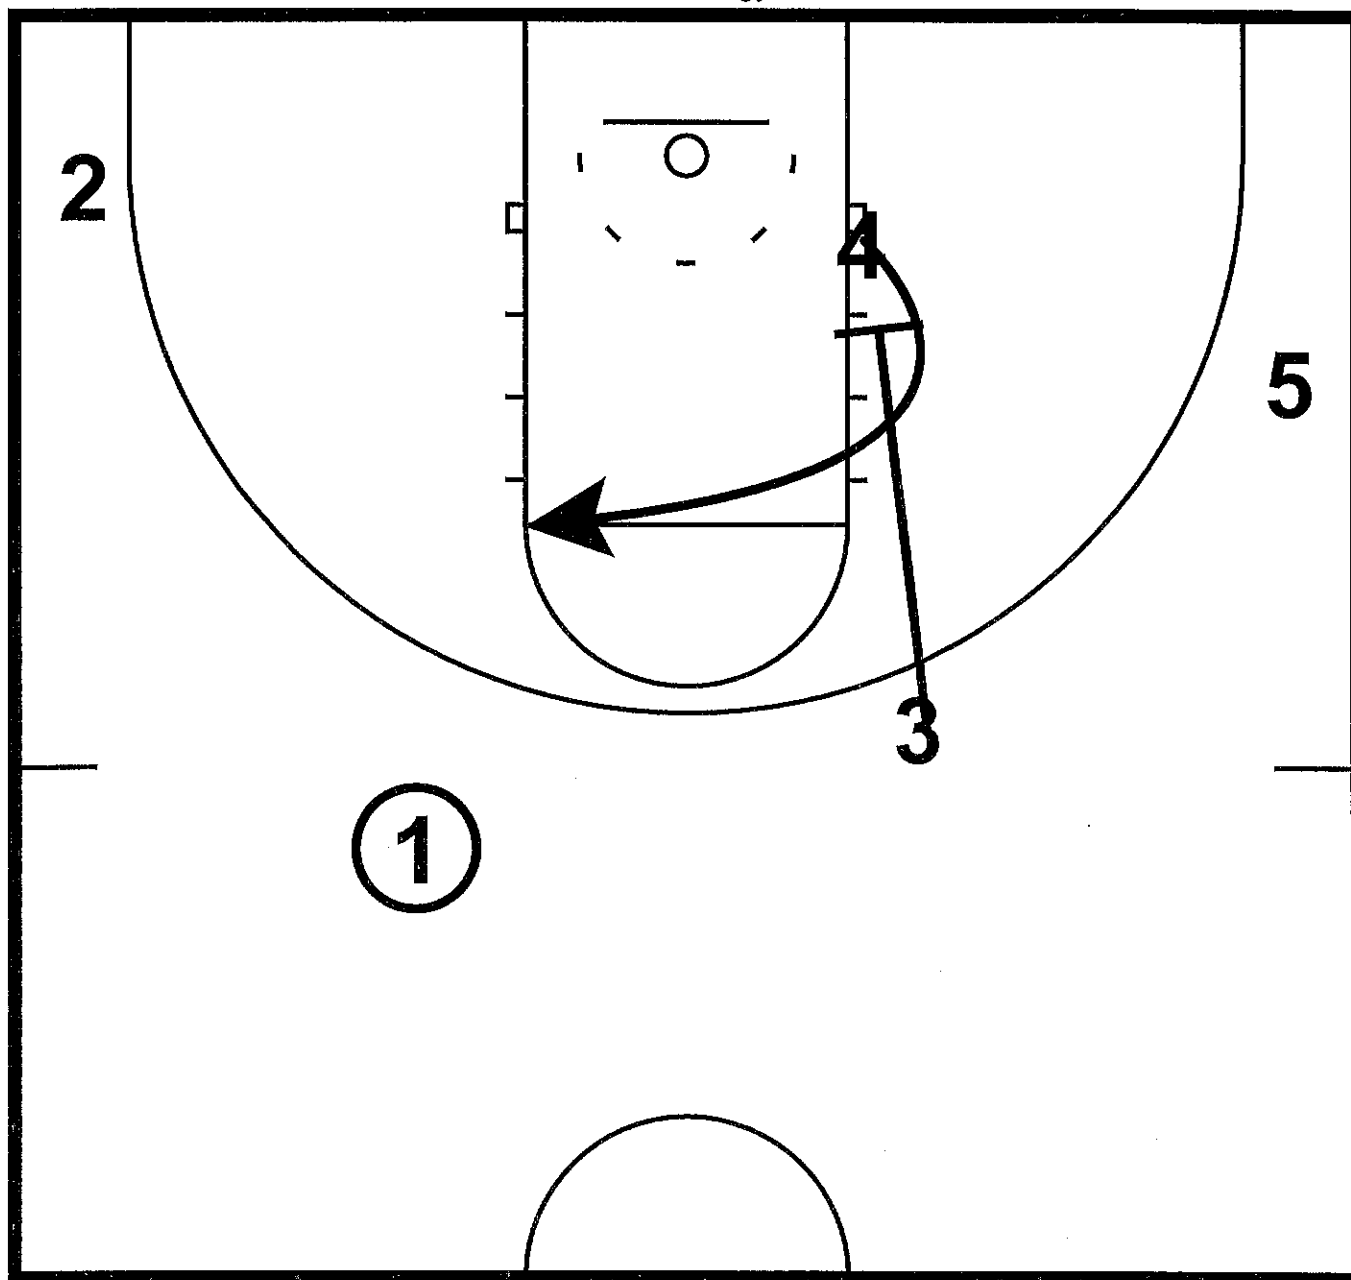

Frame 2
Terminology

Terminology - Actions/Plays

Thunder

Frame 1
Terminology

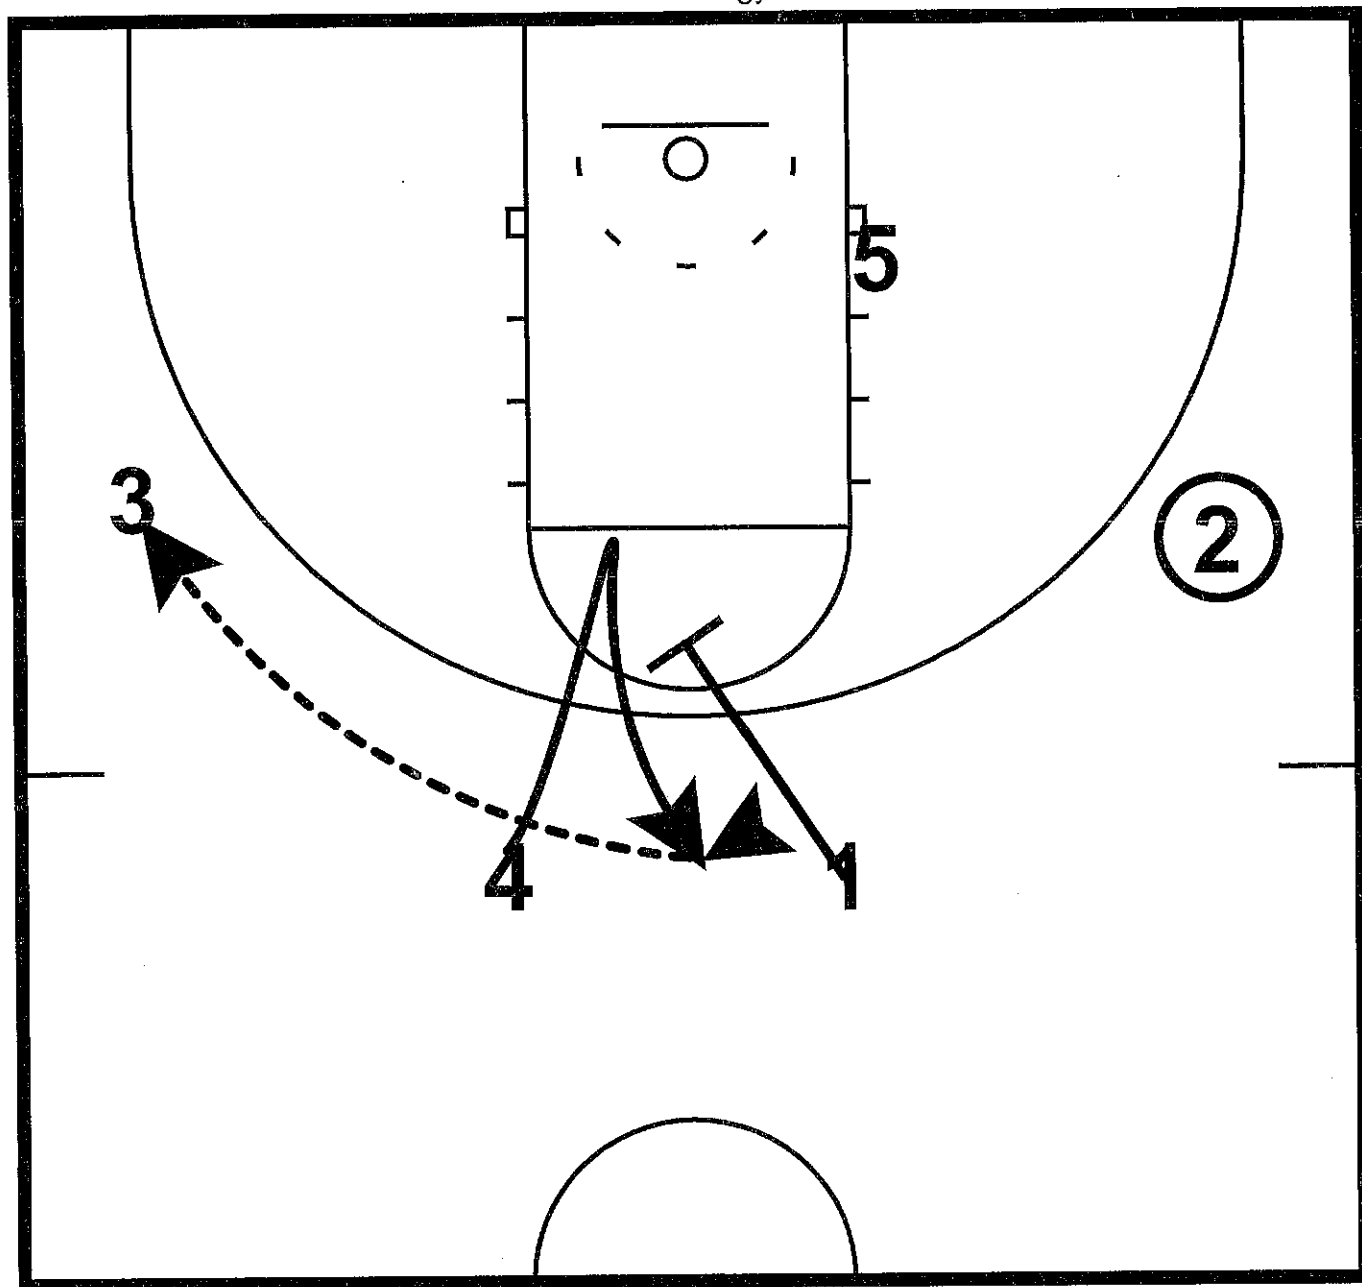

A down screen is set for a big man who cuts from one block to the opposite elbow.

Terminology - Actions/Plays

Tops

Frame 1
 Terminology

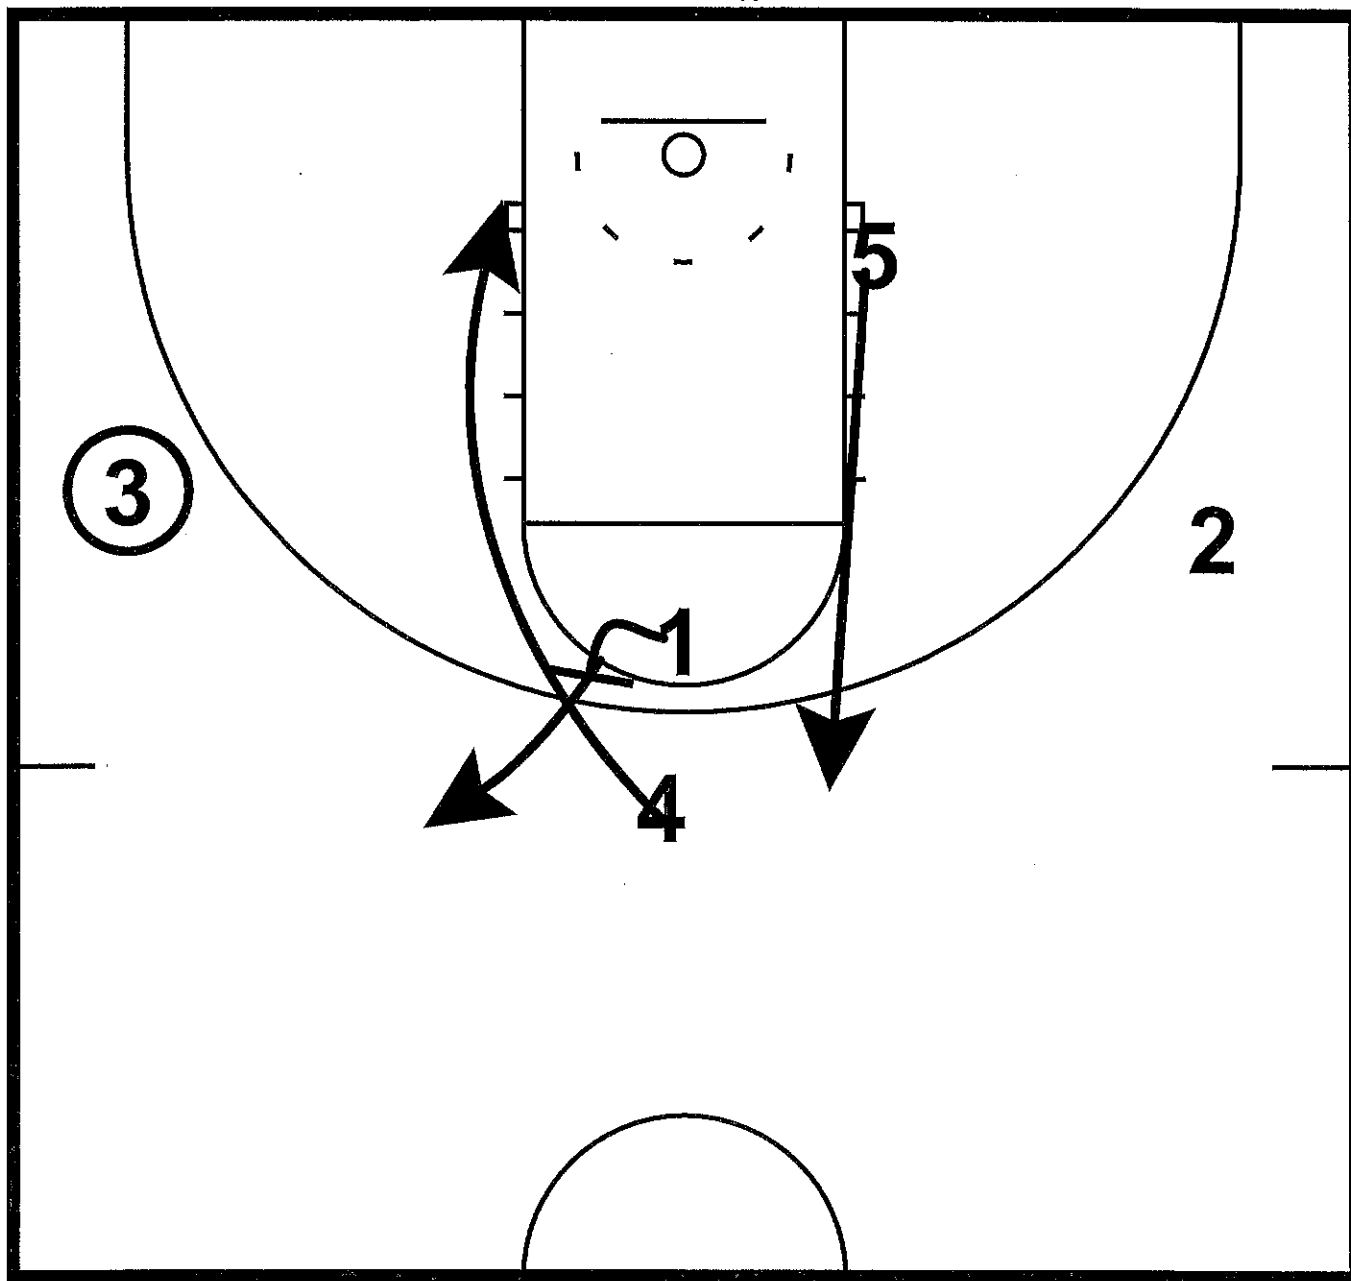

Tops is a down screen at the top of the key into a reversal and back screen for the cutter.

Terminology - Actions/Plays

Tops

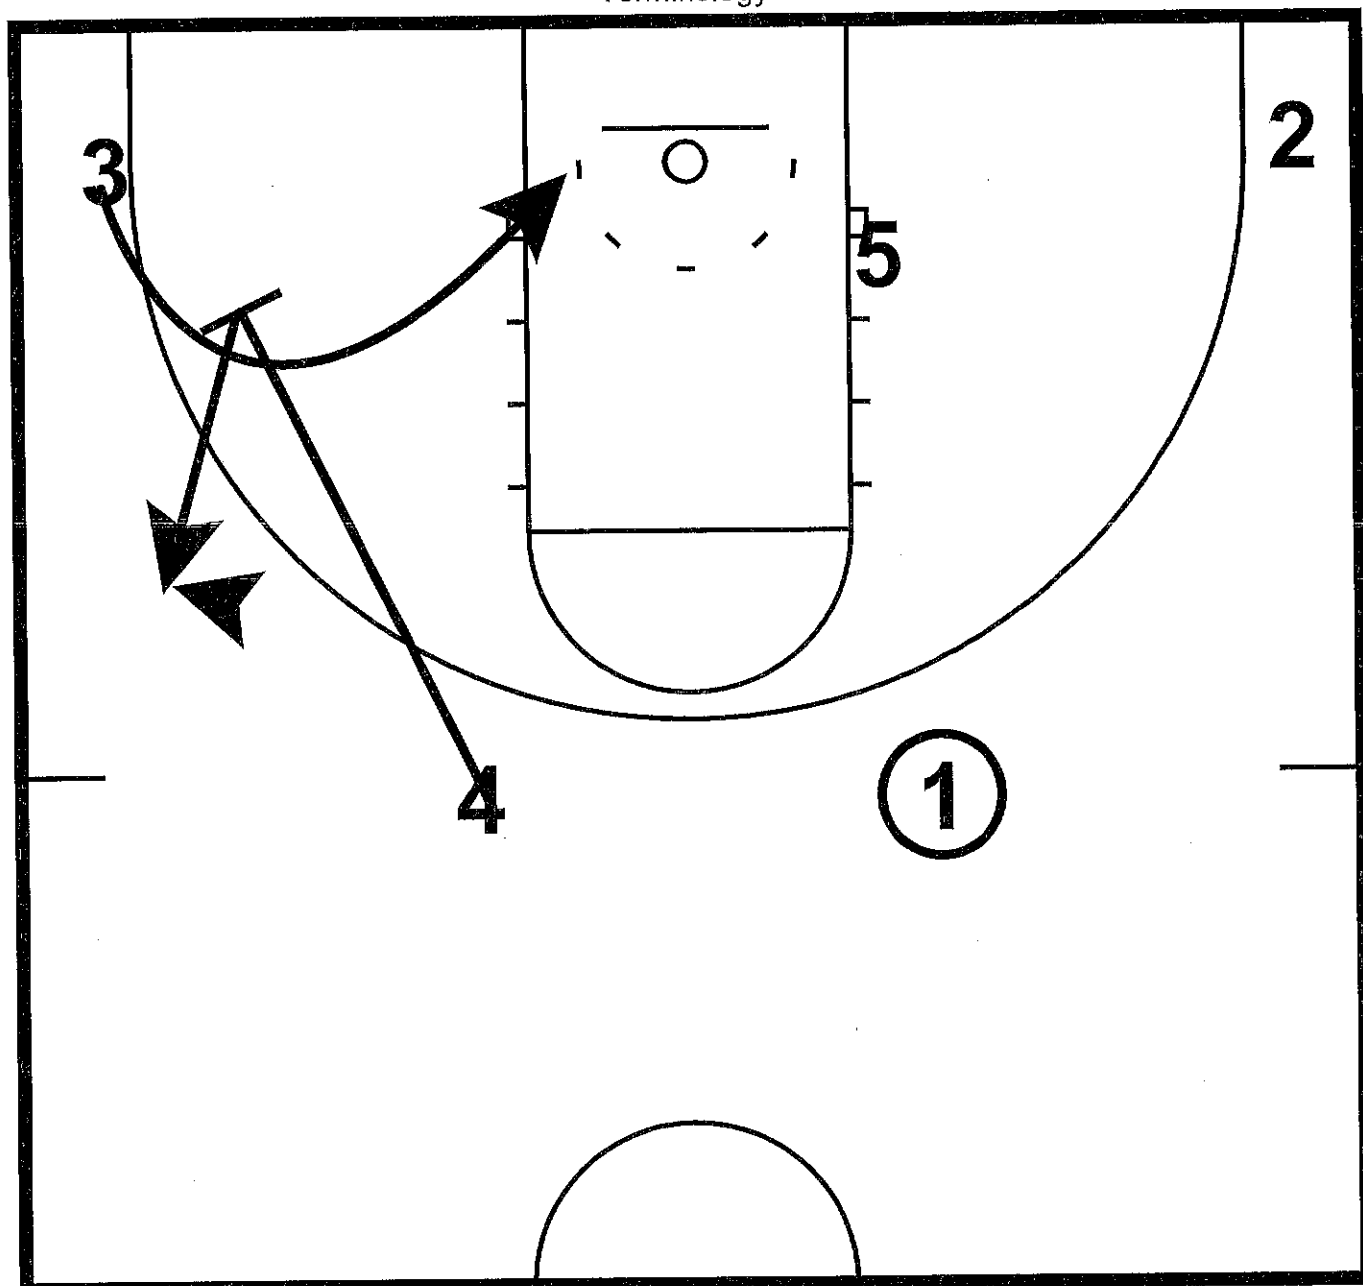

Frame 2
Terminology

Terminology - Actions/Plays

Twirl

Frame 1
Terminology

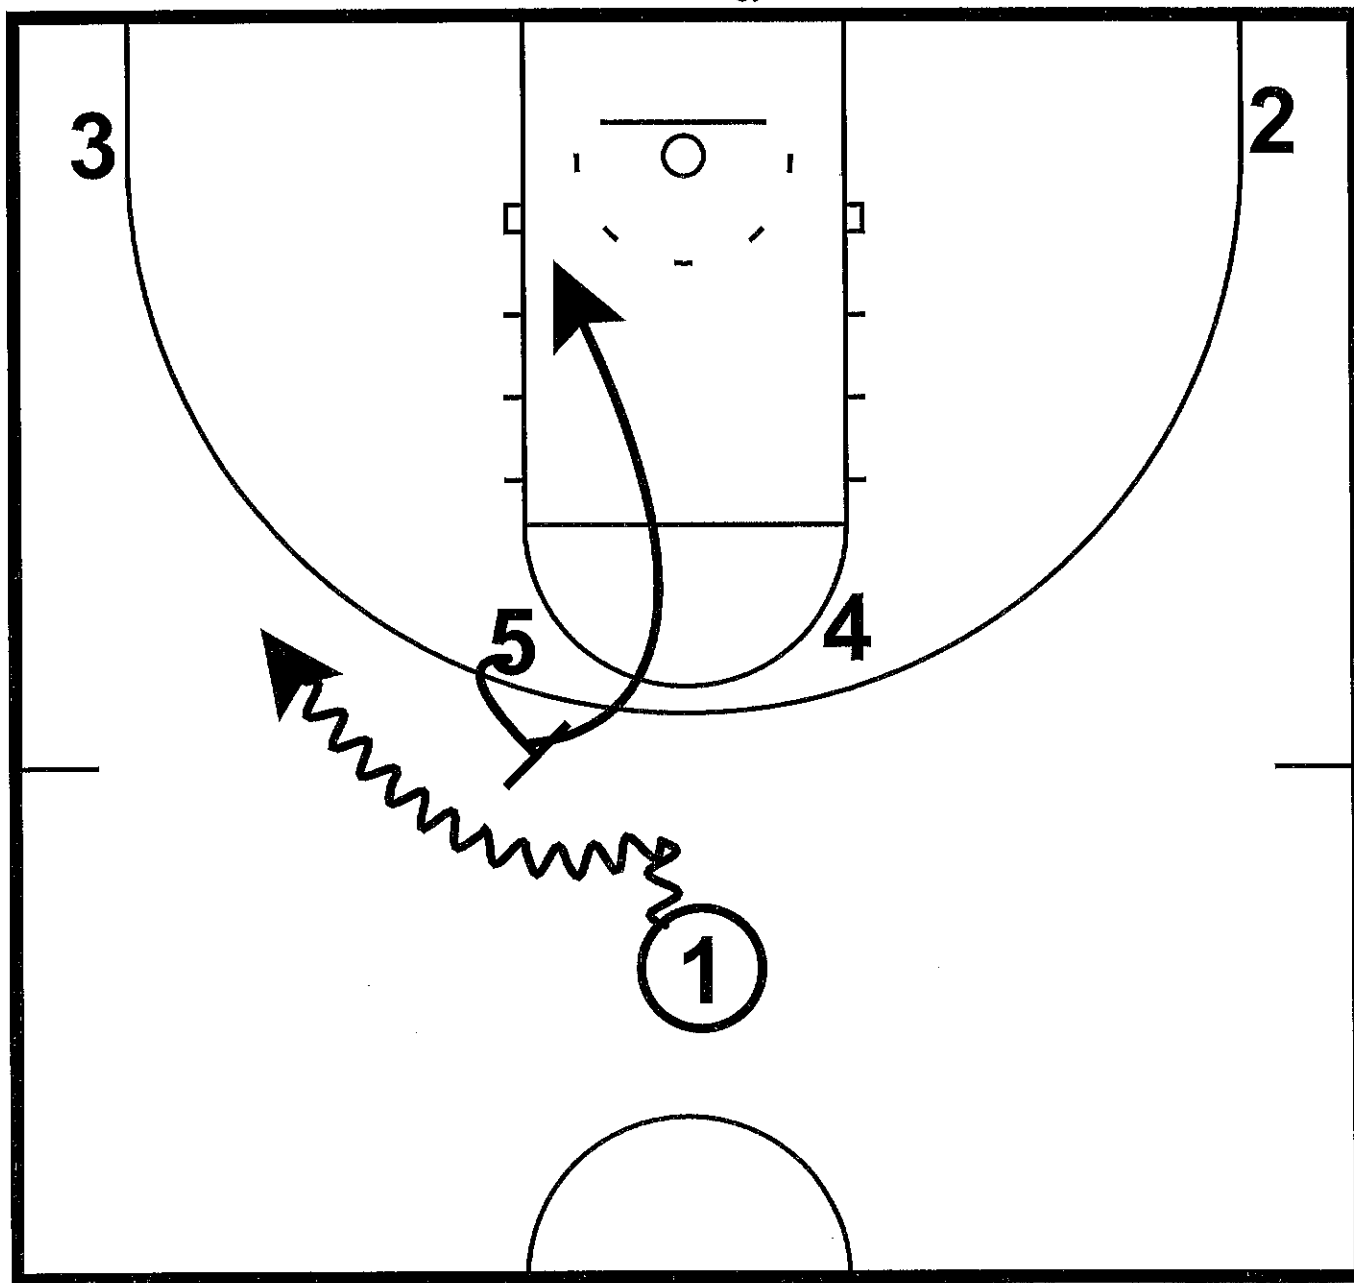

A twirl is a curl cut around a screen and an immediate entry to the screener after the cutter clears. The screener pops out to get the ball.

Terminology - Actions/Plays

Twist

Frame 1
Terminology

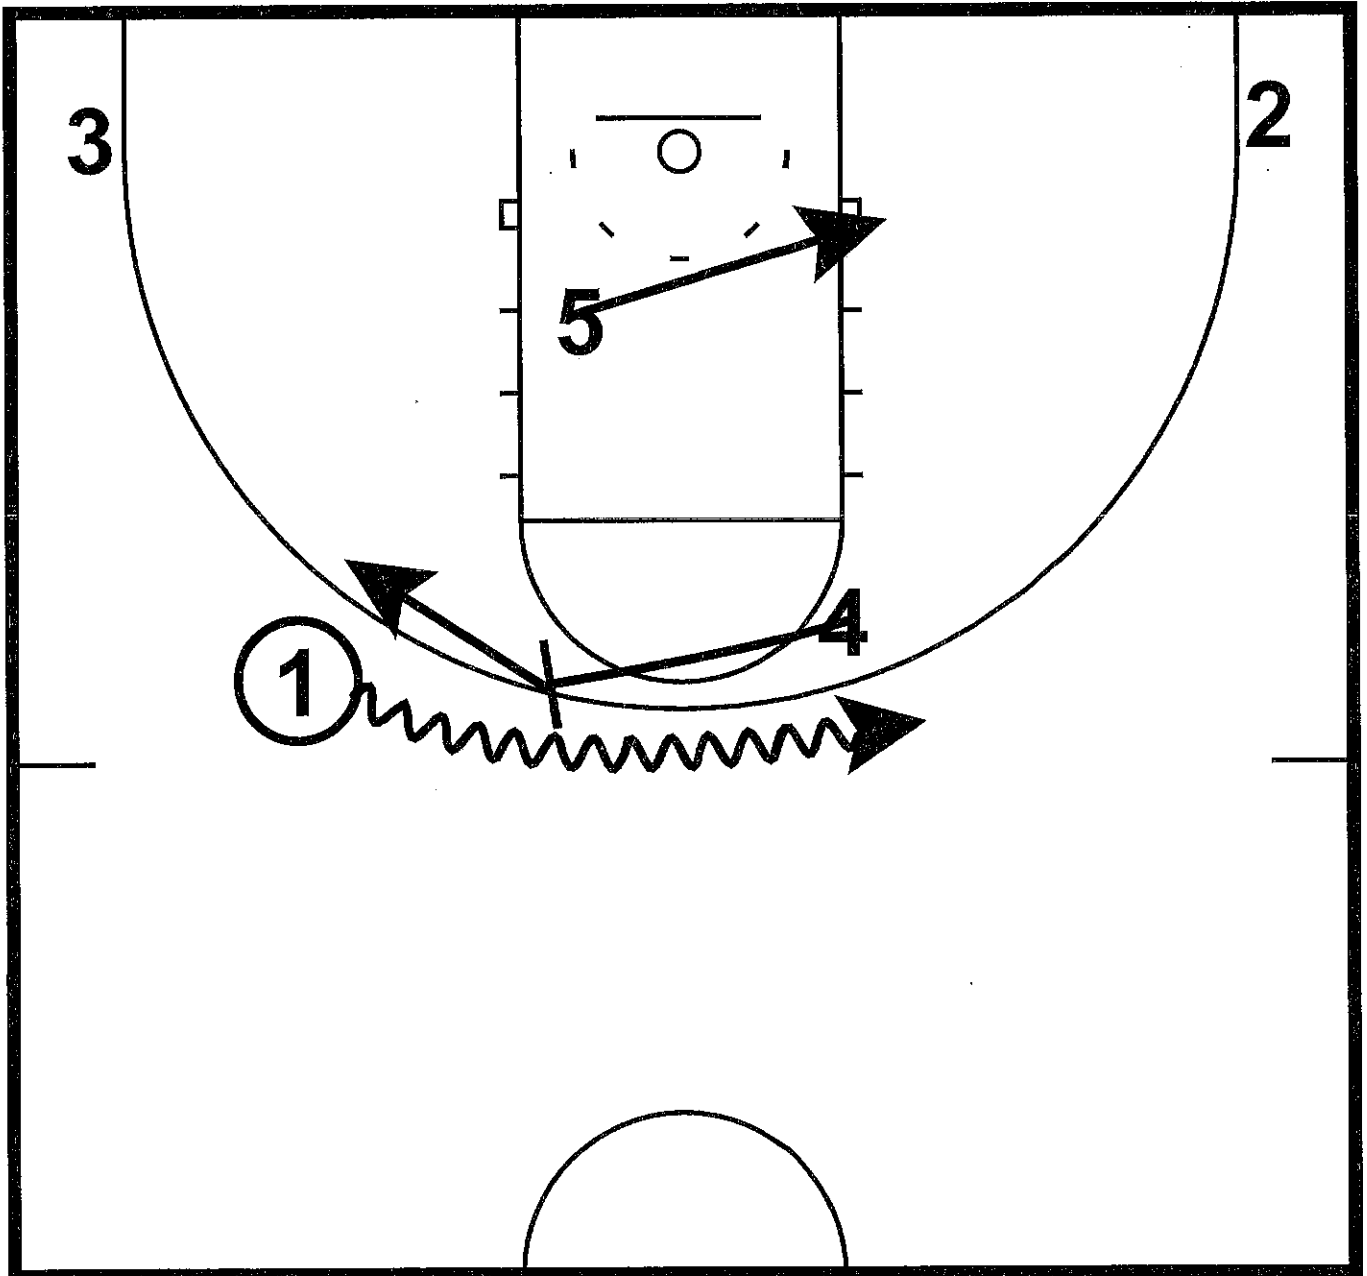

In twist, a ball screen is set and another follows after the initial screener has rolled.

Terminology - Actions/Plays

Twist

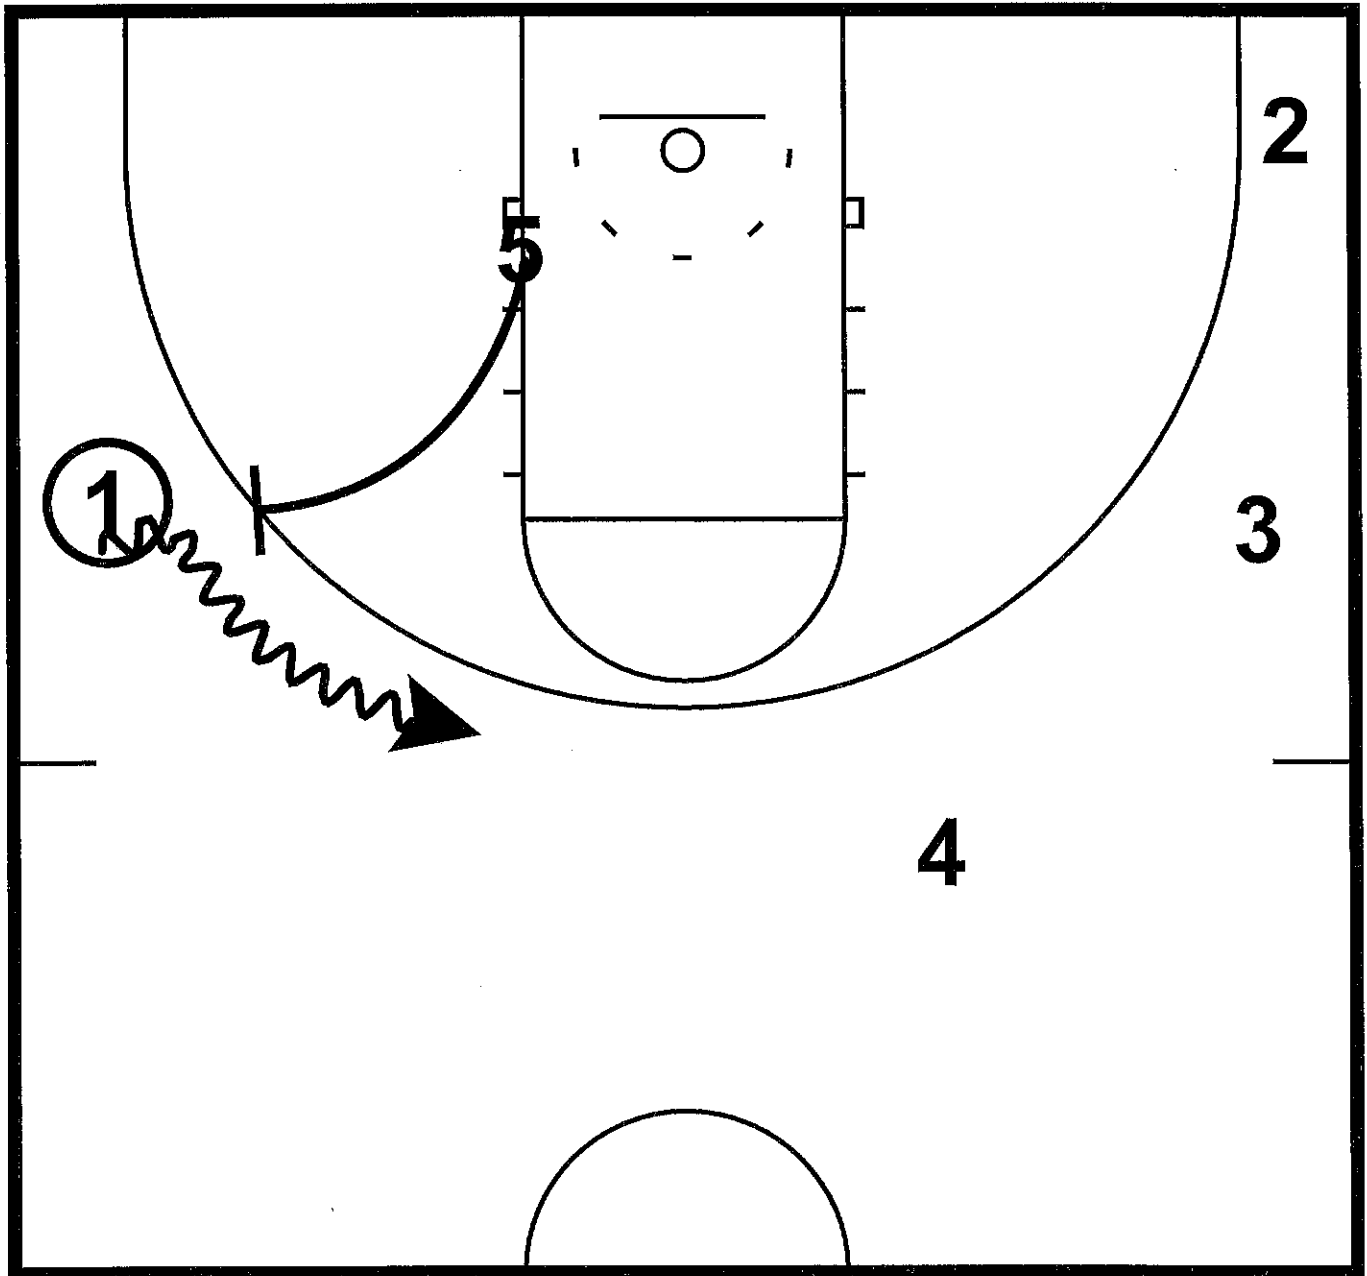

Frame 2
Terminology

Terminology - Actions/Plays

Two Man Action

Frame 1
Terminology

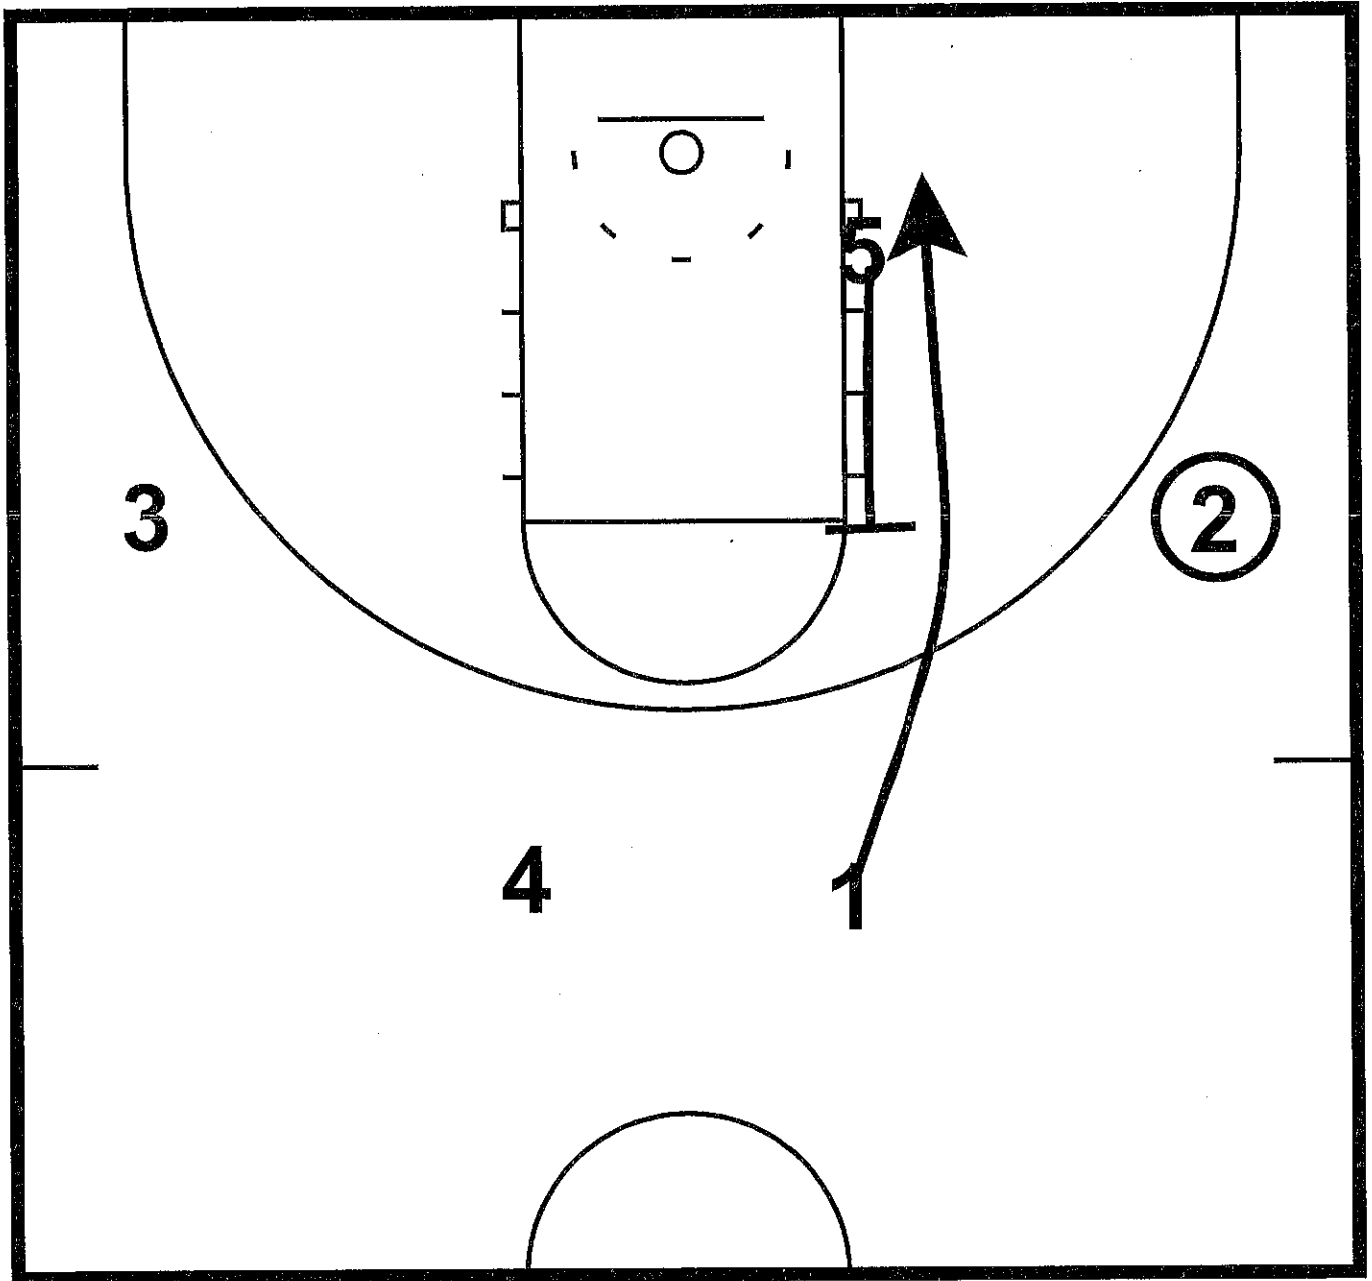

A two man action isolates two players on one side of the floor, typically for a ball screen action.

Terminology - Actions/Plays

UCLA (Up/Back) Screen

Frame 1
 Terminology

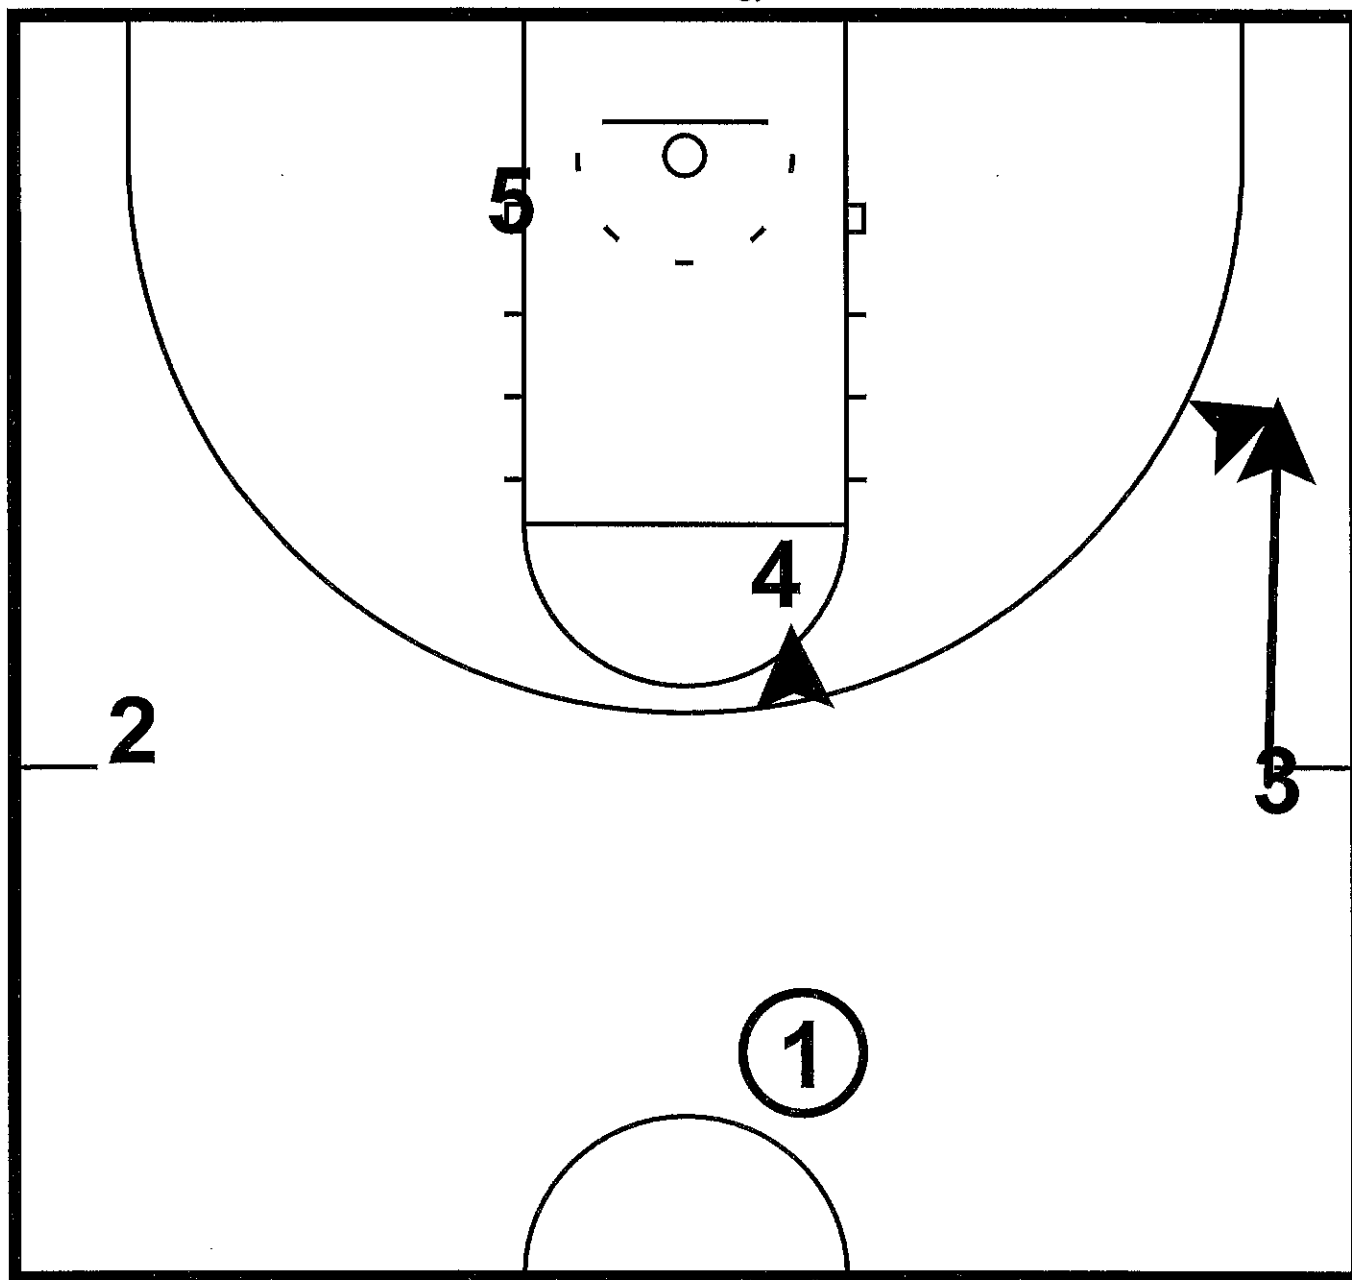

The UCLA cut is off of a high post back screen at the elbow. The cutter cuts from the slot or top of the key down to the block.

Terminology - Actions/Plays

Valpo

Frame 1
 Terminology

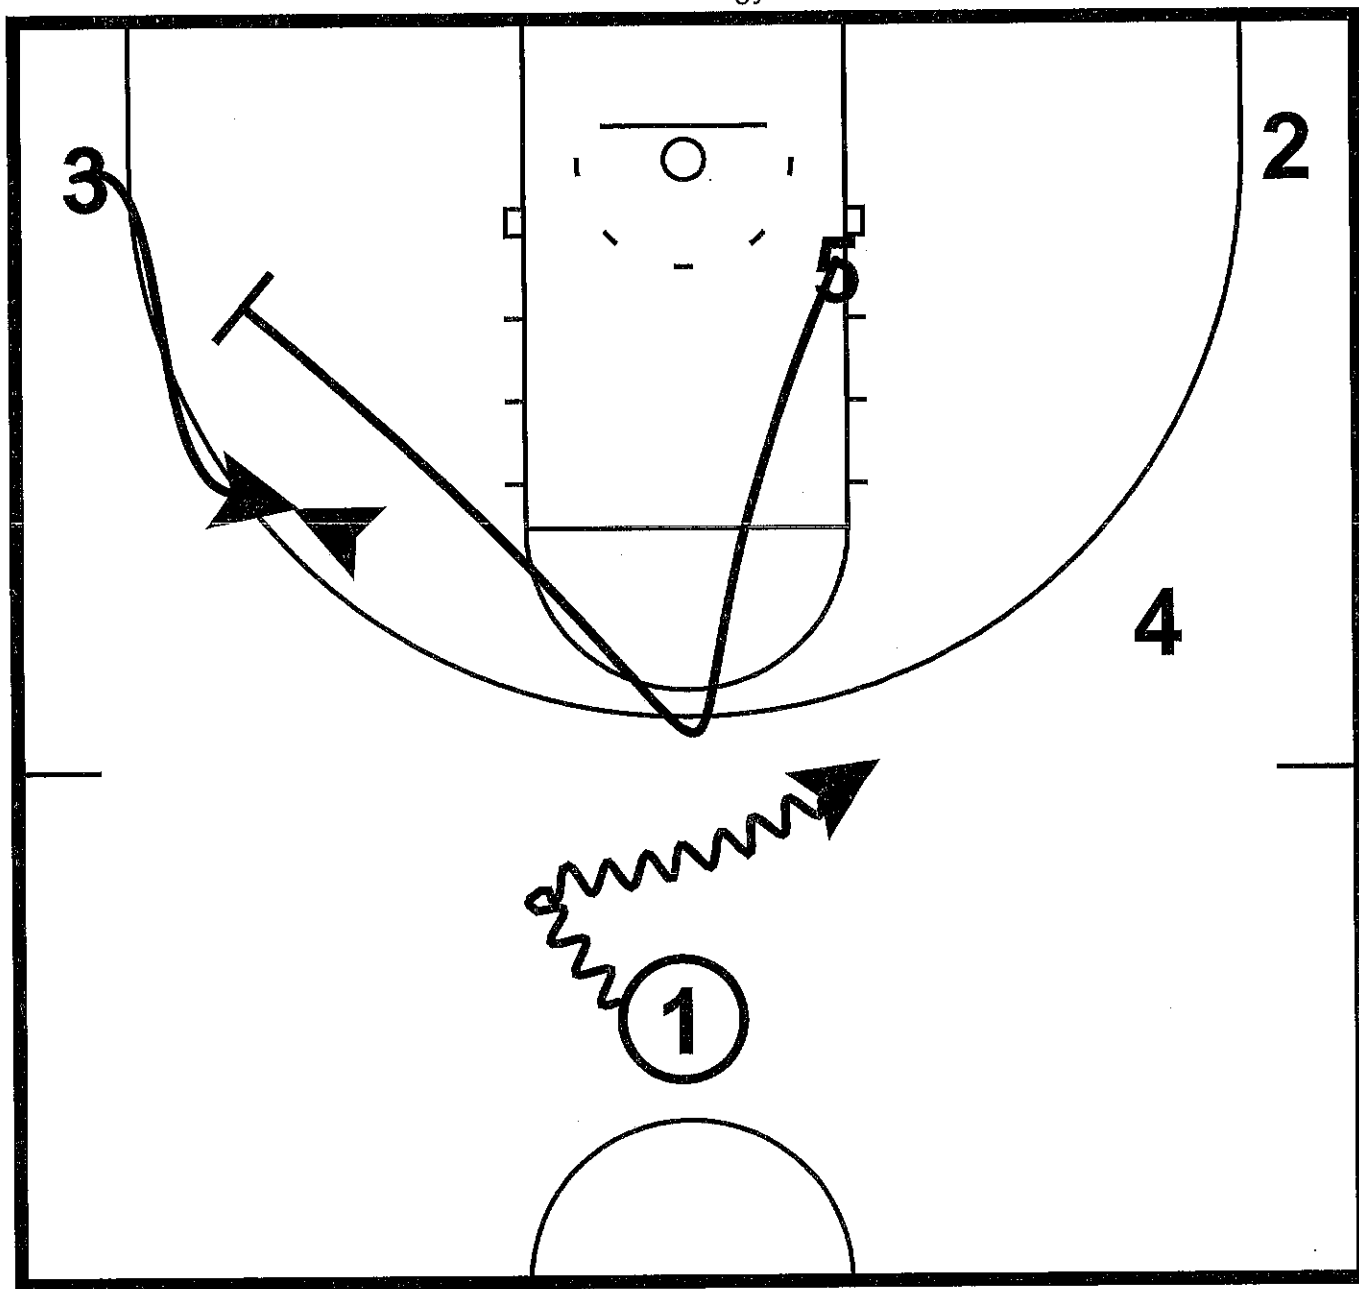

Valpo, named for the miracle shot from Bryce Drew, is when a post player gets the ball and looks to hit the wing player on the run for a shot.

Terminology - Actions/Plays

Veer

Frame 1
Terminology

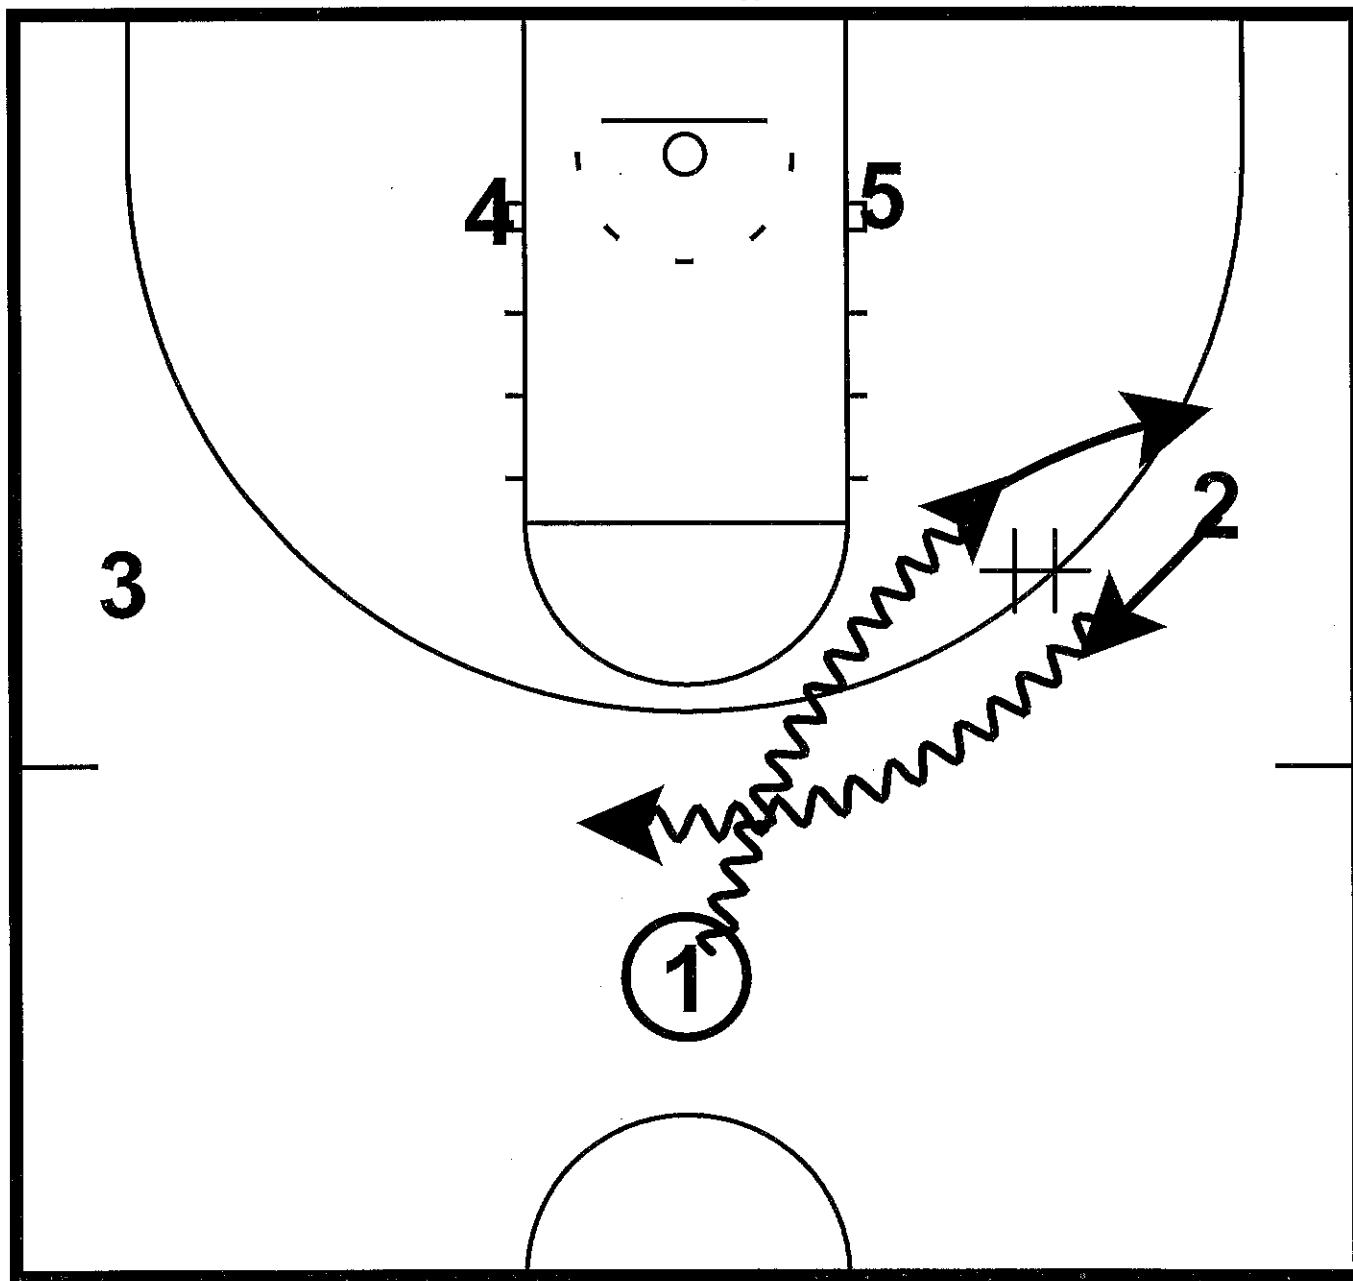

5 sprints out as if to screen for 1 but instead veers to the left to set a down screen for 3 in the corner.

Terminology - Actions/Plays

Weave/Nova

Frame 1
Terminology

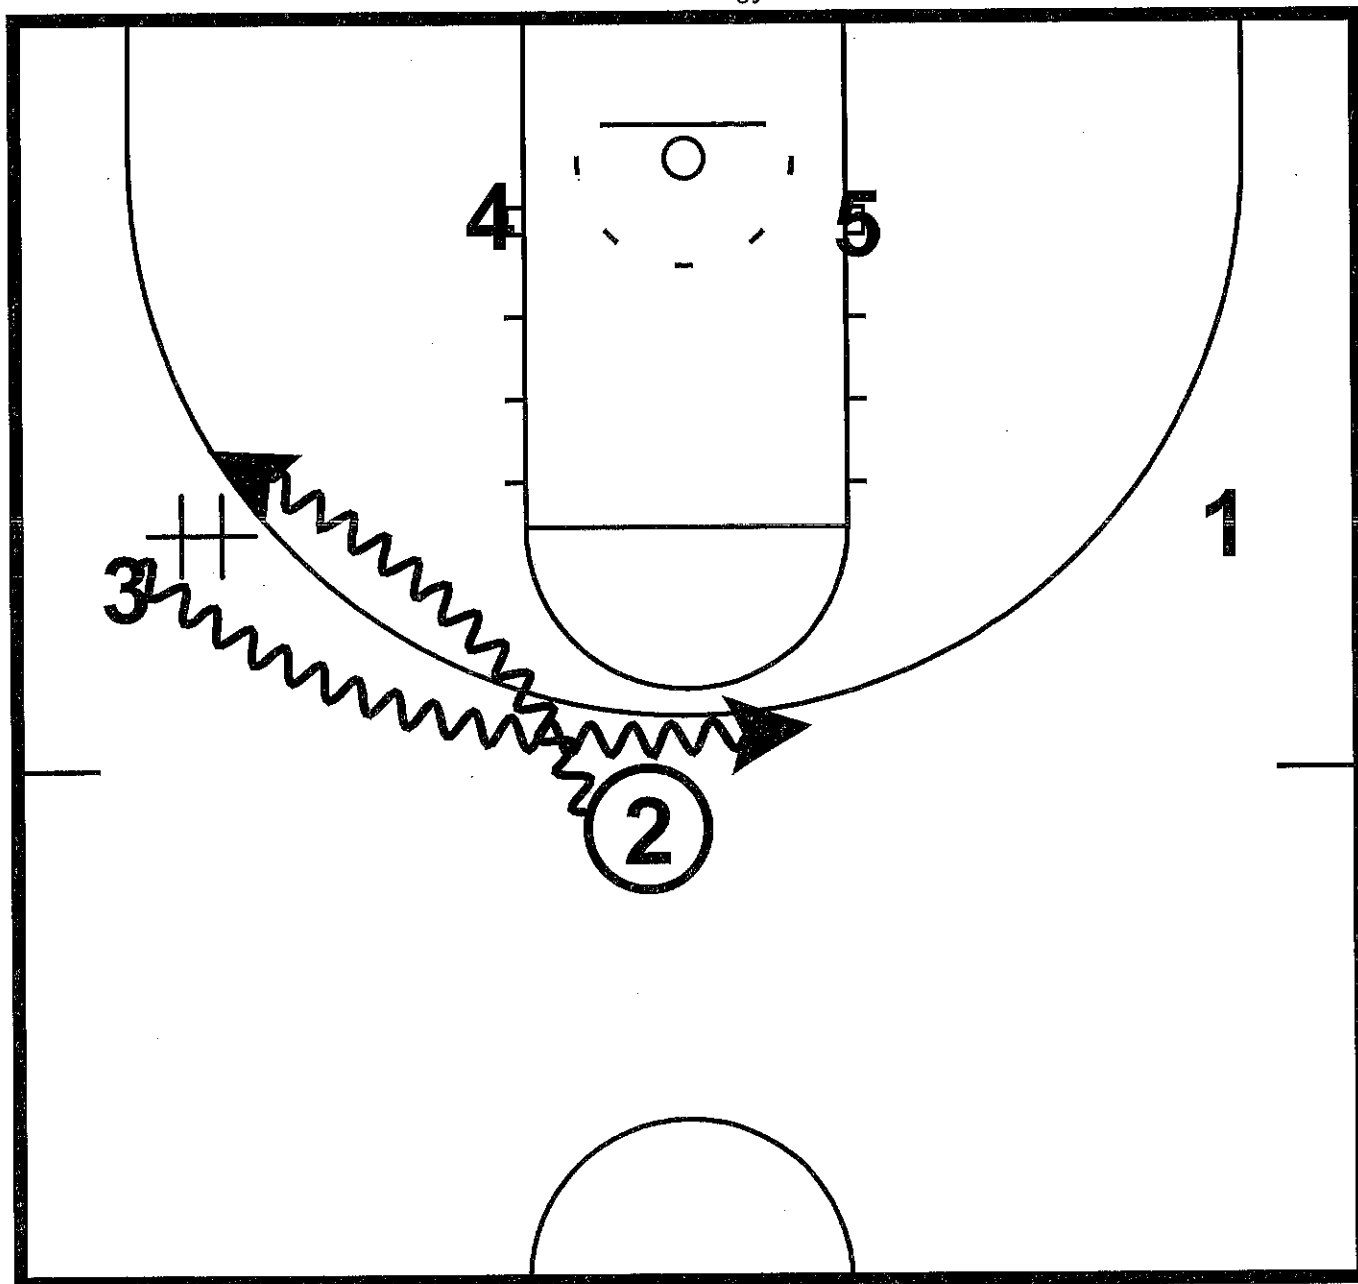

Taken from Jay Wright at Villanova, weave/nova is continuous dribble handoffs by the guards on the perimeter.

Terminology - Actions/Plays

Weave/Nova

Frame 2

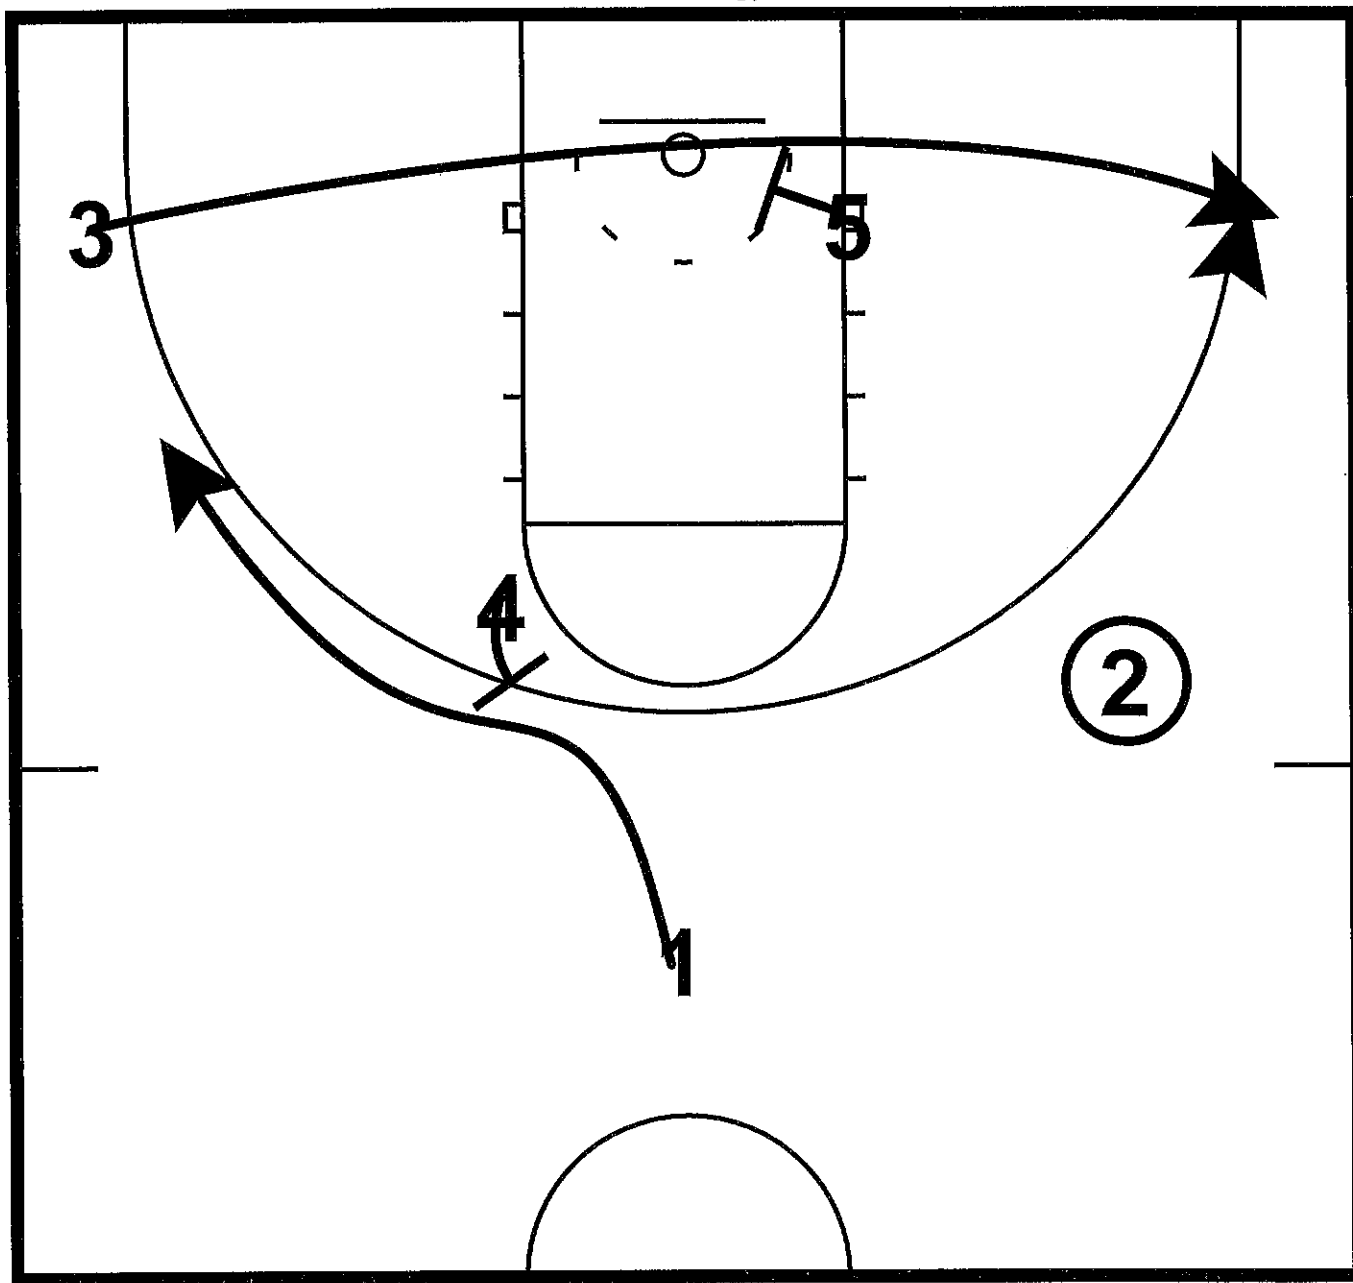

Terminology

Terminology - Actions/Plays

Wheel

Frame 1
 Terminology

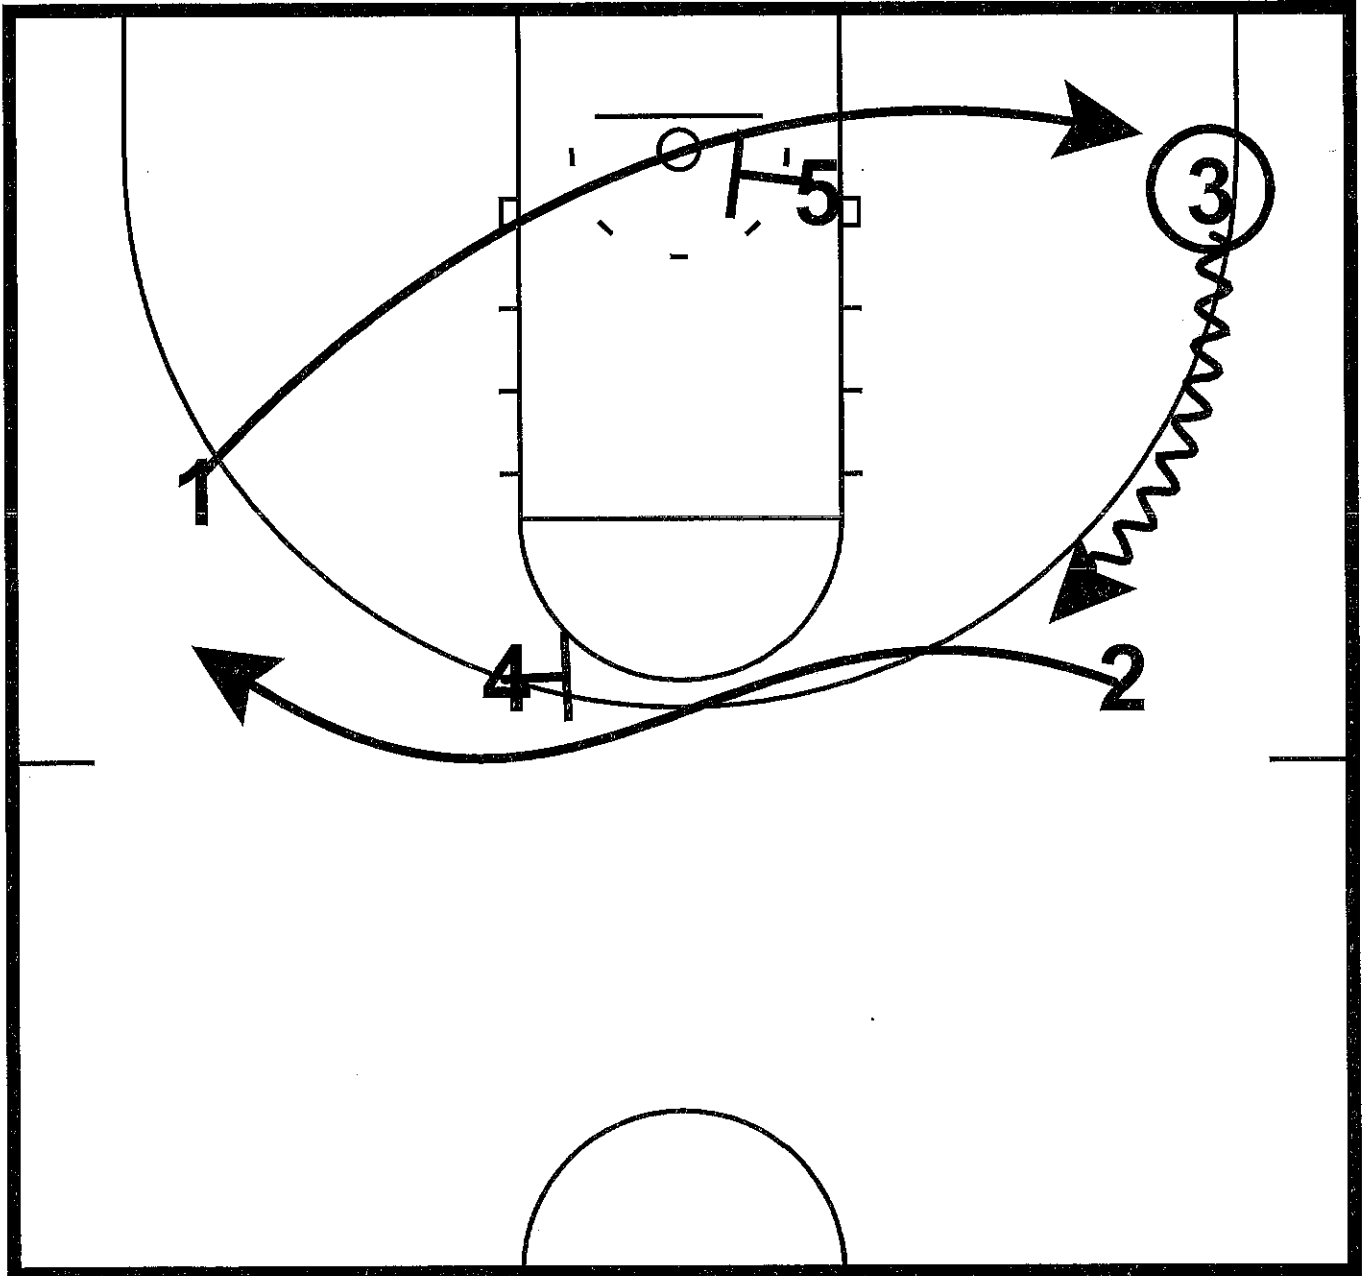

Often known as "blocker-mover", wheel is a continuous action with a cross screen/flare screen combination.

Terminology - Actions/Plays

Wheel

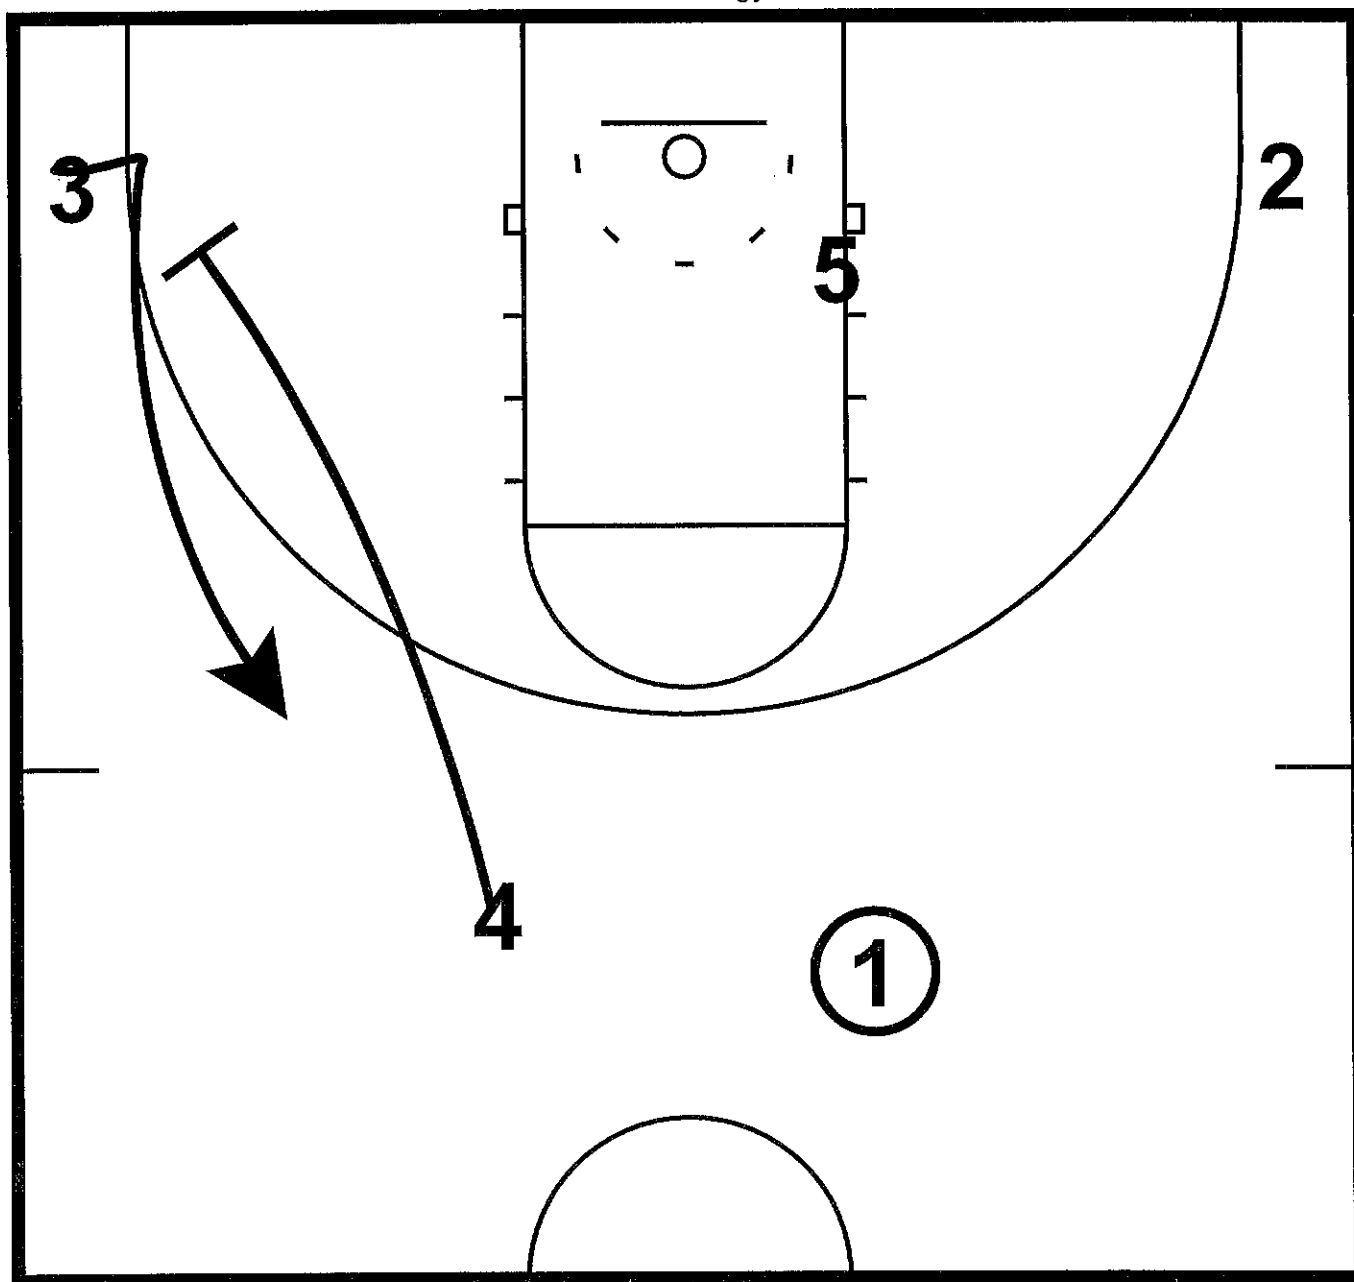

Frame 2
Terminology

Terminology - Actions/Plays

Wide Pin Down/Wave

Frame 1
Terminology

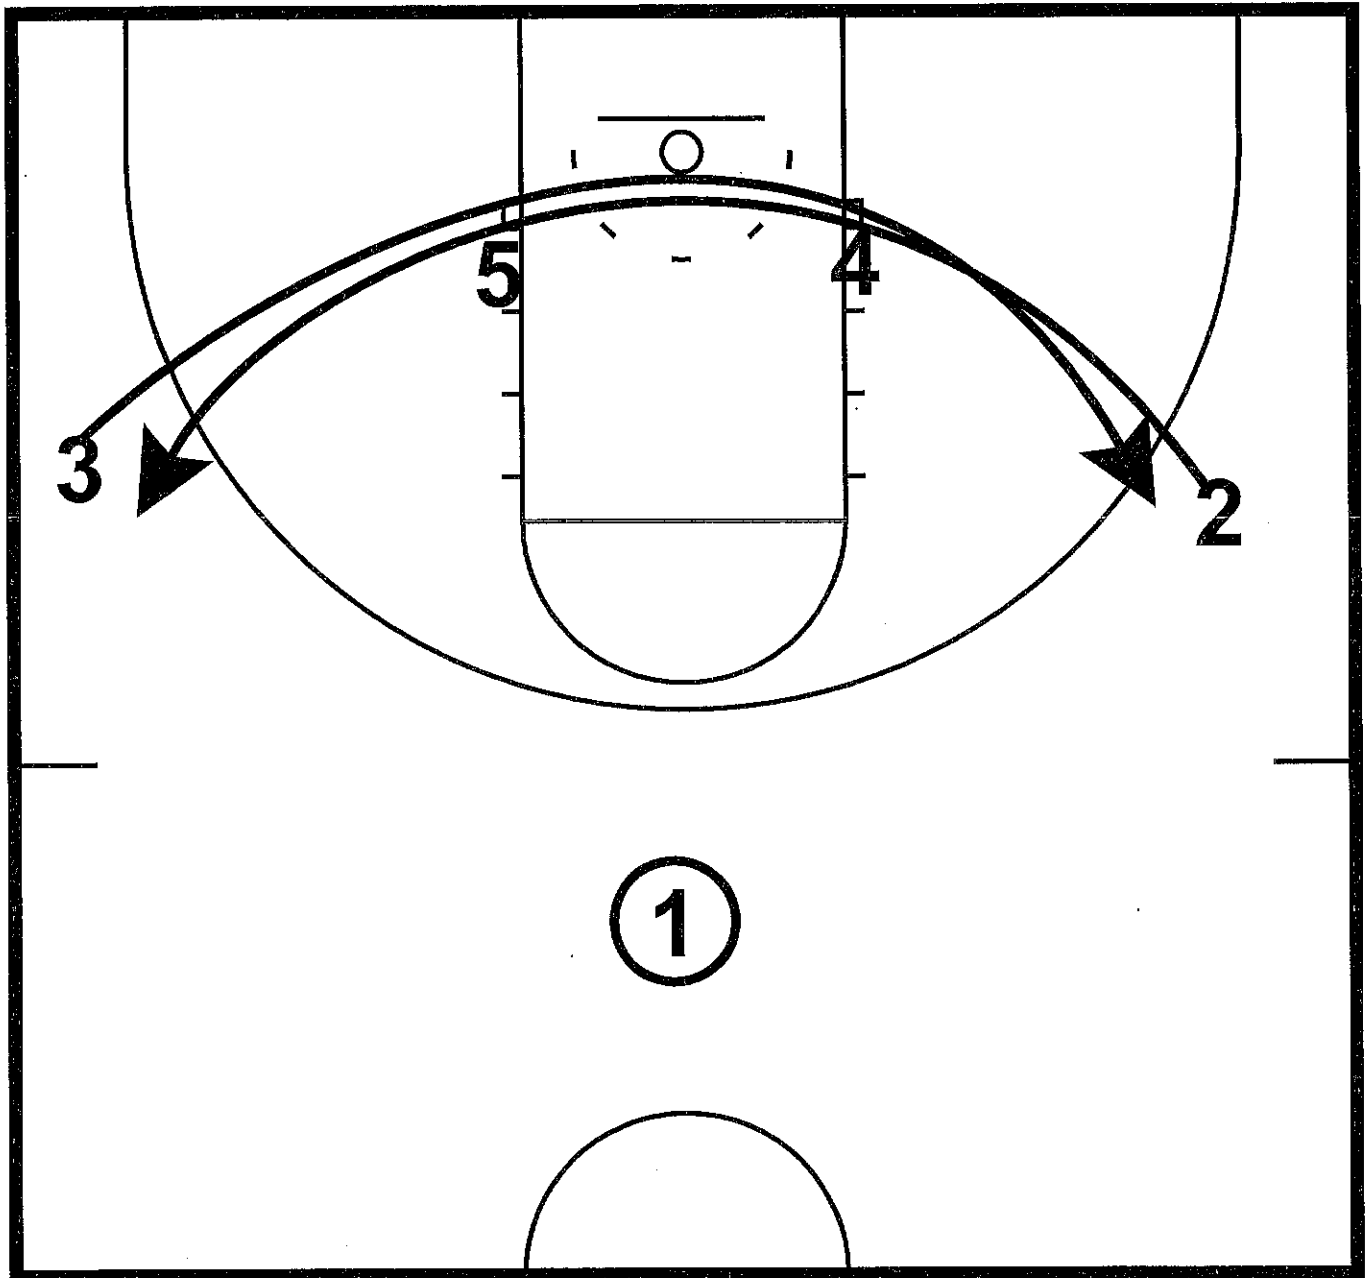

In a wide pin down, the cutter is usually in the corner with the down screen coming from the slot and setting the screen in the corner/short corner.

Terminology - Actions/Plays

Wing Exchange

Frame 1
Terminology

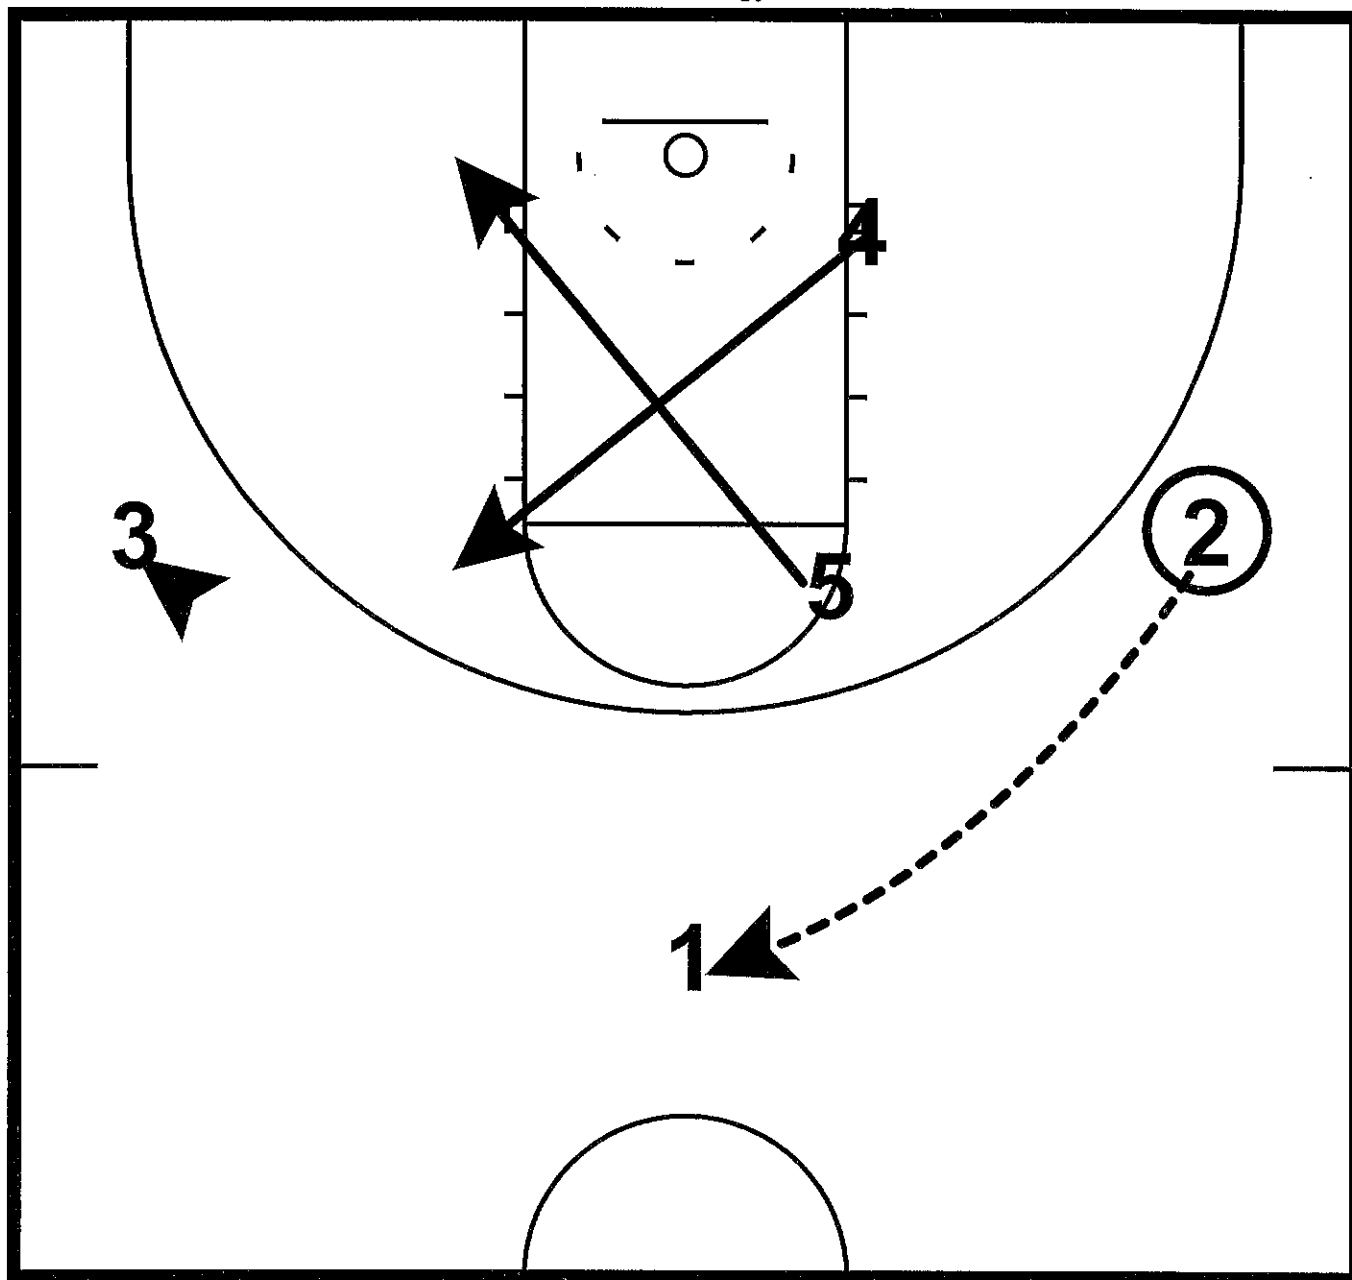

2 and 3 exchanging wings.

Terminology - Actions/Plays

X

Frame 1
Terminology

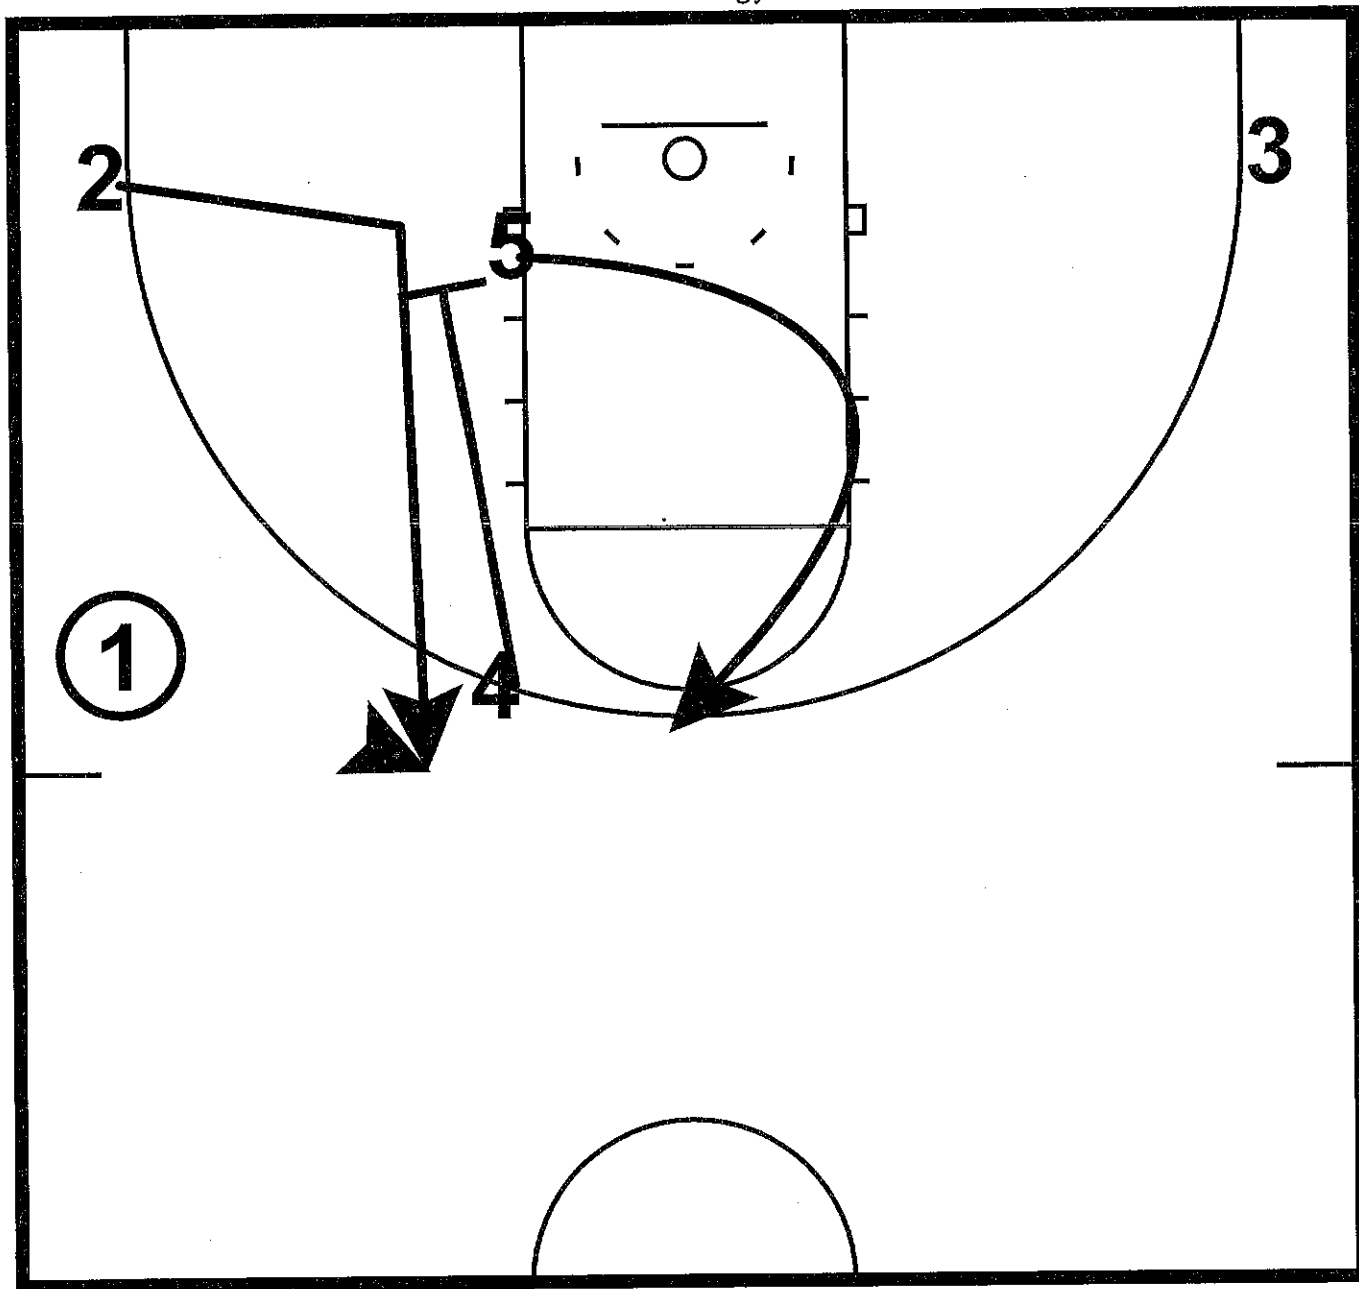

5 and 4 are "x-ing" the post.

Terminology - Actions/Plays

Zaga

Frame 1
Terminology

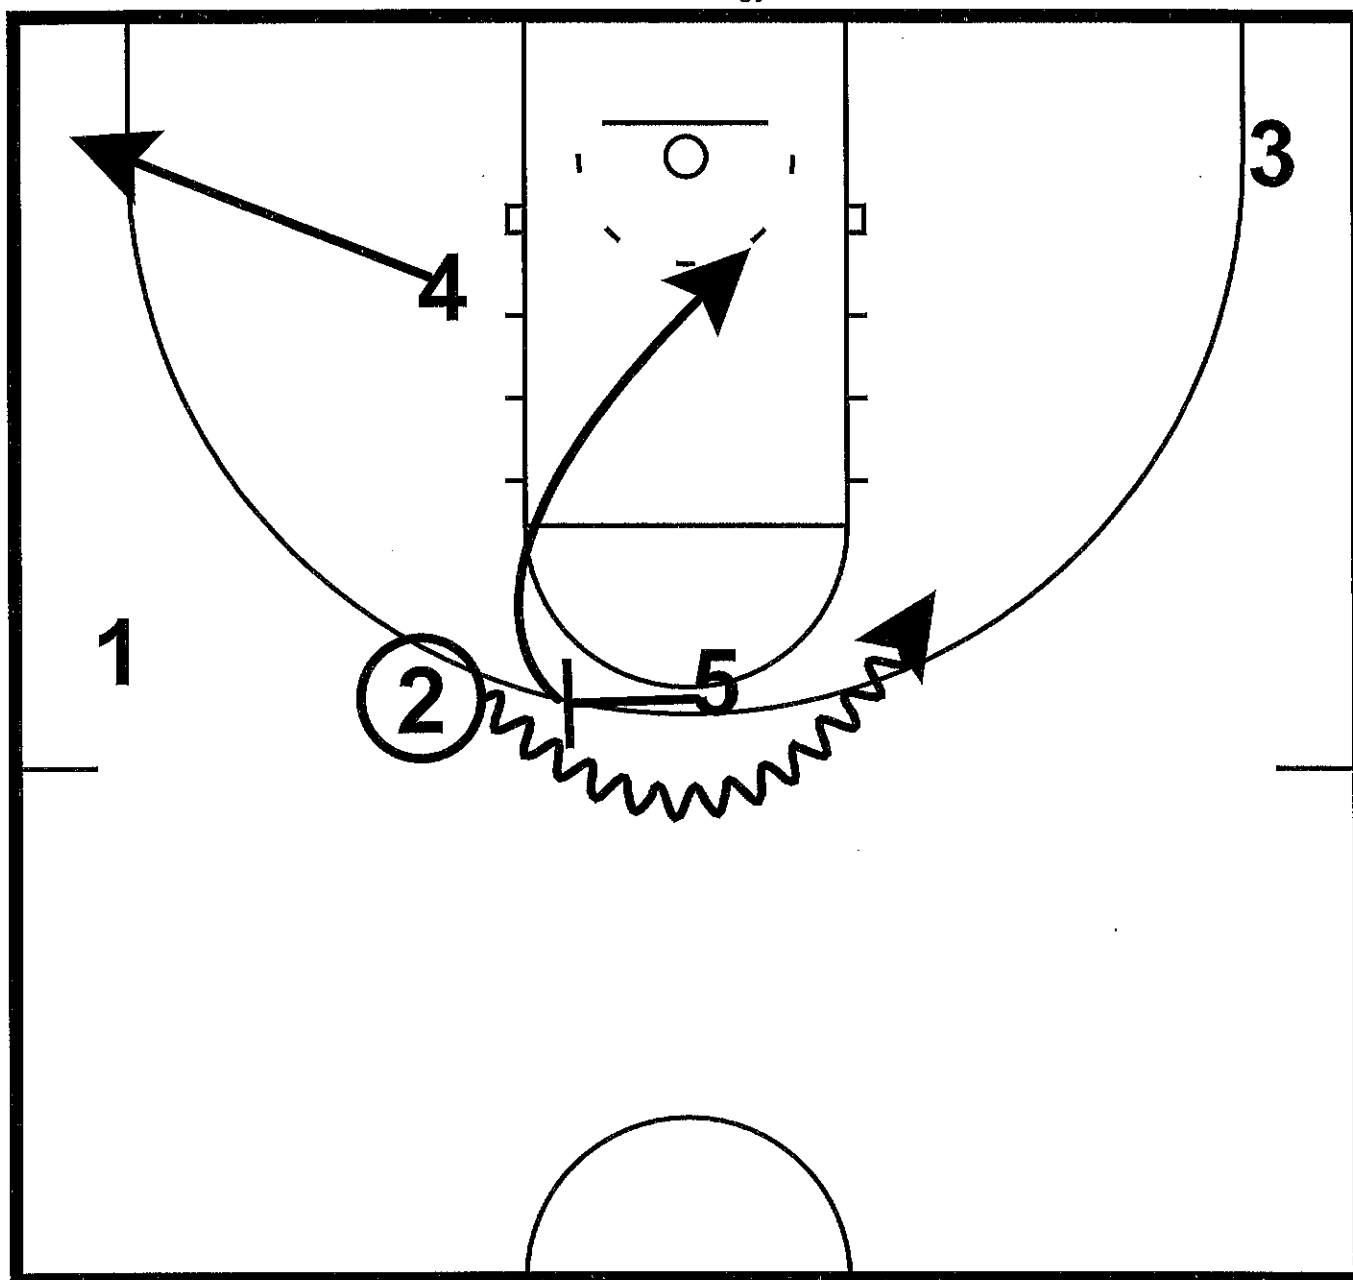

Zaga action, taken from Mark Few at Gonzaga, uses a combination zipper/circle pick & roll.

Terminology - Actions/Plays

Zaga

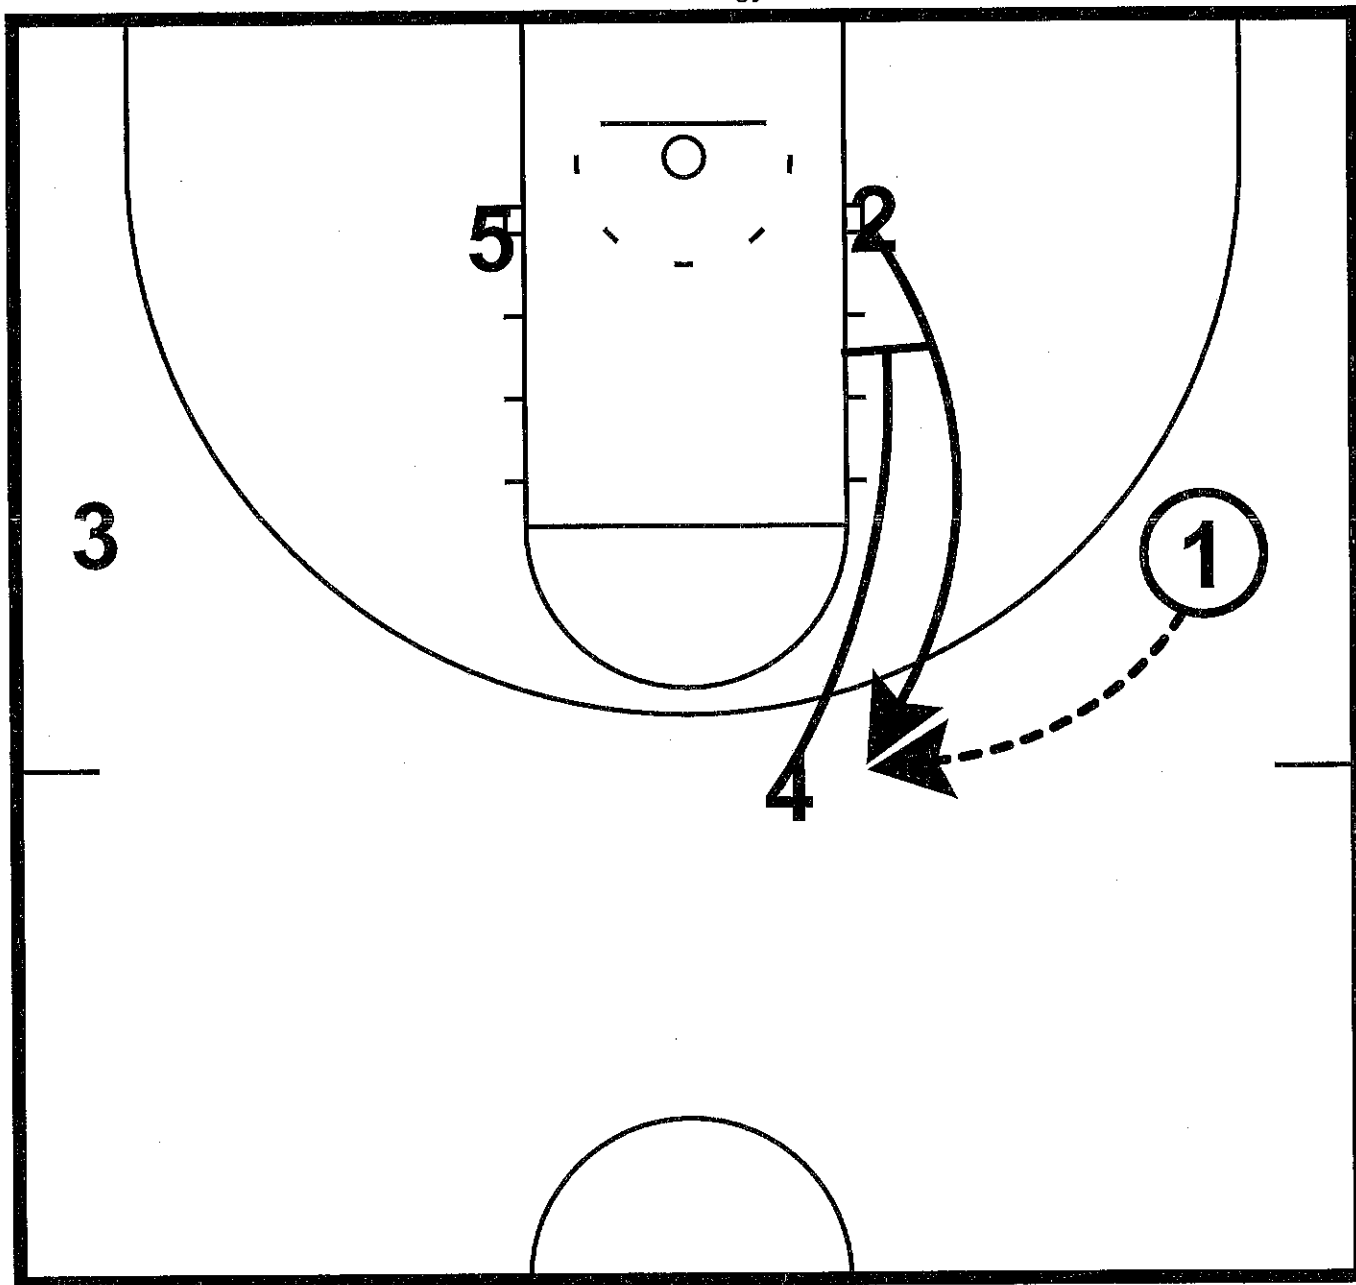

Frame 2
Terminology

Terminology - Actions/Plays

Zipper

Frame 1
 Terminology

The zipper action is a down screen set on the lane line with the cutter moving from the block to the slot.
